 - Acceleration 0–62mph: [6.3]s; top speed: [149]mph (240km/h)
 - Combined fuel consumption: [61.4]mpg (4.6l/100km)
 - Combined CO₂ emissions: [121]g/km

Figures are obtained in a standardised test cycle. They are intended for comparisons between vehicles and may not be representative of what a user achieves under usual driving conditions.

Fuel consumption and CO₂ emissions are dependent on chosen optional equipment and wheel/tyre size. The above figures refer to vehicles with standard transmission. Figures in [] refer to vehicles with automatic transmission. For further information on fuel consumption and CO₂ emissions please consult your BMW Retailer.

REGISTERS UP TO **360** DEGREES
OF THE VEHICLE'S SURROUNDINGS.

Enjoy the greatest convenience and the highest level of safety with BMW ConnectedDrive. For driving, parking and visibility, the BMW ConnectedDrive driver assistance systems are there when you need them, reliably, in every situation. The most cutting-edge systems, such as radar, ultrasound and cameras, dependably register the vehicle's surroundings, forming the basis for intelligent driver assistance systems. Whether activated when desired, or as emergency assistance in the background – the assistance systems from BMW ConnectedDrive make every drive in your BMW safer and more convenient.

CONNECTED
FOR OVER **40** YEARS.

Focused on the future – from the very beginning. By the 1970s, BMW had already made headway in connected mobility. Another milestone of the digital future was surpassed in 1999 with vehicles with built-in SIM cards. Then came the first online services, Google Services and innovative driver assistance systems such as BMW Head-up Display. Throughout this process, the desires of the customer have always taken centre stage. As the first premium automobile manufacturer, BMW makes it possible to book and pay for services flexibly via the BMW ConnectedDrive Store, in the vehicle or on a computer at home. With the introduction of BMW Connected and the Open Mobility Cloud, BMW is taking the next steps into the future of mobility.

MORE THAN **20** SERVICES IN THE
BMW CONNECTED DRIVE STORE.

ConnectedDrive Services forms the basis for intelligent BMW ConnectedDrive functions, as well as for the integration of selected smartphone apps. This equipment also provides access to the BMW ConnectedDrive Store, in which services and apps can be ordered or extended any time and anywhere to suit the user's individual requirements – for example with Concierge Service or Online Entertainment, which can turn every drive into a convenient and entertaining experience.

IN TOUCH **24/7**
WITH BMW CONNECTED.

What would it be like if you were never late again? What if your BMW already knew your preferred destinations? How would you like reliable navigation, whether you're sitting in your vehicle or not?

BMW Connected provides you with the information you need, when and where you want it. BMW Connected is a personal mobility assistant which facilitates your everyday mobility and aids you in reaching your destinations relaxed and on time. With the BMW Connected app, mobility-relevant information such as recommendations for optimal departure times are available via a smartphone or smartwatch and can be seamlessly transmitted to the car.

ONLINE SERVICES

BMW Online Services forms the basis for the BMW ConnectedDrive functions, which provide the driver with a wide range of information, entertainment and service features while on the road, including news, online search and office functions. It enables use of selected smartphone apps such as the BMW Connected App and access to the BMW ConnectedDrive Store.

BMW CONNECTED

BMW Connected is a personal mobility assistant which facilitates everyday mobility and assists drivers in reaching their destinations relaxed and on time. Relevant mobility information, such as recommendations for optimal departure times, are available outside of the vehicle via a compatible smartphone or compatible smart watch, and can be seamlessly transmitted to the vehicle.

TIME-TO-LEAVE NOTIFICATION

BMW Connected will inform users of recommended departure times via smartphone or smart watch¹ to ensure they arrive at their next destination on time. The system calculates recommended departure times based on current vehicle location and real-time traffic data.

ONLINE ENTERTAINMENT

Via the integrated infotainment system, Online Entertainment² offers constant access to more than 30 million music titles from Napster or Deezer. In addition, the music is available wherever listening is convenient – every other supported device also has access to the music titles, even outside of the car. Easily and conveniently.

¹ Smartphone and smartwatch are not part of BMW Connected.

² Available as optional equipment. For more information on each of the current music providers please see www.deezer.com/features or www.napster.co.uk.

SUSPENSION AND SAFETY.

