

Chevrolet
TRAVERSE
2012

THE FAMILY

*vote rules. Are we all happy?
Are all seven of us comfortable?
How about a cooled seat
for Mom and a V6
that gets great fuel economy¹
for Dad—even if we can't agree
on who gets the back row?
Peace! Love.*

TRAVERSE.

Traverse LTZ
shown in Dark Blue Metallic.

¹EPA-estimated 17 MPG city/24 highway (FWD).

Traverse LTZ interior shown in Light Cashmere-Color/Ebony with available features.

AT A GLANCE

- Seating for up to seven (LTZ)
- Seating for up to eight (LS and LT)
- Heated and cooled front seats (LTZ)
- Available tri-zone climate controls
- SiriusXM Satellite Radio¹
- Available rear entertainment system with remote control
- Available SkyScape power front sunroof with fixed rear skylight

Welcome to THE REC ROOM, THE ENTERTAINMENT ROOM, AND *the family room.*

This is an environment that's really all about you. Case in point: "reach zones." Our engineers researched the knobs and buttons you reach for most frequently and placed them in convenient positions. Then they evaluated which types of switches are best. Is it easier to push a button, or would a dial give you more functionality? These are just some of the questions our engineers asked themselves as they thought about you sitting in a Traverse. A quick touch lets you listen to the available **10-SPEAKER BOSE® SOUND SYSTEM** playing your favorite music with crystal-clear quality. You could just as easily plug into the available **USB PORT**² and tap into your playlists using an MP3 player or iPod.® Meanwhile, the available navigation radio³ can help you find your way without ever having to stop to ask for directions, and available **NAVTRAFFIC**,⁴ with a three-month trial, lets you stay ahead of traffic with real-time updates. The next time you're reaching for guidance, remember that we gave those buttons a lot of thought, so you wouldn't have to.

chevy.com/traverse
KEEP THE FUN GOING

¹ Requires a subscription sold separately by SiriusXM after three-month trial. Available only in the 48 contiguous United States and Washington, D.C. Visit siriusxm.com for more information. ² Not compatible with all devices. ³ Map coverage excludes Puerto Rico, the Virgin Islands and portions of Canada. ⁴ Requires a subscription sold separately by SiriusXM after three-month trial. Available only in select markets. For more information, see siriusxm.com/navtraffic.

JACK BENNETT
ADVANCED PROGRAM
ENGINEERING MANAGER

A former national champion amateur driver, Jack Bennett says that tinkering with race cars taught him to visualize in three dimensions—a critical skill in developing vehicles like Traverse.

To create enough room for up to eight passengers, Bennett and his team had to start thinking about three rows of seating—they had to design from the inside out. “We literally built out from the rear seat to accomplish our objective of creating space that would comfortably accommodate three adults. We set up a rear suspension that enabled enough width. Then, continuing out, we looked at where the shock absorbers were placed, how that was packaged in relation to the wheel, and finally the tire. We call it ‘adult third-row seating’ because we really wanted to achieve a high level of comfort for adults. When you think about the lifestyle of our customers, you can imagine taking three couples downtown to dinner, going to a ball game, going to a show. We wanted a vehicle in which eight adults can be comfortable for an hour’s drive.”

Stretching **SPACE—JUST PART OF DESIGNING TRAVERSE FROM THE INSIDE *out*.**

But comfortable seating wasn’t enough—people still have to get in and out. “We wanted a large opening for people to walk in and out of the third row. With the Smart Slide® seat, there’s a handle on the outboard side near the head restraint. In one motion, the cushion pops up and folds the back of the seat forward, leaving a 20-inch opening for people to pass through.”

Bennett has been driving a Traverse for three years now, in part because his kids enjoy it so much. “My youngest boy loves the third row. These days, kids are so busy with school and activities and stuff, they don’t have a lot of control. So I think, in a way, they get a little of their own space back there, which allows them to have control of their environment.”

With kids and couples in mind, Traverse was designed to span lifestyles. “A lot of us think of ourselves as very independent, very individualistic. We imagine ourselves remodeling our own kitchen, planting vegetables in the garden, going out to dinner. As we envisioned Traverse, we wanted a vehicle that was practical and capable of doing all sorts of activities, but also elegant enough to take out, pull up to the valet in your evening clothes and feel proud that you are driving a great vehicle. From front to back, Traverse really exceeds customer expectations in terms of interior accommodation, in terms of style, and everything in between.”

Traverse 2LT
shown in Silver Ice Metallic
with available features.

LYDIA GOBIS

INTERIOR TRIM ENGINEERING MANAGER

OPEN MINDED

Lydia Gobis, Interior Trim Engineering Manager, mom and outdoor enthusiast, knows all about being prepared for anything—that's why cargo space was such a high priority in Traverse.

