PERFORMANCE

SRT4's turbocharged and intercooled 2.4-liter double overhead camshaft (DOHC) 16-valve 4-cylinder engine produces an impressive 230 horsepower and 250 lb-ft of torque. Producing that kind of power from a 2.4-liter engine is one thing, but few could make it work day-in and day-out like SRT4.

- New Quaife automatic torque biasing (ATB) differential to help put the power to the ground
- Dual-outlet exhaust system
- Zero to 60 in 5.8 seconds with an electronically limited 148 mph top speed
- High-capacity clutch and pressure plate
- Fully independent MacPherson strut front suspension

TRANSMISSIONS

SRT4 features a standard NVG T-850 heavy-duty five-speed manual transmission controlled by a shifter with a large satin silver knob for quick, positive gear changes. The heavy-duty clutch helps route torque to equal-length half-shafts driving the front wheels.

WHEELS

Want some serious grip? SRT4 features 205/50R17 high-performance tires mounted on 17 x 6—inch cast aluminum wheels. With all this power and grip you're going to need some stopping power. No sweat. SRT4 has standard performance-tuned four-wheel disc antilock brakes.

HANDLING

SRT4 sticks on the streets because a fully independent front and rear suspension with gas-charged Tokico struts and stabilizer bars contribute to its responsive handling.

COLORS**WHEELS**

17-inch cast-aluminum wheels, standard

**FABRIC & TRIM**

- A. Viper-inspired heavily-bolstered front seats in Dark Slate Gray, standard
- B. Seat in Dark Slate Gray, included with optional supplemental side airbags*

** Always use seat belts. Remember, a back seat is the safest place for children 12 and under.*

AUDIO

Fast cars and an earth-rattling sound system go together like summer heat and action movies. So SRT4 includes a bumpin' AM/FM stereo with CD player and six speakers including front 3/4-inch tweeters, 6 1/2-inch full-range speakers in the front door panels and 6 x 9-inch full-range speakers mounted in the rear shelf.

STORAGE

SRT4's interior storage makes it practical enough to be an everyday car while tempting the threshold of the sound barrier on nights and weekends. It boasts 13.1 cubic feet of trunk space, a 60/40 split-folding rear seat for added cargo flexibility, plus much more.

DRIVER CONTROLS

SRT4 doesn't skimp on standard features. It includes air-conditioning, power door locks with remote keyless entry, power front windows, power trunklid release, power exterior mirrors, and a tilt steering column.

AIR BAGS

In the event of a collision, SRT4 helps protect you with next-generation driver and front-passenger air bags.* Optional supplemental side air bags* offer additional protection to driver and front passenger.

**Always use seat belts. Remember, a back seat is the safest place for children 12 and under.*

SECURITY

Help protect yourself and your SRT4 with the standard Sentry Key® engine immobilizer and alarm system. It prevents would-be thieves from driving away in your car. A remote keyless entry system with panic alarm allows you to lock or unlock the doors from up to 23 feet away.

SRT4 SAFETY/SECURITY

Try this for stopping power. Standard performance-tuned four-channel, four-wheel disc antilock brakes are equipped with sensors that prevent wheel lockup. This improves steering control under extreme braking and/or slippery conditions.

DODGE SRT4

STANDARD FEATURES

- Turbocharged and intercooled 2.4L DOHC 16-valve 4-cylinder engine
- 230 hp @ 5,300 rpm
- 250 lb-ft of torque @ 2,200-4,400 rpm