■ Standard equipment □ Optional equipment

An ideal **axle load distribution of 50:50** helps ensure great directional stability, agile handling and a precise steering response. While at the same time, a lower centre of gravity and shorter overhangs further improve driving characteristics.

The intelligent BMW **xDrive** all-wheel drive system smoothly and variably distributes drive power to the front and rear wheels for maximum traction, driving dynamics and safety in every driving situation. For even better agility, the electronically controlled power distribution counterbalances over and under-steering on bends.

The **Variable Sport steering**¹ with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when driving more dynamically and reduces the effort needed to steer when parking and turning.

The **eight-speed Sport automatic transmission**^{2,3} with Steptronic ensures particularly smooth gearshifts and outstanding driving comfort, thanks to fast engine speed transitions and tightly spaced gear ratios. It unites superb comfort with impressive dynamics and increased fuel efficiency.

□ **Adaptive LED Headlights** with full LED technology include integrated LED turn indicators, low and high beam, as well as daytime running lights for safety and optimal illumination of the road. High-beam Assistant and Adaptive Headlights with automatic adjustment significantly enhance visibility in the dark – for relaxed driving, almost like during the day.

□ **Driving Assistant**⁴ combines Lane Departure Warning and Forward Collision Warning systems. When travelling at speeds up to 35mph Forward Collision Warning and Preventive Pedestrian Protection issue a warning if there is a risk of collision with vehicles or pedestrians, and brakes the vehicle in the event of an emergency. At speeds above 45mph, the Lane Departure Warning draws the driver's attention to an unintentional lane change by vibrating steering wheel.

■ **Airbags** for driver and front passenger are part of the optimally coordinated safety components in a BMW. Overall, six airbags provide targeted protection: including driver and front passenger airbags, airbags for the entire window surface on the side, and side airbags integrated into the front seat backrests.

■ **Run-flat tyres** feature reinforced side walls that prevent them from loosening from the rim if the air pressure drops, making it possible to continue driving to the nearest repair shop.

■ The **functional structure** of the passenger cell is composed of a specialised system of beams and nodal connections, featuring strategically deployed high-strength materials which deliver maximum passive safety in the event of front, side and rear collisions.

■ **Dynamic Stability Control+ (DSC+)** stabilises the vehicle as soon as any skidding motion is detected. Its extended functionality includes Cornering Brake Control (CBC), Hill-start and Brake Assist, brake drying and braking readiness. For even more athletic driving, the Dynamic Traction Control (DTC) function allows increased wheel slip.

¹ Available as optional equipment (except standard on M140i models).
² Standard for the 125i, 120d xDrive and 125d.
³ Optionally available for the 120i, M140i and 120d.
⁴ Function may be limited in the dark or in fog.

SE.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

■ The clearly arranged cockpit with multi-function leather steering wheel, single-zone automatic air conditioning and BMW Navigation System are highly impressive even upon first glance.

■ The seats in Move cloth upholstery in Anthracite and the Satin Silver interior trim ensure that the interior has a comfortable but sporty feel.

- Standard equipment features:**
- 16" light alloy Star-spoke style 654 wheels
 - 6.5" colour screen with iDrive controller
 - Air conditioning, automatic, single-zone
 - Bluetooth connectivity with audio streaming (with USB connection)
 - BMW ConnectedDrive Services comprising:
 - BMW Emergency Call
 - BMW Navigation System
 - BMW Online Services
 - BMW TeleServices
 - Real Time Traffic Information (RTTI)
 - BMW Navigation System
 - DAB tuner
 - Drive Performance Control with ECO PRO, Comfort and Sport modes
 - Exhaust tailpipe, Chrome
 - Interior trim, Satin Silver
 - Multi-function leather steering wheel, three-spoke
 - Seats in Move cloth upholstery

□ 16" light alloy V-spoke style 378 wheels, 7J x 17 with 205/55 R16 tyres.

SPORT.

■ Standard equipment □ Optional equipment

□ The Sport leather steering wheel with Black stitching, a thick rim and contoured thumb rests has an exceptionally pleasant, high-grip feel.

□ 17" light alloy Star-spoke style 379 wheels with run-flat tyres, 7J x 17 with 225/45 R17 tyres.

■ 17" light alloy Double-spoke style 655 wheels with run-flat tyres, 7J x 17 with 225/45 R17 tyres.

