Audi allroad®

Audi
Truth in Engineering

Reflecting on what matters most to us.

In so many ways, it's really all connected. How an Audi vehicle is engineered and designed isn't simply a matter of physics or architecture, it's a systematic compilation of disparate disciplines and ideas, forged into something iconic, sophisticated and powerful. What you feel behind the wheel is, in so many ways, a product of the knowledge and imagination of human history. The principles of Newtonian laws, sure—but also the grace of choreography, time-honored artisanal craftsmanship and the connectivity of modern life. The end result of these inspirations is your Audi—a thing meaningful, intuitive and strong. We employ the sum of our skills and understanding to reflect something that goes deeper than our machines.

The road calls. How will you answer?

allroad

*When the desire for adventure hits you,
the 2016 Audi allroad® is the perfect
companion for any worthwhile escape.*

2016 Audi allroad® Premium Plus shown in Monsoon Gray metallic with available equipment.

The irrepressible actuality of light.

Light is a wave and an energy. It's also a feeling. And an inspiration. Light is a physical manifestation and a spiritual metaphor. For Audi designers, light represents the soul of automotive design. We use it to give lines context, add a shimmering allure, or give shapes a visual texture or depth. In the sun or on a city street, the vehicle becomes luminescent, a seductive, ever-shifting configuration of energy itself, expressed in the brilliance of each design line.

Extraordinary refinement takes the
road less driven.

Test drive the 2016 allroad®

2016 Audi allroad® Premium shown in Monsoon Gray metallic with available equipment.

Something quite remarkable happens when you succumb to the itch for adventure—you go forth and do. The Audi allroad® is a dream car for doers, armed with legendary quattro® all-wheel drive, a potent 2.0-liter TFSI® engine, ample cargo space and a bold exterior to match. And since we know you rise above the commonplace, we ensured that every touch of incredible sophistication is unmistakable. The vehicle's muscular silhouette first captures the eye, and the character crease that lies below the window line (which we call the Tornado line), draws it across the body. This line, combined with the fender cladding and robust aluminum roof rails only add to its magnetic appeal. So, whether your adventures take you on rough terrains or across smooth pavements, the beauty of this vehicle is a product of taking its own path—and helping you do the same.

Seek thrills in a new light.

Build your allroad®

The captivating Audi allroad® ignites emotion through its compelling design and bold features. Strong design lines are visible from every angle, from the corner of the headlights to the rear of the vehicle. The striking look of the LED taillights and daytime running lights add to the exuberance of the allroad®, which further illuminates everything Audi design stands for.

LED lighting elements

LED taillights with rear fog lights add superior lighting performance to the dynamic rear design. The LED turn indicator lights integrated into the exterior side mirror housings add a distinguishing element that you could say radiates pure Audi uniqueness.

Xenon plus headlights

Producing a large light arc with a color similar to daylight, xenon plus headlights not only help with the early recognition of obstacles in front of the vehicle, but also add a touch of brilliance to nighttime excursions.

You expect the best—and we've come prepared.

You've come to expect a certain level of progressive sophistication from Audi, but that doesn't mean our vehicles are any less capable of kicking up some dirt. The Audi allroad® is expertly equipped with rugged features that even the most extreme adventurer will appreciate. But not every day will be spent exploring nearly forgotten roads, which is why these features are equally as electrifying in an urban landscape as they are useful in the great outdoors.

Underbody protection

Stainless steel underbody protection not only helps serve as a barrier between your allroad® and ground debris, but also adds to its timeless, artistic beauty.

Raised roof rails

With the standard raised aluminum roof rails, the possibilities for multiple activities open up. Whether your trip calls for a ski carrier, a bike rack or a luggage carrier, there's an attachment for it.

Obstacles to your journey can be overcome easily with the increased ride height. With over seven inches of ground clearance, there's more than enough to help get you out there and back.

Specialized tires

With an increase in tire sidewall height, the Audi allroad® has the perfect combination of useful ground clearance and impressive, all-terrain capability.

2016 Audi allroad® Premium Plus shown in Tornado Gray metallic with available equipment.

Never be a weary traveler.

