

FIAT® I24 SPIDER

FINALLY, THE CLASSIC ROADSTER HAS COME FULL CIRCLE.

THE TRUE SPORTS CAR IS BACK With its thrilling airplane parachute-drop introduction at the Turin Auto Show in 1966, the original FIAT® 124 was literally a gift from above. It was an immediate sensation as 1967 European Car of the Year, and its Pininfarina design remains as fresh and relevant today as it was fifty years ago. Unlike most sports cars of the day, the 124 Spider interior was surprisingly roomy, and its advanced coil spring rear suspension, disc brakes and agile manner are why it remains a favorite among collectors. Today's all-new FIAT 124 Spider possesses talents in all those areas, but also the one underlying feature common to every 124 Spider: passion.

Classic beauty and driving pleasure in its purest form.

- 1.4L MultiAir® Turbo I4 160 hp with 6-speed Manual transmission
- 16-inch Silver aluminum wheels
- AM/FM Bluetooth® radio with 3-inch display and four speakers
- Bifunctional projector halogen headlamps
- Body-color A-Pillar header, side sill and door handles
- Body-color power exterior mirrors
- Day/night rearview mirror
- Dual-tip stainless exhaust
- Front double-wishbone suspension
- Leather-wrapped steering wheel with audio controls
- LED taillamps
- Light Silver instrument panel accents
- Manual air conditioning
- Manual soft cloth top
- Molded Black-accent roll bar
- Premium cloth seats with manual adjustment
- Push-button start
- Rear multilink suspension
- Remote keyless entry
- Soft-touch upper instrument panel, door upper and door insert

