

2016

SRX

INSPIRED
FORM
AND
FUNCTION

S P A C E , S A F E T Y A N D S T Y L E

Underneath its striking looks, the 2016 SRX seamlessly combines a spacious, versatile cabin with a suite of high-tech innovations, cut-and-sewn details and strong safety features. It's a crossover that leaves no room—or need—for compromise.

PART I
THE FEELING

CAPTIVATE AN AUDIENCE

TRANSFORM WITHOUT SACRIFICE

ELEVATE THE EVERYDAY.
THE 2016 SRX.

PART II
THE FEATURES

EXTERIOR

Sharp lines take on sharp curves. The SRX is a bold expression of automotive style. With its chiseled exterior, jewel-like headlamps and athletic stance, it's a crossover that cuts an impressive figure on any road.

SCULPTED, AERODYNAMIC EXTERIOR

Form meets function. Sharp, sculpted lines help improve aerodynamics. Available HID headlamps illuminate your path and make a striking first impression. And energy-efficient LED taillamps turn heads while showcasing a graceful exit.

HID HEADLAMPS

See more than what's right in front of you. Available High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting guide you around corners at night, while IntelliBeam technology, available with the Driver Awareness Package, automatically turns on and off high beams as needed.

ILLUMINATED FENDER VENTS

Details that delight, even after dark. Side fender vents are illuminated with LED lights, creating a subtle, signature glow.

20" WHEELS

Ride high, stand apart. On the Performance and Premium Collections, select 20" wheels in a range of finishes that are sure to stand out. Every wheel option on the SRX is equipped with H-rated all-season tires, giving you improved handling year-round.

