

2014
DODGE GRAND CARAVAN

Properly secure all cargo.

/// BEST-SELLING^{[1]*} AND MOST-AWARDED^[2] MINIVAN EVER

Thirty years ago, Dodge had the vision to see something that the world didn't know was missing. But more important, had the courage to build it. No one asked Dodge to build the minivan. Drivers didn't even know they needed one. But once built, families flocked. Weekend warriors arrived. Home improvement fanatics and small business owners lined up. And the legend of Dodge Grand Caravan was set. Today, it boasts industry-exclusive features and holds titles, including the best-selling^[1] and most-awarded^[2] minivan ever. But most important, it holds the confidence of families, their hobbies and their livelihoods. This is the 2014 Dodge Grand Caravan.

*A note about this brochure: all disclaimers and disclosures can be found on page 19.
Properly secure all cargo.

30 : YRS

EDITION

Grand Caravan is celebrating its 30th Anniversary with two special edition packages. Built off of your choice of SE or SXT trim levels, the 30th Anniversary Edition adds premium features such as sporty 17-inch aluminum wheels, an exclusive Granite Crystal Metallic exterior color and unique interior accents, materials and technology, including SiriusXM[®] Satellite Radio⁽⁴⁾ with one-year subscription, Bluetooth[®] Streaming Audio, Uconnect[®] Voice Command⁽⁵⁾ and more. SXT 30th adds unique bright exterior accents, such as fog lamps, power driver's seat and exclusive premium leatherette seats with suede inserts.

1984

Dodge debuts the all-new Caravan—the world's first minivan

1984

First minivan to offer front-wheel drive

1987

First minivan to offer a long-wheelbase model — Grand Caravan

1991

First minivan to offer second-row Captain's Chairs

1991

First minivan to offer a standard driver-side air bag⁽⁷⁾ and four-wheel antilock brakes

1996

First minivan to offer dual sliding doors

2001

First minivan to offer power-up and power-down liftgate and power dual sliding doors

2009

First minivan to offer a Dual DVD system that can play different media at the same time

2009

First minivan to offer Blind Spot Monitoring (BSM⁽⁸⁾) and Rear Cross-Path Detection⁽⁹⁾

2004

First minivan to offer Stow 'n Go[®] seating and storage system, split-bench third-row reclining seat and tailgate seating

2013

First minivan to offer Blu-ray™ Dual DVD entertainment system

GRAND CARAVAN SXT SHOWN WITH SANDSTORM CLOTH INTERIOR.

THE MOST VERSATILE VEHICLE IN ITS CLASS.^[3]

Today it's transporting a flight crew. Tomorrow it's hauling intergalactic specimens. And behind it all is an intelligent interior designed to be as flexible as your ever-changing lifestyle. Keep all rows of seating upright for seven-passenger seating. Flip, fold and tumble second-row Super Stow 'n Go seats and 60/40 split-folding Stow 'n Go third-row seats into the floor to convert Grand Caravan from a passenger powerhouse to an impressive cargo carrier. With all seats folded into the floor, the flat cargo floor area offers 143.8 cu ft of cargo room.

DESIGNED TO INDULGE. Regardless of what's happening behind the first row, there will always be a driver in the front seat deserving of pampering. That's why you'll find soft-touch surfaces and must-have features at every turn. The integrated instrument panel houses gauges surrounded with touches of chrome. Available heated front- and second-row seats and available class-exclusive^[3] full-circumference heated steering wheel offer comfort in every climate. An available fully-integrated super console houses four cup holders, two power outlets and covered storage to conceal your technology. This is the kind of smart, well-designed interior the competition just can't compete with.

GRAND CARAVAN SXT 30TH ANNIVERSARY EDITION SHOWN WITH TORINO BLACK LEATHERETTE INTERIOR.

INTUITIVE, DRIVER-FRIENDLY TECHNOLOGY. It starts with the standard Uconnect[®] 130 radio/CD player with auxiliary jack and builds up to the available Uconnect 430N system with 6.5-inch touch screen and Garmin[®] Navigation that lets you launch a playlist from your MP3 player, request directions and make a call, all without taking your hands off the wheel. From the simple to the fully advanced, Grand Caravan and Uconnect offer technology that keeps you connected.

