Background

American Honda Motor Co., Inc. (AHM) is searching for certain 2023 RDXs and TLXs with a client complaint of the "Emissions System Warning" Malfunction Indicator Light (MIL) on with DTC P2101 (Electronic Throttle Control System Malfunction) stored. Client may experience the vehicle going into "limp home" mode. To better understand the cause of this condition, AHM would like to inspect the vehicle prior to your attempting a repair of any kind.

Qualifiers

- AHM is interested ONLY if the vehicle meets the following requirement:
- 1. For TLX, exclude Type S trim vehicles.
 - 2. If DTC is cleared (but confirmed through HDS & ALL DTC Check printout), re-coding the DTC is preferred, but no required.
 - 3. No previous replacement of the Throttle Body (16400), PCM (37820), & Engine Wire Harness (32110).
 - 4. No repair has been attempted during this visit.
 - 5. No history of collision.

If a vehicle matching the qualifiers above comes into your dealership, please e-mail Technical Information & Support (TIS) at tis@ahm.honda.com or call us at 800-880-1072 (Monday-Friday, 7am-5pm PST).
