

2022 //
DODGE CHARGER

PERFORMANCE, POWER AND MUSCLE

Now and forever, Dodge is about performance, power and muscle. But that formula isn't simply calculated by the amount of **intense** horsepower and torque our vehicles produce. **Performance** is also measured by the way advanced safety and security features protect passengers. The onboard **technology** that helps keep occupants connected to the

people, places and entertainment that matter most is another gauge of power. **Muscle** can be tracked by the ability to tow hefty loads, seat up to seven passengers and bring **efficiencies** to engines. Every vehicle in the 2022 lineup is designed to live up to the pillars that support the **Dodge Brand**.

BROTHERHOOD OF MUSCLE

**CHARGER SRT HELLCAT® REDEYE WIDEBODY
JAILBREAK //**
shown in Frostbite.

DURANGO SRT® //
shown in Destroyer Grey with available Flame Red
dual stripes, Black Package and Cargo Plus Group.

CHALLENGER SUPER STOCK //
shown in Go Mango.

JUST FOR YOU —

HOW DOES A FOUR-DOOR, FIVE-PASSENGER SEDAN FEEL AT HOME IN A BRAND KNOWN FOR ITS PURE AMERICAN MUSCLE? EASILY. WITH A BRILLIANT COMBINATION OF POWER, PERFORMANCE AND CONTROL, EVERY CHARGER IN THE 2022 LINEUP HAS STAYED TRUE TO ITS PERFORMANCE-CAR ROOTS. WHETHER YOU BRING HOME AN EFFICIENT, RESPONSIVE CHARGER SXT, THE SUPERCHARGED AUTHORITY OF AN SRT HELLCAT® REDEYE WIDEBODY OR ANYTHING IN BETWEEN, THERE'S A CHARGER THAT'S PERFECT FOR YOU.

////// Charger SRT Hellcat Widebody shown in Hellraisin with available Carbon dual stripes.

SRT HELLCAT® REDEYE //

Powered by a 797-horsepower, 707-lb-ft-of-torque **Supercharged** 6.2L high-output HEMI® V8 engine that's mated to a TorqueFlite® 8HP90 8-speed automatic transmission, **SRT Hellcat Redeye** sets the pace as the nameplate's most intense trim level. It can run a quarter-mile in 10.6 seconds at 129 mph, go from 0 - 60 in the mid-3-second range and hit a top speed of 203 mph. SRT Hellcat Redeye also uses Torque Reserve to deliver up to 3.9 psi of boost at launch and up to 55 percent more engine torque. Both the steel prop shafts and the half-shafts allow the vehicle to handle the additional torque created with the help of the SRT Power Chiller® and After-Run Chiller. Essentially, this daily driver is a beast.

SRT HELLCAT //

Only slightly less raucous than its sibling, Charger SRT Hellcat throws down **serious performance** numbers of its own. Its 717-horsepower, 650-lb-ft-of-torque performance is also supplied by a Supercharged 6.2L HEMI SRT Hellcat V8 engine. Its **dominance** shows in 0 - 60 runs in 3.6 seconds and its impressive 10.96 quarter-mile elapsed time – even on street tires.

SRT® DRIVE MODES //

All SRT Hellcat trim levels feature Drive Modes specific to the vehicle. The SRT tuned Bilstein® Three-Mode Adaptive Damping Suspension System provides driver-selectable settings including Street (Auto) Mode = **sporty** but compliant ride; Sport Mode = **firm**, maximum handling; and Track Mode = **firm**, **maximum handling** plus performance shifting and a gear-holding feature to suit any driver's needs. The SRT Drive Modes, accessed via the Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track. A custom setting lets drivers tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard **SRT Performance Pages** brings critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock.

WIDE-REACHING AGGRESSION

/// Charger SRT Hellcat® Redeye and SRT Hellcat Widebodies have looks as aggressive as their performance. The iconic-inspired design showcases scalloped bodysides, an imposing grille and an all-out aggressive look. A performance hood provides maximum air intake to the supercharged powerplant from the functional hood scoop to boost power. The mail-slot grille lets cool air travel into the radiator and maintain ideal operating temperatures even in the hottest conditions. Side sills connect the front and rear fascias to help amplify the integrated design. In the rear, a standard one-piece, body-color performance spoiler details the back design while adding downforce to help bring high-speed balance to the vehicle.