LED TAILLAMPS

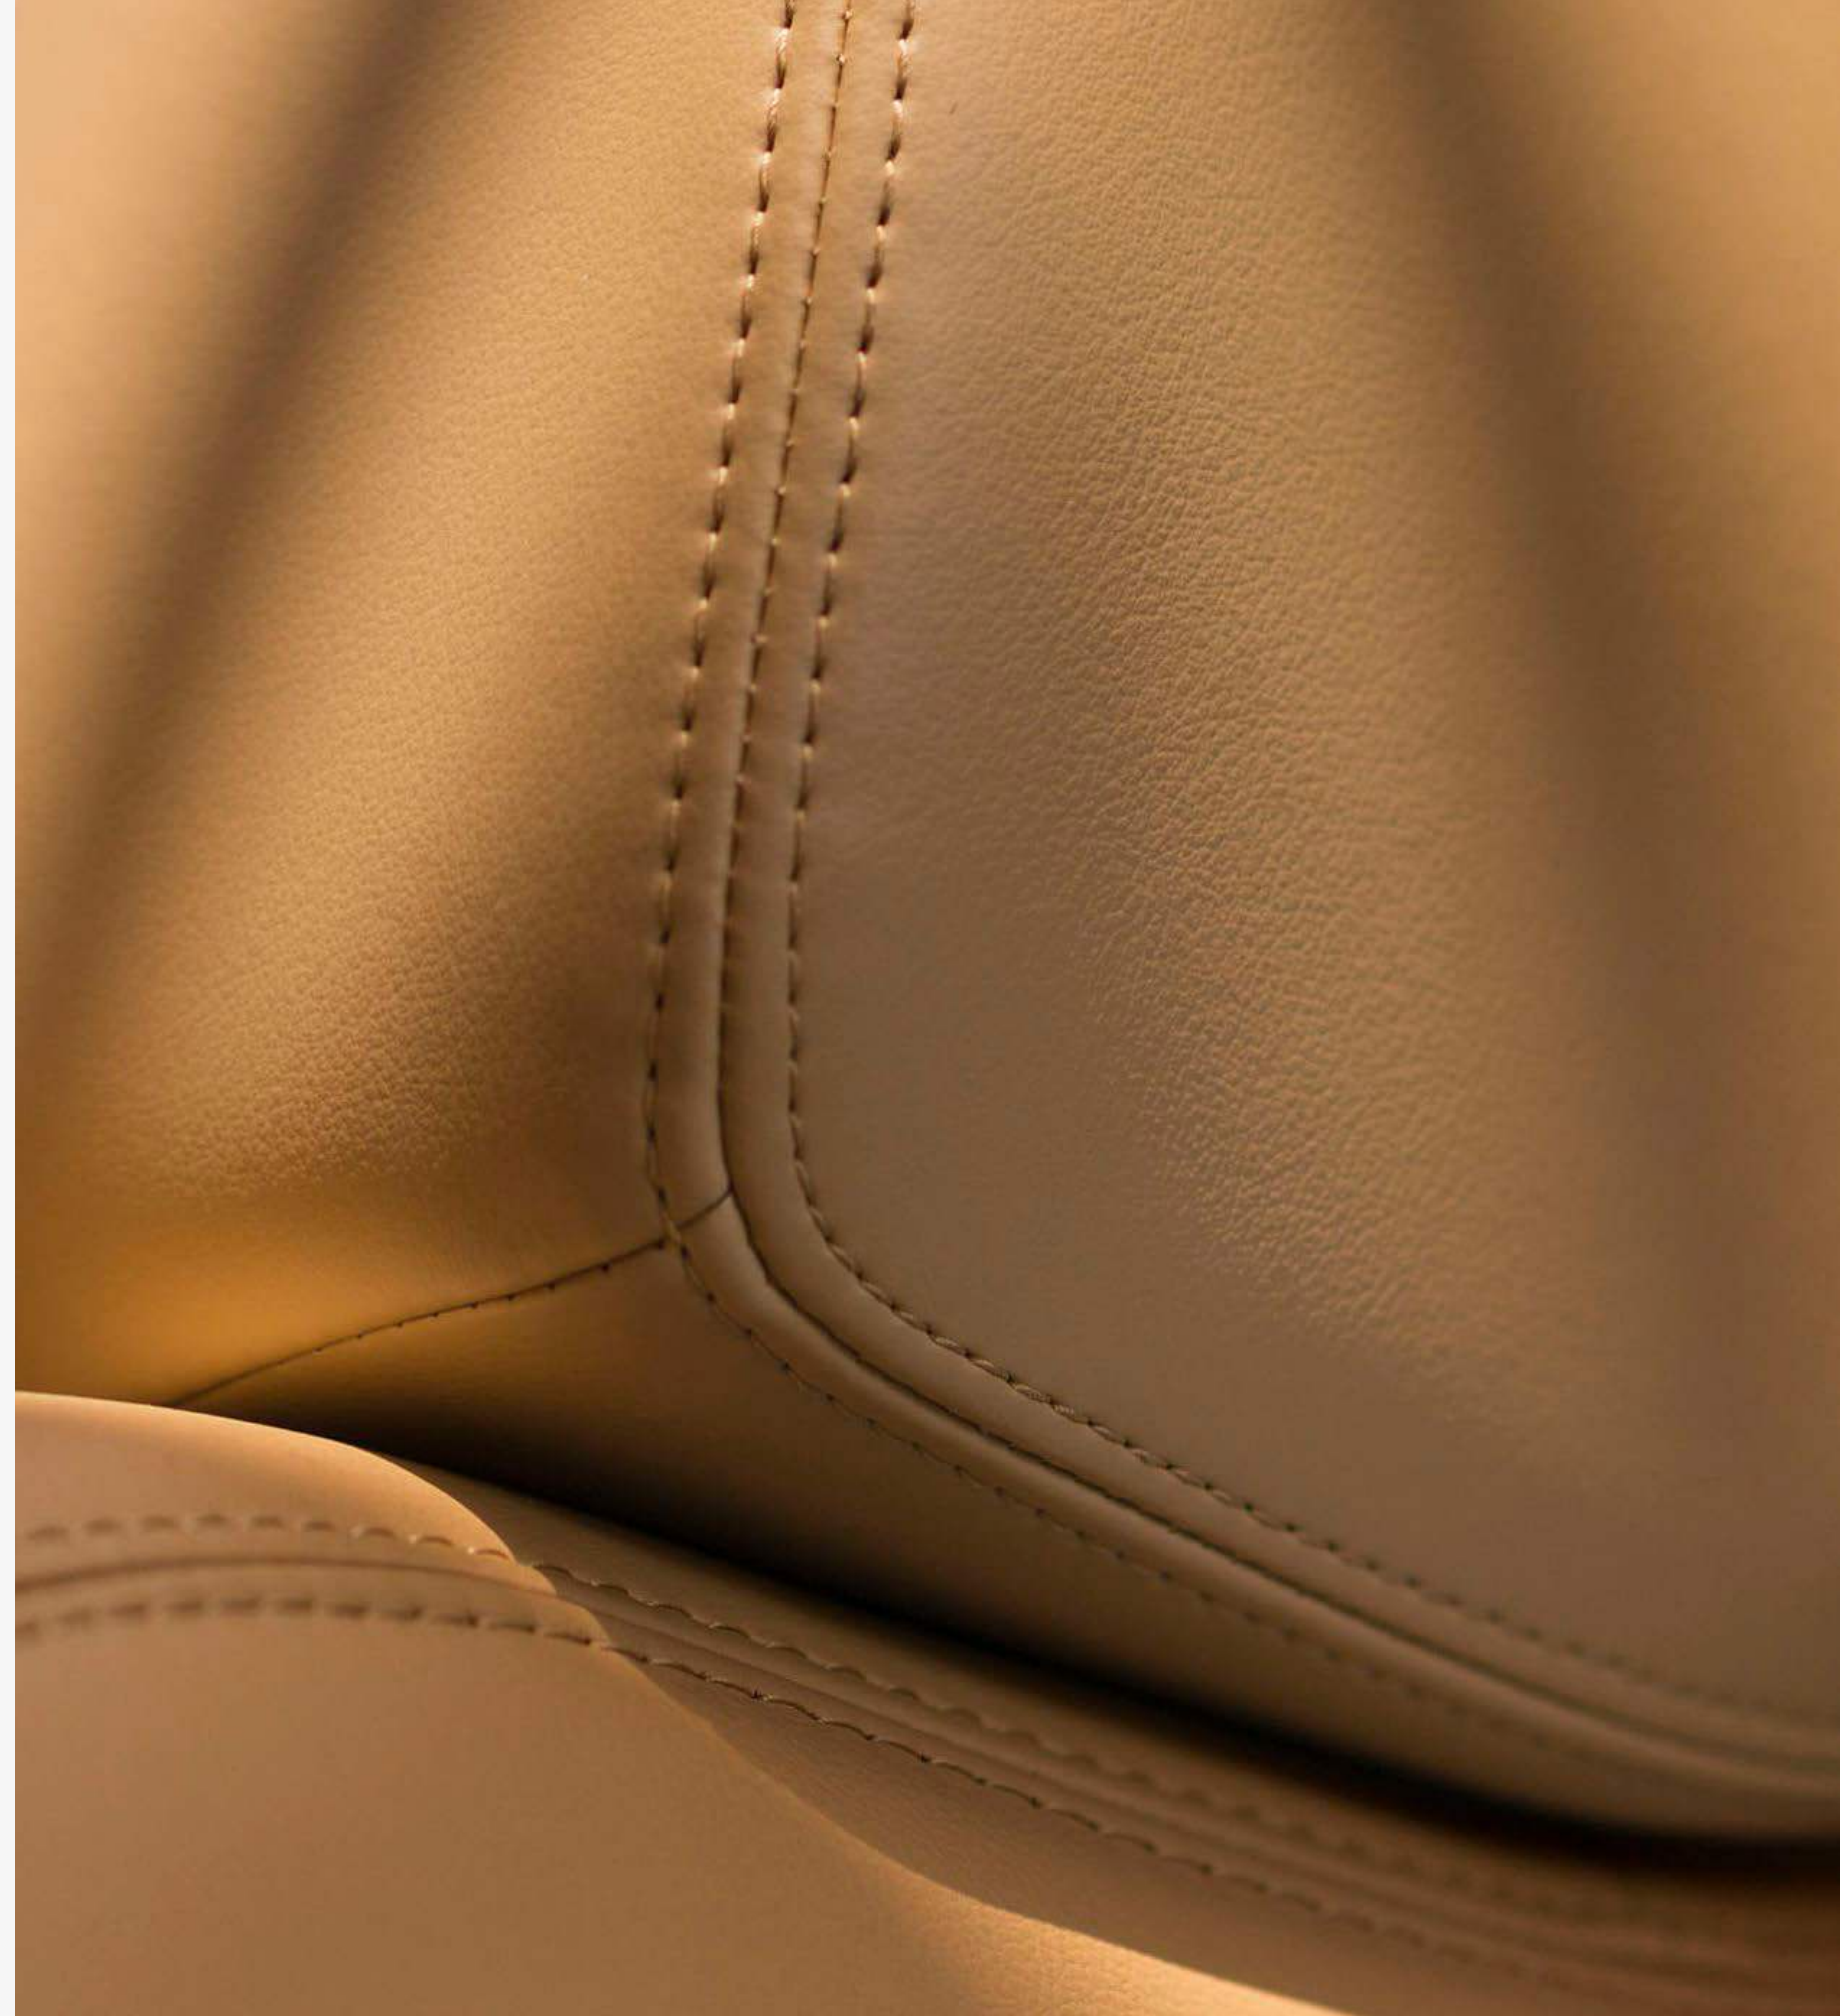

Elegant and efficient. The razor-thin blades of the LED taillamps are not only eye-catching, they use less energy than traditional bulbs.

INTERIOR

Bold styling meets modern amenities. Details like hand-stitched leather and genuine wood trim are paired with a suite of cutting-edge technology and safety features, so you don't have to sacrifice beauty for convenience.

STUNNING MATERIALS

Details that please the eye, and the touch. Available interior offerings like genuine Sapele wood trim and leather-appointed seating are inviting and feel exceptional.

HEATED AND VENTILATED FRONT SEATS

Seats that satisfy, whatever the weather. Available heated seats keep things cozy in cold climates. And when the weather is warm, available ventilated front-row seats keep you feeling refreshed.

CADILLAC CUE®¹

Real-time updates, right at your fingertips. Cadillac CUE connects you to a wealth of music, entertainment and communication systems, including available 3-D GPS Navigation², Doppler weather and XM NavTraffic.³ Activated by proximity sensors, Cadillac CUE comes to life when your hand is near, pulsing to let you know it is responding to your command. Cadillac CUE features are also easily accessible with voice-activated technology and steering wheel controls, so you can keep your attention on the road ahead.

TRI-ZONE CLIMATE CONTROL

Comfort on your terms. Available Tri-Zone Climate Control regulates the interior temperature across three separate areas—driver, front passenger and rear—keeping everyone satisfied. Also included in this package are second-row onboard heated seats.

REAR SEAT DVD ENTERTAINMENT SYSTEM

Two times the entertainment. Flip open two available rear-facing, 8" diagonal screens on each seat and view Blu-ray™ DVDs. Backseat passengers can enjoy different content on each screen with the dual-play capability—watch a movie on one, play a video game on the other. Add in a remote control and two sets of wireless headphones, and your passengers are in for hours of enjoyment.

¹ Cadillac CUE functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. ² Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. ³ If you subscribe after your trial period, *subscriptions are continuous until you call SiriusXM to cancel.* See SiriusXM Customer Agreement for complete terms and geographic limitations at www.siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change.

QUIET INTERIOR

Hear only the sounds you want to hear. Triple-sealed doors, acoustic windshield and front-side glass help insulate the cabin from outside noise, so whether you prefer music or the sound of silence, only you determine the soundtrack to your drive.