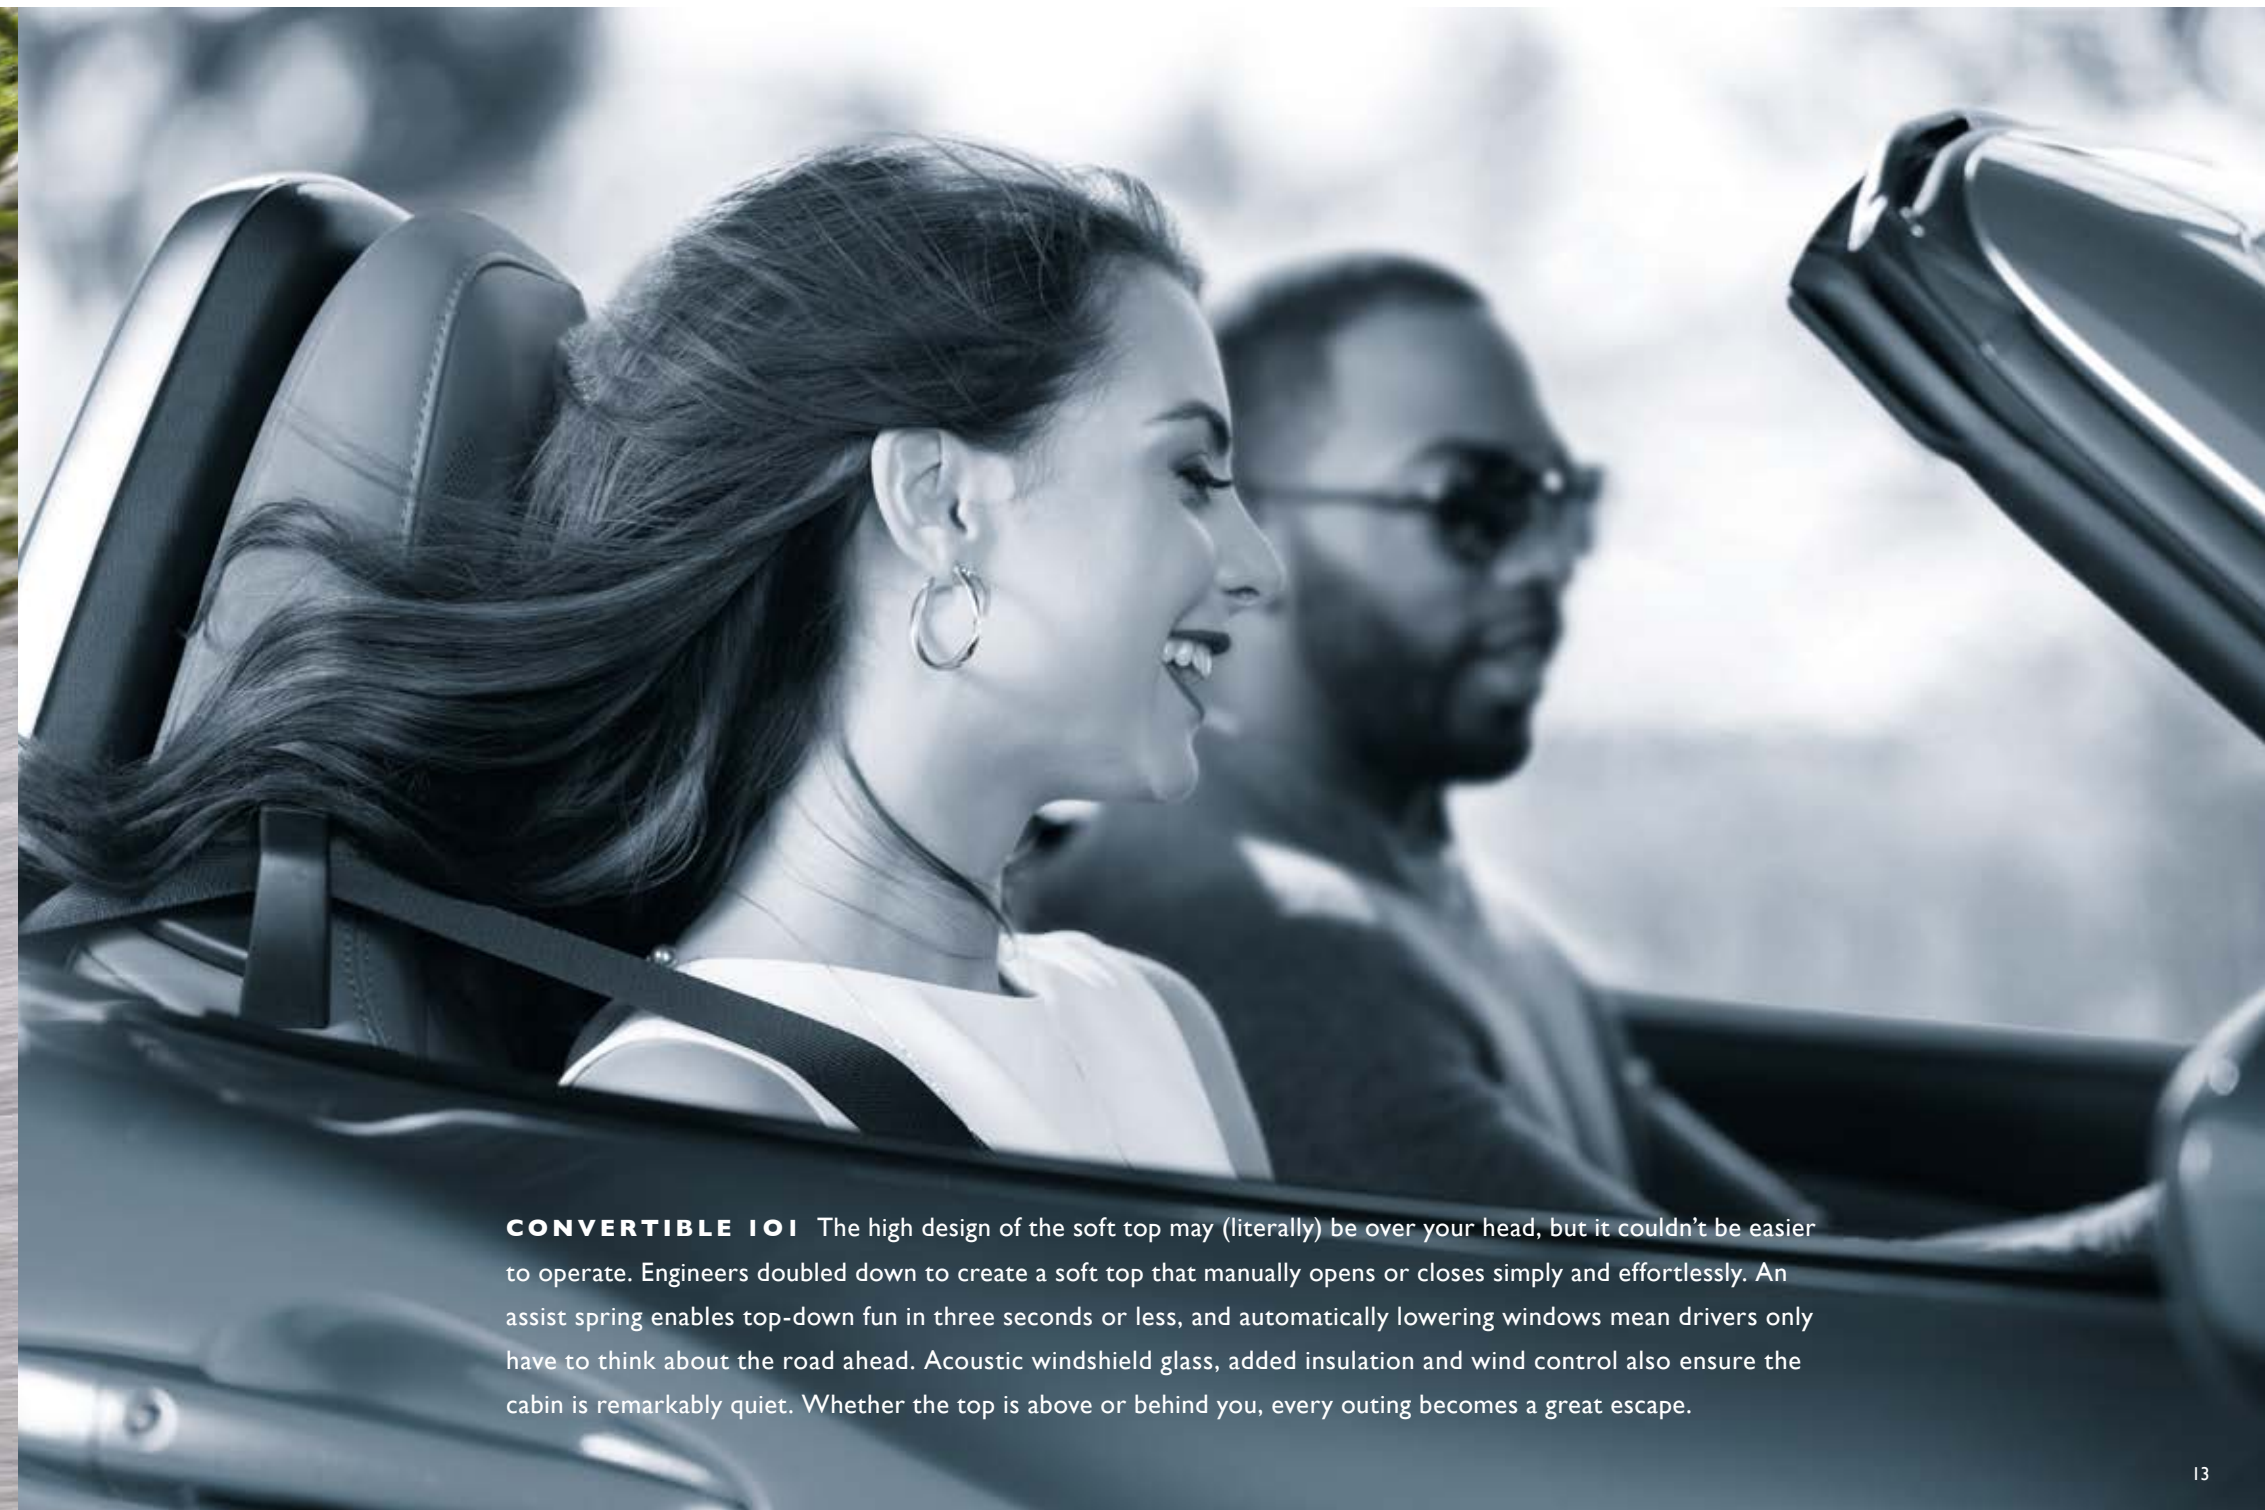

A car that believes you can never be too comfortable.

- 1.4L MultiAir Turbo I4 160 hp with 6-speed Manual transmission
- 17-inch premium Silver aluminum wheels
- AM/FM radio with Bluetooth and 7-inch display
- Automatic Temperature Control (ATC)
- Bifunctional projector halogen headlamps with automatic feature
- Dual bright-tip exhaust
- Front fog lamps
- Heated leather-trimmed seats
- Multimedia Control Knob
- Piano Black instrument panel accents
- Rain-sensitive wipers
- Remote Proximity Entry with Push-button Start

The authentic roadster born with a competitive streak.

