

2016 DODGE CHARGER

This is what happens when you have more than 45 years of muscle-car heritage coursing through your veins. You get modern-day marvels that are engineered with more passion, precision and performance than ever before. The Dodge brand may have started from humble beginnings, but it is now the fastest-growing performance brand.^{[1]*} It holds a multitude of best-in-class awards. It's the brand that boasts both style and power, and never makes you choose between the two. With more than 100 years under

their belt, each of the seven vehicles in the 2016 Dodge lineup pays homage to its iconic bloodline with award-winning features and superior craftsmanship. The snarling engines and sleek exteriors of each vehicle beg to be taken out on the open road. The Dodge name continues to live on with the same determination that the Dodge brothers had when first creating the brand. It's time to put the pedal to the metal and live fast.

HERE'S TO THE *NEXT 100 YEARS OF INNOVATION.*

*A note about this brochure: all disclaimers and disclosures can be found on the back cover.

PURE AMERICAN MUSCLE

Charger's amped-up attitude is so fierce, it's impossible to ignore. The first glance sends chills. The second begs you to run your hand along its low, lean profile and scalloped bodyside. Its imposing grille leaves no question where this retro-modern muscle comes from. Front to rear, Charger commands authority with projector headlamps and LED lighting. Even the most discerning eyes take note.

////// Charger SXT shown in Pitch Black with Premium Group.

MINED FROM THE ARCHIVES /////

The heritage-inspired Charger R/T Scat Pack proudly wears the Scat Pack Bee on its Gloss Black grille. Built for performance, a large inlet and scoop transfers gulps of fresh air beneath the hood to efficiently cool the engine compartment. The 392 HEMI® fender badges let onlookers know exactly what's under the hood. Available High Intensity Discharge (HID) headlamps with LED daytime running lamps and bulked-up 20x9-inch wheels amp up the track-infused design. Its rear heat extractors and 1-piece Satin Black Performance Spoiler bear witness that this vehicle means business.

A first-person perspective from the driver's seat of a Dodge Charger. The driver's hands are on a thick, three-spoke steering wheel. The instrument cluster features analog gauges with a 'CHARGER' badge. The center console has a large touchscreen displaying a navigation app with a 'Where To?' search bar and various icons like 'Address', 'Recent', 'Point of Interest', 'Favorites', 'Intersection', 'Go Home', 'Radio', 'Media', 'Controls', 'Apps', 'Climate', 'Nav', and 'Phone'. Below the screen are physical buttons for 'OFF', 'PARK', 'P', 'A/C', and 'OFF'. The interior has a perforated aluminum instrument panel bezel and a 'START STOP ENGINE' button.

MORE THAN ONE WAY TO MOVE YOU

Don't just love us for our body. Want us for our technology. Appreciate us for our soft spaces and for our ability to accommodate all your friends.

Charger's driver-focused interior is stocked with race-inspired details, bold colors and retro-cued soft-touch surfaces. A genuine, 1-piece stamped aluminum instrument panel bezel adds the finishing touch on an interior that is dedicated to the details.

Take control with the thick-rim three-spoke Sport steering wheel. Available paddle shifters with rev-matching capability bring track-inspired performance to the everyday drive.

////// Charger R/T Road & Track shown in Black/Pearl Nappa leather with Sepia accent stitching and perforated inserts.

SHIFT YOUR PERSPECTIVE

It's class-exclusive^[12] and standard on every Charger model — a seven-inch reconfigurable digital gauge cluster. From here, you get real-time information and vehicle status updates in full color, as well as available turn-by-turn navigation information and visual safety system notifications.

Keep tabs of performance numbers including 0 – 60 time, reaction time and lap timer with available Dodge Performance Pages. The pages also include configurable Drive Modes that allow you to make performance adjustments to the engine, transmission, steering response and traction control.

The redesigned center console shifter gives Charger a distinctive level of sophistication. The electronic shifter with AutoStick mimics the operation of a traditional linkage shifter, while allowing for smoother and more efficient shifting.