MEMORY PACKAGE

The perfect fit, every time. The available Memory Package can record two driver presets, recalling the preferred positioning of the adjustable pedals, driver's seat and outside mirror angles for each driver. Every time you step inside the SRX, you'll have a seat that feels like your own.

ULTRAVIEW SUNROOF

As much sun—or shade—as you desire. The available UltraView Sunroof spans both seating rows for a striking display. And when the sun shines too brightly, a power sunshade blocks out light and keeps the cabin cool.

FUNCTIONALITY

A stylish use of space. The SRX easily seats five while leaving ample room for your belongings. Carefully considered design elements provide a place for the things you travel with most—there's even a chilled glove box for keeping drinks cool. And with an available Power Liftgate and Cargo Management System, packing and unpacking are as close to effortless as they'll ever be.

POWER LIFTGATE

Open the trunk with just a touch. A simple tap activates the available Power Liftgate so you can load and unload packages with ease. And memory settings help you avoid overhead obstacles by allowing you to program the maximum height of the liftgate.

60/40 SPLIT-REAR SEAT & CARGO MANAGEMENT SYSTEM

Seating that adapts to your style. The SRX fits up to five passengers, but when you need it, the rear seats fold down along a 60/40 split to create more space. Depending on the size of your cargo, you can fold the smaller side and have room for two rear passengers, or the larger side and keep room for one. Or, you can lay all three seats completely flat to create up to 61 total cubic feet of cargo room.

UNDERFLOOR STORAGE BIN

Hidden in plain sight. The storage bin beneath the rear cargo area conceals your valuables, as well as the available cargo fence when it's not in use. And the underside of the bin's cover is equipped with hooks, so you can hang shopping bags without damaging what's inside (above, right).

AVAILABLE KEYLESS ACCESS

Easy in, easy out. Available Keyless Access allows you to lock and unlock the doors of the SRX without removing the key fob from your purse or pocket. The key fob can also activate the Power Liftgate. Pressing the liftgate button twice opens or closes it, while one press keeps it from moving, so you can load and unload packages swiftly and smoothly (above, right).

INTEGRATED ROOF RAILS

Elegance meets functionality. The integrated roof rails on the SRX maintain a graceful, athletic shape. When paired with available cross rails, they offer even more cargo-carrying flexibility (above, right).

