(extra-cost color). Shown with available features.

BE FIRST.

Dive in. Reach out. Look up. Dream. Do.

Get something worth grinning about.

*Something fun to drive. Like the only available turbo
in its class. Pile in. There's room for more*

WITH SONIC.

Sonic LT Hatchback shown in Summit White with available dealer-installed body kit, graphics and other accessories.¹

IT EARNED THESE STRIPES

When Lead Development Engineer John Buttermore gets behind the wheel of a Corvette, he's bringing years of track experience into every curve and straightaway. So it came as no surprise that Buttermore would channel the same passion into developing the all-new Sonic.

"Road racing has been a hobby for years, and our team expends a lot of effort tuning our Corvette to get the best performance. Working on Sonic is no different. You have a set of components and you do your best to maximize their performance."

As part of a group of engineers that drove cross-country to test the sedan and hatchback, Buttermore saw his share of challenges: "Whether it's coming down or climbing those twisting mountain roads, Sonic was planted, secure. When you're driving down roads with no guardrail on the side, it's good to have a car that's confident, responsive and just very rewarding to drive."

If Buttermore could describe Sonic in one word, it would be "fun." "We have a lot of selling points on safety and fuel economy,² which are sensible reasons to own a car, but at the end of the day, you spend a lot of time in your car. We want everyone to enjoy that time. And fun is the best way to describe that feeling."

It's been a long road, but this is one launch Buttermore is really looking forward to. "What's rewarding about doing this is seeing all the triumphs, all the effort that goes into developing a vehicle and then seeing it all come together. We were very confident that these cars would perform well and they did. But what's more rewarding is seeing it in person. You come with high expectations and then you get to look at what the cars can do, and point and say, 'We did that.' There's nothing like it."

JOHN BUTTERMORE
LEAD DEVELOPMENT ENGINEER

¹ Shown with graphics from an independent supplier and is not covered by the GM New Vehicle Limited Warranty. GM is not responsible for the safety or quality of third-party supplier alterations. Go to www.chevroletgraphics.com for more details. ² EPA-estimated 29 MPG city/40 highway with available 1.4L turbocharged 4-cylinder engine and 6-speed manual transmission.

**THE MOST FUN-TO-DRIVE CAR
AND IT OFFERS 40 MPG HIGHWAY¹**

THE HATCH IS BACK—BACK WITH A 60/40 SPLIT-FOLDING REAR SEAT AND A MAXIMUM 30.7 CUBIC FEET¹ OF WHATEVER YOU'RE OPEN TO

Stay open, because you never know when you'll be discovered. That's what happened to Gentlemen Hall. These amazing Boston rockers had a ride straight to the top of the 2011 *Billboard* Music Awards as winners of the Chevy-sponsored "Battle of the Bands." Backstage and behind the scenes, Chevy was there shining a spotlight in support of new artists who are just waiting for their big break. And what a break it was. The ultimate gig. Put your hands together for Gentlemen Hall and discover their sound at facebook.com/chevysonic.

¹ Cargo and load capacity limited by weight and distribution.

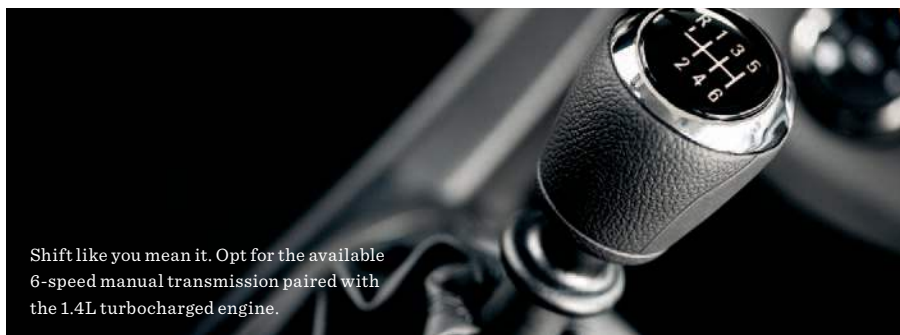

SOCIAL/STYLE MASHUP

Chase away the morning chill with standard heated front seats on LTZ.

With this propeller-inspired design, vents direct the airflow to where you want it.

Shift like you mean it. Opt for the available 6-speed manual transmission paired with the 1.4L turbocharged engine.

Grip the real deal. Go for the leather-wrapped steering wheel on LTZ.

The motorcycle-inspired instrument cluster not only looks good, it helps you look—fast.

Sink into the comfort of perforated leatherette seats on LTZ.

ONSTAR^{®1}

01

- Automatic Crash Response
- Emergency Services
- Crisis Assist
- Stolen Vehicle Assistance
- Navigation
- Hands-Free Calling²
- Remote Door Unlock
- Vehicle Diagnostics
- Roadside Assistance

NAVIGATION

With OnStar Directions & Connections,^{®1} standard for six months, you can push the blue OnStar button and get visual and voice-guided directions via Turn-by-Turn Navigation. Forward directions to your Sonic from MapQuest[®] or Google Maps³ through eNavSM too.

