

STAR Case

Case Number: S1318000031

Release Date: 05/02/2020

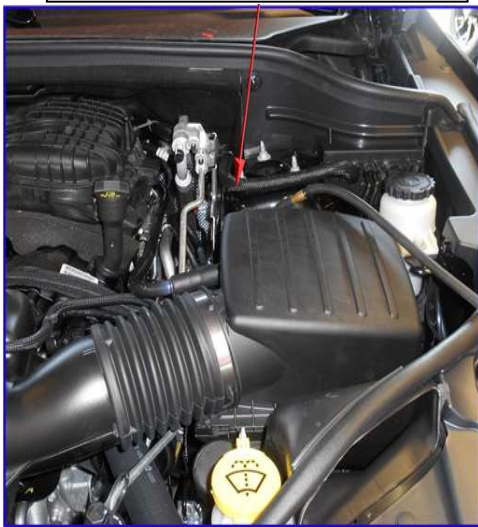

Symptom/Vehicle Issue:

CEL (Check Engine Lamp) on, DTC P0455 Evaporative System Large Leak

Discussion:

A recent report indicates the CEL is on with DTC P0455 Evaporative System Large Leak stored or active. Inspection revealed an evaporative line loose crimp at the left shock tower location. Review the line in the suspect area, replace, re-position, and secure the hose as needed to repair.

Review Suspect Location

Review hose routing at the left shock tower.