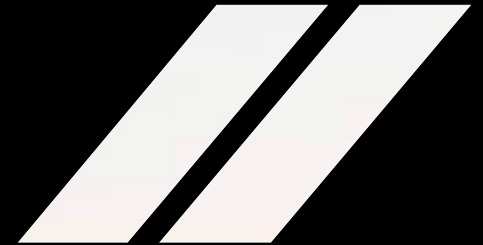

Uconnect features easy-to-navigate icons for radio and SiriusXM[®] Satellite Radio^{[4]*} controls, personal devices like an iPod[®] or smartphone, climate controls and available navigation and Bluetooth[®] compatible phones.

Bring along your own tunes via remote SD card, remote USB port or Bluetooth Wireless Streaming. With available front- and rear-mounted steering wheel controls, there's no taking your hands off the wheel to change stations or the volume. Available Voice Command^[5] lets you operate things like a compatible phone, radio/CD functions or your digital media players.

Opt for available Garmin Navigation for turn-by-turn directions, lane guidance or locating nearby businesses. Add available SiriusXM Traffic^[4] for comprehensive traffic information sent directly to your Grand Caravan. Choose SiriusXM Travel Link^[6] to bring local and national weather forecasts, fuel prices for local gas stations, in-game and final sports scores, sports schedules and local movie theater listings right to your vehicle.

COMMAND CENTRAL. Grand Caravan's instrument panel has essential travel information at the ready. Track mileage, control your environment and keep an eye on safety and maintenance matters from the illuminated, easy-to-read gauges. *First year of service is included.

The available Stow 'n Place® roof rack system offers the convenience of crossbars that attach to the side rails when not in use, for improved fuel efficiency and reduced wind noise. When in use, they help carry up to 150 lb of gear.

STOW 'N PLACE® ROOF RACK

GRAND CARAVAN SXT SHOWN IN BILLET SILVER METALLIC.

STOW 'N GO®

NO ONE WANTS HARDER. EVERYONE WANTS EASIER. You'd think more minivan manufacturers would understand this. Grand Caravan is the only vehicle on the planet^[3] to offer second-row Super Stow 'n Go® seats that fold into the floor to give you flexibility, ease and a flat load floor for optimum cargo capacity. With the other guys, you're stuck having to physically remove the second-row seats from the vehicle (good luck!) or fold the seats onto the floor or in on themselves, resulting in a bulky heap that restricts cargo capacity.

