

VOLT 2018

CHEVROLET

Take charge of how you drive, and where you drive, in the 2018 Volt.

FIND NEW ROADS™

Volt Premier in Green Mist Metallic.

Volt Premier in Kinetic Blue Metallic
(extra-cost color).

¹ EPA-estimated 53-mile EV range based on 106 MPGe combined city/highway (electric); 367-mile extended range based on 42 MPG combined city/highway (gas). Your actual range may vary based on several factors including temperature, terrain, and driving technique. ² For 2016 and 2017 model year owners. ³ Feature unavailable in cold weather and at or near full charge. Visit chevrolet.com for details. ⁴ Based on new vehicle registrations December 2010–April 2017.

TAKE CHARGE OF EVERY DRIVE.

You want to drive on your terms. Set your own limits. Go your own way. And the 2018 Chevrolet Volt gets that.

Volt offers up to 53 pure electric miles¹ on a single charge and up to 420 miles¹ on a full charge and a full tank of gas, so you're covered no matter how far you're going. The majority of new Volt owners² achieve 1,100 miles or more between fill-ups with regular charging, making gas stations a distant memory.

When you add in expressive style and advanced EV technologies like Regen on Demand™³ and Location-Based Charging, it's pretty easy to see why Volt continues to be America's best-selling plug-in⁴

**VISIT CHEVYEV.LIFE.COM TO LEARN
ABOUT LIVING AN ELECTRIC LIFE.**

EXTERIOR DESIGN

Volt Premier in Kinetic Blue Metallic (extra-cost color).

A CLASSIC BEAUTY. The athletic shape, along with dramatic upper and lower grille pads, gives Volt an identity all its own. From the finely tuned exterior to the LED signature daytime running lamps, there's brilliance in every detail.

DYNAMICALLY AERODYNAMIC. Deliberate contours and expressive proportions form a bold, confident stance and offer optimal efficiency. So staring is understandable, but get inside and you'll find the journey is even more rewarding.

THE COMPLETE PACKAGE. With Volt, you get a sporty look without sacrificing intelligent features. Advanced EV technologies include Regen on Demand¹, which helps convert energy into more electricity and transfers it back to the battery, and the Power Flow screen, which helps keep you aware of whether you're using electricity or gas.

THE ELECTRIC VEHICLE WITH A BACKUP PLAN. With its 1.5L direct injected high-efficiency engine, there's no stopping you from chasing your next adventure. When the battery runs low on electric charge, Volt seamlessly engages the gas-powered generator — giving you the confidence to go as far as you want.

¹ Feature unavailable in cold weather and at or near full charge. Visit chevrolet.com for details.

1. THE CHOICE IS YOURS. Volt offers two trim levels with unique wheels and multiple color options. So it's easy to make Volt match your own unique personality.

2. BRIGHT ROADS AHEAD. LED front signature lighting enhances the eye-catching design with illuminating detail.

3. IMPRESSIVE, ANY WAY YOU LOOK AT IT. Volt was expertly carved and shaped with diligence and precision, all in the name of performance and efficiency. Plus, its wide stance contributes to nimble handling.

INTERIOR DESIGN

Volt Premier interior in Jet Black with available features.

A WARM WELCOME. Inside, everything about Volt is visually stunning. The beautifully crafted interior offers available heated leather-appointed seats that keep you comfortably in place, while twin-needle stitching provides luxurious appeal. A refined driving experience is achieved before you even take off.

INVITINGLY INNOVATIVE. Everything in Volt revolves around you, with thoughtfully designed features that are both intuitive and ingenious. In every respect, Volt welcomes you with comfort.

NO ROOM FOR COMPROMISE. You'll have room for everything that fills your life with functional cargo space and accommodations for five passengers.

YOUR ALL-ACCESS PASS. A color touchscreen in the center of the instrument panel puts everything you need within reach. Energy screens, certain features from your phone, music, infotainment and other controls — it's all right here, and easily accessible.

