

SSM 49758: 2021 Mustang Mach-E - P0AA6 In Battery Energy Control Module (BECM)

Some 2021 Mustang Mach-E vehicles may exhibit an illuminated Powertrain Malfunction (wrench) indicator with diagnostic trouble code (DTC) P0AA6 stored in the Battery Energy Control Module (BECM). Because of the importance of the Mustang Mach-E early experience, please contact the technical assistance center for diagnostic support.

Vehicles:

2021 Mustang Mach-E (CX727N) (GW)