S A F E T Y

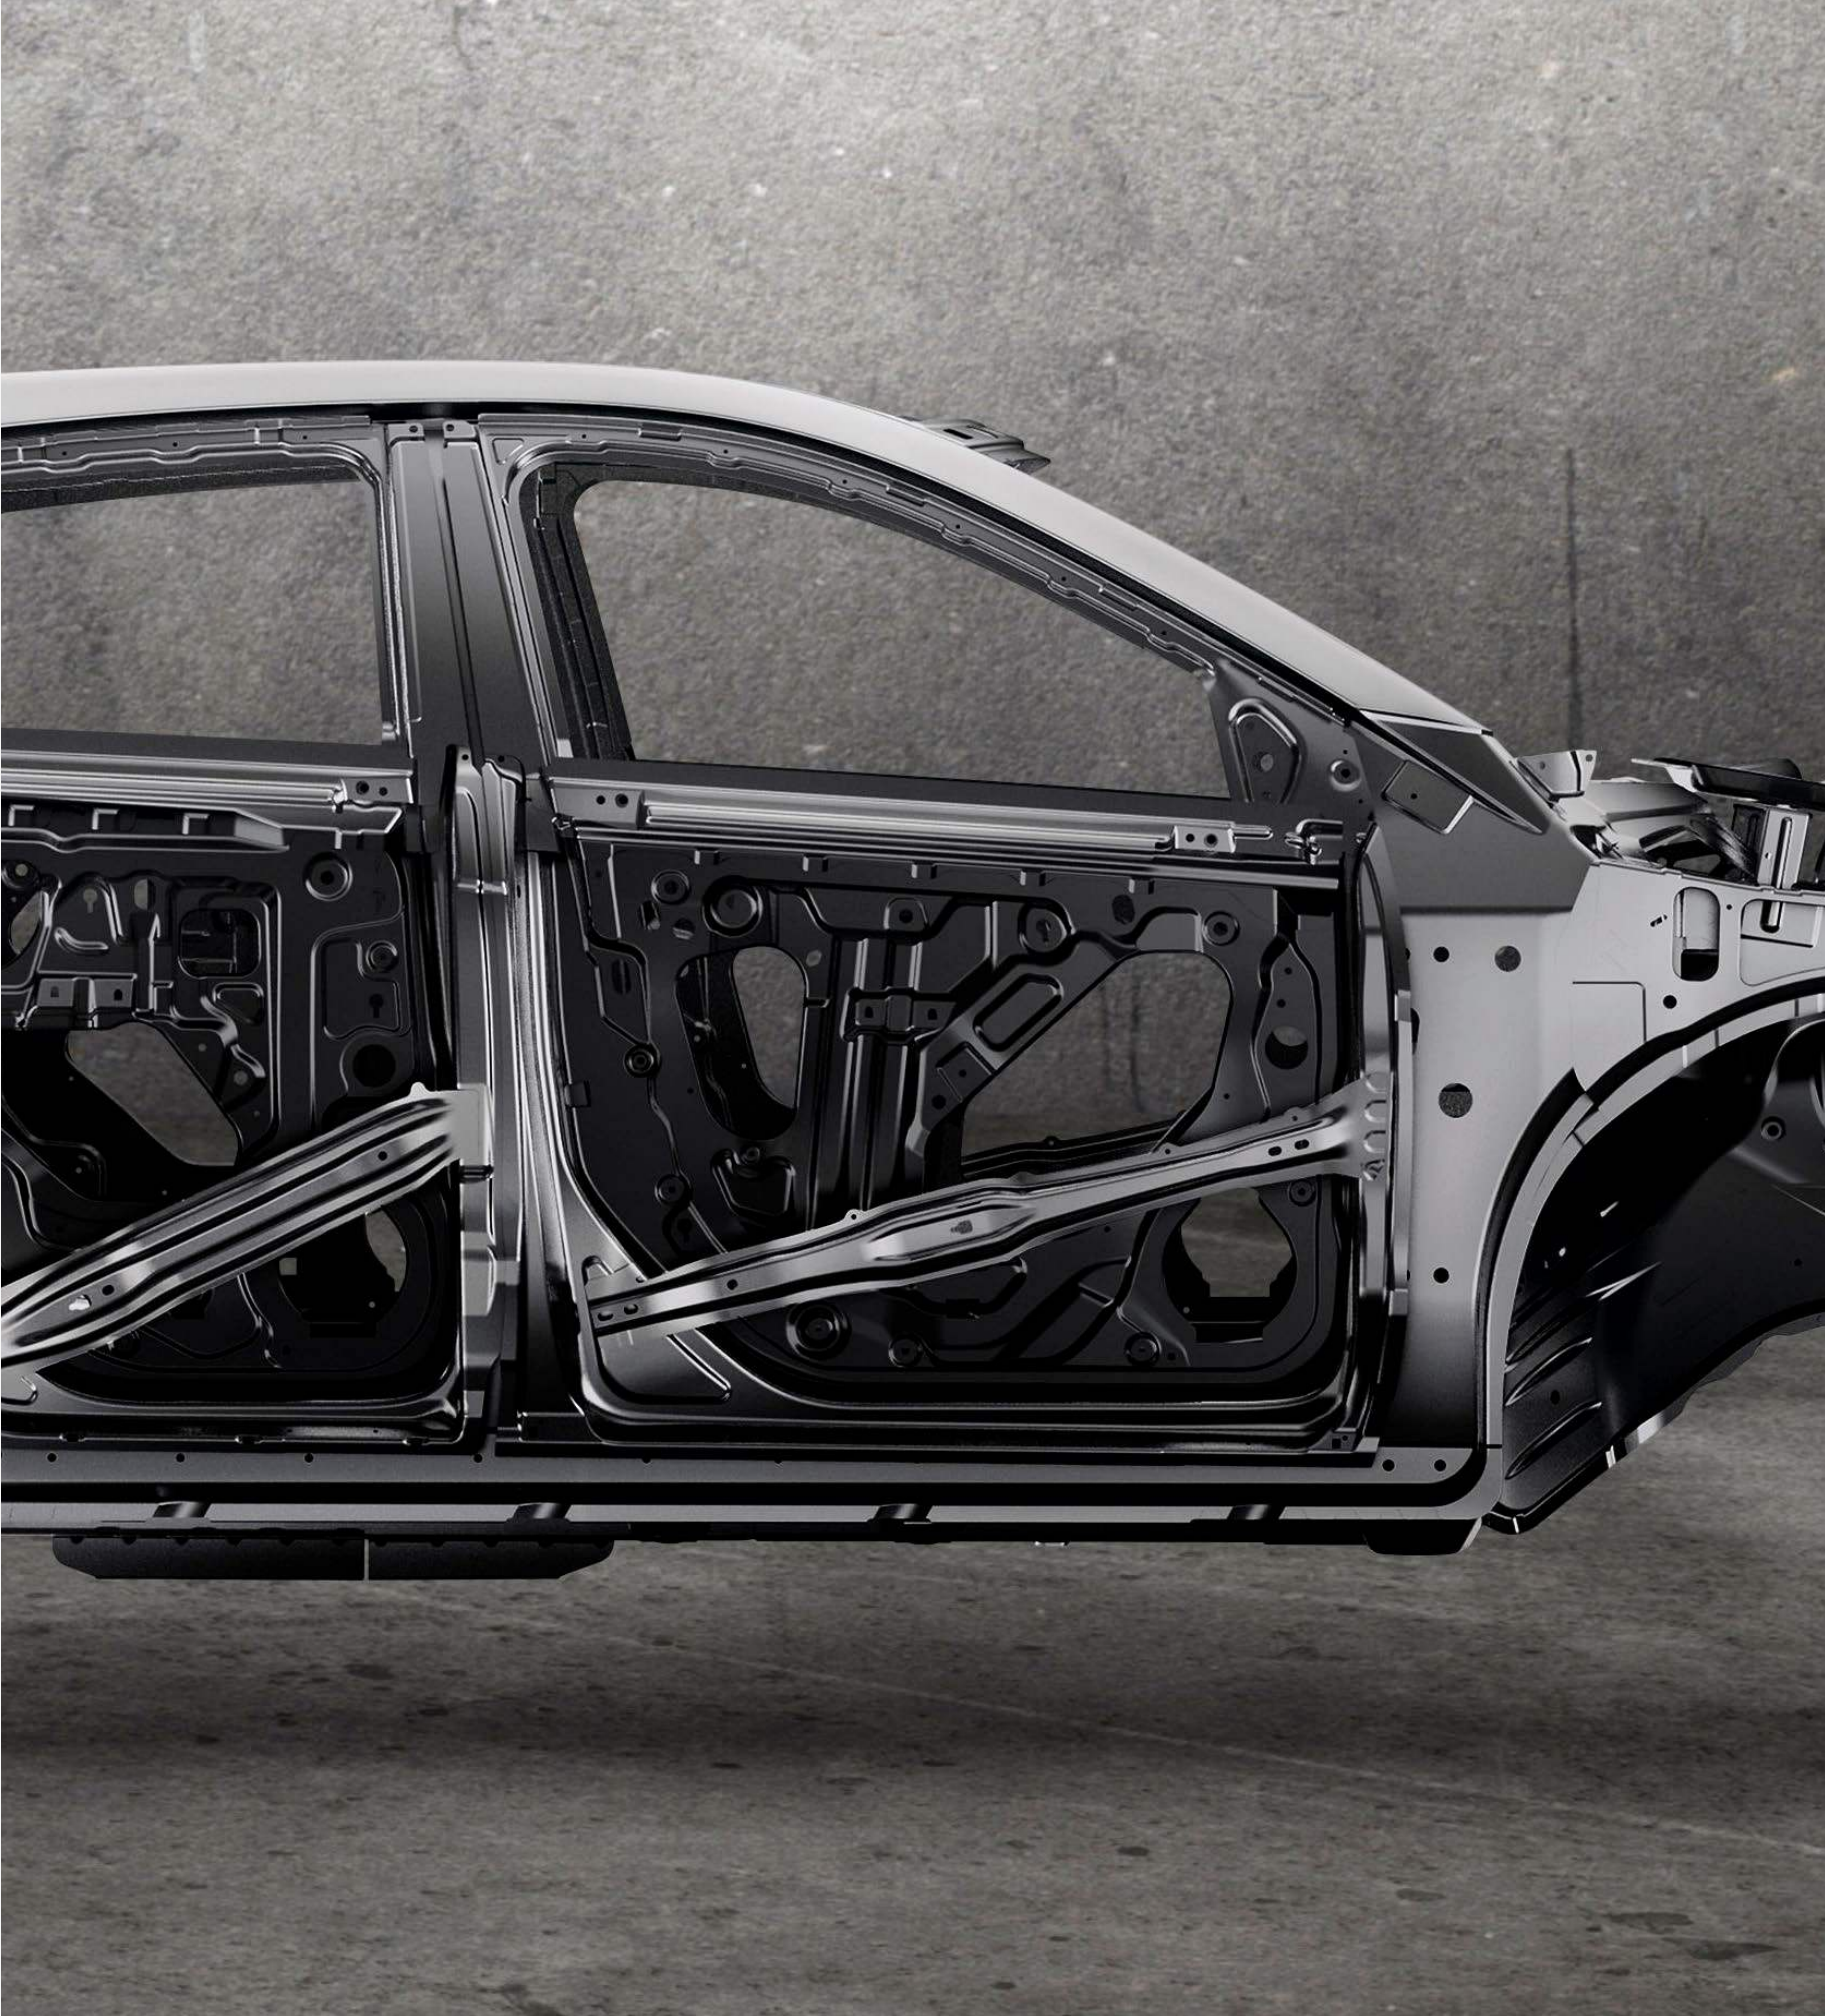

Safety where—and when—you need it. With its high-strength steel cage and strategically placed air bags¹, the SRX is built to help keep you and your passengers safe without compromising its stylish design. Plus, an available sophisticated network of radar sensors and cameras constantly monitor your movement and surroundings, alerting you to possible crash threats so you can take action to help avoid them.

