

A close-up, low-angle shot of a BMW 3 Series wheel. The wheel features a multi-spoke alloy design with a silver finish. In the center is the BMW roundel logo. Behind the spokes, a blue M Sport brake caliper is visible, featuring a white 'M' logo with orange and blue stripes. The tire is a black performance tire with visible tread patterns and sidewall markings. The car's body is painted in a vibrant blue color, with a small orange reflector visible on the fender above the wheel.

¹ Does not come equipped with spare wheel and tire.

² Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

³ Performance tires include Mobility Kit; not recommended for driving in ice and snow conditions.
