Involved Region or Country	North America, Middle East, Australia, New Zealand, Europe, Israel, Japan, and S. Korea
Condition	A customer may comment one or more of the following concerns; NFC key card inop (Model Year 2025 only), Service vehicle soon light, Service OnStar message.
Cause	K183 UHF module logic locked

Correction

Perform a global reset by disconnecting 12V battery for 30 minutes, using Document ID: 6307865 Battery Negative Cable Disconnection and Connection.

If the K183 (UHF) module recovers from being offline, then the K183 will require the latest K183 24.169.1.3 or greater software to be flashed into the module, perform Vehicle Wide Programming, refer to 24-NA-113 Vehicle Wide Programming Instructions.

If the 12V battery reset does not recover the K183 offline issue, then K183 module replacement is required. In which service will install a new K183 at the latest K183 24.169.1.3 or greater release.

Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.
