

ARB

4.2·5.2

YES.

YES ACHIEVES THE IMPOSSIBLE.

It creates progress.

It takes risks.

And it makes a statement.

What follows are the results of
refusing to yield to limitations and
instead, embracing the possibilities.

Welcome to the cars that “yes” built.

A DECADE OF SUNDAYS
ATOP THE PODIUM
IS VALIDATION OF
OUR TECHNOLOGY
AND OUR CARS.

|YES| Once a year, Audi brings its best to a little race called the 24 Hours of Le Mans. And over the past decade, we've stood atop the podium eight times.

Audi
TDI Power

BOSCH

MAHLE

MICHELIN

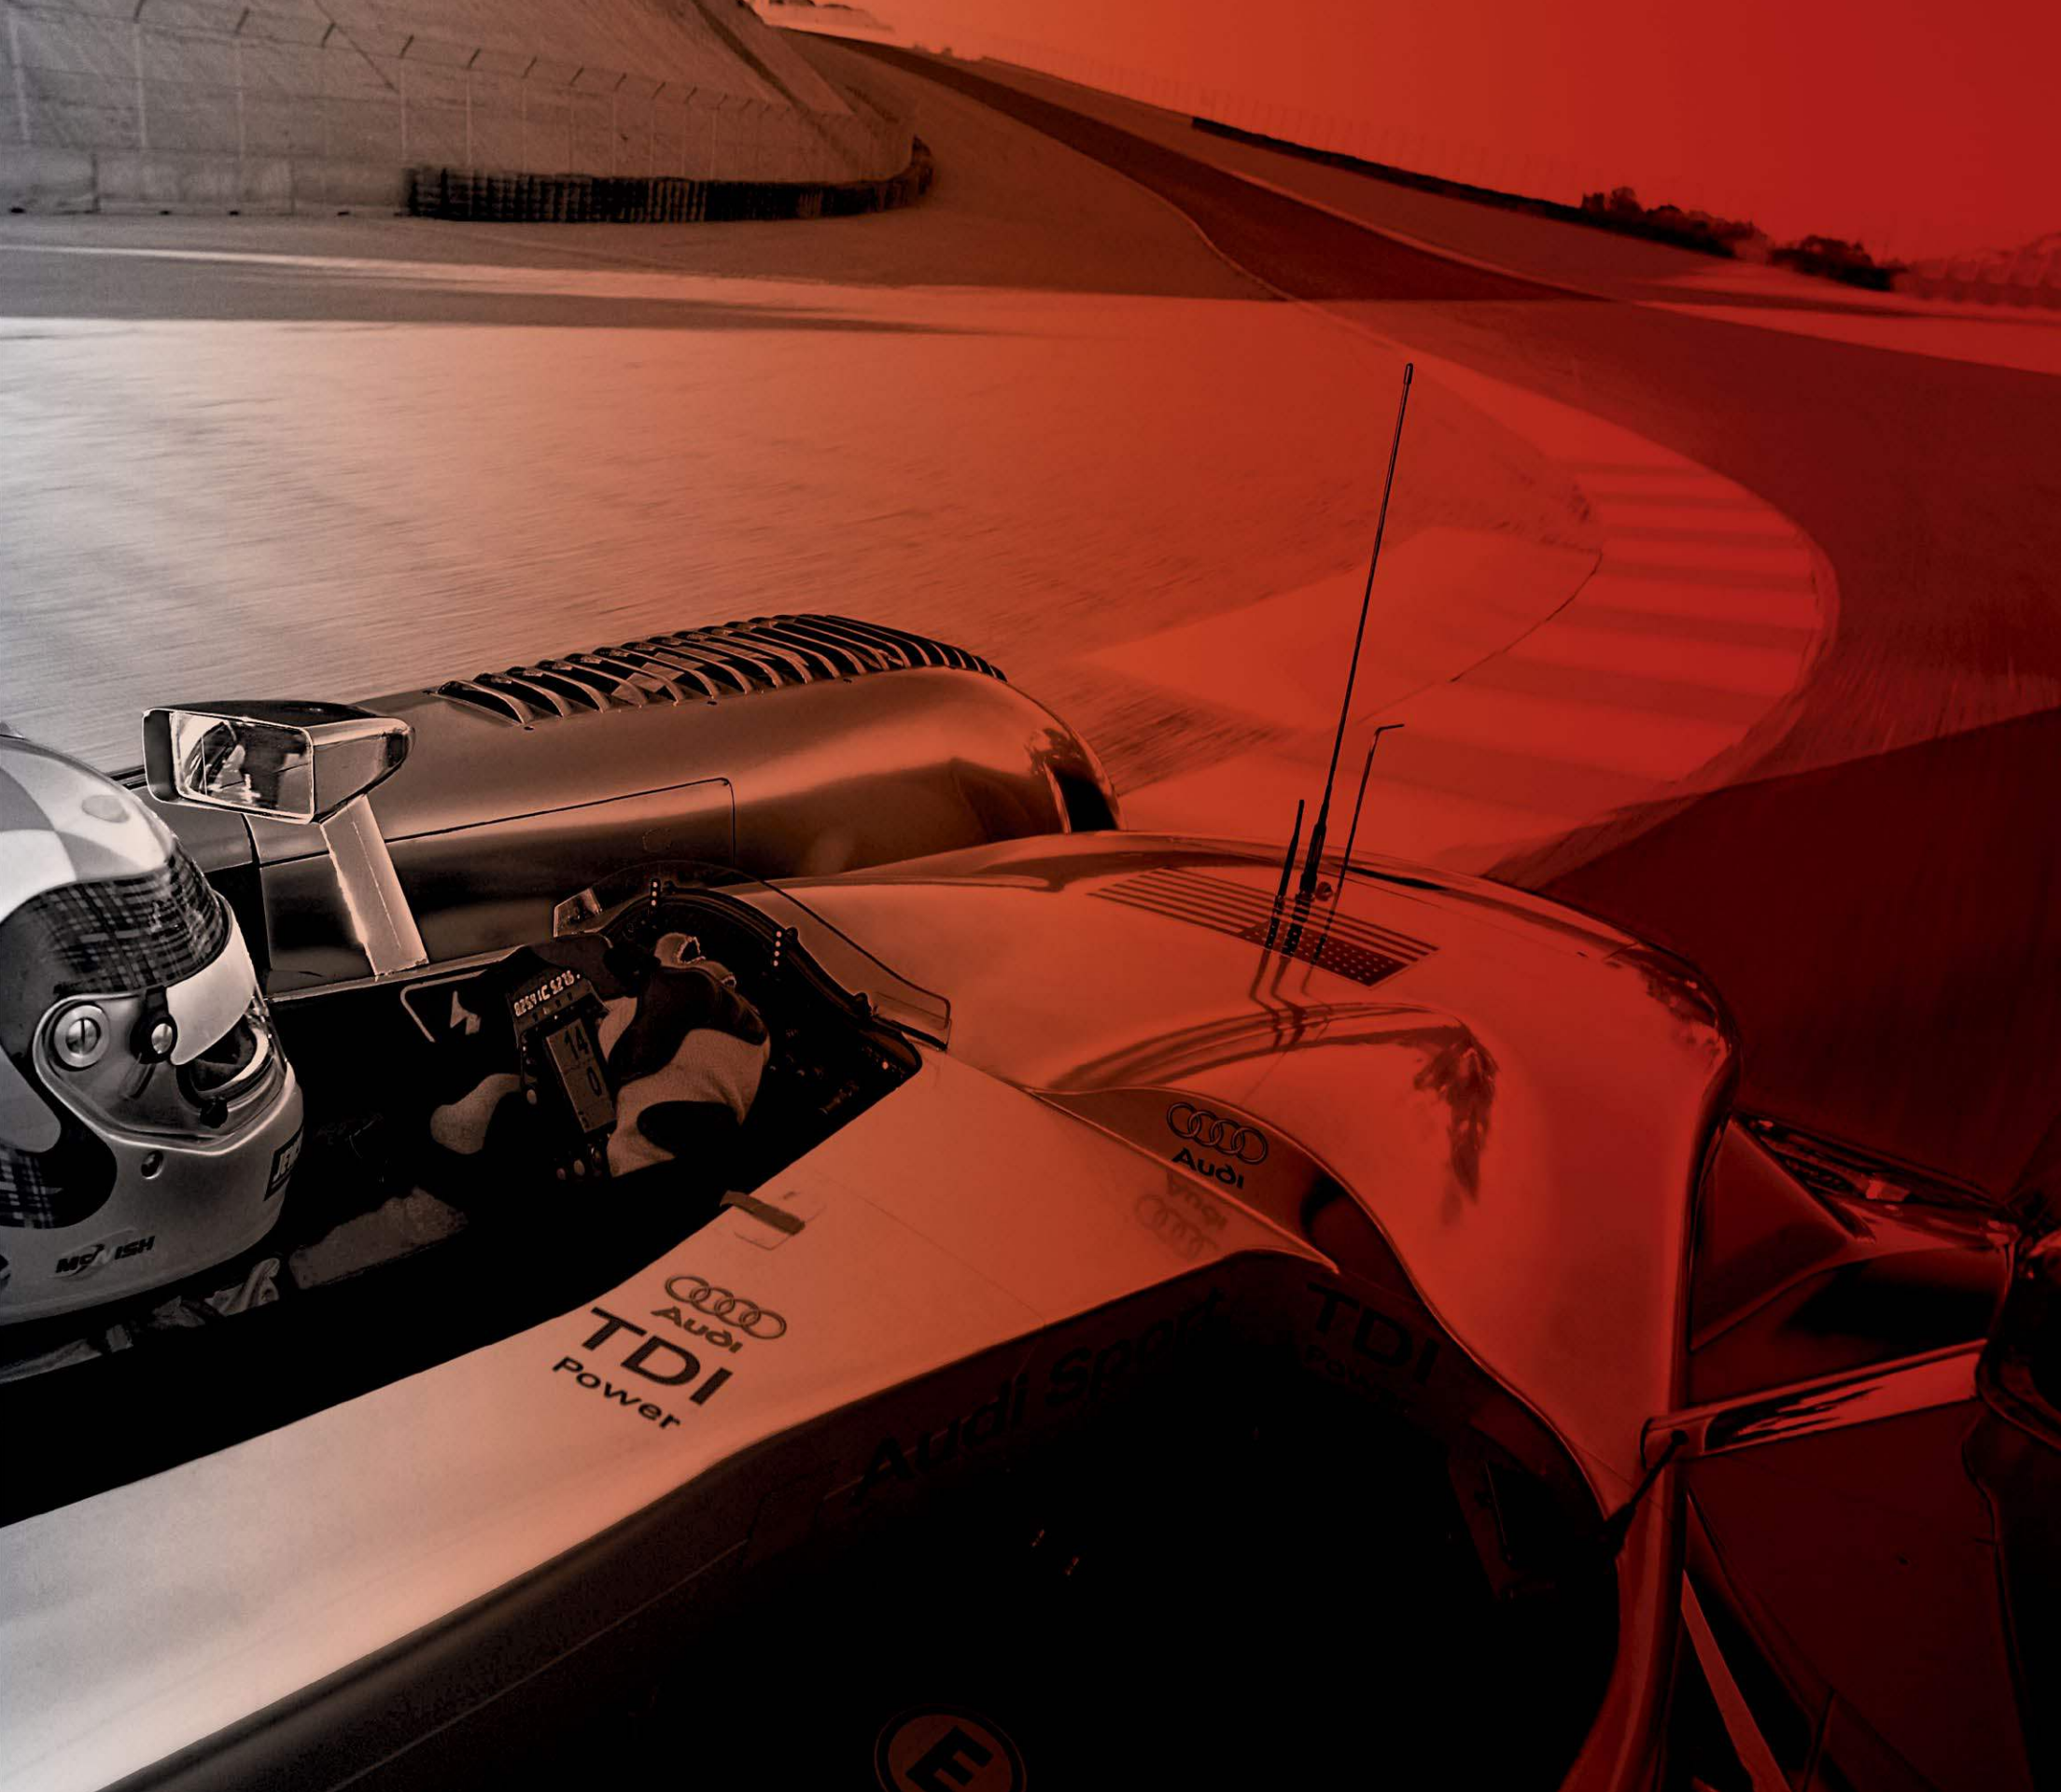

MICHELIN

TDI

— ONE BRANCH OVER ON THE FAMILY TREE.

|YES| The same designers who created the Le Mans-winning prototypes also designed the R8. So, to distinguish it from the racecar, they gave it a radio, roof and AC.

