

THE MOST EXCLUSIVE FORM OF EXHILARATION.

THE ALL-NEW BMW ALPINA B6 xDRIVE GRAN COUPE.

TUNED FOR SPORTS CAR ACCELERATION. TAILORED FOR ULTIMATE LUXURY.

A rare breed, the all-new, specially produced BMW ALPINA B6 xDrive Gran Coupe is the product of a performance heritage, refined through the lens of luxury. Drawing on the awe-inspiring power of its 4.4-liter Bi-Turbo V-8, the BMW ALPINA B6 achieves a 0–60 time of just 3.7 seconds¹ and a top speed of 198 mph.² Fitted with BMW's xDrive intelligent all-wheel-drive system, it demonstrates agile, sure handling on all roads and in all types of weather. Its unparalleled performance is balanced by the pleasures of an elegant interior that can be tailored with a virtually limitless array of customizing options. Those fortunate few who will drive it will quickly realize: the BMW ALPINA B6 is poised to dominate the open road.

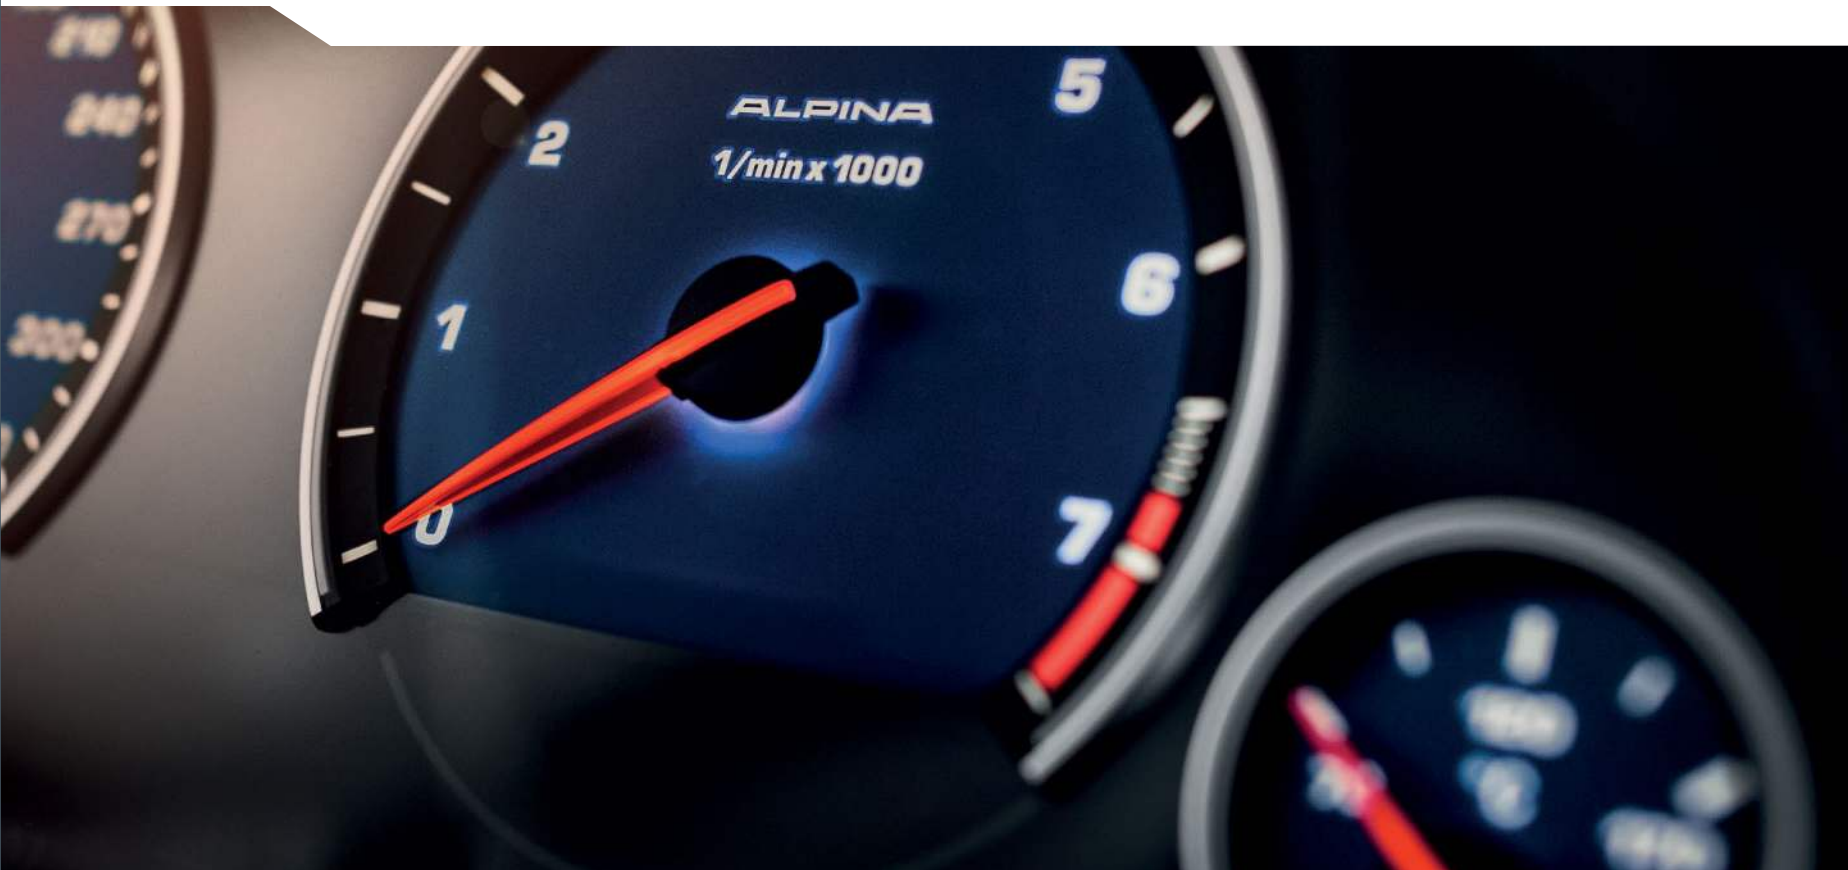

¹ BMW AG test results. BMW urges you to obey all posted speed laws and always wear safety belts.

² Requires performance tires.

ALPINA: A BMW PERFORMANCE PARTNER FOR MORE THAN FOUR DECADES.

Since 1983, BMW and ALPINA have been partners on and off the racing circuit. The only company with BMW's official approval to work on engine and chassis development, ALPINA tailors automobiles to the demands of sports car aficionados – those highly experienced drivers who combine a love of power and performance with a taste for luxury and quality of life. The result of this technological collaboration is a steady stream of groundbreaking innovations – and the exclusive, highly coveted BMW ALPINA vehicles on the road today.

SCULPTED WITH AERODYNAMIC EXCELLENCE.

Beauty beyond mere aesthetics: for the first four-door Gran Coupe from ALPINA, engineers and designers established a degree of aerodynamics unequaled in its class. For example, the front apron provides cooling airflow to the powertrain, while an integrated splitter directs airflow over the 20-inch ALPINA CLASSIC wheels and around the body. This gives the BMW ALPINA B6 the ability to slice through the wind, enhancing its smooth handling, high-speed stability and efficiency while decreasing ambient noise. Forged from the finest materials and honed with precision, the BMW ALPINA B6 is the preeminent sports coupe of today.