Somewhere between pit stops and “are we there yet?” even the most enjoyable of road travel can become a little taxing. The Audi allroad® is here to ease even the slightest of transit weariness with incredible features that add comfort and luxury to your trip. The allroad® showcases a panoramic sunroof that lets you feel a little more connected to the great outdoors. And when the weather is not ideal, you can rely on the three-zone automatic climate control and available heated seating surfaces to help keep you cozy. Fair weather or foul, the allroad® will help you get to your destination comfortably and energized.

Three-zone automatic climate control

Personal attention is paramount in the allroad®. Three-zone automatic climate control helps the driver, front and rear passengers to dial in their ideal temperature.

Panoramic sunroof

The standard panoramic sunroof offers both the front and rear passengers a virtually unobstructed view overhead while flooding the cabin with natural light. And when you want to say goodbye to the sun, a power sunshade is there to make it an easy task.

A retreat within a retreat.

The sumptuous interior is elevated by supple leather seating surfaces and inviting available decorative inlays. An available three-spoke multifunction steering wheel with intuitive controls further transforms the cabin into a peaceful sanctuary as you explore uncharted territory.

Build your allroad®

2016 Audi allroad® Premium Plus shown with Titanium Gray leather and available equipment.

Space for all your big adventures.

Whether long or extended, when you go on any expedition, you will need ample room for all your gear. So, we made sure the Audi allroad® is equipped with enough cargo space to hold whatever you need for your adventures. With the convenience of a power tailgate and up to 50.6 cu ft of cargo capacity, you will no longer have to ask the question, “Should I bring more toys or more luggage?” Do both.

Cargo Space

With up to 27.6 cu ft of cargo space in the Audi allroad® with the rear seatbacks in the upright position and 50.5 cu ft of cargo capacity when folded, the allroad is a capable carrier. With split folding 60/40 rear seatbacks and a ski pass-through, it's proof that this vehicle is expertly equipped for any escape.

The next-generation urban explorer.

There is a primal understanding of freedom you'll feel when you're in control. Sure, we know you can't actually control every variable, but in our hearts, at Audi, we strive to help provide you with a little sense of freedom on the road—and off—with an available inspired technology we call quattro®. quattro® all-wheel drive is a sophisticated system developed by Audi engineers to help you gain more control in almost any terrain or climate, making it an incredibly versatile vehicle equipped for both off-road excursions and city escapades. The quattro® all-wheel-drive system helps distribute power to the wheels that need it the most and, through enhanced grip, helps you tackle twisting mountain roads, rugged terrain and powder-kissed streets.¹ And in perfect conditions, you'll feel the drive system's incredible precision when taking corners and executing everyday maneuvers. quattro® all-wheel drive works for drivers, and with drivers, who want both peace of mind and power. It was engineered and honed over 35 years to help transfer the necessary amount of power to the appropriate wheels when accelerating and turning, further enhancing Audi performance. The real story, however, may be the stories you write about your incredibly versatile quattro®-equipped Audi.

¹ Always obey all speed and traffic laws.

[Find a local dealer](#)

A showcase of our driving desire for superior engineering.

Producing more power from smaller engines has been a “right-sizing” philosophy of ours for quite some time, something you’ll soon realize when you experience the dynamic performance of the turbocharged 2.0-liter TFSI® engine. And with an advanced transmission and the road-gripping capability of quattro® all-wheel drive applying all that power to the ground, it will feel as good as its engineering suggests.

POWER
→
→

2.0 TFSI® four-cylinder engine

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, TFSI® direct injection and turbocharging technologies for great power and overall performance.

APPLICATION
→
→

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission in the Audi allroad® offers eight optimized, carefully chosen gear ratios. Selected automatically or via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission’s upper range emphasizes cruising at highway speeds.

quattro® all-wheel drive

There is a reason quattro® has been known as the all-wheel-drive standard since its inception—it has helped us to win races all over the world, and lots of them. But it's not just a performance enhancing technology, it has also become the proven foul-weather friend.¹ Under normal driving conditions, the center differential splits torque at a ratio of 40:60, front to rear (maximizing performance on dry roads), but, as conditions change and become more challenging, the ratio is optimized to help maximize grip. This translates to traction and a more confident driving experience.

Audi drive select

At Audi, we believe you should be the ultimate master of your road-going domain. That's why we created the available Audi drive select system. It gives you the ability to adjust the vehicle's steering, throttle response and transmission shift characteristics with the utmost of ease. And with four modes to choose from, when almost any kind of road comes into question, Audi drive select will let you answer.

