

Avenger leads with a bold statement — the signature Dodge crosshair grille. The crosshairs on the Avenger R/T and Express grilles are chrome with Black texture bars, while the Avenger SE grille has equally detailed body-color crosshairs. From its aggressive front to its distinctive “kick-up” in the rear doors, muscular rear shoulders, and short decklid, Avenger is heavy on attitude. Take in all that open-air driving has to offer with an available one-touch express open/close power sunroof with a sunshade. Large, modern quad-halogen headlamps provide brilliant down-the-road lighting. The headlamps are surrounded with distinctive bright housing while taillamps, turn signals, stoplamps, backup lamps, and side reflectors are combined in a single, sleek unit. Dual chrome exhaust tips hint at the available performance capability on Avenger R/T. R/T and Express models feature standard 17-inch aluminum wheels while 18-inch chrome-clad wheels and all-season performance tires are included on R/T models with the 3.5-liter engine.

Avenger comfortably accommodates guests and gear. Opt for premium heated leather-trimmed driver and front-passenger seats. Start Avenger from up to 300 feet away with the available remote start feature. The standard segment-exclusive^[1] Chill Zone[®] beverage storage bin features a contoured mat to hold up to four 12-oz cans and keep them chilled with the help of the A/C. Fold-flat 60/40 seats make room for big stuff. A fold-flat front passenger seat hauls long items with ease. ^[1]Based on 2009 Automotive

Book Access Profile (PBAP).

When you enhance your Avenger with Authentic Dodge Accessories by Mopar, you'll make your vehicle even more outstanding. You'll also benefit from the authentic difference found only in an original equipment accessory. Choose from the full line of accessories that feature a fit, finish and functionality designed specifically for your Avenger. **SIDE WINDOW AIR DEFLECTORS.** Now you can partially open your side windows while remaining dry in even the nastiest weather. **17-INCH CHROME WHEELS.** Style meets substance. Our premium wheel is machined to match your Avenger's exact specifications for a balanced ride and undergoes stringent testing for optimal durability and a long-lasting shine. **MOLDED SPLASH GUARDS.** Help protect the rear fascia of your Avenger from damage caused by gravel, salt and road debris, while adding some straight-on good looks. Guards available for rear only. **CHROME EXHAUST TIP.** Add a bright, bold touch to the back of your Avenger with this corrosion-resistant chrome exhaust tip. **HITCH RECEIVER.^[1]** Your Avenger will really haul when it's equipped with this Class I Hitch Receiver with a towing capacity of up to 1,500 lb. Ball Mount, Hitch Ball, and Wiring Harness sold separately. Check us out at mopar.com. ^[1]Check Owner's Manual for hitch types, load capacity and heavy-duty equipment required. Do

not exceed the rated tow capacity of vehicle as equipped. Towing may require some items not supplied by Mopar.

AUTHENTIC ACCESSORIES

ELECTRONIC STABILITY CONTROL (ESC).^[1] In adverse conditions, the available ESC with Brake Assist works with an advanced all-speed traction control system to help the driver maintain vehicle directional stability and limit oversteering or understeering. Brake Assist detects conditions when maximum force is needed for optimum stopping power. **SUSPENSIONS.** A MacPherson strut front suspension with an isolated front cradle enhances ride quality for a comfortable and quiet ride. The independent multilink rear suspension with an isolated rear crossmember is tuned to optimize ride, handling and noise isolation. **ANTILOCK BRAKE SYSTEM (ABS).** Standard four-wheel antilock disc brakes afford premium stopping power from state-of-the-art electronics that provide faster system response. ABS senses and prevents wheel lockup, offering improved steering control under extreme braking and/or slippery conditions. **AIR BAGS.**^[2] All Avenger models feature standard advanced multistage driver and front-passenger air bags, supplemental side-curtain air bags, and supplemental driver and front-passenger-seat mounted air bags. ^[1]No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ^[2]The Advanced Front Air Bags in this vehicle are certified to the new federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly.