PERFORMANCE

“...the extended-range electric Chevrolet Volt has set a standard other plug-in hybrids have yet to match.”

WITH REGULAR CHARGING.

Volt Premier in Green Mist Metallic.

¹ EPA-estimated 53-mile EV range based on 106 MPGe combined city/highway (electric); 367-mile extended range based on 42 MPG combined city/highway (gas). Your actual range may vary based on several factors including temperature, terrain, and driving technique. ² For 2016 and 2017 model year owners.

TWO CHARGE OPTIONS. Volt charging is centered around your driving needs. Choose from the quick capability of the available 240-volt charging unit from Chevrolet Accessories (professional installation required) or a conventional 120-volt outlet that lets you conveniently use the included portable cord.

THERE'S A SCREEN FOR EVERYTHING. Want to know how much power you will use? Volt has a screen for that. The Energy Usage Score screen shows how well you use energy. Get quick access to valuable data such as your battery level, charge settings, range estimation and more.

LOCATION-BASED CHARGING. Volt makes charging efficient, with home and away settings for recharging. Based on GPS data, you can delay charging to take advantage of off-peak electricity rates when you're at home and begin charging immediately when you're away.

REGEN ON DEMAND. This feature allows Volt to convert energy into electricity and transfers it back to the battery. A simple pull and hold of the Regen on Demand paddle on your steering wheel will decelerate your vehicle!

LITHIUM-ION BATTERY The advanced 18.4 kWh lithium-ion battery was designed to be lightweight, powerful and efficient.

GENERATOR When the battery runs low, the gas-powered generator kicks in to extend the range up to 367 miles on a full tank of gas.¹

REGENERATION Volt empowers you to put energy back into your battery through regenerative braking and a steering wheel-mounted Regen on Demand paddle.²

ELECTRIC DRIVE UNIT The Electric Drive Unit in Volt propels the vehicle with energy either from the vehicle's battery or its range-extending gas-powered generator, making it the electric vehicle with a backup plan.

TECHNOLOGY

1. myChevrolet Mobile App.¹ This app lets you keep in touch with your Volt whenever you need to. Send a remote signal to start your vehicle (when properly equipped), lock or unlock your doors, or honk your horn and flash your lights. And you can monitor charge level and efficiency, find the nearest charging station and even receive a text message when charging is complete – all from your smartphone.

2. WIRELESS DEVICE CHARGING.²

With this available feature, Volt makes it easier to keep your smartphone fully powered. Simply equip your phone with an accessory backplate or case to keep your phone charged on the go.

3. ANDROID AUTO COMPATIBILITY.³

You can quickly and intuitively interact with select smartphone apps with support for Android Auto.^{TM3} This system takes some of your compatible Android phone's features and puts them on the Chevrolet MyLink⁴ display. You can access your phone, text messages, music, navigation and more.

¹ Requires active OnStar service, compatible device, factory-installed remote start and power locks. Data rates apply. Visit onstar.com for details and system limitations.

² The system wirelessly charges one PMA- or Qi-compatible mobile device. Some devices require an adaptor or back cover. To check for phone or other device compatibility, visit my.chevrolet.com/learn for details. ³ Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 Lollipop or higher and data plan rates apply. ⁴ Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices.

¹ Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. Data plans provided by AT&T. ² Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ³ Data plan rates apply. ⁴ Siri Eyes Free requires Chevrolet MyLink and compatible iPhone running iOS 6 or later.

Apple CarPlay is a trademark of Apple Inc. iPhone and Siri are trademarks of Apple Inc., registered in the U.S. and other countries.

WORK YOUR CONNECTIONS. Volt offers OnStar® 4G LTE plus an available built-in Wi-Fi® hotspot! It provides a fast and reliable connection with bandwidth for up to seven devices, offering a better in-vehicle experience than your smartphone.

