INSIDE WE GO ALL OUT.

Comfort, style, and craftsmanship provide the right atmosphere for driver and passenger indulgence. A power 8-way driver seat and heated driver and front-passenger seats are available. Driver and passengers are treated to spacious seating and soft-touch resting points for hands and arms. The available automatic temperature control keeps the environment just right. Interior LED lighting further enhances the ambience while gauges emit a cool blue-green glow on the instrument panel. A *WARD'S* WINNING ENGINE.

Designed to deliver spirited performance, Avenger offers two formidable engines.

3.6-LITER DOHC PENTASTAR® VARIABLE VALVE TIMING (VVT) V6 – NAMED ONE OF *WARD'S* 10 BEST ENGINES FOR 2011.

This engine serves up an exceptional blend of power and efficiency (EPA estimated 19 city/29 hwy mpg), including best-in-class^[1] 283 horsepower, best-in-class^[2] 29 hwy mpg fuel economy, and impressive 260 lb-ft of torque. The only thing better than numbers like these are low emissions, first-rate noise, vibration, and harshness control, and the engine's durability-enhancing features that require very low maintenance.

2.4-LITER DOHC 16-VALVE 4-CYLINDER. A strong balance of fuel economy (2.4-liter engine with available 6-speed AutoStick transmission offers EPA estimated 31 hwy mpg) and power give the 2.4-liter World Engine, featuring dual VVT and 173 horsepower, solid performance.

SUSPENSION. A suspension showcasing MacPherson struts up front and multilink coils in the back give the driver a fun and sporty driving experience.

NEW AVENGER R/T. The new Avenger R/T delivers an enthusiastic best-in-class^[1] 283 horsepower, 6-speed AutoStick, and 29 highway mpg. Increased spring rates, rear stabilizer bar diameter, and damping forces of both the front struts and rear shocks give Avenger R/T a performance boost. Its bold exterior digs deeper with unique 18-inch wheels, body-color grille insert and blacked-out headlamp housings, hood-to-fender stripe, and R/T badge. Inside, sporty cloth seats with Z-Stripe design with leather bolsters and performance-inspired instrument cluster energize Avenger's cabin.

Avenger R/T in Bright Silver Metallic.

SAFETY.

At Dodge, we make safety and security our top priority which is why every safety feature available comes standard on every Avenger model. This is one of many reasons Avenger has been recognized as a 2011 Insurance Institute for Highway Safety (IIHS) Top Safety Pick. **ELECTRONIC STABILITY CONTROL (ESC)^[7]** In adverse conditions, the standard ESC and Brake Assist work with an advanced all-speed traction control system to help the driver maintain vehicle directional stability and limit oversteering or understeering. Brake Assist detects conditions when maximum force is needed for optimum stopping power. **ANTILOCK BRAKE SYSTEM (ABS)**. Standard four-wheel antilock disc brakes afford premium stopping power from state-of-the-art electronics that provide faster system response. ABS senses and prevents wheel lockup, offering improved steering control under extreme braking and/or slippery conditions. **AIR BAGS^[8]** All Avenger models feature standard advanced multistage driver and front-passenger air bags, supplemental side-curtain air bags, and supplemental driver and front-passenger seat mounted air bags. **ACTIVE FRONT HEAD RESTRAINTS^[9]** Head restraints automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint and the occupant's head, helping to reduce the chance of injury. **TIRE PRESSURE MONITORING SYSTEM**. A warning light in the instrument cluster on Avenger SE alerts the driver to tires with high or low pressure. All other models come equipped with the premium system that displays individual tire pressures.