"To create maximum space, we really concentrated on the materials and designs. We minimized air space and tried to get the clearances between parts as close as possible. We also looked at materials, high-tech materials, that we could use to make things thinner." The cargo floor illustrates one of her team's space-saving tricks. "We ended up finding a foam and woodboard composite material for the cargo floor that was thinner and provided more strength than the original. A lot of details look simple to the customer, but they're pretty intricate."

The process of choosing the appropriate materials is exacting and exhaustive. "Most customers would be surprised to learn about the attention to details. We test everything. We measure how the carpet wears. We slam doors thousands of times. We test the interior's resistance to various cleaning solutions—even to suntan lotion." It's all part of how Chevy interior designers stay open to what might make your next vehicle even better.

AT A GLANCE

Over 30% more cargo space than Honda Pilot
Up to 116.4 cubic feet of total cargo space¹
Smart Slide second-row seat for easy third-row access
Split-folding third-row seats
Available remote power liftgate

Traverse 2LT shown in
Silver Ice Metallic
with available features.

¹ Cargo and load capacity limited by weight and distribution.

Traverse is **ALL ABOUT SURFACES AND MATERIALS THAT WON'T SCRATCH EASILY AND ARE EASY TO CLEAN—**
very pet friendly.

Our engineers understand that family members come in many shapes and sizes, which is why we designed Traverse to carry everything you care about. That means creating **24.4 CUBIC FEET OF STORAGE¹** behind the third row, enough room to hold all your groceries, gear and dog treats. **WIDE OPENING DOORS** add more convenience and an available **REMOTE POWER LIFTGATE** makes loading and unloading easy. Configure away with available **60/40 SPLIT REAR SEATS** and you'll find new possibilities for storing the stuff that matters most on any given day.

SIMPLY DASHING

Traverse LTZ
shown in Black Granite Metallic
(extra-cost color), seats seven.

† EPA-estimated 17 MPG city/24 highway (FWD).

Going back and forth, across and along, Traverse lives up to its name. With a finely tuned suspension, steering is tight, exact. Set your sights on a particular corner and Traverse responds with agile handling.

Performance, however, can be measured in many ways. Horsepower. Torque. Fuel economy.¹ Here again, Traverse doesn't disappoint. With an EPA-estimated **24 MPG ON THE HIGHWAY**, it has impressive fuel economy for an eight-passenger crossover.

A standard **DIRECT INJECTION 3.6L V6 ENGINE** delivers 281 horsepower and 266 lb.-ft. of torque, the kind of numbers that make long-distance driving enjoyable.

For even more power, dual exhaust allows LTZ to generate **288 HORSEPOWER** and **270 LB.-FT. OF TORQUE**. Meanwhile, the precisely calibrated drivetrain hustles along in surprising quiet. Noise and vibration are also reduced, allowing conversations to reach three rows deep and family-wide.

Check in **USING TWO
MOBILE APP** *connections.*

Keep your connections in hand with two mobile apps for your smartphone. **ONSTAR® REMOTELINK™** mobile app¹ lets you start your engine² and lock or unlock your doors remotely. Check your fuel range, tank level and your remaining oil life, or connect remotely to OnStar. Need to schedule service? The **MYCHEVROLET**³ app finds the nearest Chevy dealer so you can book your appointment. You can also use this app³ to call for roadside assistance, check what warning lights and indicators mean, or create reminders of where you parked your vehicle—all from the palm of your hand.

iPhone is a registered trademark of Apple Inc., registered in the U.S. and other countries.

¹ Requires iPhone or Android platform and active OnStar subscription, which is standard for six months. ² Requires available remote vehicle starter system. ³ Requires iPhone or Android platform.

OVER PROTECTIVE

We've all been there. Sitting in the passenger seat next to the "new driver." Our anxieties are the same. Will they remember what we taught them? Will they remember to check the mirrors? Are they really going to be confident when merging? And then there's the dreaded first snowfall. We know. We're parents too, and let's just say Chevy has planned ahead. It all starts with OnStar Directions & Connections.^{®1} Standard for six months, it includes Turn-by-Turn Navigation to help ensure young drivers (or any family members for that matter) don't lose their way.

And since we know you worry about your teenage driver, we've made it easier to make calls when necessary with Bluetooth^{®2} wireless technology for select phones. We've also made asking for help easier through OnStar Roadside Assistance,[‡] standard for six months. Whether it's a flat tire or some other unforeseen emergency, Roadside Assistance is there, day or night. It's all part of the peace of mind we know you'll experience having your new driver behind the wheel of a Traverse. When you can't be there, we are—you might say we're looking out for each other.

¹ Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers. ² Go to gm.com/bluetooth to find out which phones are compatible with the vehicle.