HANDS-FREE CALLING²

Stay focused on the road with hands-free calling from OnStar. It can be there when your cell phone isn't—whether you forgot it, the battery is low or you can't reach it. Just one more way Sonic helps keep you and your friends connected when your cell phone can't.

VEHICLE DIAGNOSTICS

OnStar Vehicle Diagnostics automatically runs hundreds of diagnostic and maintenance checks on your vehicle and sends you monthly email updates. It checks your vehicle's engine and transmission system, antilock brake system and more, plus get updates on recommended maintenance.

MOBILE APPS

02

- myChevrolet⁴
- OnStar RemoteLink^{TM5}
 - Remote Door Lock/Unlock
 - Mobile Remote Start⁶
 - Real-Time Vehicle Stats

myCHEVROLET⁴

Chevy is always there with this mobile app. You'll never get lost in a parking lot with a real map reminder. Want to schedule a service appointment? It's done in a click. And should you ever need help, roadside assistance is there 24/7.

ONSTAR REMOTELINK⁵

Now you can stay connected to your Sonic, even when you're away. Using your smartphone, you can check your average fuel economy, miles to empty and tire pressure.⁷ You can even lock and unlock your car and start your engine⁶—all remotely.

A DASH OF EVERYTHING

PERSONAL INFOTAINMENT

03

- Available Bluetooth^{®8} wireless technology for select phones
- Available USB port⁹ and aux inputs
- Available SiriusXM Satellite Radio¹⁰

AVAILABLE BLUETOOTH WIRELESS

Bluetooth^{®8} brings personal cell phone connectivity to your Sonic. Keep your eyes on the road and take all your calls at the touch of a button with steering wheel-mounted controls. Bluetooth convenience is available for select phones.

Sonic also allows you to stream your favorite audio services such as Pandora[®] and Stitcher SmartRadio^{TM11} from your smartphone, through its available Bluetooth audio streaming feature.

USB AND AUX INPUTS

Plug in and play on when you insert your iPod,^{®12} MP3 player or music-loaded flash drive into the available USB port.⁹ Or plug into the auxiliary input jack for a direct line from your MP3 player to your stereo. Add available SiriusXM Satellite Radio¹⁰ too.

¹ Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers. ² OnStar Hands-Free Calling requires a Hands-Free Calling enabled vehicle, existing OnStar service contract and prepaid minutes or enrollment in a shared minutes plan. Not available in certain markets. Calls may be made to the U.S. and Canada only. ³ Google is a trademark of Google Inc. ⁴ Requires iPhone or Android platform. ⁵ Requires iPhone or Android platform and active OnStar subscription, which is standard for six months. ⁶ Requires available remote vehicle starter system and 6-speed automatic transmission. ⁷ Excludes spare tire. ⁸ Go to gm.com/bluetooth to find out which phones are compatible with the vehicle. ⁹ Not compatible with all devices. ¹⁰ Requires a subscription sold separately by SiriusXM. Available only in the 48 contiguous United States and Washington, D.C. Visit siriusxm.com for details. ¹¹ Data plan rates apply. Go to gm.com/bluetooth to find out which phones are compatible with the vehicle. ¹² iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

AT A GLANCE

Sonic LTZ Hatchback shown in Inferno Orange Metallic (extra-cost color).

HEAD FOR HIGH GROUND WITH SONIC AND ADVANCED HILL START ASSIST TECHNOLOGY

It can be an anxious moment, especially with a manual transmission. You've stopped for a red light on an incline, and as the light changes, you slowly slide backward. Horns honk and suddenly you wish you lived in Kansas. Well, we're here to help, my friend. Sonic has a nifty advanced technology feature called Hill Start Assist. How does it work? Basically, it helps by keeping the brakes engaged for a split second while the driver transitions from the brake pedal to the accelerator pedal. Once the accelerator pedal is depressed the brakes are automatically released. It's designed to help prevent Sonic from rolling backward or forward on steep inclines or declines. After all, adventure always lies over the next hill.

¹ EPA estimate with available 1.4L turbocharged 4-cylinder engine and 6-speed manual transmission. ² Go to gm.com/bluetooth to find out which phones are compatible with the vehicle. ³ Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraints. See the Owner's Manual for more information.

JOAQUIN NUÑO-WHELAN
VEHICLE CHIEF ENGINEER

VALIDATING FUN

Vehicle Chief Engineer Joaquin Nuño-Whelan and his team took a no-compromise attitude throughout every phase of development and testing. The result? A ridiculously fun and sporty vehicle with 148 lb.-ft. of torque available—the most in its class. While driving Sonic cross-country to verify its performance, the team pushed it to extremes. Nuño-Whelan shares one such adventure. “We went up a severely steep road, a dirt road that had recently received a lot of rain. Neither of the two Sonics got stuck in the mud. At one point, there was a steep cliff on one side; on the other, we had a sheer rock wall. There was literally no room for error. It got a little hairy, but in the end, nothing was damaged. Sonic really impressed us. I have a really great feeling about this car.”