The standard Widebody flares out an additional 3.5 inches from the overall width of the Charger for a more dominating, planted presence. Charger SRT Hellcat Widebody rides on standard 20 by 11-inch Carbon Black wheels and wider, stickier Pirelli® 305/35ZR20 tires (Three-Season tires are available). This combination teams with a competition suspension tuning with Bilstein® Three-Mode Adaptive Damping Suspension System to produce even more grip, delivering next-level performance on the street, strip and road course. SRT Hellcat Widebody runs 2.1 seconds faster on a 2.1-mile road course, equal to 13 car lengths after one lap.

////// Charger Scat Pack Widebody shown in Go Mango with available Satin Black-Painted Graphics Package, and
Charger SRT Hellcat® Widebody shown in Frostbite with available Satin Black-painted hood and sunroof.

SCAT PACK /// PERFORMANCE: PRIDE

It's a hefty 485-horsepower, 475-lb-ft-of-torque 392 HEMI® V8 engine that powers Charger Scat Pack and Scat Pack Widebody. Big Brembo® brakes, Three-Mode Electronic Stability Control (ESC)^{1*} with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20 by 9-inch aluminum wheels, and available cold-air induction help you use that power responsibly.

The unique specially tuned Scat Pack Widebody suspension features Bilstein Three-Mode (Street (Auto), Sport and Track) Adaptive Damping Suspension System and 20 by 11-inch wheels. The result is radical levels of lateral grip, acceleration and braking that deliver premium handling. Massive 15.4-inch Brembo two-piece brake rotors with 6-piston front calipers deliver tremendous stopping power, heat management and longevity, producing 60 – 0 stops in 107 feet. The numbers Scat Pack Widebody yields tell an impressive story: 0 – 60 mph in 4.3 seconds, quarter-mile in 12.4 seconds ET and 0.98 g lateral grip on the skid pad.

Charger Scat Pack interior boasts standard race-inspired seats with an embroidered Scat Pack Bee logo (standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts). All Scat Pack models include Dodge SRT® Performance Pages that features Launch Control, g-force meter, drag-race timers and more. This real-time data can also be accessed on either the standard 7-inch configurable digital display or the standard 8.4-inch Uconnect® touchscreen. Customize steering feel, transmission shift points, throttle response, ESC¹ tuning and suspension firmness (if equipped with Adaptive Damping Suspension) via the standard SRT Drive Modes.

///// Charger Scat Pack Widebody shown in Stinger Yellow (late availability) with available Carbon dual stripes.

*A note about this brochure: all disclosures can be found on the last page.

CHARGER SRT HELLCAT® //
shown with real carbon fiber interior accents
on the IP and center console, available in the
Carbon/Suede Interior Package and available
on Jailbreak Package.

////// Charger SRT Hellcat® Redeye instrument cluster shown.

Heritage-inspired design cues blend seamlessly with today's technology. A one-piece extruded aluminum instrument-panel bezel houses the standard 7-inch configurable digital gauge cluster. Buttons on the steering wheel let you scroll through hundreds of different vehicle configurations and customize what information you see and how you see it.

.....
CHARGER SRT HELLCAT® REDEYE
WIDEBODY JAILBREAK //
shown with Hammerhead Grey Laguna leather
trim and is exclusive to the SRT Hellcat Redeye
Widebody Jailbreak.

///// Charger Scat Pack Widebody shown in Sinamon Stick.

A BOLDER SLICE OF STYLE // Opt to outfit your Charger with the all-new HEMI® Orange Package. Available exclusively on Charger GT Rear-Wheel Drive (RWD) and Scat Pack Widebody trim levels, this package brings race-inspired style to your vehicle. A sporty, offset Orange and Gunmetal stripe runs tip to tail for maximum impact. Orange brake calipers are visible through the spokes of the 20 by 11-inch Carbon Black Warp-Speed aluminum wheels on Scat Pack or 20 by 9-inch Mid-Gloss Black aluminum wheels on GT. The trim-level badging with pops of Orange does the rest of the talking.

Inside, Desert Orange accent stitching gives a custom feel to the instrument panel (IP), steering wheel, shifter boot, seats and doors. K-Black and Gloss Black accents are found on the three steering wheel bezels, the cluster trim, HVAC rings and the shifter body. An Orange-accented “392” instrument panel (IP) badge also sets this package apart.