A safety philosophy that

RUNS DEEP

BEFORE

What's the best safety philosophy? Avoid a collision in the first place. And that starts with backing out of the driveway. An available **REAR VISION CAMERA** system helps you see what's behind you. Once you're out on the road, the **STABILITRAK® ELECTRONIC STABILITY CONTROL SYSTEM** with **TRACTION CONTROL** helps you stay the course by detecting the difference between the path being steered and the direction the vehicle is actually traveling. It then uses the brakes and, if necessary, adjusts engine torque to help you keep your Traverse on track. What's more, **FOUR-WHEEL ANTILOCK DISC BRAKES** help maintain control and stability during hard braking by preventing wheel lockup. Other advancements you can count on include **DAYTIME RUNNING LAMPS** and available **BLIND SPOT MIRRORS**. Just some of the forward-thinking ways we help you avoid trouble on the road.

DURING

Sometimes, however, trouble finds you. And if a moderate to severe collision does happen, Traverse is designed to respond quickly. Sensors throughout the vehicle determine how many of the **SIX STANDARD AIR BAGS**,¹ including head-curtain side-impact air bags, deploy. Adding to this protection, we reinforced the roof pillars and safety cage with **HIGH-STRENGTH STEEL** to help you feel a sense of security that's all-encompassing. But our protective measures don't end there.

AFTER

Should a collision occur, crucial information can be instantly relayed to the OnStar command center via **ONSTAR AUTOMATIC CRASH RESPONSE**.² There, trained OnStar Advisors utilize GPS technology to pinpoint your exact location and can request that assistance be sent right away—even if you're unable to respond. It's part of **ONSTAR DIRECTIONS & CONNECTIONS**² which is standard for six months, because nothing is more important than your safety.

¹ Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. ² Visit onstar.com for details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers.

A 5-star Overall Vehicle Score for safety from the National Highway Traffic Safety Administration (NHTSA)¹ is important recognition for a job we take seriously—your safety. Our engineers have families of their own, so they realize how valuable safety and security is to you.

*Traverse received A 5-STAR
OVERALL VEHICLE SCORE FROM
NHTSA¹—a valuable honor.*

Traverse LTZ shown in
Silver Ice Metallic with available
dealer-installed accessories.

That's why in addition to StabiliTrak, air bags² and antilock brakes, Traverse offers available **BLIND SPOT MIRRORS** to help you see what's coming alongside you. **ROLLOVER SENSORS** can deploy head-curtain side-impact air bags² to help protect you and your family in a rollover situation. And available **ALL-WHEEL DRIVE** enhances traction in slick road conditions.

Then there are a few added OnStar³ protections to note. Say your car is stolen. A trained Advisor can locate it using GPS technology and notify the police. OnStar can remotely block your ignition, rendering the vehicle essentially useless to thieves. Onboard systems and OnStar service. Traverse technology to help protect your family and vehicle.

¹ Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.SaferCar.gov). ² Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraints. See the Owner's Manual for more information. ³ Visit onstar.com for details and system limitations. OnStar acts as a link to existing emergency service providers.

IMPORTANT INFORMATION

100,000-MILE/5-YEAR TRANSFERABLE POWERTRAIN LIMITED WARRANTY. Every 2012 Chevy passenger car, light-duty truck, SUV and crossover comes with a 100,000-mile/5-year (whichever comes first) transferable Powertrain Limited Warranty. Plus, you get 100,000 miles/5 years (whichever comes first) of the 24/7 Roadside Assistance Program, the Courtesy Transportation Program, and much more. See dealer for details.

NEW VEHICLE LIMITED WARRANTY. GM vehicles registered in the U.S.A. are covered for 36,000 miles/3 years (whichever comes first). The complete vehicle is covered, including tires, towing to your nearest Chevrolet dealership and cosmetic corrosion resulting from defects. Repairs will be made to correct any vehicle defect, and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 100,000 miles/6 years (whichever comes first). See dealer for details.

ENGINES. Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY. Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar Terms and Conditions, Privacy Policy, details and system limitations.

A NOTE ON CHILD SAFETY. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

IMPORTANT WORDS ABOUT THIS CATALOG. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based upon design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Mid-SUV Crossover segment and latest available competitive information. Excludes other GM vehicles.

SPARE TIRE INFORMATION. There is no standard jack or spare tire in the 2012 Chevrolet Traverse LS. Your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a one-quarter-inch puncture in the tread area of the tire. After using the tire inflator kit, it is recommended that you take the tire to an authorized retailer for inspection and repair as soon as possible, but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than one-quarter inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire and for one time before its expiration date.

FLEET ORDERS. Some standard content may be deleted on fleet orders. See dealer for details.

OWNER SERVICES. Chevrolet is committed to enhancing the ownership experience through a wide array of programs. For more information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance Center, Chevy Safety, marketing and incentives, visit chevy.com.

GMMOBILITY.COM (1-800-323-9935). GM MobilitySM offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

CHEVROLET OWNER CENTER (GMOWNERCENTER.COM/CHEVY). Register your vehicle with the Chevrolet Owner Center, and receive benefits such as online access to your vehicle Owner's Manual, maintenance schedule reminders, service history tracking, warranty and service information, safety information, special offers and privileges, and news and events.

GMCARDMEMBERSERVICES.COM. Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you best.
