

2009 BMW
5 Series
Sports Wagon

The Ultimate
Driving Machine®

535i xDrive

A spacious interior filled with your cargo – and everything needed for total comfort.

Don't just go. Be transported.

Harness your cargo to 300 turbocharged horses.

Power in abundance.

Gripping all-wheel performance.

Grab more road.

Hands-on style.

Dashing elegance.

High performance: the inside story.

Find inner joy.

Inviting luxury and comfort.

Going in style.

Room for versatility.

Open wide and say “Ahhh!”

The cargo area cover tilts up whenever the tailgate or rear window is opened.

A storage compartment under the cargo floor features adjustable dividers that can form different-sized compartments.

This is how much has gone in.

At BMW, we create dynamic vehicles that thrill you with quick acceleration, predictable handling and unshakable control. We are also busy finding ways to sustain this level of performance while incorporating innovative fuels and technologies to help preserve the environment. This is what we refer to as "EfficientDynamics." This goal has led to the visionary CleanEnergy hydrogen-powered engine, which is currently used in the BMW Hydrogen 7 Sedan. BMW Advanced Diesel with BluePerformance, which offers diesel power with quick acceleration, increased fuel efficiency and reduced emissions, is being introduced to the U.S. in 2009. In fact, every BMW on the road today comes standard with technology that boosts performance while simultaneously reducing fuel consumption and CO₂ emissions.

And this is what comes out.

Valvetronic
Instead of using a traditional throttle, Valvetronic technology lets the engine breathe more easily by varying the lift height of the valves to regulate air intake. The result: improved cold starts, smoother running, and a significant drop in fuel consumption. Using revolutionary technology such as this, BMW has improved its overall average fuel economy more than any other manufacturer.

Efficient transmissions
The 5 Series Sports Wagon offers a choice of two 6-speed transmissions: a smooth-shifting manual, and an equally fuel-efficient STEPTRONIC automatic.

Lightweight construction
Our engineers use lightweight aluminum throughout our vehicles – in the front section, for example, or for the suspension. And BMW's inline six-cylinder twin-turbo engine is also all aluminum. Taken together, these weight savings lead to lower fuel consumption and better axle load distribution for more agility – especially in curves.

BMW models have low CO₂ emissions today. But that's just for starters. We're carrying on our research in the quest to bring you greater driving pleasure, with fewer emissions and decreased fuel consumption.

Recommended color combinations

¹Standard in 535i xDrive.

²Optional in 535i xDrive and included in Premium Package.

³Upholstery and interior colors: Cream Beige Leather upholstery comes with Cream Beige interior color; Beige Leatherette upholstery comes with Beige interior color. Black Leather or Black Leatherette upholstery comes with Black interior color. Natural Brown Leather upholstery comes with Black interior color, which includes a Black/Natural Brown color combination on the door panels, and a Gray headliner. Gray Leather upholstery comes with Gray interior color.

⁴Non-metallic paints are standard; Metallic paints are available at no additional cost.

⁵Standard.

⁶Available at no additional cost.

■ Standard equipment

□ Optional equipment

■ **Xenon headlights** provide brilliant clarity of the road ahead and to the side at night and in conditions with poor visibility. **Adaptive Headlights** illuminate the road around corners, using a system that directs the headlights into and through road bends.

□ **High-beam Assistant** automatically turns high beams on and off, as needed, based on light sensor readings.

■ **Adaptive Brake Lights** increase vehicle visibility and signal the intensity of your braking action.

□ **18 x 8.0 Star Spoke (Style 124) alloy wheels with 245/40 run-flat performance tires.**¹ (Requires 535i xDrive Sport Package; spare is a space-saver wheel and tire.)

¹Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow.

■ **Roof rails** closely hug the lines of the roof. They easily accommodate additional cargo, as well as bicycles, skis, snowboards, etc., when equipped with the multifunctional BMW roof rack system. (Refer to the Original BMW Accessories catalog or visit your authorized BMW center for a full selection.)

■ **17 x 7.5 V Spoke (Style 277) alloy wheels with 225/50 all-season tires.** (Spare is a space-saver wheel and tire.)

■ Standard equipment

□ Optional equipment

□ **Park Distance Control** uses eight sensors – four in the front, four in the rear – to help you judge how close you are to other cars and unseen objects when parking. While engaged in a parking maneuver, the image on the screen visually changes and warning beeps come faster as the bumper approaches a stationary object, turning into a constant tone when the distance is less than 12 inches.