► **Comfort mode**

Perfect for those long highway stretches, this setting adds optimized steering and a closer shift pattern to help provide a more relaxed drive.

► **Dynamic mode**

Tighter steering and a more responsive throttle give this setting an aggressive feel and focused performance.

► **Auto mode**

The best of both worlds, dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

► **Individual mode**

Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

¹ When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

You might be missing something, but we won't.

With everything that's out there, we thought it was time to focus on what you really need to see — like that car in your blind spot, for example. Fortunately, there's a full suite of available Audi technologies that help take into account other vehicles as well as yours via intelligent driver assistance systems. These can help you focus on what's most important — the road.

Senses working overtime.

There’s only so much our nervous system can process at one time. Too much, and you’ll feel the debilitating effects of sensory overload. We set out to combat this effect with driver assistance features designed to help lighten the sensory load. Whether it’s available advanced technologies like parking system with rear view camera, which uses acoustic sensors and a rear view camera to help make parking easier, or Audi side assist,¹ which utilizes radar sensors to help inform you of vehicles approaching from the side and rear, you’ll find that we’ve developed them to work together to help keep you aware of your surroundings. It’s just another way we like to say, “We’re looking out for you.”

LANE AWARENESS
→
→

Audi side assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.¹

DRIVER AWARENESS
→
→

Parking system with rear view camera

Increasing awareness and helping to make parking an easier task, the available parking system features four acoustic sensors in the rear. For added benefit, the rear view camera, displayed on the MMI® screen, offers selectable guidelines for parking in parallel or perpendicular spaces.

¹ The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner’s manual for further details and important limitations.

Radar sensors

Ultrasonic sensors

Cameras

Test drive the 2016 allroad®

2016 Audi allroad® Premium shown in Florett Silver metallic with full-paint finish and available equipment.

Image featured is just a pictorial and not an exact representation of the trajectory of the camera and sensors.

When the right materials strike a perfect chord.

At the heart of every great performance is an equally powerful instrument. Lightweight yet strong, a violin embodies many of the qualities that make up our core engineering philosophy. Whether it's the way we bind different metals together to help form a more rigid connection or the way we shape our design for functionality and performance or even the way our crumple zones give in the right places to help dissipate energy, the similarities are present for a reason. You can't expect to perform at the highest level without a solid foundation.

Precision tuning

Efficient use of various materials

Enduring craftsmanship

Optimal tension

Structural balance

A design that helps diminish an impact is no accident.

While we don't like to make light of potential risks on the road, our engineers were tasked with doing just that. Using materials that are both lightweight and unyielding, they came up with an innovative approach to both weight savings and strength. And while you may not think about weight savings when it comes to strength, we think they go hand in hand. Complementing the occupant safety cell is airbag technology designed to respond differently based on seat position, and specially constructed crumple zones that give way upon impact to help mitigate potential injury in a collision.¹ When you add all of this to the rigidity of laser seam-welded joints that help enhance the strength of every Audi we make, it becomes pretty clear: helping diminish the impact of an unavoidable event doesn't happen by accident.

Six standard airbags

Designed to work in concert with our safety belts and properly-adjusted head restraints, our airbag system is a comprehensive safety measure. With six standard airbags, including front-impact and thorax side airbags for both driver and front passenger, you'll feel practically surrounded.¹ You can also equip your Audi allroad® with available rear passenger thorax side airbags. And in this case, that's a good thing.

ABS and ESC

Computerized technology that works in sync with the Anti-lock Brake System (ABS), Electronic Stability Control (ESC) helps minimize loss of stability, applying brake pressure to individual wheels and reducing throttle input to help counter oversteer or understeer when the vehicle needs it.

1 Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children. 2 This is a dramatization and does not depict what will happen in a collision. All bags will not inflate simultaneously in real-world collisions, and, if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time.

Developed to make the best possible use of the body's potential, tailor-made blanks are the result of a special manufacturing process that can help strengthen the upper zone of a B-pillar while mitigating the impact in the lower zone in the event of a side collision.

rear crumple zone

front crumple zone

Knautschzone may be an ugly word, but it's a beautiful technology. German for "crumple zone," this ingenious feature helps dissipate the energy from a collision by spreading the impact forces around the passenger cell and away from its occupants. In doing so, it also enhances the vehicle's deceleration rate, which helps to further lessen the force of impact.