FIVE-STAR OVERALL VEHICLE SCORE FOR SAFETY

Solid-steel reinforces peace of mind. The 2016 SRX has received a 5-Star Overall Vehicle Score² for safety—the government’s highest possible rating. Its safety cage is built from ultra-high-strength steel, with crumple zones positioned to help absorb and manage crash energy. Six air bags, including front- and second-row outboard head-curtain side-impact air bags, come standard, helping to reduce the risk of injury for you and passengers in outboard seating positions in moderate to severe side impacts.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times.

¹. Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner’s Manual for more information. ². Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program (www.SaferCar.gov).

SAFETY ALERT SEAT

Security you can feel. The Safety Alert Seat, available as part of the Driver Awareness Package, works in conjunction with the available safety systems to send subtle pulses through the left or right sides of the driver's seat. These alert you to potential road hazard risks as well as the direction from which they're coming.

STABILITRAK ELECTRONIC STABILITY CONTROL SYSTEM

Maintain control. StabiliTrak allows you to sustain handling during sudden movements, particularly in slippery conditions, emergency lane changes and obstacle avoidance.

SIDE BLIND ZONE ALERT

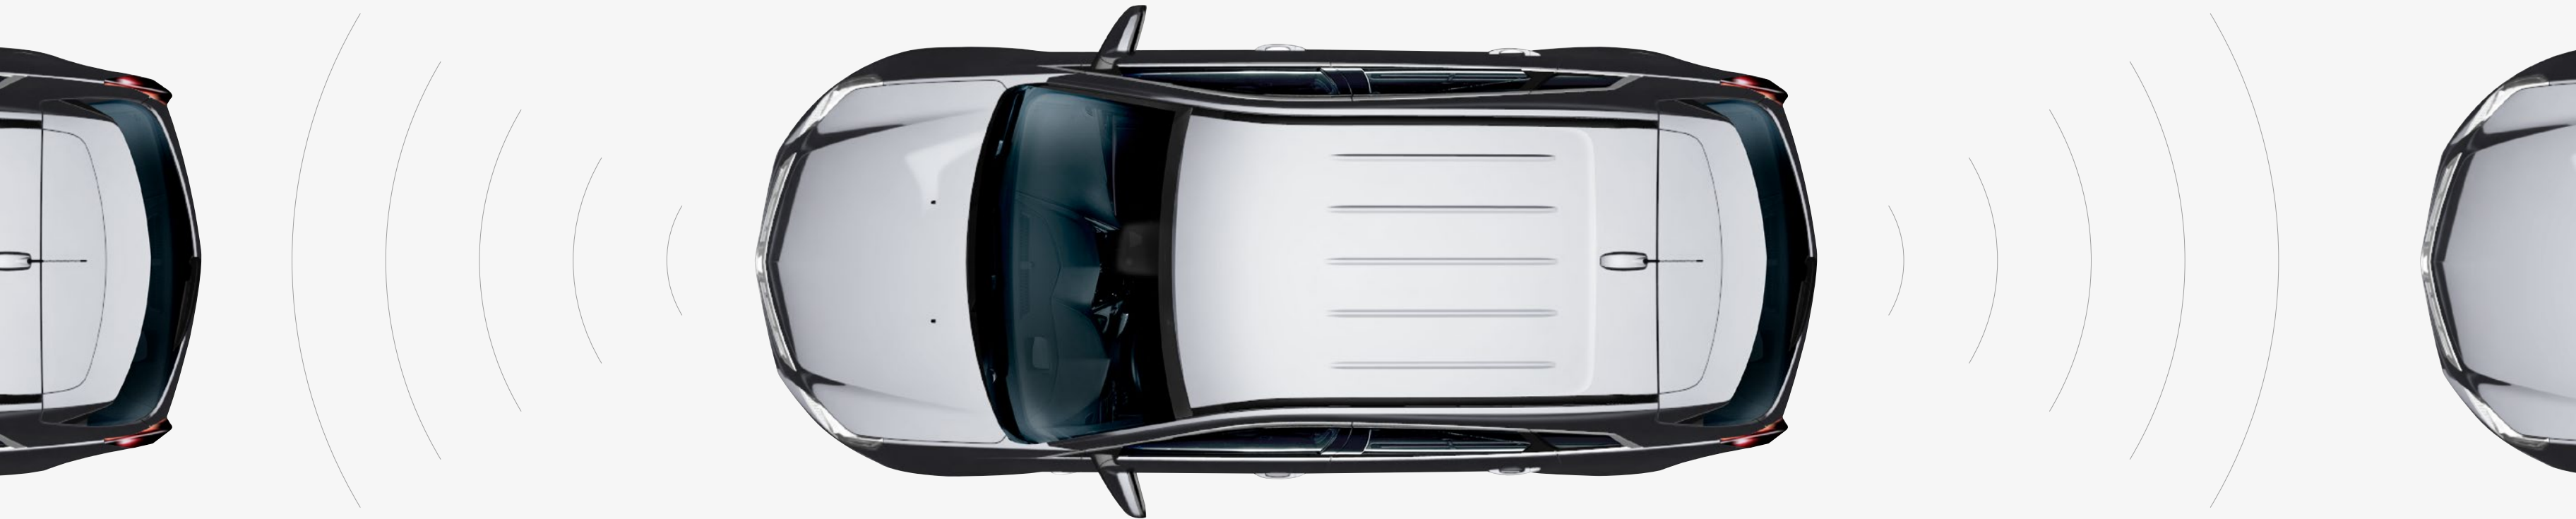

Your extra set of eyes. Available Side Blind Zone Alert¹ monitors your blind spots. If a vehicle is in your path when you're changing lanes, a light on the side mirror illuminates to alert you, helping to avoid a collision.