Apple CarPlay™ COMPATIBILITY.² Take some of your favorite compatible iPhone® features and put them on your vehicle's touch-screen display in a smart, simple manner. Access your Phone, Music, Maps, and Messages, as well as some of your other favorite apps (e.g., iHeartRadio³ and Pandora® Internet Radio³).

VOLT UNDERSTANDS YOU. If it feels like you and Volt have an instant connection, it's because you do. Advanced EV and entertainment technologies make driving Volt as seamless and convenient as possible. So as you get to know Volt, Volt learns about you based on the way you drive.

SIRI EYES FREE⁴ For compatible iPhone users, the system allows limited hands-free interaction for those times when you want to read or compose a text message, make a phone call or play your favorite music.

SAFETY

**PARALLEL PARKING IS A PIECE OF CAKE
WITH AVAILABLE AUTOMATIC PARKING ASSIST.**

1

2

3

1. BE THERE, EVEN WHEN YOU'RE NOT.

Teen Driver technology helps encourage safe driving habits for new drivers in a number of ways, including muting the audio system when front-seat occupants are not wearing their safety belts and giving audible and visual warnings when the vehicle is traveling over a predetermined speed.

2. ONSTAR AUTOMATIC CRASH

RESPONSE! In a crash, built-in sensors can automatically connect you to a specially trained OnStar Advisor, who will help you get the assistance you need – even if you can't ask for it. Advisors can use GPS technology to pinpoint your location and request emergency help. OnStar Automatic Crash Response is included in the OnStar Guidance Plan² limited service trial.

3. INTELLIGENT AIR BAGS.

Volt features 10 standard air bags³ and a collision sensor system designed to deploy only the air bags that are needed.

¹ Visit onstar.com for vehicle availability, details and system limitations. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. ² Visit onstar.com for coverage map, details and system limitations. ³ Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information.

WHEN EQUIPPED WITH AVAILABLE DRIVER CONFIDENCE 2 PACKAGE.

SAFETY

SAFETY STARTS WITH YOU.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for important feature limitations and information.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for important feature limitations and information.

WE'VE GOT THE SAFETY ANGLES COVERED.

ADAPTIVE CRUISE CONTROL. This available feature enhances cruise control by allowing the vehicle to automatically follow a detected vehicle at the driver-selected following gap, reducing the need to frequently brake and accelerate.

LOW SPEED FORWARD AUTOMATIC BRAKING. If the vehicle is traveling at a low speed and the system determines a front-end collision situation is imminent with a detected vehicle ahead, and the driver has not already applied the brakes, this available system automatically engages the brakes to help reduce the collision's severity. The system may even help avoid contact at very low speeds.

FORWARD COLLISION ALERT. This available feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Volt is following a detected vehicle much too closely.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING. At speeds above 37 mph, the available camera-based system monitors road lines and will gently turn the steering wheel if the vehicle begins changing lanes without the use of a turn signal.

LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT. Working with Side Blind Zone Alert, available Lane Change Alert employs radar sensors in the rear corners of the vehicle to help detect and warn the driver of fast-approaching vehicles in the adjacent lanes. Amber icons in the exterior mirrors indicate a vehicle's presence in your side mirror blind zones.

REAR CROSS TRAFFIC ALERT. This available radar-based feature alerts you to crossing traffic behind your Volt when backing up. Audible warnings, as well as visual alerts on the rear vision camera screen, are triggered if approaching vehicles are detected.

REAR VISION CAMERA. The standard rear vision camera with dynamic guiding lines uses the Chevrolet MyLink 8-inch diagonal color touch-screen display to show the area behind your Volt while you are backing up.

AUTOMATIC PARKING ASSIST. This available, ingenious system enables Volt to detect viable parking spaces, determine approach angles and take over the steering to neatly maneuver into an available space. Throttle, brake and gear selection input is still required by the driver, but the vehicle steers itself into any suitable-sized parallel or perpendicular (90-degree) parking spot.