It turns out, science fiction has nothing on reality.

Remember what we used to think was going to happen in the future? Flying cars, moving sidewalks and folding suitcases? While flying cars may never happen, science fiction still seems quaint compared to what reality offers. At Audi, our engineers and technicians are putting innovations in vehicles right now that would have seemed unimaginable 25 years ago. From the evolution of LED lighting technology and the introduction of dynamic steering in some models to the sheer processing power of our vehicles that allows for the seemingly infinite capabilities of the available Audi connect® and our MMI® with Google Voice™ integration¹, we aren't in the business of imagining what the future will bring. We're committed to bringing it.

1 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

P

Your central command for the information age.

Sure, the handheld power of smartphones is impressive, but then, they don't handle like your Audi. Luckily, with active Audi connect®, you can get nearly all of the functionality of your phone, with the means to get you where you want to go.¹ Need to find a new, highly acclaimed restaurant? Pull over, and with the help of Google Voice Search™, Audi connect allows you to quickly search Google™ by simple voice commands.² Looking for something to do in a new city? Get information about current events and directions to their locations. With a crisp display and easy access to steering wheel toggle controls, you have a smartcar, which can do even more than the computer in your pocket.

myAudi

Are you the type that likes to know how to get to your destination before you get in the car? With the available myAudi, you can plan travel from your personal computer, send your desired destinations to your vehicle ahead of time and access your route from your vehicle at any time on the road.¹

¹ Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. ² SiriusXM® Satellite Radio and SiriusXM® Traffic subscriptions are sold separately or as a package after trial period and are continuous until you call SiriusXM® to cancel. See Customer Agreement for complete terms and more information at www.siriusxm.com. SiriusXM® Traffic service available in select markets. SiriusXM® U.S. Satellite Service available only to those in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). ³ MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. ⁴ Parking feature is not available everywhere and requires participation by parking provider.

MOBILITY

Get SiriusXM® Traffic information overlaid onto available 3D satellite imagery to visualize a true aerial view of your route, and let the MMI® navigation plus system reconfigure your route to help avoid traffic.^{1,2,3}

With Google Earth™ integration, you'll enjoy 3D satellite imagery, including Google Street View™, displayed right on the MMI display.¹

With Google Street View™, your Audi can show you a driver's-eye view of your destination right before you arrive so it's easy to recognize.¹

Search for parking in your area of interest, check space availability and set your selection as a destination to help navigate directly to the garage entrance.^{1,4}

TECHNOLOGY

It's simple. Tell your Audi what you are in the mood for, then let the cloud-processing power of Google™ speech recognition interpret your request and bring up a list of destinations in the area of your choice.¹

Staying connected in your Audi has never been easier, with in-vehicle high-speed 3G connectivity. Access is provided for up to eight passenger devices through an onboard wireless hub.¹

The point-of-interest search with voice control means that you can get the most out of every journey.¹

INFORMATION

Get information about current events, exciting locations and places of interest at your travel destination, current location or other chosen location instantly.¹

Stay on top of the news by having headlines and stories delivered right to your MMI display.¹

With current local weather conditions and forecasts for your destination, you'll always be prepared for your trip.¹

Discover travel information on local landmarks in your area of interest, set them as your destinations and let your vehicle lead the way as you explore the world around you.¹

Redefining the all-access pass.

Going backstage just got a lot more immersive, and intuitive. The available intelligent MMI® system offers a wealth of easily accessible information, all at the twist of a dial. You'll have access to material such as music files, contact information and destinations. The possibilities are even bigger when you input to the available Audi connect®, an innovative infotainment system infused with the power of Google™ technology.¹ With this kind of access, you could say there is no greater stage.

SiriusXM® Satellite Radio

Go ahead. Crisscross the country. We assure you, you'll never run out of entertainment options, with over 150 channels of music, talk, sports and news.

Audi media

The media function opens up a world of options with the available MMI navigation plus, allowing you to control the Audi music interface, Secure Digital (SD) card slots, available hard disk drive (HDD) audio jukebox or DVD, and available BLUETOOTH® streaming audio from a compatible device.²

MMI navigation plus

Count on the available advanced navigation system to home in on your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.