ONSTAR

Empowering you to stay connected. No matter where you're headed, OnStar² can help keep you safe, connected and ready for the road ahead. Automatic Crash Response³ comes standard for one year so that if the unexpected happens, you aren't on your own.

¹. Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rearview mirrors, look over your shoulder for vehicle and hazards and start the turn signal. ². Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. ³. Visit onstar.com for vehicle availability, details and system limitations. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data.

LANE DEPARTURE WARNING

Helping you stay on the straight and narrow. Lane Departure Warning, included in the available Driver Awareness Package, monitors the lines on the road. If you begin to drift into another lane without using your turn signal, the system, in conjunction with the Safety Alert Seat, sends a warning pulse through the seat cushion.

FORWARD COLLISION ALERT

Always looking ahead. Forward Collision Alert, included in the available Driver Awareness Package, uses a concealed front-mounted camera to detect the vehicle in front of you. If you are approaching too quickly, the system alerts you so you can take action to help avoid a crash.

REAR CROSS TRAFFIC ALERT

A great look, even when you're in reverse. Available Rear Cross Traffic Alert uses radar sensors and the Rear Vision Camera to warn of oncoming traffic on either side of your vehicle when backing out of a parking space.

FRONT & REAR PARK ASSIST WITH REAR VISION CAMERA

Parking made simple. Available Front and Rear Park Assist systems sense stationary objects when you're parking, warning you if you come too close. When you're in reverse, the available Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac CUE screen. Guiding lines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.

PERFORMANCE

An exceptional driving experience. Inside the SRX, you'll find a potent combination of V6 power and high-tech performance features. With its aerodynamic lines, available sport suspension and highly capable 3.6L V6 engine, the SRX was built to deliver a dynamically responsive and confident ride.

3.6L ENGINE

Confident performance. The V6 engine in the SRX has a reassuring 308 hp, so you can enjoy superior acceleration with a smooth delivery.

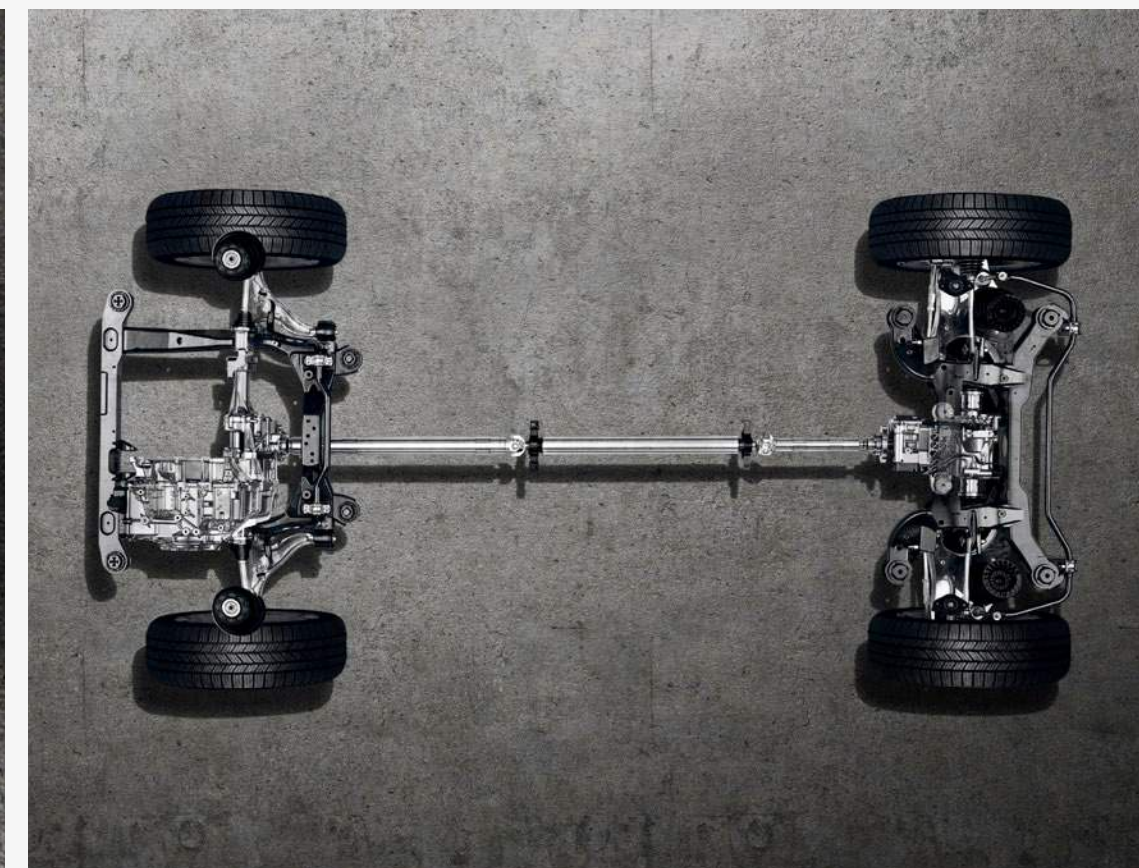

ALL-WHEEL DRIVE

Responsive handling in all conditions. When driving in challenging conditions like rain, snow or gravel, the available All-Wheel Drive with an electronic Limited Slip-Differential (eLSD) can anticipate potential loss of traction. The system automatically transfers engine torque to the affected wheels, helping you keep a firm grip on the road.

AUTO-DRY BRAKES

A reassuring ride, even in the rain. When your windshield wipers are activated, this feature automatically sweeps moisture away from the brake rotors, helping you maintain optimal stopping performance.

REAL-TIME DAMPING SUSPENSION

A smooth, stable ride. Available Continuous real-time Damping Control scans the road, adjusting damping forces every two milliseconds, depending on road conditions. That means the SRX delivers a more refined ride with exceptional cornering, acceleration and control—no matter what type of road you're on.

OWNER BENEFITS

We have created the most comprehensive suite of owner benefits offered by any prestige automotive brand in the world, providing everything our Cadillac owners need and everything they deserve.