WE LIVE
IN THE DETAILS.

|YES| The sideblades allow for personal customization of the R8 as well as channeling air to the state-of-the-art, mid-mounted engine.

— WE DRAW INSPIRATION
FROM EVERYWHERE.

|YES| Inspired by the Sydney Opera House, full LED headlights made their world debut in the R8.

OUR TOOLS HAVE FINGERS.

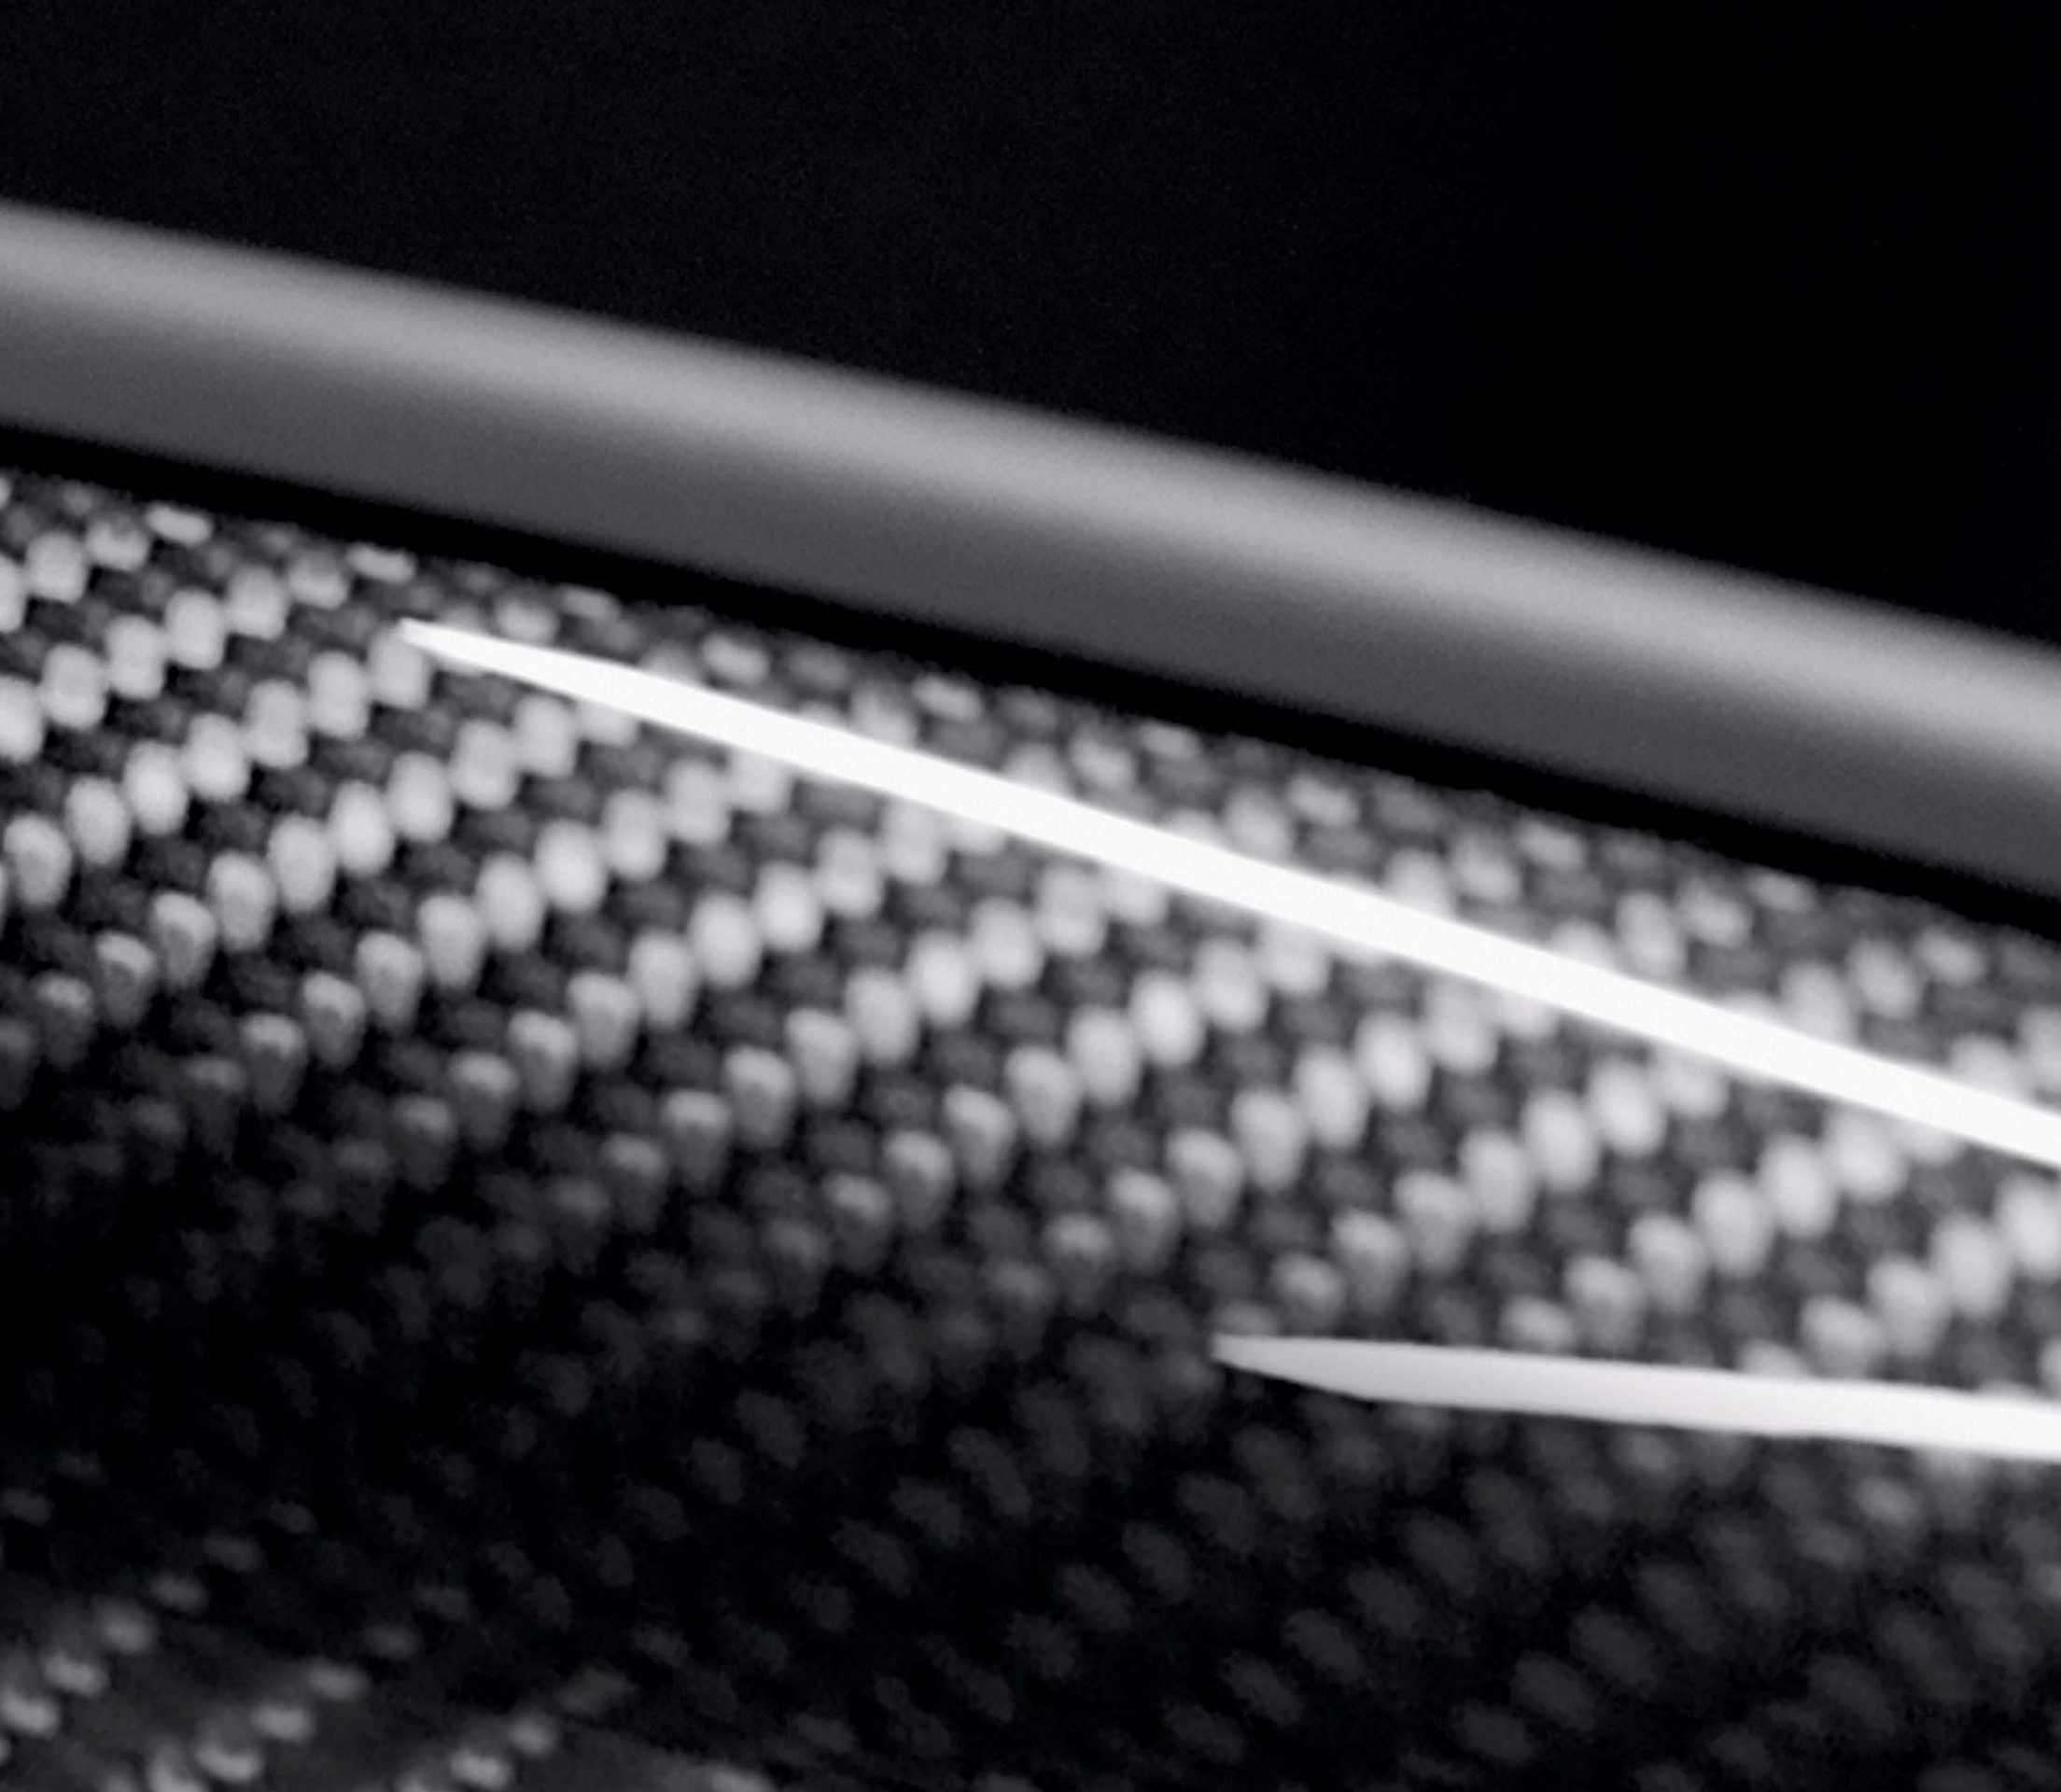

|YES| A highly skilled pair of hands continues to be the ideal tool for creating a mere 20 works of art a day.