- Sport model exterior equipment:**
- 17" light alloy Star-spoke style 655 wheels with run-flat tyres
 - Exhaust tailpipe, Dark Chrome
 - Front air inlet with High-gloss Black finisher
 - Kidney grille with extra-wide High-gloss Black vertical slats
 - Rear bumper with High-gloss Black finisher

- Sport model interior equipment:**
- Ambient lighting – switchable BMW Classic Orange/Cold White LED
 - Corner cloth upholstery
 - Door sill finishers with BMW designation, front
 - Drive Performance Control with ECO PRO, Comfort, Sport and Sport+ modes
 - Interior trim, High-gloss Black with Coral Red finisher
 - Sport instrument cluster with Red highlight
 - Sport multi-function leather steering wheel with Red stitching and speed limiting function
 - Sport seats, front
 - Welcome light using LED technology

M SPORT.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

■ In combination with the Aluminium Hexagon interior trim with Estoril Bue finisher, the M Sport multi-function leather steering wheel also accentuates the sporty yet elegant tone of the interior.

■ 18" light alloy M Double-spoke style 461 M wheels, Ferric Grey, front 7.5J x 18 with 225/40 R18 tyres, rear 8J x 18 with 245/35 R18 run-flat tyres.

□ The eight-speed Sport automatic transmission offers incredibly sporty gear changes. Whether automatic or manual using gearshift paddles or gear lever.¹

M Sport model exterior equipment:

- 18" light alloy M Double-spoke style 461 M wheels, Ferric Grey with run-flat tyres
- Exhaust tailpipe, Chrome
- Exterior trim, High-gloss Shadowline
- Kidney grille with extra-wide High-gloss Black vertical slats
- LED foglights, front
- LED headlights, with automatic beam control
- M aerodynamic bodystyling
- M designation, side
- M Sport suspension (excluding 120d xDrive M Sport)

M Sport model interior equipment:

- Ambient lighting – switchable BMW Classic Orange / Cold White LED
- Door sill finishers with M designation
- Gearshift lever with M designation, short-shift (manual transmission only)
- Headlining, Anthracite
- Hexagon cloth/Alcantara upholstery
- Interior trim, Aluminium Hexagon with Estoril Blue finisher
- M Sport multi-function leather steering wheel with speed limiting function
- Remote control with integrated key, with inset in Blue
- Sport instrument cluster with Red highlight
- Sport seats, front
- Welcome light using LED technology

M SPORT SHADOW EDITION.

■ Standard equipment □ Optional equipment

■ The LED headlights with darkened surround give the exterior an athletic edge.

■ 18" M light alloy wheels Double-spoke style 719 M, Bicolour Jet Black, front 7.5J x 18 with 225/40 R18, rear 8J x 18 with 245/35 R18 run-flat tyres.

□ 18" M light alloy wheels Double-spoke style 719 M, Jet Black, front 7.5J x 18 with 225/40 R18, rear 8J x 18 with 245/35 R18 run-flat tyres.

M Sport Shadow Edition exterior features:

- 18" M light alloy Double-spoke style 719 M wheels, Jet Black or Bicolour Jet Black
- Darkened rear lights with LED light bars
- Exhaust tailpipe in Dark Chrome
- Kidney Grille frame High-gloss Black with Black vertical slats
- LED Headlights with darkened surround
- M Sport braking system
- Mirror caps, Black
- Park Distance Control (PDC), rear

M Sport Shadow Edition interior features:

- Cruise control with braking function
- Extended lighting
- Interior trim Aluminium Hexagon with Estoril Blue finisher; other trims available
- Loudspeaker system – harman/kardon
- Sun protection glass

¹ Standard for 125i and 120d xDrive models.

BMW M PERFORMANCE.

The new BMW M140i.

The M Performance TwinPower Turbo six-cylinder in-line petrol engine features superior power delivery, silky smooth running and an exceptional performance. Not only that, but the brawny 3.0 litre engine emits a captivating sporty sound as it goes about its work, thanks to a sound-optimised exhaust system with an innovative flap concept. This engine combines the Valvetronic fully variable valve control including Double VANOS, High precision direct injection and a TwinScroll turbocharger to optimally fill the cylinders. The result: a top performance of 340hp (250kW) and a maximum torque of 500Nm. This means that the Turbo petrol engine accelerates the car from 0 to 62mph in a breathtaking 4.8 seconds (4.6 seconds with automatic transmission), reaching a limited top speed of 155mph. Thanks to various intelligent technological innovations, its fuel consumption drops to a combined rate of just 36.2mpg (7.8l/100km) at a CO₂ emissions level of only 179g/km. With automatic transmission these figures drop further with a combined fuel consumption of 39.8mpg (7.1l/100km) and a CO₂ emissions level of 163g/km. Impressively efficient, packed with power and delivering a direct response even at low engine speeds– this all-conquering drive train is destined to delight the driver of every M Performance vehicle.