PREMIUM CARE MAINTENANCE

The Cadillac Premium Care Maintenance program¹ covers routine oil changes, tire rotations, certain air filter replacements and a thorough multi-point vehicle inspection for 4 years or 50,000 miles.²

WARRANTY PROTECTION

All Cadillac vehicles come with a 6-year or 70,000-mile³ Powertrain Warranty. In addition, our 4-year or 50,000-mile³ bumper-to-bumper limited warranty covers repairs on your entire vehicle, including parts and labor, to correct any concerns in materials or workmanship.

ROADSIDE ASSISTANCE

Cadillac offers more years of standard Roadside Assistance than any leading luxury automaker, with services for 6 years or 70,000 miles.³ This 24/7 program provides lockout, towing, refueling, Dealer Technician Roadside services and more.

COURTESY TRANSPORTATION

This program provides alternative transportation and/or reimbursement of certain transportation expenses if your Cadillac requires warranty repairs for 6 years or 70,000 miles.³ That is more years of service standard than any leading luxury automaker.

MY CADILLAC APP⁴

The ingenuity of the SRX doesn't stop with the vehicle. As a Cadillac owner, an advanced app is available for your new car. From virtually anywhere at any time, a few taps of your finger on your iPhone[®] or Android[™] smartphone let you access features such as parking reminders, Roadside Assistance and more. Plus, in conjunction with the OnStar RemoteLink app, you'll have the ability to remotely start your vehicle (when factory-equipped with remote start) from any place you have cell service and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel tank level and range and remaining oil life.

ONSTAR

Standard for one year, the OnStar Guidance Plan⁵ (trial excludes Hands-Free Calling minutes) lets you connect to a specially trained OnStar Advisor just by pressing the blue OnStar button in your SRX.

AVAILABLE ONSTAR 4G LTE AND BUILT-IN WI-FI[®] HOTSPOT⁶

Now your SRX has an available built-in Wi-Fi hotspot, for connecting up to seven tablets, laptops or mobile devices at 4G LTE speed, so the content you crave is always headed where you are. Requires a data plan after the 3-month or 3 gigabyte data trial (whichever comes first).

ONSTAR BASIC PLAN⁷

With the Basic Plan, you've got a powerful connection to your vehicle and the world around you standard for five years at no additional cost to you. You'll have access to select services, which include limited features of the OnStar RemoteLink mobile app that lets you remote start your car, pinpoint your vehicle on a map on your smartphone and manage your vehicle's Wi-Fi hotspot. Plus, send a destination to your in-vehicle navigation screen (if equipped) and lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs by email.

AUTOMATIC CRASH RESPONSE

In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected into your vehicle to see if you need help—even if you can't ask for it.

EMERGENCY SERVICES

One push of the red emergency button gives you a priority connection to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you're never alone.

CRISIS ASSIST

During severe weather or other crisis situations, OnStar can provide a quick, central point of contact when you need emergency assistance, navigation help or information.

ROADSIDE ASSISTANCE⁸

If you're stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get help to your exact location to get you back on the road quickly.

STOLEN VEHICLE ASSISTANCE⁹

If your vehicle is stolen, OnStar can use GPS to pinpoint and work with authorities to quickly help recover it. On many models, an Advisor can send a signal to slow the vehicle or prevent it from being restarted. And with the new Theft Alarm Notification feature, if your car alarm sounds, you'll receive a notification by text, email or phone call.

TURN-BY-TURN NAVIGATION¹⁰

Getting directions is as easy as pushing a button and telling an Advisor where you want to go. Directions are quickly downloaded to your car, and a voice calls out every turn. An Advisor can also help you with a database of over 14 million points of interest. To plan routes in advance, you can send directions to your vehicle through an Advisor or the OnStar RemoteLink mobile app.

ONSTAR 4G LTE CONNECTION⁵

With powerful 4G LTE connectivity built right into your vehicle, you have your very own mobile command center that provides faster service delivery and lets you stay connected on the go.

ONSTAR REMOTELINK MOBILE APP¹¹

You can remotely start your vehicle, locate your vehicle on a map, lock or unlock your doors, honk your horn and flash your lights. You can also send directions to your vehicle through your smartphone.

REMOTE SERVICES¹²

A simple call to an OnStar Advisor can send a signal to unlock your doors or honk the horn and flash the lights. It's technology hard at work to get you back on the road.

HANDS-FREE CALLING¹³

Your vehicle has built-in Hands-Free Calling to help keep you safely connected when your cell phone isn't available. Choose from minute bundles or a minutes-per-month plan.

ATYOURSERVICE¹⁴

OnStar AtYourService is a new way to discover value in the places you go. You get valuable offers for better ways to eat, work, shop and play, through a simple press of the blue OnStar button.

ADVANCED DIAGNOSTICS¹⁵

Feel confident and safe knowing you have a self-diagnosing vehicle. Now your vehicle can easily run a check on its key systems and send you a monthly diagnostics report. You'll know more and worry less with Advanced Diagnostics.

DEALER MAINTENANCE NOTIFICATION¹⁵

Is it time for a tire rotation? An oil change? Or a new air filter? You'll always know because your car can email your diagnostics report to the dealer when it's time, and the dealer will contact you to set up a service appointment.

¹. Standard on all 2011 or newer vehicles. ². Whichever comes first. See dealer for select scheduled maintenance details. ³. Whichever comes first. See dealer for limited warranty details. ⁴. Visit onstar.com for details and system limitations. Message and data rates may apply. Requires active OnStar service, email address on file and enrollment in Advanced Diagnostics.

ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

TIRE SEALANT AND COMPRESSOR KIT

If your vehicle has a tire sealant and compressor kit, it uses a liquid tire sealant to temporarily seal up to a ¼-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than ¼-inch or a tire that has unseated from the wheel. The sealant can only be used on one tire, one time before its expiration date.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4356 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every 2016 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible, Roadside Assistance Program¹ and Courtesy Transportation Program¹

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires — defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years and unlimited mileage. Cosmetic or surface corrosion — resulting from stone chips or scratches in the paint, for example — is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.