□ **Active Cruise Control** with Stop & Go uses radar measurements to automatically maintain a preset speed and distance between your vehicle and the one ahead in both heavy traffic and highway driving.² (Requires automatic transmission.)

²Active Cruise Control is not a substitute for the driver's own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating road, traffic and visibility conditions, the driver decides whether and how the system is used.

■ **BMW Assist™³ and Bluetooth®** system offers hands-free calling through your BMW-approved **Bluetooth** phone. The BMW Assist Safety Plan is included for four years, providing Automatic Collision Notification.

³ The optional Convenience Plan offers Directions, Traffic, Weather, Critical Calling and Concierge services.

□ **20-way power multi-contour front seats⁴** for the driver and front passenger provide optimum lateral support during tight cornering – thanks to specially padded, highly contoured side bolsters – while remaining exceptionally comfortable when driving over long distances. In addition to active head restraints, the seats offer individual power adjustment for backrest and seat-bottom angle; forward/backward and up/down position; thigh, upper back and lumbar support; and adjustable sides.

⁴Multi-contour seats are included in the Sport Package and available as a stand-alone option. Requires optional Dakota Leather upholstery or Premium Package.

■ **Two-piece Panoramic moonroof** features fully electric slide and lift control. Both halves of the roof can be tilted up at the touch of a button. When you tilt the front glass section, the rear section also tilts up electronically. When open, the wind deflector minimizes turbulence. Includes comfort opening/closing function, and an electric sunshade to help shield cabin from excessive heat.

□ **Comfort Access system** offers an even greater degree of convenience: keyless access to your car. Simply carrying the remote key in a pocket allows you to unlock the doors by touching the door handle. You can also turn the engine on or off by pressing the Start/Stop button⁵ without inserting the remote key.

⁵ Foot must be on brake, or with manual transmission, brake and clutch must be depressed, in order to start.

■ Standard equipment

□ Optional equipment

■ **3-spoke leather-wrapped multi-function steering wheel** lets you keep both hands on the wheel while adjusting various comfort functions, such as changing the radio, CD selections and volume. Optional Voice Control (included with optional Navigation system) can be used to change radio stations and audio selection, Navigation system destinations, and Bluetooth® (if so equipped) telephone entries.

□ **Lane Departure Warning feature¹** alerts the driver by discreetly vibrating the steering wheel if the vehicle crosses lane markings without using the directional signal. (requires Premium Package)

¹Requires clearly definable lane markings that are not obscured by rain, snow, etc. Lane Departure Warning feature is not a substitute for the driver's own responsibility in maintaining safe control of the vehicle.

□ **Navigation system** covers the U.S. with a single DVD. The glare-free monitor is mounted neatly into the dashboard for easy viewing. Using GPS satellites and DVD technology, a map of your area appears on the dash monitor, showing – and telling – the directions to your desired destination. It also provides Real Time Traffic Information on potential traffic problems and solutions.

□ **Head-up Display** projects important travel information – such as current speed – on the windshield directly in the driver's line of vision. Check Control data, cruise control functions, and directional arrows from the optional Navigation system can also be displayed. (requires Navigation system)

■ **6-speed manual transmission** delivers a precise, athletic feel. Its responsiveness is due, in part, to the enhanced synchronization of shifts from neutral to each gear. A shortened shift lever and “throw” add to the sporty feel of the gearbox. The sixth gear drops revs at highway speeds for smooth cruising.

□ **Heated rear seats** are a welcome cool-weather feature for left and right rear-seat occupants. With the touch of a button, passengers can individually select their preferred level of warmth. (Must be ordered with Cold Weather Package; not available with Leatherette upholstery.)

□ **Sunshades** in the rear side windows enhance passenger privacy, while reducing sun glare and interior heat.

■ Standard equipment

□ Optional equipment

□ **HD Radio™** receives free, digital AM/FM broadcasts across the U.S. in clear, static-free quality sound – AM sounds like FM; FM sounds like CD. Also enjoy new “multicast” FM stations, as well as a variety of innovative data services.

Can be ordered in combination with optional Logic7 Surround Sound audio system. For more information on HD Radio receivers and to find HD Radio AM/FM stations near you, visit HDRadio.com.

□ **SIRIUS Satellite Radio** delivers nonstop sports, news/talk, entertainment, traffic/ weather, and 100% commercial-free music – all day, all night, across the continental U.S. (Optional.)

