

 [26-01-053H - DCU Software Update \(posted 07.02.26\).pdf](#)

Hyundai Motor America (HMA) has launched Limited Coverage Campaign LA32: Data Communication Unit (DCU) Software Update.

A. Affected Vehicles:

1. VIN Identification: Use the 'Vehicle Information' screen in WebDCS to verify "Warranty Start Date" and ensure the vehicle is within New Vehicle Limited Warranty (NVLW), observing mileage prior to any repair work.

- a. Certain 2026 - 2027MY IONIQ 9 (ME1A EV) produced 02/28/2025 – 05/04/2026
 - i. Built by Hyundai Motor Company ("HMC")

B. Campaign Description:

Certain Palisade Hybrid (LX3 HEV) vehicles may illuminate the Malfunction Indicator Lamp (MIL) and display a false "Check Hybrid System" warning message after use of Bluelink Remote Start following extended parking periods. Related DTCs associated with the MIL include U116087, U016487, U100787, U012987, U010087, U100387, U100287, U010187, and U015587.

Technical Service Bulletin (TSB) 26-01-053H provides instructions to perform a Data Communication Unit (DCU) software update to prevent these conditions.

Over-the-Air (OTA): This update can also be conducted via OTA. Customers can complete on their own if they have an active subscription to Hyundai Bluelink. A visit to the dealership is not required. **Deployment of the OTA to Bluelink customers is planned to start the week of 07/06/26.**

C. Campaign Document:

1. TSB 26-01-053H

- a. Available on Hyundai dealer.com > Service > Service Programs > HMA Tech Info > Campaign

D. Action Required:

1. Confirm VIN eligibility for campaign via WebDCS. See 'VIN Identification' above.
2. **Follow TSB 26-01-053H** to perform the service procedure.
3. **Submit campaign claim** once the service procedure is completed.

We appreciate your continued partnership and commitment to our Hyundai customers.
Thank you for your patience and understanding.
