

POWER. BEAUTY. SOUL.

The very essence of Aston Martin is something you feel each time you look at one of our cars. It sweeps over you on every unforgettable drive. Powerful, exhilarating and precise yet timelessly elegant and sophisticated; our cars blend iconic design, exceptional engineering and unrivalled craftsmanship to create an unforgettable, emotional experience.

Each car is the essence of Power, Beauty and Soul.

BIRTH OF A LEGEND

A fiercely independent spirit and a rich and prestigious history defines Aston Martin as truly unique in the automotive world. Our incredible story starts on 15th January 1913 when founders Robert Bamford and Lionel Martin created Bamford and Martin Ltd, working from a humble workshop on Henniker Mews in London. Their vision for cars with impeccable design and supreme performance captivated the public's imagination and still commands the same emotive fascination over 100 years later.

In 1914 the name Aston Martin was adopted. Fittingly, this decision was inspired by Lionel's success at the Aston Hill Climb in Buckinghamshire. Competition has always been in our blood. Since those pioneering days, Aston Martin has become an iconic brand synonymous with hand-crafted luxury, peerless beauty, incredible performance and international motorsport glory.

THE ULTIMATE ICON

When Sean Connery first appeared at the wheel of a Silver Birch DB5 in the 1964 James Bond movie *Goldfinger*, the world was dazzled and enthralled by this vibrant partnership. The effortlessly cool secret agent and the impossibly glamorous Coupe were the perfect fit – a vision of sophistication, glamour and intrigue. Every schoolboy's dream playing out in front of their very eyes.

In an instant, Aston Martin established itself as a motoring movie star, an icon of style and speed with a compelling air of mystery. Bond's association with Aston Martin has continued to take centre stage with DBS, V8 Vantage Volante and Vanquish all making dramatic appearances between 1964 and 2008. From its big screen debut, the iconic DB5 dramatically reappeared in the 2012 movie *Skyfall*. That irresistible cocktail of glamour, sophistication and restrained beauty remains as powerful today as it was fifty years ago.

A HISTORY OF RACING GLORY, A FUTURE INSPIRED BY THE THRILL OF COMPETITION

Racing is the lifeblood of Aston Martin. From a motorsport debut at the French GP in 1923 to the DBR1's famous Le Mans 24 hour race victory in 1959, this formidable arena has always been our passion. Inspired by the great victories of drivers such as Sir Stirling Moss at the Nürburgring 1000km or Roy Salvadori at Le Mans, Aston Martin continues to strive for success.

That determination can be seen and heard at racetracks across the world, as Aston Martin racing cars fight for victory at the fearsome Nürburgring, Le Mans and countless other circuits across the globe, from club level right up to the prestigious World Endurance Championships.

Our cars thrive in the heat of competition, they always have. We wear our racing colours with pride.

TIMELESS LINES, EXTRAORDINARY VISION

Beautiful design starts with the simplest stroke of a pencil before growing and evolving as that first spark of creativity is brought to life. All Aston Martins are initially sculpted by hand, shaping each line, measuring each dimension precisely and working to create perfect aesthetics. That human interface engenders our cars with perfect proportions, athletic confidence and the finest attention to detail. Every line must work in harmony, every surface flows seamlessly into the next. It is this simple purity, so difficult to achieve, that sets Aston Martin apart. It is the art of Aston Martin.
