

CT6 CT6-V

How do you drive the world forward?
Make luxury look simple?
Turbocharge a feeling?
Distill power, intelligence and style?
Create a sense of magnetism?
Execute every detail with precise purpose?
And do it all with ease?
Label it style. Timing. Gravitas.
Actually, you can label it this.

THE 2019 CT6

EXCEED EXPECTATIONS. RAPIDLY.

When it comes to performance, design and innovation, the 2019 CT6 offers you the single most important factor: choice. The first-ever CT6-V model, available mid-2019, boasts the insanely powerful 4.2L Blackwing™ Twin Turbo V8 engine,¹ so you can hear its subdued growl approaching from a distance. The Sport, Premium Luxury and Platinum models are available with Super Cruise™²—the world's first true hands-free driver-assistance feature for use on limited-access freeways.

Powertrain and technology options are also met with unique exterior and interior selections. The exterior of the CT6 Sport model is inspired by performance.

A distinct design motif matches the thrill of each drive with an aerodynamic mesh grille, sport wheels and summer-only tires.³ When only the finest amenities will do, choose the Platinum model with its Semi-Aniline leather, 15-setting massaging front seats.

No matter which CT6 model you select, you'll find each full of innovative features, distinctive lighting and an experience unlike any other. It is the culmination of more than a century of engineering, craft and advances that manages to look forward at what is to come.

¹. Mid-2019 availability. ². Even while using the Super Cruise driver-assistance feature, always pay attention while driving and do not use a handheld device. Visit cadillacsupercruise.com for more information. The 2019 Cadillac CT6 Super Cruise Package includes 3 years of OnStar to support functionality, after which an OnStar plan must be purchased. OnStar plan, working electrical system, built-in Wi-Fi Hotspot set to "on," cell reception and GPS signal required. OnStar links to emergency services. Subject to OnStar terms at onstar.com/us/en/user_terms/. ³. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to my.cadillac.com/learn/tires, or see your dealer.

CT6 Platinum in Crystal White Tricoat. Shown with available equipment.

AN ENGINE SO POWERFUL, WE GAVE IT A NAME.

Cadillac's all-new Twin Turbo V8,¹ appropriately named Blackwing, is available on Premium Luxury and Platinum models. For truly breathtaking performance, a higher-output iteration of Blackwing comes standard in the CT6-V.¹ Both engines are mated to an all-new 10-speed automatic transmission with AWD.

¹. Mid-2019 availability.

TECHNOLOGY TO TAKE YOUR HANDS AND BREATH AWAY

Meet Super Cruise,¹ available on Premium Luxury and Sport and standard on Platinum models, the first hands-free driver-assistance feature for use on limited-access freeways. Using precision LiDAR mapping, a state-of-the-art driver-attention system and a network of cameras and radar sensors, Super Cruise allows you to take your hands off the steering wheel and puts joy into your drive. New owners receive a 3-year Super Cruise Package to support Super Cruise functionality. To continue Super Cruise functionality after the 3-year Super Cruise Package ends, the vehicle owner is required to purchase an OnStar plan.

¹. Even while using the Super Cruise driver-assistance feature, always pay attention while driving and do not use a handheld device. Visit cadillacsupercruise.com for more information. The 2019 Cadillac CT6 Super Cruise Package includes 3 years of OnStar to support functionality, after which an OnStar plan must be purchased. OnStar plan, working electrical system, built-in Wi-Fi® Hotspot set to "on," cell reception and GPS signal required. OnStar links to emergency services. Subject to OnStar terms at onstar.com/us/en/user-terms/.

Thirty-four strategically placed Bose speakers. Exclusively designed for the CT6, the available Bose Panaray audio system makes the most of its innovative technologies. An immersive sound is formed from the union of vehicle and audio design. It relays a dynamic range and clarity, delivering an outstanding and uncompromised listening experience for all. This sound fills the cabin, while a new brushed stainless-steel custom pattern decorates select speakers throughout the cabin.

Above: The 34 speakers available with the Bose Panaray audio system. Right: The new center array pattern reveals itself when the system is on.

FOUR BOLD ENGINE CHOICES. ONE EXHILARATING DRIVE.

The CT6 is undeniably dedicated to performance with no less than four different engines and five levels of power. Choose from a provocative range starting with a responsive yet efficient 2.0L Turbo¹ up to the all-new, hand-built 4.2L Blackwing Twin Turbo V8², available mid-2019, with two available outputs. Exclusive to Cadillac, this engineering feat boasts titanium-aluminum turbine wheels in the turbochargers and assured power. The delivery is breathtaking.

All four engines are paired with a 10-speed automatic transmission that makes shifting between gears quick and precise. It can interpret driving conditions and automatically adjust to the needs of the driver for a smooth response.