**— WE WRUNG OUT
THE PERIODIC TABLE
OF ELEMENTS.**

|YES| We use only the most advanced composites and alloys, such as carbon fiber, magnesium and aluminum blended with silicon, all for the sole purpose of performance.

525 HP MAKES
THE WORLD SEEM
MUCH SMALLER.

|YES| The R8 V10: 0-60 in 3.7 seconds and a top track speed of 196 MPH*

FLIGHT SIMULATOR OR SUPERCAR?

|YES| The R8 double-wishbone aluminum suspension with quattro® all-wheel drive achieves lateral g-forces of 1.2. More g's than a Saturn V rocket in the third stage of liftoff.

TEN SCREAMING
PISTONS AND
TWO WELL-PADDED
HEADRESTS.

|YES| With a piston speed of 60 MPH at the 8700 RPM redline, it's no wonder this is the very same engine used in the R8 LMS GT3 racecar.

— 0.1 SPLIT-SECOND
SHIFT TIMES.

|YES| The R tronic® transmission serves up gears instantaneously, providing relentless V10 power.

FOR MORE THAN
25 YEARS, WE'VE
MOCKED THE LAWS
OF PHYSICS.

|YES| We introduced the world to the remarkable performance and handling of quattro® all-wheel drive and reset the possibilities of what a car can do.

A close-up, low-angle shot of the front left headlight of a red Audi R8. The headlight is illuminated, showing the intricate details of the LED daytime running lights and the main headlight lens. The red body of the car is visible in the upper right corner, and the background is dark.

DAYLIGHT AT THE
FLIP OF A SWITCH.

|YES| The first vehicle to employ a full LED headlight system. The R8 features 24 LED daytime running lights, symbolic of Audi victories at the 24 Hours of Le Mans.

Engine/Performance

5.2 liter DOHC V10, four valves per cylinder, with FSI* direct injection, dry sump lubrication system, aluminum cylinder block and crank case

Displacement: 5.2 liters [317.6 cu.in.]

Bore: 3.33 in. | Stroke: 3.65 in. | Compression Ratio: 12.5:1

Horsepower: 525 @ 8000 RPM | Torque: 391 lb-ft. @ 6500 RPM

0 - 60: 4.0 seconds | Top track speed*: 195 MPH | Lateral Acceleration: 1.2g

Fuel economy estimate, city/highway*: N/A at time of printing

Chassis/Technical [Standard]

Six-speed manual transmission

Six-speed R tronic* sequential automatic transmission [Option]

Audi Space Frame [ASF*]

Aluminum double-wishbone front and rear suspension

Audi magnetic ride

quattro* permanent all-wheel drive with rear-biased torque distribution

14.4" perforated and internally ventilated front brake rotors with eight piston calipers

14" perforated and internally ventilated rear brake rotors with four piston calipers

Safety [Standard]

The greatest complement to superior performance is uncompromised safety. The R8 Spyder naturally features a number of active and passive safety systems.

Integrated active roll-over protection system with spring-tensioned roll bars

Rigid body, side intrusion beams, and energy-absorbing crumple zones at the front and rear

Driver and passenger knee airbags*

Driver and passenger seat-mounted head and thorax airbags*

Driver and passenger advanced dual-stage airbags*

LED Lighting [Standard]

The Audi R8 Spyder offers a full LED headlight system. This means the headlights [including high and low beams], turn indicators and daytime running lights are fully LED.

The rear lights are also LED, offering the benefit of rapid response once the brake pedal is depressed. LED lighting technology is also found in the interior lighting and the turn indicators integrated into the exterior mirror housings.

Exterior [Standard]

The Audi R8 Spyder is peerless in performance and design. The specially designed acoustic top incorporates three layers of insulation for year-round comfort and an interior acoustic level comparable to a traditional coupe. Visually, the R8 Spyder stands out as well with high-gloss black exterior elements such as the aggressive Singleframe* grille, front lip spoiler, rear diffuser, front air inlet and rear air outlet grilles.

The engine compartment cover and rear side panels are constructed from innovative Carbon Fiber reinforced polymers for optimal weight distribution.