BLUETOOTH® wireless technology

Unlock your compatible mobile phone's potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.

¹ Always pay careful attention to the road, and do not drive while distracted. Orchestrate a more thrilling drive.

*Over 400 hours of sound tuning
Tested 54,000 times
at speeds up to 155 mph*

It's been said that people only hear what they want to, that what they don't like just goes in one ear and out the other. Well, for those people and everyone else, we've created a sound system that makes every note worthy of your eardrums' full attention. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® Sound System is a veritable orchestra of engineering that fills the cabin with faithfully rendered, thrilling sound. Which shouldn't be surprising at all, considering that Bang & Olufsen® and Audi sound engineers worked tirelessly to craft a perfect acoustic environment, and the ideal delivery system for it. So whether you're the type that wants to be soothed by sound or the type that wants to be inspired by it, we promise, if you take a moment to listen, that what you'll hear will be utterly impossible to ignore.

Bang & Olufsen® Advanced Sound System

Dedicated to the idea of "honest music reproduction," Bang & Olufsen® is a sound engineer's dream. Through an available 505-watt system perfectly integrated within your Audi, Bang & Olufsen® is set on transcending the limits of audio technology. By automatically adjusting volume and timbre balance to changing ambient noise levels and offering richly tuned acoustics, you'll hear the truth about how good life can sound in your Audi.

Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels. ⁴ Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children. ⁵ Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner's literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces. ⁶ Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. ⁷ The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner's manual for further details and important limitations.

NA Information not available at time of printing

1. 2016 EPA estimates and emissions data not available at time of printing. See www.fueleconomy.gov for updated information. Your mileage and emissions will vary and depend on several factors, including your driving habits and vehicle condition.

Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we offer accessories to help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are backed by your vehicle’s 4-year/50,000-mile limited warranty, or for 12 months/12,000 miles from the accessory purchase date, whichever is greater.¹ If you’re looking to personalize or help protect the vehicle you love, we have a solution designed by Audi that works for you.

Audi Genuine Sport and Design Accessories

For a bolder appearance or a finishing touch, we have a solution that helps make every mile more enjoyable—and more yours.

- > Stylish wheel designs
- > Rear spoilers
- > License plate frames

Audi Guard Car Care Products

Your allroad® deserves the very best, and this is it: the only car care line designed specifically for Audi.

- > Leather care
- > Insect remover
- > Detailing tools
- > Winter protection

Visit parts.audiusa.com to view the full line of Audi Genuine Accessories.

1 Audi Genuine Accessories purchased from an authorized Audi dealer are covered for the greater of: (1) the accessory limited warranty period (12 months or 12,000 miles, whichever occurs first) from the time of purchase; or (2) the remainder of the Audi New Vehicle Limited Warranty period (48 months or 50,000 miles, whichever occurs first). See your authorized Audi dealer for details. 2 All roof-rack system attachments require the base carrier bars. All attachments sold separately. Recreational equipment, sporting equipment and luggage not included.

01

02

01 Fork-mount bike rack

Pursuing your favorite pastime just got easier. Made of anodized aluminum, this rack features a quick-clamping device that can be secured with the included lock.²

02 Small cargo carrier

Use 12.7 cu ft of extra storage to get started on a weekend getaway. Size: 70” long, 33” wide, 15” high.² Additional sizes are also available.

03 Premium textile floor mats

These skid-resistant, precision-fit mats are made of long-life fabric to help protect your vehicle's interior from the elements. Mats are Black with Silver piping, and available in a set of four.

04 All-weather floor mats

No matter where the day takes you, the all-weather floor mats feature a deep-ribbed, channeled design that helps protect your vehicle's floor and carpeting from water, mud, sand and snow. Black mats are available in sets of two for front or rear. Front mats feature the Audi allroad logo.

05 Splash guards

Help protect the finish of your allroad with custom-fit splash guards made of crack-resistant rubber. They are available in sets of two for front or rear.

06 All-weather cargo mat

Custom fit for your allroad, the raised outside edge of the cargo mat helps contain spills and protects cargo-area carpeting from stains. The textured material helps control load shifting.
