SERVICE:

Do not replace any parts or perform additional fault tracing before following this journal.

Important: This Technical Journal is only valid for engines with serial numbers starting with 7 or 8. See example below.

Engine Serial number 0000000000000000000000007023518.

Engine Serial number 0000000000000000000000008181618.

If DTC ECM P06DE00 is set without any related messages or symptoms in the car, this is a misdetection, also known as a ghost code. The oil pump is functioning as intended, and the DTC cannot be deleted.

Please release the vehicle back to the customer.

Failing Part: 32298902
