SAFETY

***THE MOST ADVANCED
TAHOE EVER.***

YOU'RE SURROUNDED IN SAFETY. A host of innovative driver assist technologies use strategically located cameras and radar sensors to warn you of potential risks on the road — or even in a parking lot. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for more important safety information.

LANE CHANGE ALERT. Working with available Side Blind Zone Alert, available Lane Change Alert employs radar sensors in the rear quarter panels to help detect and warn the driver of fast-approaching vehicles in the adjacent lane from up to 230 feet away, not just in the side mirror blind zones.

FRONT AND CENTER. Tahoe helps protect you with a class-exclusive seat-mounted Front Center Air Bag¹ (standard with front bucket seats). In addition, the 6 standard air bags provide impressive protection in moderate to severe frontal, side and rollover crashes.

ADDED SECURITY. Protect your investment with the class-exclusive, available Theft Protection Package. It includes glass breakage sensors, interior motion detectors and a revolutionary inclination sensor that measures any tilt of the vehicle.

¹ Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and the child safety seat instructions for more safety information.

WE'VE GOT YOUR BACK. AND SIDES. AND FRONT.

PERFORMANCE

355 ^{HP} / **383** ^{LB.-FT.} ^{TORQUE} / **23** ^{MPG} ^{HWY}¹

THE ALL-NEW 5.3L ECOTEC3 V8 ENGINE.

Direct Injection boosts power and fuel efficiency while reducing emissions.

Active Fuel Management™ deactivates four cylinders when extra power is not needed.

Variable Valve Timing helps ensure Tahoe performs at optimum power and efficiency.

Bottom line? Tahoe offers better fuel economy than any competitor — an EPA-estimated 23 MPG highway on 2WD models!

¹ Based on GM Large SUV segment. EPA-estimated MPG city/highway: Tahoe 2WD 16/23; 4WD 16/22.
