

Analysis Worksheet	
Topic	Q5 - U060B00 no com to G31
Model(s) affected	2022-current Q5 40 2.0 TFSI DMSA engine
Documentation needed	• Photo of original routing of harness with connector still plugged in • Photo of routing back to main harness branch (if accessible) • Observation notes of the routing • Photo of final repair/modification to engine harness
Instructions	1. Ensure the case qualifies for the model, engine code and DTC 2. Inspect the wires and pins at G31 for excess tension/damage 3. Create TAC case for the V4P topic 4. Attach photos and documentation, this should reflect the overall findings of the original harness routing and damage found 5. Repair only after TAC review 6. Upload photos of final repair/modification made.