*YOU CAN DEFINITELY
FEEL IT COMING*

CHARGER R/T SCAT PACK // Loaded with a legendary 6.4-liter HEMI® V8, this powerhouse unleashes 485 horsepower and 475 lb-ft of torque. Four-piston Brembo® brakes, 3-mode Electronic Stability Control (ESC)^[10] with Full-Off Mode, and high-performance suspension with Bilstein® shocks, 20x9-inch wheels and available Three-Season Performance tires work together to bring top-shelf control. The interior merges retro styling with modern technology. Race-inspired seats feature the famed Scat Pack logo embroidered on either standard high-performance premium cloth or available Nappa leather trim with

Alcantara® suede inserts. Standard on the R/T Scat Pack model, Dodge Performance Pages feature everything from Launch Control to a G-force meter to drag-race timers. This real-time data can also be displayed on either the 8.4-inch Uconnect® touchscreen or the standard seven-inch reconfigurable digital display nestled between the gauges. For an even greater degree of personalization, the Charger R/T Scat Pack customizable settings can be accessed through the standard Uconnect touchscreen that gives the driver the ability to adjust steering feel, transmission shift points and throttle response.

in Granite Crystal Metallic.

707 HORSEPOWER

There's a reason that the only sounds out there are the incredibly aggressive exhaust notes floating from the pipes of the Supercharged 6.2-liter SRT® Hellcat HEMI® V8. Push came to shove and it was time for everyone to either put up or shut up. We posted our numbers — a mammoth 707 horsepower and 650 lb-ft of torque — and not surprisingly, no one had anything left to say.

Dodge Charger SRT Hellcat showcases unrivaled four-door performance that includes an NHRA-certified quarter-mile elapsed time in 11.0 seconds on street tires and 0 – 100 – 0 mph in under 13 seconds.

With numbers like these, Charger SRT Hellcat is the quickest, fastest and most powerful sedan. Ever.^[11]

Tip to tail, inside and out, Dodge Charger SRT® Hellcat reigns supreme. Whether you're checking out its menacing sheet metal or its track-inspired interior, it's clear this machine exudes unrelenting power.

Extensive wind tunnel and road testing helped create an engine cooling package that lets SRT Hellcat outperform other sedans without fear of degradation. The sculpted aluminum hood showcases a colossal air intake and dual heat extractors that vacate the heat that an unmatched^[11] 707 horsepower can make.

Drive Modes tailor the driving experience by controlling horsepower, transmission shift speeds, paddle shifters, traction control and suspension settings. Drive Modes are pre-configured for Sport, Track and Default settings, while the Custom Mode allows the driver to configure their own unique driving experience.

The Bilstein® three-mode Adaptive Damping Suspension on Charger SRT Hellcat models provides selectable driving dynamics settings that adjust shocks and transmission shifts to suit any drive — Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest, max handling).

Program your driving experience and keep track of performance data via customizable SRT Performance Pages. Everything from horsepower to G-force meter to drag-race timers to downloadable apps is right at your fingertips. This real-time data can be displayed on the seven-inch reconfigurable digital gauge cluster or on the class-exclusive^[12] 8.4-inch Uconnect® touchscreen.

At delivery, SRT Hellcat owners are handed both a Red and Black key fob. The Red unlocks the potential max horsepower while the Black enables more conservative performance.

////// Charger SRT® Hellcat shown in Bright White.

SAFETY & SECURITY FEATURES

HERE'S WHAT YOU CAN DO. REMAIN FOCUSED ON THE ROAD WITH YOUR HANDS ON THE WHEEL, WHILE YOU COMMUNICATE, NAVIGATE AND STAY ENTERTAINED.