The new BMW M140i Shadow Edition shown below in optional Black Sapphire metallic paintwork, LED headlights and rear lights with darkened surround, Black kidney grille frame and optional 18" M light alloy Double-spoke style 719 M wheels in Bicolour Jet Black.

M PERFORMANCE

The M leather steering wheel with optional Brushed Aluminium interior trim with Pearl Chrome finisher creates a dynamic look in the interior.

The exterior mirror caps in Ferric Grey.

An impressive emblem: the M140i designation on the rear.

Figures are obtained in a standardised test cycle. They are intended for comparisons between vehicles and may not be representative of what a user achieves under usual driving conditions.

Fuel consumption and CO₂ emissions can be affected by chosen wheels, tyres and optional equipment. For further information, please consult your local BMW Retailer.

EQUIPMENT HIGHLIGHTS.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

□ Adaptive LED Headlights with full LED technology include integrated LED turn indicators, low and high beam, as well as daytime running lights for safety and optimal illumination of the road. High-beam Assistant and Adaptive Headlights with automatic adjustment significantly enhance visibility in the dark – for relaxed driving, almost like during the day.

■ The two-part rear lights with the characteristic L-shaped design. They each have a lighting element in the body as well as in the tailgate part of the light. Should the vehicle brake hard, the drivers of cars behind are warned in a very conspicuous manner by the dynamic brake light function with flashing brake lights.

□ The M Sport braking system has four-piston fixed calipers at the front and two-piston floating calipers at the rear in Blue with M designation and features large brake discs to ensure an outstanding braking performance.

□ The removable head on the tow bar ensures that the sporty design of the vehicle's rear is in no way negatively impacted when the tow bar is not being used. The equipment, which allows a bike rack to be mounted, features trailer stability control, as well as activation of the trailer light functions. The maximum trailer load is 1,500kg, depending on the engine fitted.

□ The electric glass sunroof with slide and lift function including sun protection, anti-trap protection, comfort opening and closing via remote control and one-touch function brings light into the interior and allows passengers to regulate the air flow rate according to their preference to create a pleasant interior climate. The integrated, automatically extending wind deflector guarantees a high level of acoustic comfort.

□ Interior and driver-side exterior mirrors with automatic anti-dazzle functionality, mirror memory and automatic dipping function on the passenger side for reverse parking.

□ Extended lighting creates an atmospheric ambience in the interior. It includes a variety of additional LED lights: front and rear reading lights, vanity mirror lights for driver and front passenger, front footwell lights, ambience light in the front and rear, door handle lighting, as well as exit lights in the front doors and exterior door handle light using LED technology.

□ The eight-speed Steptronic Sport automatic transmission adapts to suit individual driving styles. It ranges from comfortable cruising to very dynamic handling. In SPORT mode, the gear shifts are configured for maximum performance. It is also possible to change gears manually by using the gear lever or the gearshift paddles on the Sport leather steering wheel.

□ The through-loading system includes rear seat backrests that can be flexibly divided in a 40:20:40 ratio. For example, two passengers can be seated comfortably in the rear, while long objects such as ski and snowboard bags can be transported at the same time. The centre armrest features two cup holders.

EQUIPMENT HIGHLIGHTS.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

□ The BMW Professional Multimedia Navigation system, including USB interface, 8,8" LCD colour display and BMW Professional radio with a DVD player, comes with a three-dimensional map display and 20GB of memory. The system is operated intuitively via the iDrive Touch Controller or touch screen. Map updates are available for three years without license fees.

■ BMW Navigation system with iDrive Controller comes with a built-in 6.5" LCD colour display. Route guidance is provided via an arrow or map display, as well as verbally. The navigation system is operated intuitively via the iDrive Controller with direct menu control buttons and functional bookmarks or via voice control. Map updates are included for three years, renewable thereafter.