■ **BMW anti-theft AM/FM stereo CD/MP3 player audio system** with 10 speakers, Auto-Store, and 3-channel FM diversity antenna system.

□ **Logic7 Surround Sound** anti-theft AM/FM stereo CD/MP3 player audio system provides outstanding sound with 13 speakers and the adjustable surround sound function to create a luxurious soundscape all around you. The subwoofer speakers, located under the front seats, produce an authentic bass sound.

■ **Auxiliary input port** lets you connect an external audio source, such as an iPod® or MP3 player.

□ **iPod and USB adaptor** lets you scroll through and select the music you want by using the vehicle's radio controls, the multi-function steering wheel buttons or iDrive Controller. Music titles are displayed on the radio or Navigation screen.

Premium Package: Maximize your driving satisfaction with amenities that provide added comfort and luxury. The 535i xDrive Sports Wagon Premium Package offers supple Dakota Leather seating. For nighttime driving, the automatic-dimming rear-view (interior) and side-view (exterior) mirrors adjust to reduce glare. The Universal garage-door opener offers the convenience of three remote-control functions outside the vehicle, such as opening electronically activated garage doors, or activating home-lighting systems.

Automatic tailgate opener lets you open the tailgate at the touch of a button while sitting comfortably inside. When picking up passengers with luggage, bags, etc., this handy feature lets them access the cargo area without your having to get out of the vehicle – something you'll appreciate on rainy days.

Exterior power-folding side-view mirrors automatically dim when reflecting bright lights, helping to eliminate glare when driving at night.

Automatic-dimming rear-view mirror senses the bright headlights of vehicles behind you, and automatically darkens.

BMW Universal garage-door opener takes the place of up to three remote-control devices. It can activate remote functions outside the vehicle, such as garage-door openers or home-lighting systems.

Dakota Leather upholstery cradles driver and passengers in soft, gathered comfort. Durable and easy to maintain, a leather interior adds elegance and refinement. (Cream Beige Dakota Leather with Dark Poplar Wood interior trim shown)

Cold Weather Package: Enjoy winter to the fullest with the Cold Weather Package. There's nothing like the feel of quick-warming seats and a heated steering wheel on a cold morning. At night and in inclement weather, you'll see and be seen better, thanks to the high-intensity headlight cleaning system. And the addition of a ski bag provides a practical and convenient method for transporting your skis or other long objects by keeping them clean and secure.

Retractable high-intensity headlight washers help keep lights clear of ice, mud, road salt and other coatings, for maximum road lighting and enhanced driving safety.

Heated steering wheel makes gloves unnecessary for cold weather driving. A flick of the switch quickly warms the steering wheel to the perfect temperature.

Ski bag allows clean and secure transport of up to four pairs of skis and ski poles. When not extended for use, the ski bag can be stored in the seat, and the center armrest can be left down for use, or folded up to create a third seat.

Heated front seats are a welcome feature for driver and front passenger in cooler weather. With the touch of a button, seat surface and backrest are heated and quickly radiate comfortable warmth in your choice of three settings. (Heated front seats are also available as a stand-alone option; not available with Leatherette upholstery.)

Sport Package¹: The 535i xDrive adds a dynamic edge to the Sports Wagon's look and performance, thanks to shadowline exterior trim, a three-spoke leather-wrapped multi-function sport steering wheel, and 20-way power multi-contour front seats. When selecting the 535i xDrive Sport Package, larger 18 x 8.0 Star Spoke (Style 124) alloy wheels with 245/40 run-flat performance tires² are available as an option.

¹Sport Package requires optional Leather upholstery or Premium Package.

²Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow. Spare is a space-saver wheel and tire.

Shadowline trim gives a sporty look to front and rear side-window frames, window recess finishers, and door-sill trim strips.

3-spoke leather-wrapped multi-function sport steering wheel lets you keep both hands on the wheel while adjusting various comfort functions, such as radio stations, CD selections and volume.

20-way power multi-contour front seats¹ provide optimum lateral support during tight cornering, while remaining exceptionally comfortable when driving over long distances. In addition to active head restraints, the seats offer individual power adjustment for backrest and seat-bottom angle; forward/backward and up/down position; thigh, upper back and lumbar support; and adjustable sides.

¹Multi-contour seats are also available as a stand-alone option, and require optional Dakota Leather upholstery or Premium Package.