DRAMATIC AT
EVERY ANGLE

////// Charger SRT Hellcat® Widebody shown in Frostbite, and Charger Scat Pack Widebody shown in White Knuckle with available Satin Black-Painted Graphics Package.

ICONS ARE FOREVER

///// Charger Scat Pack shown in Go Mango with available Carbon dual stripes.

NOTHING SHORT
OF SINISTER

CHARGER SCAT PACK WIDEBODY //

shown in F8 Green.

///// IT'S NOT SMOKE AND MIRRORS, this is what a real legend looks like. There's no denying that, from the beginning, Charger has had a distinct silhouette. The sleek sheet metal on its long profile, door scallops and aggressive stance give it a muscular look. The seamless signature LED racetrack taillamp ensures you stand out as you zip past other drivers on the road. From available hood scoops and dual-heat extractors to exclusive Widebody fenders and bold wheel choices, Dodge attitude is everywhere. The only smoke we blow is in the face of mediocrity.

dual stripes.

S U S P E N S I O N S —

Every Charger in the lineup is underpinned by a proven suspension. Depending on trim level, options range from sport-tuned to high-performance to drag-race-specific suspension. Movement and staying power come from a sophisticated suspension geometry and Rear-Wheel Drive (RWD). The independent five-link rear suspension is finely tuned to help provide remarkable handling and ride comfort. A lower unsprung mass helps maintain optimum tire contact with the ground and minimize road noise.

Models equipped with a 392 HEMI® V8 engine feature unique suspension geometry that helps improve balance, cornering ability and steering responsiveness. Bilstein® shocks and a

lowered suspension allow these performers to achieve 0.93 g on the skid pad.

A Bilstein Three-Mode Adaptive Damping Suspension System is available on Scat Pack and standard on all SRT Hellcat® models. It offers different suspension firmness settings: Street Mode (sporty), Sport Mode (firm) and Track Mode (firmest max handling). The standard Scat Pack suspension delivers performance handling through an aggressive front- and rear-camber geometry. At -1.2 degrees in the front and -0.75 degrees in the rear, Charger is set up for high-speed cornering, with its tires leaning inboard at the top relative to the body.

AWD

ALL-WHEEL DRIVE

UNCOMPROMISING PERFORMANCE // When Mother Nature throws a curve ball, Charger hits it out of the park. Designed to perform no matter the conditions, the available on-demand All-Wheel Drive (AWD) and front axle disconnect seamlessly transition between Rear-Wheel Drive (RWD) and AWD without driver intervention. Under normal driving conditions, power to the front wheels is disengaged, and 100 percent of the engine's torque is directed to the rear wheels. When sensors indicate more traction is needed, the system automatically engages the front wheels and instantly transitions to AWD Mode. These systems work with the vehicle's Electronic Stability Control (ESC)¹ system to deliver precise front-to-rear torque control while preserving unrelenting drive.

CHARGER GT AWD //
shown in White Knuckle with
available Blacktop Package.

SAFETY & SECURITY FEATURES

PARKVIEW® REAR BACK-UP CAMERA² // This system displays the area directly behind your vehicle when the vehicle is in Reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard.

PARKSENSE® REAR PARK ASSIST SYSTEM² // When your vehicle is in Reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Available.

BLIND SPOT MONITORING (BSM)³ AND REAR CROSS-PATH DETECTION² SYSTEM // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminated icons in the sideview mirrors and by an audible chime. The system includes Rear Cross-Path Detection,² which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of, for example, parking spots or driveways. Available.

ADAPTIVE CRUISE CONTROL (ACC)⁴ // Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead. Available.

FULL-SPEED FORWARD COLLISION WARNING (FCW)⁵ // Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will transmit audible and visual warnings. Warning sensitivity can be adjusted to driver preference. Available.

ELECTRONIC STABILITY CONTROL (ESC)¹ // This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC¹ senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard.

RAIN-SENSING WINDSHIELD WIPERS // System sensors automatically detect moisture on the windshield and activate the wipers. Available.

READY ALERT BRAKING // The system anticipates situations when you might initiate an emergency brake stop and uses the ESC¹ pump to precharge the brake system in order to decrease the time required for full brake application. Standard.