*“SONIC took everything we threw at it—snow, ice, hills, mountains, dirt roads—and it **SHINED.**”*

A safety philosophy that

RUNS DEEP

BEFORE

What's the best safety philosophy? Avoid a collision in the first place. That's why we've equipped Sonic with numerous safety features. It's even been named a 2011 Top Safety Pick by the Insurance Institute for Highway Safety (IIHS). From the moment you set out on the road, technologies like the **STABILITRAK® ELECTRONIC STABILITY CONTROL SYSTEM** with **TRACTION CONTROL** are at the ready. On slippery surfaces, StabiliTrak helps you stay on course by detecting the difference between the path being steered and the direction the vehicle is actually traveling.

It then uses the brakes and, if necessary, adjusts engine torque to help you keep your Sonic on track. What's more, **FOUR-WHEEL ANTILOCK BRAKES** help maintain control and stability during hard braking by preventing wheel lockup. And **ELECTRONIC BRAKE FORCE DISTRIBUTION** on the front disc and rear drum brakes has panic assist to help optimize stopping power. Other advancements you can count on—including **DAYTIME RUNNING LAMPS** and a **TIRE PRESSURE MONITORING SYSTEM**¹—are just a few of the ways we help you avoid trouble on the road.

DURING

Sometimes, however, trouble finds you. And if a moderate to severe collision does happen, Sonic is designed to respond quickly as the first car in its class with **10 STANDARD AIR BAGS**². Sensors throughout the vehicle determine how many air bags deploy—including knee air bags for the driver and front passenger. Adding to this protection, the cabin is reinforced with **HIGH-STRENGTH STEEL** throughout. Meanwhile, front and rear “crush zones” are designed to compress in a controlled manner, helping absorb and channel energy away from the cabin. But our protective measures don't end there.

AFTER

Should a collision occur, crucial information can be instantly relayed to the OnStar® command center via **ONSTAR AUTOMATIC CRASH RESPONSE**³. There, trained OnStar Advisors utilize GPS technology to pinpoint your exact location and can request that assistance be sent right away—even if you're unable to respond. It's part of **ONSTAR DIRECTIONS & CONNECTIONS**³ which is standard for six months, because nothing is more important than your safety.

¹ Excludes spare tire. ² Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained.
³ Visit onstar.com for details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers.

**SONIC IS A NEW CONCEPT—
IT'S THE ONLY SMALL CAR BUILT¹
IN THE UNITED STATES**

¹ Assembled in Lake Orion, MI, of U.S. and globally sourced parts.

IMPORTANT INFO

100,000-MILE/5-YEAR TRANSFERABLE POWERTRAIN LIMITED WARRANTY. Every 2012 Chevy passenger car, light-duty truck, SUV and crossover comes with a 100,000-mile/5-year (whichever comes first) transferable Powertrain Limited Warranty. Plus, you get 100,000 miles/5 years (whichever comes first) of the 24/7 Roadside Assistance Program, the Courtesy Transportation Program, and much more. See dealer for details.

NEW VEHICLE LIMITED WARRANTY. GM vehicles registered in the U.S.A. are covered for 36,000 miles/3 years (whichever comes first). The complete vehicle is covered, including tires, towing to your nearest Chevrolet dealership and cosmetic corrosion resulting from defects. Repairs will be made to correct any vehicle defect, and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 100,000 miles/6 years (whichever comes first). See dealer for details.

ENGINES. Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY. Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar Terms and Conditions, Privacy Policy, details and system limitations.

A NOTE ON CHILD SAFETY. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

IMPORTANT WORDS ABOUT THIS CATALOG. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based upon design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Small Car segment and latest available competitive information. Excludes other GM vehicles.

SPARE TIRE INFORMATION. There is no standard jack or spare tire in the 2012 Chevrolet Sonic LT Sedan with 1.4L turbocharged 4-cylinder engine and 6-speed manual transmission. Your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a one-quarter-inch puncture in the tread area of the tire. After using the tire inflator kit, it is recommended that you take the tire to an authorized retailer for inspection and repair as soon as possible, but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than one-quarter inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire and for one time before its expiration date.

FLEET ORDERS. Some standard content may be deleted on fleet orders. See dealer for details.

OWNER SERVICES. Chevrolet is committed to enhancing the ownership experience through a wide array of programs. For more information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance Center, Chevy Safety, marketing and incentives, visit chevy.com.

GMMOBILITY.COM (1-800-323-9935). GM MobilitySM offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

CHEVROLET OWNER CENTER (GMOWNERCENTER.COM/CHEVY). Register your vehicle with the Chevrolet Owner Center, and receive benefits such as online access to your vehicle Owner's Manual, maintenance schedule reminders, service history tracking, warranty and service information, safety information, special offers and privileges, and news and events.

GMCARDMEMBERSERVICES.COM. Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you best.