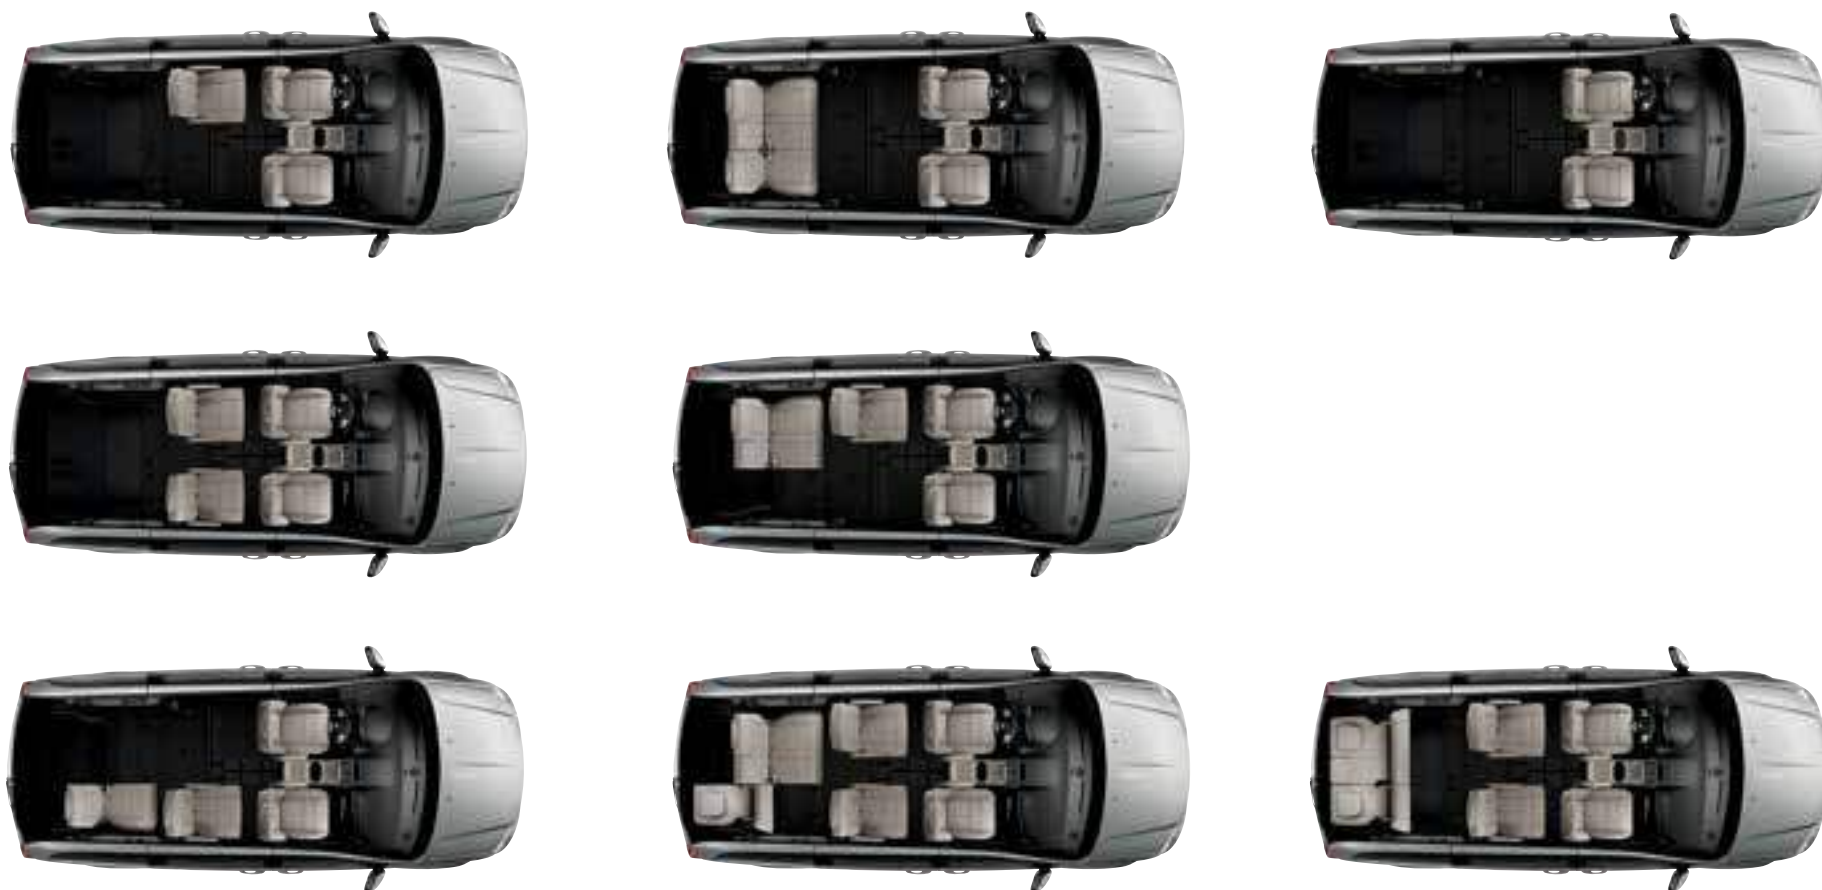

Want to know what else only Grand Caravan has? A best-in-class^[3] storage system that includes second-row in-floor storage bins. When your Super Stow 'n Go seats are upright, travel essentials can be stowed away for completely free-from-obstacles entry and access to the third-row seats — making life easier, especially for those helping little ones into child restraint seats.

The 60/40 split-folding Stow 'n Go third-row seats also easily fold into a floor bin with a few easy pulls on the conveniently numbered straps. When in Park, the seat can flip completely rearward for tailgate seating. In fact, there are 81 different seating configurations available on Grand Caravan. Why so many? Because this is not a one-size-fits-all interior. It's designed to move, fold, tumble and stow to make your ever-changing lifestyle easier. You're welcome!

Properly secure all cargo.

NO OTHER VEHICLE ON THE PLANET^[3]
HAS SUPER STOW 'N GO[®]

Whether it's configuration one or 81, creating the perfect seating and cargo combination is quickly achieved without physically removing any seats from the interior. They're simply stowed in-floor. Go configure!