Leading with the higher-output Blackwing V8² engine, that's exactly what the performance of the CT6-V² model will always allow you to do: lead. The CT6-V² places strength and agility firmly in your hands. From acceleration to cornering to open straightaways, grip the road with summer-only tires³ designed to deliver crisp response while retaining isolation and comfort.

An available mechanical limited-slip rear differential helps increase traction and offers more performance during spirited driving, while suspension tuning specific to the CT6-V² improves roll control, cornering capability and steering response. Wield that power with available high-performance, monoblock Brembo® front brakes for sure-footed stopping.

¹. Limited availability. ². Mid-2019 availability. ³. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to my.cadillac.com/learn/tires, or see your dealer.

No matter which engine you select, enjoy a smooth, responsive drive with Driver Selectable Modes. Choose from Tour, Sport, Snow/Ice and on CT6-V¹—Track. Each mode provides a unique driving experience, making commutes comfortable or turns tight.

Standard on all V6 and V8¹ models, All-Wheel Drive delivers enhanced control when you accelerate and turn, helping keep you in command—especially in wet road conditions. With the available Active Chassis Package, every wheel drives, steers and, with Magnetic Ride Control, adjusts vertical suspension damping within milliseconds, offering you complete maneuverability.

The lightweight CT6 architecture, featuring fusion-joining technology, is at the core of its agile handling and cabin quietness. With stats such as 220 lbs saved over traditional steel construction, 62 percent aluminum composition and 12 patents, the CT6 body has innovative bones.

Decisive, sharp and magnetic. Design you're driven to. From its bold-faced grille to its sleek, long and low proportions, the look is hard to resist and impossible to mistake. Aluminum body panels and signature lights; lines, curves and sweeping planes. Every element comes together seamlessly to create an understated yet riveting exterior. For 2019, you can choose between two distinctive paths, each with its own personality: Luxury/Premium Luxury/Platinum and Sport/V-Series¹. Each offers differentiated exterior finishes.

Expressive and contemporary, the Luxury, Premium Luxury and Platinum exterior finishes are accentuated with a bright grille finish and available 20" Premium select wheels.

¹. Mid-2019 availability.

200+

OVER 200 AVAILABLE
EXTERIOR LEDS

Inspired by performance, the Sport and V-Series¹ exterior finishes flash a dark theme that is expressed over the mesh grille. The window surroundings are black, while the spoiler, rockers and side moldings are body-color. The available 20" V-Series wheels are Ultrabright with Midnight Silver painted pockets for an overall darker look.

An aggressive design makes the headlamps slice through the air and employs bi-LED high-/low-beam projectors. These lights help your visibility and are a key facet of the vehicle's sweeping silhouette. The taillamps mirror the front design but present a rear exterior that is stylish and unmistakably Cadillac.

Approach the vehicle after dark with your Passive Entry key fob, and lights will activate in the headlamps, taillamps, outside mirrors and door handles with available Concierge Lighting.

CONDUCT A MOMENT. AT YOUR TEMPO.

Discover an interior teeming with modern comforts, curated aesthetics and savvy controls that result in the epitome of service. From its elegant materials and careful assembly to its many amenities and supreme comforts, the space evokes a new level of craftsmanship.

For your extended comfort, the seats inside the CT6 are crafted from premium materials and have unique contours that provide cushion and support. With generous rear leg room, passengers have ample space to relax for hours on end. You can also automatically control your interior climate when using Adaptive Remote Start. The available automatic heated front seats and steering wheel and ventilated front seats activate based on cabin temperatures to help make passengers comfortable.

The available Quad-Zone Climate System divides the interior into four sections, allowing passengers to tailor their individual temperature and airflow. An available Air Ionizer helps reduce airborne contaminants in the cabin, such as dust, pollen and odors, for the comfort of all occupants. Together, these features create an inner sanctuary.

Standard on Platinum, 20-way adjustable front seats, both heated and ventilated, also offer 15 unique massage settings. In addition, the armrest is equipped with USB ports.¹ The available Articulating Rear Seats feature reclining and tilting cushions with heat, ventilation and massage functions for outboard passengers.

UP TO SEVEN AVAILABLE
WI-FI-CONNECTED DEVICES

Our greatest invention yet. A rare breed, the CT6 is both athletic and intelligent with seamless technology that connects you to your world. The available Rear Seat Infotainment System features articulating 10" diagonal screens and connectivity for your personal devices, including using Wi-Fi¹ to stream content from your phone, tablet or laptop via HDMI and USB ports.² The screen also tilts for easy viewing and will remember that preferred position. Plus, if you happen to be relaxing while in Park, the front screen becomes available for entertainment, too.