□ The Remote Services offered by the BMW Connected App allows various functions of the vehicle, such as locking and unlocking the car or displaying the car location, to be operated remotely. To use this feature, customers simply need to activate Remote Services once in the BMW ConnectedDrive customer portal at www.bmw-connecteddrive.co.uk.

□ Active Cruise Control with Stop&Go function maintains a preselected speed, as well as the distance to the vehicle ahead.³

□ Steering wheel heating quickly warms up the rim of the steering wheel at the push of a button – which is especially useful in winter.

□ Air conditioning, automatic with two-zone control includes Automatic Air Recirculation (AAR) with an active carbon filter, as well as fogging and solar sensors.

□ The seat heating for driver and front passenger heats the seat surface and middle section of the backrest to one of three levels as desired.

□ Speed Limit Display including the no-overtaking indicator detects current speed limits and no-overtaking signs and shows them on the Speed Limit Display in the instrument cluster.

■ The multi-function buttons for the steering wheel can be used to operate the telephone, voice control and audio functions as well as the speed limiting function.

□ WiFi Hotspot Preparation enables connection of up to ten mobile devices to the internet via the in-built SIM (depending on local LTE availability). Subject to cost, data plans can be purchased via the mobile network operator when connected to the vehicle.¹

□ Park Assist makes parking simple. The system works by measuring potential parking spaces while driving past at a low speed. When a suitable space has been found, the Park Assist takes over the steering, while the driver is responsible for selecting the correct gear, as well as pressing the accelerator and brakes.

□ Enhanced Bluetooth with wireless charging offers a comprehensive telephony package with Bluetooth connectivity and the technical capacity for a WiFi hotspot. Includes LED charge level indicator and forgotten mobile phone warning. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected simultaneously via Bluetooth. Bluetooth Office is also included.¹

□ Apple CarPlay preparation enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay®, operated seamlessly via the vehicle's user interface. This allows iPhone® content, along with functions such as music, iMessages/text messages, telephony, Siri, navigation and selected third-party apps to be displayed and operated via the vehicle's user interface and via Voice Control.²

□ Driving Assistant combines Lane Departure Warning and Forward Collision Warning systems. When travelling at speeds up to 35mph Forward Collision Warning and Preventive Pedestrian Protection issue a warning if there is a risk of collision with vehicles or pedestrians, and brakes the vehicle in the event of an emergency. At speeds above 45mph, the Lane Departure Warning draws the driver's attention to an unintentional lane change by vibrating steering wheel.⁴

□ The Reversing Assist camera enables improved orientation when reversing at speeds below 10mph, for example, when parking. It shows the area behind the car on the Control Display. Interactive track lines for measuring distance and turning circles assist the driver when manoeuvring, obstacles are marked in colour.

¹ WiFi Hotspot data subscription costs apply and must be purchased separately.

² The compatibility and range of functions from Apple CarPlay® depend on the model year and the software installed on the iPhone®. When the Apple CarPlay® preparation is used, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for further data processing.

³ Not available for the M140i models.

⁴ Function may be limited in darkness or in fog.

GENUINE BMW ACCESSORIES.

■ Standard equipment □ Optional equipment ○ Accessories

For up to five pairs of skis and compatible with all BMW roof rack systems. Can be opened from both sides and has triple central locking on each side.

19" light alloy wheels in Orbit Grey, gloss-lathed on the visible side. RDC complete wheel set with run-flat mixed tyres, wheel size 7.5J x 19 (front) and 8J x 19 (rear).

○ Lightweight, sturdy rear bike rack for two bikes/e-bikes (can be extended to accommodate three bikes). Carries up to 60 kg and can be folded up compactly.

○ The BMW Head-Up Screen puts vehicle and navigation information into the driver's line of sight – in combination with a smartphone interface.

○ Adjustable seat for children aged approx. 3 to 12 years (approx. 15–36 kg). With patented air pads for increased protection against impact and ISOFIX connectors.

○ Secure base for the Apple iPad® 2, 3 or 4. The holder is snapped into the basic carrier and can be rotated 360° as well as tilted to the desired angle.

○ Anti-slip, water-resistant, durable mat for protecting the luggage compartment from dirt and moisture. In black/light grey; colouring complements the interior.

○ Perfectly fitted protection against moisture and dirt, the BMW All-weather floor mats keep feet from getting wet in the front footwell.