FRONT AND REAR PARK ASSIST. Ideal when pulling into a parking spot at low speeds, the available system senses stationary objects and warns you if an object is too close. As you shift into Reverse, the rear vision camera automatically displays a live image of the area behind the vehicle on the Chevrolet MyLink screen and includes guiding lines to help when backing up.

INTELLIBEAM HEADLAMPS. When oncoming headlamps are sensed or when taillamps are detected in front of you, the available IntelliBeam® high beam assist intuitively adjusts between low and high beams.

SPECIAL FEATURES

Heated front and rear outboard seats standard on Premier.

Lane Change Alert with Side Blind Zone Alert included with the available Driver Confidence Package on Premier.

NEW VEHICLE LIMITED WARRANTY

5-YEAR/60,000-MILE TRANSFERABLE POWERTRAIN LIMITED WARRANTY Every 2018 Chevrolet Volt comes with a 5-year/60,000-mile (whichever comes first) transferable Powertrain Limited Warranty. 24/7 Roadside Assistance and Courtesy Transportation are also offered for the duration of the Powertrain Limited Warranty. Please see your Chevrolet dealer for details.

3-YEAR/36,000-MILE BUMPER-TO-BUMPER LIMITED WARRANTY Chevrolet will warrant each 2018 Volt from bumper to bumper for 3 years/36,000 miles (whichever comes first; see dealer for details), with no deductible, from the original in-service date of the vehicle, for warrantable repairs that are required as a result of defects due to materials and/or workmanship. Cosmetic corrosion resulting from defects is also covered under the Bumper-to-Bumper Limited Warranty. In addition, rust-through corrosion will be covered for 6 years/100,000 miles (whichever comes first). See dealer for details.

8-YEAR/100,000-MILE BATTERY LIMITED WARRANTY Volt battery and Voltec components are covered for 8 years/100,000 miles (whichever comes first). The Volt battery warranty covers 161 battery components in addition to the thermal management system, charging system and electric drive components. See dealer for details.

¹ Maintenance visits must occur within two years or 24,000 miles of vehicle delivery, whichever comes first. Does not include air filters. See participating dealer for other restrictions and complete details. ² Whichever comes first. See dealer for details. ³ Does not include emergency or security services. Visit onstar.com for coverage map, details and system limitations. ⁴ Requires active OnStar service, compatible device, factory-installed remote start and power locks. Data rates apply. Visit onstar.com for details and system limitations. ⁵ Visit onstar.com for coverage map, details and system limitations. ⁶ Using the 120-volt portable charger will take approximately 19 hours at the default 8-amp setting and can be reduced to 13 hours at the 12-amp setting. Actual time may vary with temperature. ⁷ Cargo and load capacity limited by weight and distribution.

IMPORTANT INFORMATION

CHEVROLET OWNER CENTER (MY.CHEVROLET.COM) Everything you need to know. Anything you need to do. Your Chevrolet Owner Center makes it easy. Create your account today to get the most out of your new vehicle. Get special alerts and offers, schedule service, review your maintenance schedule, and view how-to videos specifically for your vehicle. All online, anytime. Visit the Owner Center today to register or take a tour.

ENGINES Chevrolet products are equipped with engines produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1.888.4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar Terms and Conditions, Privacy Policy, details and system limitations.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture

and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Compact Car segment and latest available competitive information. Excludes other GM vehicles.

SPARE TIRE INFORMATION There is no standard jack or spare tire in the 2018 Chevrolet Volt. Your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a one-quarter-inch puncture in the tread area of the tire. After using the tire inflator kit, it is recommended that you take the tire to an authorized retailer for inspection and repair as soon as possible, but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than one-quarter inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire and for one time before its expiration date.

CHEVROLET OWNERSHIP EXPERIENCE Chevrolet is committed to enhancing the vehicle shopping and ownership experience through a wide array of programs.
