The Ultimate
Driving Machine®

Desire at first sight.

The beauty hints at the performance.

Free your sense of enjoyment.

It's all within your reach.

Interior – Standard | Equipment

Titanium-finish ringed gauges distinguish the interior of the 330i/xi from the 325i/xi, while adding a high-tech look. (not available in 325i/xi)

A **four-spoke leather-wrapped multi-function steering wheel** lets you keep both hands on the wheel while adjusting audio settings, cruise control, and the accessory phone. (optional on-board navigation system shown)

The **instrument panel** presents all important information at a glance through analog gauges and LCD readouts. When parking or headlights are on, the gauges are lit in an easy-to-read red.

Check Control monitors important data, such as brake fluid and oil levels, whether lights are functioning properly, and all vehicle systems. Any problems are clearly indicated on the pictogram or beside it, in order of importance.

An **on-board computer** offers valuable travel information, with read-outs on remaining fuel, expected travel range on remaining fuel, average mpg and average speed. An external thermometer sounds a warning when the temperature falls below 38°F – indicating that the road may ice up. (standard in 330i/xi; optional and included in 325i/xi Premium Package)

BMW anti-theft AM/FM stereo/CD audio system produces full, rich sound through 10 speakers. Includes Radio Data System (RDS), Auto-Store; pre-wired for a BMW six-disc CD player/changer¹ and compatible with auxiliary audio input adaptor¹ for audio connection of portable music players, standard. (325i/xi; Harman Kardon stereo system standard in 330i/xi)
¹Available as an accessory item.

Both the driver's and front passenger's sun visors include a **vanity mirror** that automatically lights when the sliding cover is opened.

The **automatic climate control system** includes automatic air recirculation, which is activated when a sensor detects certain pollutants in the outside air, such as carbon monoxide. Inside, cabin air continuously passes through a micro-filter that removes pollen, dust and spores.

A **six-speed manual transmission** in the 330i/xi delivers a precise, athletic feel that's responsive to your personal driving style. (five-speed manual transmission standard in 325i/xi)

Interior – Standard | Equipment

Gathered leather gearshift and handbrake gaiters complement the 3 Series Sedan's elegant interior upholstery.

Eight-way adjustable seats firmly support the driver and front passenger over long distances. Front seat bolsters help eliminate "submarining" during sudden stops. (standard in 325i/xi). **Eight-way power adjustable seats** with two-way manual headrests and 3-driver mirror and seat position memory. (standard in 330i/xi; optional and included in 325i/xi Premium Package)

Front seat adjustments move the seat bottoms forward/back, tilt the front end of the seat bottom up/down, and tilt the seat back forward/back. (325i/xi shown; 330i/xi has power front seats)

A **front center armrest** makes travel more comfortable. It includes an integrated storage compartment, which can be accessed when the armrest is down.

Interior lighting includes individual front and rear map reading lights, as well as footwell and visor mirror lights.

Myrtle wood trim curves around all four doors, dashboard and center console, adding a luxurious touch to the interior. Not shown: Aluminum brushed columns trim, a no-cost option to give your interior a high-tech look.

Power glass moonroof tilts up at a touch to let in as much fresh air and sky as you like, while a wind deflector helps keep the wind out. Includes a sliding interior sunshade.

BMW tool kit is discreetly and neatly placed in the 3 Series Sedan trunk lid, ready to assist in a roadside emergency.

With the **keyless entry system**, the keyhead acts as a multi-function remote control, providing two-step unlocking and remote trunk release. (Two remote control keys are included as standard equipment; additional remote keys can be purchased from your authorized BMW center.)

The 330i Performance Package: It turns the 330i Sedan into an aggressive “sport car.”

“If you could personalize the 330i Sedan, what would you do?” This was BMW’s tantalizing challenge to its driving-enthusiast engineers. Their passionate response: the 330i Performance Package. First, they fine-tuned the engine to deliver 10 more horsepower and a higher rev range for more power on demand. Then they added a six-speed manual transmission with shorter shift throws to give the driver quicker access to all 235 horses. (A five-speed STEPTRONIC automatic transmission is optional.) The final gear ratio and

the rear axle were shortened for quicker response and agility. Special wheels and larger tires were added to transfer the additional power to the road, resulting in a 0-60 time of just 5.9 seconds.¹ And then the design team created an athletic, visually distinctive body and interior to match the car’s more dynamic feel. The result is the most thrilling 3 Series driving experience available today.

¹BMW AG test results.

The 330i Performance Package is a product of BMW Individual – the division responsible for creating unique, limited-edition BMWs. But before Individual designed its elegantly aggressive looks, they created a more muscular engine that boasts 235 hp at 5900 rpm, and 222 lb-ft of torque at just 3500 rpm. The increased redline starts at 6800 rpm. Standard 18" M Double Spoke alloy wheels and performance tires – 225/40 front, 255/35 rear – deliver higher cornering speeds with cool assurance and confidence.

330i Performance Package

Thanks to modifications by driving enthusiast engineers at BMW, the 330i Performance Package brings track-inspired excitement to your daily drive. The suspension is even lower, stiffer and firmer than in the standard 330i. For greater adhesion, wheel camber is set at -0.5° , which results in a larger tire contact patch when cornering quickly. With a rear axle ratio that's 3.5% shorter, the car delivers noticeably crisper response and greater agility at all speeds.

The inside story: the high-tech interior sets the 330i Performance Package apart from all other BMWs. Underscoring the car's higher-revving engine, the tachometer needle is red. The M three-spoke multi-function steering wheel rim is covered in Alcantara – a handsome, suede-like material that helps the driver maintain a firm grip. Bolstered front sport seats are designed to hold occupants firmly in place in tight turns. Upholstered in a durable, black woven cloth with Alcantara-covered side bolsters, the seats remain comfortable over long distances. An anthracite headliner also covers the A, B and C pillars, reducing ambient glare to help the driver focus better during cornering maneuvers. And complementing the technical look of the interior are two new, exclusive trims: "black cube" trim is standard; "silver cube" trim is optional.