The Rotary Infotainment Controller isn't an ordinary control knob. With polished aluminum, a fluted texture and a brilliant crystalline center along with light rings, it helps you physically navigate the Cadillac user experience.³ It puts a suite of information and entertainment offerings at your command, including climate, audio and connected Apps,⁴ letting you easily browse, select and install apps. Customize your content with music, audiobooks, weather apps and more (data plan rates may apply). And with Phone Integration and Apple CarPlay™ compatibility,⁵ you can access your contacts, Apple Music™ and other information from your iPhone.® Phone Integration also offers Android Auto™ compatibility.⁶

¹. Service varies with conditions and location. Requires active service plan and paid AT&T® data plan. Visit onstar.com for details and limitations. ². Not compatible with all devices. ³. Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices. ⁴. Additional data plan rates may apply. Third-party trademarks are the property of their respective third-party owners and used under agreement. Requires plan and paid AT&T vehicle data plan or compatible device with 3G/4G LTE tethering data plan. See onstar.com for details and limitations. ⁵. Vehicle user interface is a product of Apple® and its terms and privacy statements apply. Requires compatible iPhone® and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries. ⁶. Vehicle user interface is a product of Google™ and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android™-compatible smartphone running Android 5.0 Lollipop or higher. Data plan rates apply. Android Auto is a trademark of Google LLC. ⁷. Mid-2019 availability.

With the myCadillac mobile app² and a paid subscription, you can lock and unlock, remote-start and get select vehicle information from anywhere you have reception. Plus, next-generation, 5-watt wireless charging⁴ with a larger charge area for better phone compatibility allows you to power up your compatible smartphone anytime the vehicle is running.

In the unfortunate event that your vehicle is tampered with, available Surround Vision Recorder¹ technology could help capture the disturbance. When enabled, the system automatically records from select cameras if a door handle is pulled or when the alarm is activated.

Cadillac's innovative available Rear Camera Mirror¹ may allow you to see a wider, less-obstructed field of vision than with a traditional rearview mirror. This next-generation display uses a new selector switch that allows you to zoom in or tilt the view to your preference.

1. Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for important feature limitations and information. 2. Available on select Apple® and Android devices. Service availability, features and functionality are subject to limitations and vary by vehicle, device and the plan you are enrolled in. Device data connection required. Unlock feature requires automatic locks. Remote start requires GM factory-installed and enabled remote start system. Visit onstar.com for more details. 3. Service varies with conditions and location. Requires active service plan and paid AT&T data plan. Visit onstar.com for details and limitations. 4. The system wirelessly charges one PMA- or Qi-compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter/back cover. To check for phone or other device compatibility, see my.cadillac.com/learn or consult your carrier.

Select safety features shown.

SURROUNDED BY AVAILABLE SAFETY INNOVATIONS

EXPERIENCE FEWER SURPRISES IN THE DARK

Available **Night Vision** can provide the driver with an infrared night-vision image of the area beyond the headlamps that can highlight and provide alerts to detected pedestrians or large animals.

HELP KEEP AN EYE ON PEDESTRIANS

Available **Front Pedestrian Braking** uses a camera to scan the road ahead. The system can alert the driver to detected pedestrians and, if necessary, can apply the brakes to help avoid or reduce the severity of a potential collision. When in Reverse and after the **HD Rear Vision Camera** is displayed, available **Rear Pedestrian Alert** can provide pedestrian detection and imminent collision alerts to the driver when a pedestrian is detected behind the vehicle.

AN INTELLIGENT WIPER

Available **Rainsense Wipers** automatically engage when rain is detected, adjusting their speed to the rain's intensity. Whenever the wipers are activated, **Auto-Dry brakes** automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

TRULY FORWARD THINKING

Available **Forward Collision Alert** monitors traffic ahead and can alert you if it detects that a potential front-end collision is imminent, while the available **Following Distance Indicator** shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC). Up to certain speeds, available **Low Speed Forward Automatic Braking** can sense potential forward collisions and automatically engage the brakes if you haven't already done so, helping to reduce the crash impact.

SET YOUR SPACE

Available **Adaptive Cruise Control–Advanced** employs radar technology to maintain a selected following gap between you and the detected vehicle ahead while you steer.

GRABS YOUR ATTENTION. SUBTLY.

Cadillac's available patented **Safety Alert Seat** sends a discreet pulse to the left, right or both sides of the driver's seat, indicating the direction of the threat—left, right or both.

BE ALERTED EVEN IN REVERSE

When backing out of a parking space, available **Rear Cross Traffic Alert** can warn you of detected cross traffic from either side of your vehicle with a visual alert and either an audible alert or a pulse to the available **Safety Alert Seat**.

SEE WHAT LIES BEHIND

The **HD Rear Vision Camera** automatically displays a live image of the area behind you on the **Cadillac user experience** screen. Guidelines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.