THROTTLE RESPONSE THAT REVS YOUR SOUL.

A mighty 4.4-liter Bi-Turbo V-8 propels the BMW ALPINA B6 xDrive Gran Coupe, its output smoothly and efficiently transferred through an 8-speed Sport Automatic transmission with ALPINA SWITCH-TRONIC. Drawing on 540 hp and 540 lb-ft of torque, 60 mph passes in a blur: just 3.7 seconds.¹ The dynamic forward momentum is brought to a halt by massive brake rotors: 14.7 inches front, 13.6 inches rear. To suit your driving mood, the Driving Dynamics Control system lets you customize the handling characteristics of the vehicle with ECO PRO, COMFORT+, COMFORT, SPORT and SPORT+ modes. The refined stainless steel ALPINA exhaust system resonates with a deep but unobtrusive note; in SPORT mode, it emits a lusty roar under dynamic bursts of acceleration.

DESIGNED BY YOU. HANDCRAFTED BY ALPINA.

Traditional ALPINA style means no limits on individualization. Simply lacing this elegant interior with exclusive features – such as illuminated ALPINA signature entry sills, a steering wheel wrapped in hand-stitched LAVALINA Leather, and an interior trimmed in ALPINA Myrtle Wood harvested from the Pacific coast – is not enough. ALPINA philosophy dictates that the interior should personify and complement you, the driver. With that in mind, you can select from a broad array of rich exterior paint colors, leather upholstery choices, and elegant interior trims to create your ideal driving environment.

Wheel and tire specifications are subject to change. Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

¹ Performance tires are not recommended for driving in ice or snow conditions; includes increased top-speed limiter.

² Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

³ Top speed limited to 130 mph.

Packages
Driver Assistance Plus
• Active Blind Spot Detection • Active Driving Assistant (includes Lane Departure Warning,¹ Frontal Collision Warning, Pedestrian Warning and City Collision Mitigation) • Side- and Top-view Cameras • Speed Limit Info
