

2006 SPRINTER

STANDING TALL

What is Sprinter? It's your work week, your high mileage long haul companion and your most reliable partner on the job.

Check out the bold look and powerful performance of Dodge Sprinter.

- Interior and Exterior Features
- Color Options
- Dimensions and Capacities

POWER AND TORQUE

Turbocharging the 2.7-liter CDI engine delivers strong acceleration peaks near 4,000 rpm, giving you on-demand acceleration coupled with noteworthy fuel economy. The engine also generates 154 horsepower at 3,800 rpm and 243 lb-ft of torque at 1,600 to 2,400 rpm.

HIGH ROOF

Sprinter has an available high-roof option, providing a very comfortable 73 inches of walk-through height (nearly 20 inches more than the nearest competition). Accessibility to the interior is easy thanks to available rear doors that open a full 270 degrees (the widest-opening doors in its class) on 140-inch and 158-inch wheelbase models—and stay open with magnets mounted to the exterior panels.

**Remember to properly secure all cargo.*

TOWING/HAULING

Aside from towing up to 5,000 pounds when properly equipped, Sprinter has:

- Interior cubic volume of 473 cubic feet (Sprinter Cargo Van)
- Payload capacities of up to 4,824 pounds for Cargo Van and 3,893 pounds for Passenger Van

VERSATILITY THAT FITS YOUR BUSINESS

As the most versatile commercial van on the market, and in three distinctive models – Cargo Van, Passenger Van, and Chassis Cab – Sprinter offers multiple advantages: 118-, 140-, and 158-inch wheelbases, to support a wide array of platforms. Two roof heights, including the available 73-inch roof, to offer exceptional interior clearance.

OIL CHANGE INTERVAL

Sprinter's common rail direct injection (CDI) turbodiesel engine is extremely efficient in many ways to save you money. The standard 10,000-mile oil change interval under normal driving conditions means Sprinter is not only easy on lubricants, it's easy on your wallet, too.

MAINTENANCE INTERVALS

Nothing can match Sprinter's available ASSYST maintenance monitoring system. This technology is so refined, it can stretch the already impressive 10,000-mile standard oil-change interval up to an incredible 20,000 miles. And with Dodge's 3-year/36,000-mile basic limited warranty† and 5-year/100,000-mile diesel engine limited warranty‡, you can be confident that Sprinter will be there for the long haul.

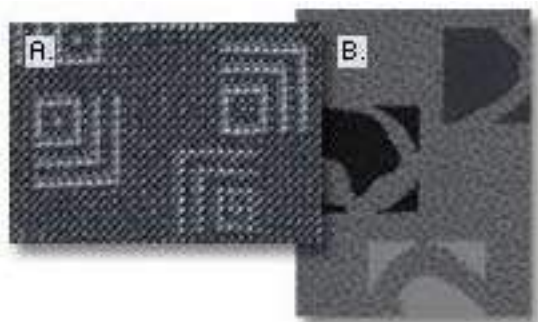

† See your dealer for complete details and a copy of this 3/36 basic limited warranty. Excludes normal maintenance and wear items.

‡ See your dealer for a copy of this 5/100 diesel engine limited warranty on specified engine components

AVAILABLE EXTERIOR COLORS

FABRIC & TRIM

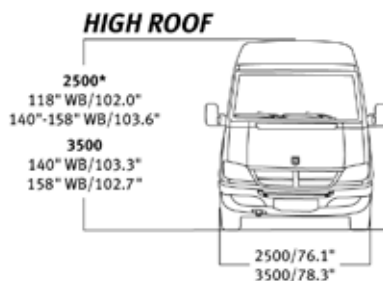

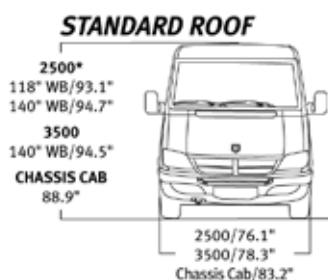

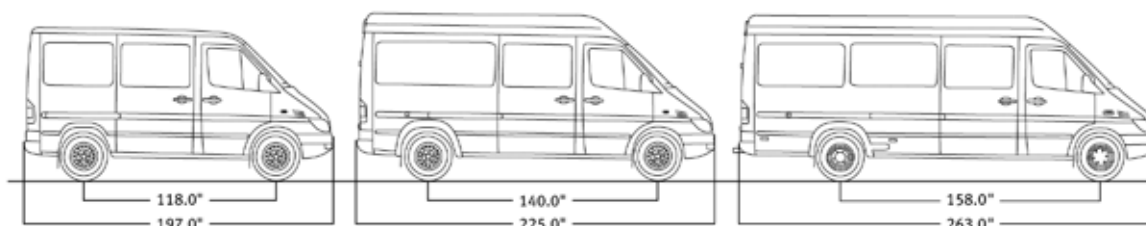

- A. Santos cloth in Gray, standard on all models
- B. Carat cloth in Gray, optional on Passenger Van

WHEELS

- A. 15"x6" Steel Wheel. Standard on 118"-wheelbase 2500 models
16"x6" Steel Wheel. Standard on 140"- and 158"-wheel base 2500 models
- B. 16"x6" Aluminum Wheel. Available on 140"- and 158"-wheelbase 2500 Cargo and Passenger Van models
- C. 15"x5" Steel Wheel. Standard on 3500 Cargo Van models (front only)
16"x6" Steel Wheel. Standard on 3500 Chassis Cab models (front only)
- D. 15"x5" Steel Wheel. Standard on 3500 Cargo Van models (rear only)
16"x6" Steel Wheel. Standard on 3500 Chassis Cab models (rear only)

⁽¹⁾Always use seat belts. Sprinter Cargo Van and Chassis Cab are equipped only with front seats and should not be used to carry children 12 and under. The rear seat must be used for children 12 and under on Sprinter Passenger Van. ⁽²⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt. Always check entire surroundings before backing up.
