
THE 2013 ACURA ZDX

*A departure. Even when
it's sitting still.*

FROM ITS MOMENT OF INCEPTION, the ZDX has represented something new. With its sweeping silhouette, unique panoramic glass roof and unrivaled comfort, it represents a new direction in automotive luxury.

And while the ZDX is unlike any Acura that has come before, it is, at the same time, more Acura than we've ever built.

SETTLE INTO THE COCKPIT and you'll immediately recognize the care with which every detail has been rendered. Leather has been hand-selected for the quality of its natural grain. Heated and ventilated front seats provide supreme comfort, as does the GPS-linked, dual-zone adaptive climate control system complete with humidity sensor.

The vehicle's Active Sound Control system even helps keep unwanted engine noise from interfering by emitting opposing frequencies. A new feature for 2013 adds front and rear parking sensors.

*Don't sacrifice comfort for
utility. Or vice versa.*

Acura reminds you to properly secure items in the cargo area.

AS MUCH AS THE ZDX has been designed to deliver a thrilling ride, we also make sure it meets the necessities of travel. To that end, the sleek silhouette doesn't come at the expense of passenger or cargo space.

Contoured to fit the body, the driver's seat features substantial side bolsters, designed to provide a positive connection during spirited driving. The 10-way power adjustments also contribute to an ideal fit. The accommodations in back are equally well thought out. Featuring loop carpeting, the cargo area offers 27.5 cubic feet behind the rear seat,¹ and more than 69 cubic feet when the 60/40 split rear seat is folded down.²

Performance

THE WAY AN ENGINE PERFORMS is more than just a measure of horsepower and torque. In creating Acura's signature VTEC® V-6 engine, our goal was to shape how you experience engine output at every point of the power band.

Employing two separate cam profiles, the ZDX engine fine-tunes itself for better response off the line and at passing speeds.

FOR THRILLING PERFORMANCE, EVERY WHEEL HAS ITS ROLE.

IN THE ZDX, performance technologies work to deliver a remarkably stable, yet thrilling ride. Super Handling All-Wheel Drive (SH-AWD®) can sense where additional torque is needed and redistribute power accordingly. Through a curve, it can even send 100% of rear power to the outside wheel, then speed it up, helping you keep a tighter line. The torque-sensing power-assist steering varies the level of driver effort at different speeds, giving you a firm feel on the highway and easy, precise movement in the parking lot.

THE TRUE MEASURE of technology is not only how many things it can do, but also how seamlessly it fits in with your life. The voice-recognition feature recognizes hundreds of commands, giving you greater control over many of the vehicle's systems.

These include *Bluetooth* HandsFreeLink³ and the Acura navigation system with its available continuously updated traffic and weather information,⁴ as well as Zagat® restaurant reviews. Many functions of the Acura/ELS Surround® Premium Audio System can also be controlled via voice command. Song By Voice® technology even lets you call up a tune by saying its title or artist.