TRAVEL THE STRAIGHT AND SMART

Using a camera sensor to monitor lane boundaries, available **Lane Keep Assist** can gently turn the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available **Safety Alert Seat**, available **Lane Departure Warning** shows a visual alert in the cluster and sends a warning pulse through the seat cushion when your vehicle crosses the detected lane marking.

AN ATTENTION-GRABBER

Available **Lane Change Alert** surveys the area well beyond the side blind zone and illuminates the side-mirror warning icon to alert you of a rapidly approaching vehicle. Available **Side Blind Zone Alert** monitors your blind zones, so if a moving vehicle is in the adjacent lane, it also illuminates the side-mirror icon. In both features, if you've activated your turn signal, the icon on the side mirror flashes to alert you.

GAIN PRECIOUS TIME

Up to certain speeds, available **Forward and Reverse Automatic Braking** can sense potential forward and reverse collisions and automatically engage the brakes if you haven't already done so, helping to reduce the crash impact.

A HIGHER LOOK AT WHAT SURROUNDS YOU

Available **HD Surround Vision** provides a bird's-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected onto the **Cadillac user experience** screen, helps increase your awareness during low-speed maneuvering.

Safety or driver-assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for important feature limitations and information.

¹. Mid-2019 availability. ². Read the vehicle Owner's Manual for important feature limitations and information. ³. Not compatible with all devices. ⁴. Even while using the Super Cruise driver-assistance feature, always pay attention while driving and do not use a handheld device. Visit cadillacsupercruise.com for more information. The 2019 Cadillac CT6 Super Cruise Package includes 3 years of OnStar to support functionality, after which an OnStar plan must be purchased. OnStar plan, working electrical system, built-in Wi-Fi Hotspot set to "on," cell reception and GPS signal required. OnStar links to emergency services. Subject to OnStar terms at onstar.com/us/en/user_terms/. ⁵. Vehicles equipped with these linings will experience faster accumulation of brake dust on wheel surfaces and may produce more noise than with standard linings. ⁶. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. Lower-profile tires wear faster. Wheel and tire damage may occur on rough or damaged roads or from surfaces, curbs, debris or obstacles. This damage is not covered by the GM New-Vehicle Limited Warranty. For more details, go to my.cadillac.com/learnabout/tires, or see your dealer.

OWNER BENEFITS

Our owners deserve it all. That's why 2019 vehicles are backed by a comprehensive suite of owner benefits. To learn more, visit [cadillac.com/ownership/benefits](https://www.cadillac.com/ownership/benefits).

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design, features, materials or workmanship of any alterations by such employers.

ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes and models.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR AND CADILLAC CONNECTED SERVICES

Connected vehicle services require a paid connected vehicle services plan or trial, connected hardware, vehicle electrical system (including battery), wireless service and GPS satellite signal to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Effective May 1, 2018, available Cadillac Connected Services have changed significantly. While many of the offered services are the same, available plans and pricing are different. Visit onstar.com for coverage map, details and system limitations.

A NOTE ON CHILD SAFETY

Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See the Owner's Manual and the child safety seat instructions for more safety information.

TRAILERING AND OFF-ROAD DRIVING INFORMATION

Please go to [cadillac.com](https://www.cadillac.com) and carefully review the vehicle Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Mid-Lux Car segment and latest available competitive information. Excludes other GM vehicles.

FLEET ORDERS

Some standard content may be deleted on fleet orders. See dealer for details.

GMMOBILITY.COM (1-800-323-9935)

GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

NEW-VEHICLE LIMITED WARRANTY

6-YEAR/70,000-MILE TRANSFERABLE POWERTRAIN LIMITED WARRANTY Every 2019 Cadillac comes with a 6-year/70,000-mile (whichever comes first) transferable Powertrain Limited Warranty. 24/7 Roadside Assistance and Courtesy Transportation are also offered for the duration of the Powertrain Limited Warranty. Please see your Cadillac dealer for details.

4-YEAR/50,000-MILE BUMPER-TO-BUMPER LIMITED WARRANTY Cadillac will warrant each 2019 vehicle from bumper to bumper for 4 years/50,000 miles (whichever comes first; see dealer for details), with no deductible, from the original in-service date of the vehicle, for warrantable repairs that are required as a result of defects due to materials and/or workmanship. Cosmetic corrosion resulting from defects is also covered under the Bumper-to-Bumper Limited Warranty. In addition, rust-through corrosion will be covered for 6 years/100,000 miles (whichever comes first; see dealer for details).

HYBRID WARRANTY

In addition to the Bumper-to-Bumper coverage, General Motors will warrant certain Hybrid components for 8 years or 100,000 miles, whichever comes first, from the original in-service date of the vehicle against warrantable repairs to the specific Hybrid components of the vehicle. For Hybrid owners requiring more comprehensive coverage than that provided under this Hybrid warranty, a GM Protection Plan may be available. See your Cadillac dealer for more details.