Dual-oval chrome exhaust pipes, Aluminum Optic engine vents and a retractable rear spoiler also hint at its performance potential. Adding to the aggressive yet understated look are dramatic 19" ten-spoke, Y design wheels with summer performance tires*. Rounding out the exterior features are body color, heated, power-folding mirrors with auto-dimming capabilities.

Infotainment/Technology [Standard]

The Audi R8 Spyder is brimming with technological enhancements, enabling you to make the most of every drive.

Audi Navigation plus with real-time traffic

Audi parking system plus with rearview camera - includes ultrasonic sensors for both front and rear of vehicle

Bang & Olufsen* Sound System - 465 watts, twelve speakers including a center speaker and subwoofer, ten channel amplifier and vehicle noise compensation

SIRIUS* Satellite Radio

HomeLink* universal remote control

Bluetooth* mobile phone interface with safety belt microphone

Interior [Standard]

The Audi R8 Spyder interior strikes the perfect balance between absolute performance and supreme luxury by utilizing innovative technology, while integrating only the finest materials.

Fine Nappa leather sport seats with thermal resistant properties

Ten-way, power-adjustable, heated seats including four-way lumbar support

Aluminum Optic accelerator, brake and footrest [includes clutch pedal with manual transmission]

Leather-wrapped, magnesium, three-spoke, flat-bottom multifunction sport steering wheel

Micro-metallic Gray interior inlays

Auto-dimming interior mirror with digital compass

Options

The Audi R8 Spyder is ideal for personal customization. Select from a number of interior and exterior options to make the R8 Spyder uniquely yours.

Carbon Fiber Sigma or Piano Black interior inlays

Carbon Fiber Sigma doorsill inserts

Carbon Fiber Sigma exterior mirrors

Carbon Fiber Sigma Exterior Package: Includes front spoiler lip and rear diffuser

Illuminated doorsill inserts

Enhanced Leather Package: Additional leather elements including dash and door trim

Audi Navigation plus with Audi music interface and iPod* cable

19" five-arm, double-spoke wheels with summer performance tires*

19" five-arm, double-spoke polished or Titanium finish wheels with summer performance tires*

*Always obey all local speed and traffic laws. Top track speed measured with summer performance tires and requires tires with proper speed rating. Check your owner's manual or dealer for details.

*EPA estimates; your mileage will vary.

*Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children.

*Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car or their equivalent. These summer performance tires also have a lower aspect ratio that aids lighting performance and handling. However, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces, or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

14" perforated and internally ventilated rear brake rotors with four piston calipers

Safety [Standard]

The greatest complement to superior performance is uncompromised safety. The R8 5.2 naturally features a number of active and passive safety systems.

Rigid body shell with reinforced occupant cell, side intrusion beams, and energy absorbing crumple zones at the front and rear

Driver and passenger knee airbags*

Driver and passenger seat-mounted head and thorax airbags*

Driver and passenger advanced dual-stage airbags*

LED Lighting [Standard]

The Audi R8 5.2 is the first vehicle in the world to offer a full LED headlight system. This means the headlights [including high and low beams], turn indicators and daytime running lights are fully LED.

The rear lights are also LED, offering the safety of rapid response once the brake pedal is depressed. LED lighting technology is also found in the turn indicators integrated into the exterior mirror housings, and the dramatic engine compartment features LED illumination.

Exterior [Standard]

The Audi R8 5.2 is peerless in performance and design, so it stands to reason that it incorporates a number of unique visual items. The 5.2 features flared rocker panels and sideblades as well as high-gloss Black exterior elements such as the aggressive singleframe* grille, front lip spoiler, rear diffuser, front air inlet and rear air outlet grilles. The engine compartment itself is a work of art. Gaze through the transparent panel and admire the Carbon Fiber Sigma surrounding the engine and Aluminum Optic vents that cap off an elegant rear roofline.

Dual-oval chrome exhaust pipes and a retractable rear spoiler both hint at the performance potential. Adding to the aggressive yet understated look are dramatic 19" ten-spoke, Y design wheels with summer performance tires[§]

Rounding out the exterior features are body color, heated, power-folding mirrors with auto-dimming capabilities.