BEST-IN-CLASS^[3] STORAGE

Thirty years ago, Dodge created a new vehicle segment. The vision was to make life easier. To make things convenient. To make it adaptable to the individuals who drive it. And they succeeded with available innovations like a power liftgate and dual power sliding doors, in-floor storage and seats that stow out of sight. They did it with available conveniences like a full-circumference heated steering wheel, heated front- and second-row seats and stadium-style second- and third-row seats. They did it with small details like power outlets and an available conversation mirror that makes it easier to monitor rear-seat passengers. They did it by packing it with technology kids crave and adults aren't overwhelmed by.

VERSATILE AT ENTERTAINING. CLASS-EXCLUSIVE^[3] BLU-RAY™ PLAYER.

Watch the latest movies in high quality via the available center stack Blu-ray player. The system plays both Blu-ray and DVD formats and can be viewed from both second- and third-row VGA screens.

DUAL DVD PLAYERS. With two available DVD players, passengers can choose to watch the same movie or a different one. Some passengers can opt to connect their gaming system while others enjoy a movie.

REAR-SEAT HDMI/USB PORTS. Rear-seat passengers can tap into the entertainment system via these conveniently located ports, or charge their personal electronics.

AWARD-WINNING 3.6-LITER DOHC PENTASTAR® VARIABLE VALVE TIMING (VVT) V6 — Grand Caravan's confident swagger isn't just rooted in its safety and security. It's also found in the acceleration of the 3.6-liter V6 engine. With 283 horsepower and 260 lb-ft of torque and a towing capacity up to 3,600 lb*, this power player is ready for anything.

Advanced engine technology allows for a generous 25 mpg[†] highway, which translates to an estimated 500 highway miles on a single tank of gas. The only thing better than numbers like these are the engine's durability-enhancing features, like an advanced oil filter system that helps to eliminate oil spills and contains an incinerable filter element for more efficient disposal. Grand Caravan's 3.6-liter V6 is also Flex Fuel capable, offering consumers the choice of using either gasoline or ethanol (E85) fuel.

The suspension tuning, an efficient and easy-to-operate gated shifter and a class-exclusive^[3] fuel-economizer feature that alters shift patterns work together to boost overall ride quality and help improve real-world fuel efficiency.

For a tighter-tuned ride, choose Grand Caravan R/T. The standard performance suspension offers increased damper tuning and higher spring ratios for an exceptionally smooth ride and optimal cornering. *When properly equipped. †EPA estimated 17 mpg city/25 mpg highway.

GRAND CARAVAN SXT 30TH ANNIVERSARY EDITION SHOWN IN GRANITE CRYSTAL METALLIC.

SAFETY / TECHNOLOGY

Seven standard air bags.^[7]

In the event of a collision, side-curtain air bags and front-seat side-mounted air bags deploy, blanketing outboard positions in all three rows of seating. A driver's knee-blocker air bag helps position the driver in relation to the front air bag.

Blind Spot Monitoring (BSM)^[8] with Rear Cross-Path Detection.^[9]

Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection,^[9] which monitors for vehicles/objects in perpendicular relationships to the vehicle while backing out of tight parking spots. Available.

ParkSense[®] Rear Park Assist.^[9]

When in Reverse, sensors detect the presence of objects within 6.5 feet in the backup pathway and provide both an audible chime and a visual warning. Available.

Trailer Sway Control!^[10]

This system uses sensors to recognize when vehicle or trailer motion is occurring that is not the result of steering input. The system then corrects the sway by applying brake pressure on alternating wheels. Standard.

Electronic Stability Control (ESC).^[10]

In adverse conditions, the standard ESC with electronic Brake Assist works with an advanced All-Speed Traction Control system to help the driver maintain vehicle directional stability and limit oversteering or understeering. Electronic Brake Assist detects conditions when maximum force is needed for optimum stopping power.

ParkView[®] Rear Back-Up Camera.^[9]

The available system displays an accurate visual reference of what is behind your vehicle when you are in Reverse.

Our Internet radio service is available throughout our satellite service area and in AK and HI. [7] The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. [8] Always check visually for vehicles prior to changing lanes. [9] Always look before proceeding, electronic driving aid is not a substitute for conscientious driving, always be aware of your surroundings. [10] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. [11] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [12] WiFi Hotspot does not enable direct communication between multiple in-vehicle devices. Factors affecting the performance of WiFi Hotspot include: cellular network, signal strength and quality, time of day, number of channels used by the service provider, type of connection, number of clients using WiFi Hotspot and client device. [13] Chrysler Group LLC Automobility program provides aftermarket reimbursement incentives on adaptive vehicle uplift equipment in order to help provide safe and reliable vehicle modifications to enhance accessibility for all people.
