

1992 BUICK

Skylark

SkyLark

Buick Quality. Buick Safety.

Buick Comfort. Buick Convenience.

These qualities are reflected in the richest assortment of standard

equipment we have ever offered in

a compact Buick. Each was designed in right from the start to benefit driver

and passengers alike. And that adds

up to another Buick quality...Buick

Value. The all-new Buick Skylark.

It's going to make a lasting

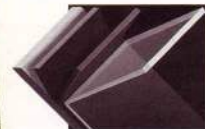

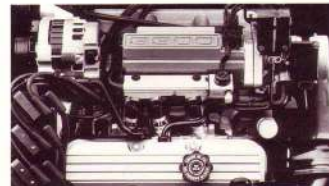

impression on you.

► Foreground: Skylark Sedan with optional 15-inch wheelcovers. Background: Skylark Gran Sport Sedan.

Its quality makes a lasting impression for the nineties.

► **Powerful 3300 V-6 engine.** Enjoy confident performance with the 160-horsepower, multi-port fuel-injected 3300 V-6 engine, which offers smooth acceleration with plenty of reserve power for merging and passing. Standard on Gran Sport. Optional on Skylark.

▲ **Corrosion resistance.** For a good, long-lasting impression, all exterior body panels are protected with 2-sided galvanized steel (except roof) for excellent corrosion resistance. And a basecoat-clearcoat paint process increases luster as well as improves durability.

▲ **Long-lasting stainless steel exhaust.** Skylark's stainless steel exhaust system offers thousands of miles of reliable and durable operation.

▼ **All-new style.** Skylark's dramatic all-new aerodynamic silhouette slips through the wind with flush-mounted glass and recessed door handles. The result: a low coefficient of drag that translates into a quiet ride and good fuel economy. See EPA mileage estimates on page 8.

- Comfortable headrests. The easy-to-adjust articulating headrests offer extra comfort for the Gran Sport driver and front passenger.

- ▼ Gran Sport interior comforts. The standard trim offers a combination of rich leather and soft cloth in the seating areas. Also included: rear-seat ventilation/heat ducts, front-seat header storage console, driver and passenger vanity mirrors and front-door map pockets.

Its comfort will put you at ease.

- ▼ Seatback recliners.

Skylark's driver and passenger seatback recliners allow you to adjust your position for optimum comfort and accessibility to controls.

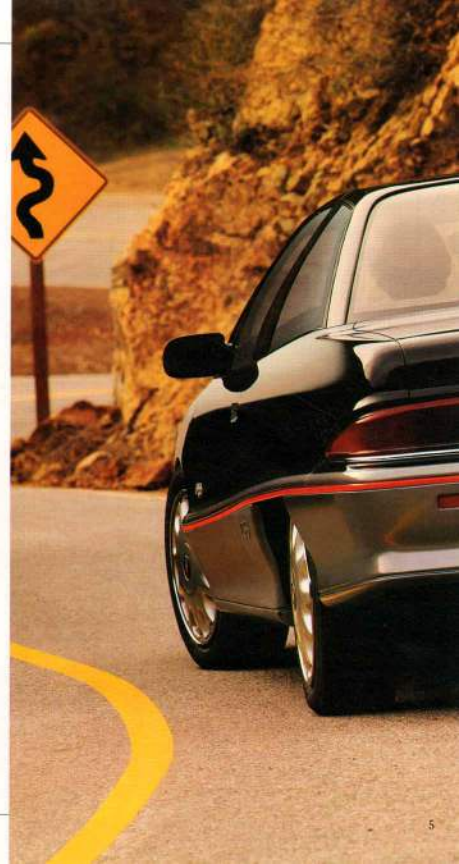

- ▲ Driver's seat lumbar support. Enjoy the extra comfort that Gran Sport offers your back with the adjustable lumbar support.

- DynaRide® Skylark's standard suspension system provides for a smooth and responsive ride over all types of roads.

- ◀ Adjustable Ride Control. For impressive road management, the all-new Adjustable Ride Control system lets you adjust the suspension feel for varying road conditions or your own personal preference. Standard on Gran Sport, optional on Skylark.

It's loaded with convenience.

- ▼ Split folding rear seat. A standard 60/40 split folding rear seat allows you to carry skis, poles and other long, bulky items.

- ▲ Handy front-seat storage armrest. This bucket-seat storage compartment offers ample room, a tissue dispenser and two rear-seat cup holders (not shown).

- ▲ Remote releases for trunk lid and fuel filler door. Both trunk lid and fuel filler door releases offer an extra measure of security and convenience.

- ▲ All-new stalk-mounted controls. They are located within fingertip reach for ease of use. Headlamps and turn signals are on the left (not shown), wipers on the right.

- ◀ Low-liftover trunk. The fully lined low-liftover trunk is designed for easy loading and holds more than 13 cubic feet of cargo.

- ▲ Center console storage. Enjoy the added convenience of a driver-side cup holder, coin keeper and more room for your compact discs when the ashtray is removed.

- ▲ 120-horsepower 2.3-litre Quad OHC engine. The only scheduled maintenance needed for normal operation during your first 100,000 miles is oil, oil and air filters and spark plug replacement. Standard on Skylark.

- ◀ Trunk convenience net. Skylark's optional trunk convenience net helps to secure your grocery bags and keep other items from spilling over. Standard on Gran Sport.

- Illuminated heater and defroster controls
- Tires with built-in tread wear indicators
- Safety road wheel rims
- Pressure-relief fuel cap
- Audible brake lining wear indicators, disc brakes
- Door warning light/reflectors
- Brake/transmission shift interlock

Important: A word about this brochure.

We have tried to make this brochure as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Buick dealer for complete details.

A word about engines.

Buicks are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

A word about assembly of Buicks.

Buicks are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Buicks incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buicks with different or differently sourced components than originally scheduled. All such components have been approved for use in Buicks and will provide the quality performance associated with the Buick name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

A word about warranty.

The GM 3-year/36,000-mile BUMPER TO BUMPER PLUS WARRANTY covers repairs for any new Buick, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle (except tires, which are covered by their manufacturer) will be covered for 3 years or 36,000 miles, whichever comes first. Body sheet metal rust-through from corrosion is covered for 6 years or 100,000 miles, whichever comes first. See your Buick dealer for terms of this limited warranty. Supplemental Inflatable Restraint coverage is 3 years regardless of mileage.

A word about corrosion protection.

Buicks are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years/100,000 miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage.

New-vehicle inspection and delivery.

When you purchase a new Skylark you are provided a "Premium Delivery Experience." Dealership sales and service personnel follow procedures which include two thorough pre-delivery inspections, an explanation to you of all features, owner's manuals, warranty, maintenance and dealership policies, a demonstration ride, a full tank of gas and a follow-up contact to make sure that you are indeed very satisfied with your Buick Skylark purchase.

The GM Protection Plan.

It offers service protection in addition to that provided by GM's new-vehicle limited warranty. Coverage is currently available only in the U.S.A. and Canada for the 1992 model year. See your Buick dealer for details.

SMARTLEASE™

Many Buick dealers offer you the opportunity to buy or lease a Buick. Ask about SMARTLEASE™. It may be right for you.

Buick Roadside Assistance.

Buick is proud to offer 1992 Skylark owners the response, security and convenience of our Roadside Assistance program. Simply dial 1-800-252-1112 when service is needed, 24 hours a day, 365 days a year.