RAIN BRAKE SUPPORT // When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard.

DODGE AIR FILTRATION SYSTEM // We have enhanced the air filtration system in the Dodge Charger to provide filtered air for you and your family. The new Dodge Air Filtration System filters 95 percent of air particulates while separating out pollen, allergens and bacteria, making it the cleanest cabin air ever in a Charger. Standard.

IN TOUCH WHEREVER YOU GO

Uconnect® brings a wide range of interactive features to your vehicle and beyond through a highly intuitive communication experience. Trips are enhanced with informative and entertaining apps. Access them on your Uconnect touchscreen as well as your smartphone.

Listen to your favorite playlist from your connected device, then flip to SiriusXM® Radio⁶ and enjoy the best commercial-free music, plus every major sport and the biggest names in entertainment, news and comedy. You'll get over 150 channels, all at the press of a button. With the SiriusXM Platinum Plan⁶, you get every channel available on your satellite radio, and you can also listen wherever you go on your portable devices with the SiriusXM App⁶, which is included with your trial. Available.

Drive worry-free with SiriusXM Guardian™⁷ – a premium suite of safety and convenience services that can be accessed in-vehicle or through the Dodge App.⁸ Includes a twelve-month trial. Available.

SRT® BRANDED BREMBO® 6-PISTON LIGHTWEIGHT CALIPERS //

BRAKE BOLDLY // Standard 4-wheel antilock disc brakes provide solid stopping power. Additional stopping power comes from the available Brembo Performance Brake System, featuring vented two-piece front rotors and 4-piston front calipers for outstanding heat management and that provide superior braking performance. For superb stopping capabilities, the SRT engineered Brembo Performance Brake System, with 6-piston front and 4-piston rear calipers, results in improved performance braking when paired with wind-tunnel-designed brake ducts.

COLOR CRAZY —

YOU DON'T BUILD FAMILY SEDANS THAT PACK 797 HORSEPOWER, COUPES THAT DOUBLE AS WEEKEND RACERS AND SUVs THAT IMPRESS THE NHRA MORE THAN THE PTA JUST TO GIVE THEM COLOR NAMES LIKE WHITE, BLUE, RED AND GRAY. FOR DECADES, DODGE VEHICLES HAVE BEEN COATED IN COLORS WITH NAMES AS FLASHY AS THE VEHICLES THEMSELVES. THE ROSTER HAS INCLUDED PANTHER PINK, HEMI® ORANGE, TOP BANANA, SASSY GRASS, GO MANGO AND PLUM CRAZY. THE REASON FOR THE BRASH NAMES IS SIMPLE – IT'S ABOUT ADDING ATTITUDE AND EDGE TO EVERYTHING WE DO.

[1] Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws. [2] Always check entire surroundings visually before proceeding. [3] Always check visually for vehicles prior to changing lanes. [4] This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [5] This system is solely an alert system for the front of the vehicle that does not take any actions to change vehicle dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [6] Your service will automatically stop at the end of your trial subscription unless you decide to continue service. If you do not wish to enjoy your trial subscription, you can cancel it by calling the number below. **If you decide to continue service after your trial subscription, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Fees and taxes apply. Please see our Customer Agreement at www.siriusxm.com for complete terms and how to cancel, which includes calling us at 1-866-635-2349. All fees, content and features are subject to change. [7] All SiriusXM Guardian equipped vehicles come with a 6-month complimentary trial effective on the date of purchase or lease of a new vehicle. Enrollment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States and Puerto Rico. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. [8] You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. You must have an active subscription to SiriusXM Guardian in order to use remote services. See Terms of Service for service limitations. [9] Requires compatible iPhone. See dealer for phone compatibility. Data plan rates apply. Vehicle user interface is a product of Apple. Apple CarPlay is a trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the US and other countries. Apple terms of use and privacy statements apply. [10] To use Android Auto on your car display, you'll need an Android phone running Android 6 or higher, an active data plan and the Android Auto app. Google, Android, Android Auto, YouTube Music and other related marks are trademarks of Google LLC. [11] Check state and local laws regarding the use of remote start systems. [12] Mopar Performance Parts are sold "as is" unless otherwise noted. [13] Visit Mopar.com for complete details and a copy of the Powertrain Limited Warranty.