- LISTEN TO MUSIC, TALK SHOWS AND SPORTS. ACCESS ALL GENRES, FAVORITE ARTISTS, WINNING TEAMS – ALL THE TIME WITH SIRIUSXM® SATELLITE RADIO^[15]
 - ASSISTED IN EMERGENCIES. REACH 9-1-1^[5] OPERATORS AND ROADSIDE ASSISTANCE^{[6]*} WITH THE TOUCH OF A BUTTON
 - SPEAK UP AND BE HEARD. SEND AND RECEIVE CALLS AND TEXTS^[22] WHILE DRIVING SAFELY WITH HANDS-FREE^[3] PHONE CAPABILITY
 - DISCOVER NEW PLACES. FIND THE BEST SHOPPING, DANCING, ENTERTAINMENT VENUES AND RESTAURANTS
 - START YOUR CAR FROM AFAR. GET YOUR ENGINE RUNNING, UNLOCK YOUR DOOR OR FLASH YOUR HEADLAMPS FROM ALMOST ANYWHERE USING YOUR SMARTPHONE
 - SEE INTO THE FUTURE. HEAR WEATHER AND TRAFFIC REPORTS* WITH A FIVE-YEAR TRIAL SUBSCRIPTION TO SIRIUSXM® TRAVEL LINK^[15] AND SIRIUSXM TRAFFIC^[15]
 - HOST A HOTSPOT. UPLOAD AND DOWNLOAD, POST AND SEARCH – UCONNECT® WITH AVAILABLE WIFI^[16] LETS YOU CONNECT YOUR DEVICES TO THE WEB

DODGE IS A REGISTERED TRADEMARK OF FCA US LLC.

[1] Data is calculated using the latest available year-over-year (YOY) retail vehicle registrations. [2] Based on the latest competitive information and *Ward's* Standard Specialty segment based on *Car & Driver* ¼-mile time. [3] Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. [4] Uconnect Access is available only on equipped vehicles purchased within the 50 United States. Services can only be used where cellular coverage is available, see coverage map for details. For a complete list of Uconnect Access services, please visit http://www.driveuconnect.com/features/uconnect_access/packages/. Vehicle must be registered for Uconnect Access and fulfill minimum subscription requirement. [5] The 9-1-1 Call button will connect you directly with Emergency Assistance. If you accidentally press the button, you have 10 seconds to cancel the call by either pressing the 9-1-1 button on the rearview mirror or the Cancel button on the Uconnect touchscreen. [6] Provides direct-dial access to Roadside Assistance Service. Vehicle must be within the United States, have network coverage and be registered with Uconnect Access with an active subscription that includes the applicable feature. Additional roadside assistance charges may apply. Check warranty for details. [7] If you have this feature and have reported your vehicle as stolen to an appropriate law enforcement agency, Uconnect will try to locate your vehicle after receiving proper documents and once law enforcement contacts Uconnect Customer Care. Uconnect may refuse to locate your vehicle if you do not provide the requested information or documents. Always notify law enforcement if your vehicle is stolen and do not attempt to recover it on your own. [8] Vehicle must be registered with Uconnect Access and fulfill minimum subscription requirements. Vehicle must also be properly equipped and in an active and usable cellular range. Theft Alarm Notification is only available on factory-installed alarms. [9] Based on the latest available competitive information and *Ward's* Middle Specialty Vehicle segment. [10] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. [11] Excludes non-mass-production vehicles based on horsepower, top speed and NHRA-certified ¼-mile testing. [12] Based on the latest available competitive information and 2015 *Ward's* Large Regular Car Vehicle segment. Excludes other FCA US LLC vehicles. [13] Based on the latest available competitive information and 2015 *Ward's* Small Upper Sedan Vehicle segmentation costing under \$25,000. [14] Always check visually for vehicles prior to changing lanes. [15] SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your trial subscription. If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and get more information at www.siriusxm.com. All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. [16] WiFi subscription required. Vehicle must be registered with Uconnect Access and fulfill minimum subscription requirements. Vehicle must be properly equipped and in active and usable cellular range for WiFi usage. WiFi Hotspot does not enable direct communication between multiple in-vehicle devices. Factors affecting the performance of WiFi Hotspot include: cellular network, signal strength and quality, time of day, number of channels used by the service provider, type of connection, number of clients using WiFi Hotspot and client device. This feature is not intended for use by the driver while the vehicle is in motion. Always drive safely. [17] Based on the latest competitive information available. [18] Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings. [19] LDW is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. [20] ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [21] FCW system is solely an alert system for the front of the vehicle which does not take any actions to change the vehicle dynamics to avoid a collision and is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [22] Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Visit UconnectPhone.com for system and device compatibility. [23] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [24] The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. [25] Transferable. See dealer for complete details and a copy of the 5-Year/60,000-Mile Powertrain Limited Warranty.