- 1.4L MultiAir® Turbo I4 164 hp with 6-speed Manual transmission
- 17-inch Gun Metal aluminum wheels
- 6-speed AISIN® Automatic transmission with steering wheel-mounted paddle shifters — Optional
- Aluminum-accent Sport pedals
- Perforated leather-wrapped Sport steering wheel
- Front and rear Bilstein® selective damping shock absorbers
- Performance-tuned with Sport Mode Selector
- Matte Gray instrument panel accents
- Mechanical limited-slip differential
- Black lower side sills
- Front strut tower brace
- Performance, heated, leather-trimmed microfiber insert Sport seats
- Sport, front and rear fascias
- Sport-tuned, quad bright-tip exhaust

CONVERTIBLE 101 The high design of the soft top may (literally) be over your head, but it couldn't be easier to operate. Engineers doubled down to create a soft top that manually opens or closes simply and effortlessly. An assist spring enables top-down fun in three seconds or less, and automatically lowering windows mean drivers only have to think about the road ahead. Acoustic windshield glass, added insulation and wind control also ensure the cabin is remarkably quiet. Whether the top is above or behind you, every outing becomes a great escape.

LET'S TURBO

DRIVERS REJOICE Showing its competitive side, the FIAT® I24 Spider achieves peak power at lower rpm than its peers!*. With up to 164 horsepower† and 184 lb-ft of torque, it's the kind of performance that brings to mind its century-old European racing heritage.

14 *A note about this brochure: all disclaimers and disclosures can be found on the inside back cover. †160 hp on FIAT® I24 Spider Classica and Lusso models. 164 hp on Abarth model.

its class' ...

FIAT® I24 Spider Lusso shown in Grigio Argento. 15

GOOD DRIVERS ARE INSPIRED TO BECOME GREAT DRIVERS GIVEN THE RIGHT TOOLS

Your reputation behind the wheel gets a boost with up to 164 horsepower* from the 1.4L MultiAir® Turbo engine. Additionally, the short-throw shifting of the six-speed manual transmission, electric power steering system, electronic traction control and Electronic Stability Control (ESC)² make for tighter corners and fast straightaways. Near-perfect 50/50 weight distribution, lines that compel your eyes to follow along, exquisite materials and fine finishes all contribute to the extraordinary, captivating appeal of 124 Spider.

LIVING ROOM Taking a cue from its 1966 namesake, the all-new FIAT® 124 Spider manages to create what other roadsters can't: space. Boasting best-in-class¹ cargo room, the meticulously designed interior offers refined materials, quality leather and Italian craftsmanship. Notably soft touchpoints, instruments, storage and technology are all expertly delivered. The one thing that's not an option on 124 Spider? Sacrifice.

1-2: Lusso interior shown in Saddle leather trim with Saddle double stitching. 3: Lusso interior shown in Black leather trim with Silver double stitching. 4: Lusso shown in Nero Cinema.

FIAT® 124 Spider Lusso interior shown in Black leather trim with Silver double stitching. 19

CONNECTIONS ARE KEY With FIAT® Connect 7.0, you'll enjoy full access to the world at large via an advanced available multimedia system with a 7-inch full-color touchscreen display. Available SiriusXM® Satellite Radio³ with included one-year All-Access trial, MP3 player and six speakers create the soundtrack of your drive. Stay fully plugged in with two USB ports, an auxiliary input and a Multimedia Control Knob. A Bluetooth® Hands-free⁴ Communication System lets you take phone calls and stream music without lifting a finger. Available GPS Navigation, ParkView® Rear Back-Up Camera⁵ and more, help you keep your bearings.

GO WITH THE FLOW Real-world driving isn't all smooth sailing. That's why FIAT® 124 Spider is equipped with a double-wishbone front and multilink rear suspension that enhances steering response and handling. Plus, its 1.4L MultiAir® Turbo engine serves up great mid-range torque for easy passing when you need it most — so you can enjoy a great ride no matter what lies ahead.

FLOW AIR INTAKE

A CLASS-EXCLUSIVE¹ TURBO ENGINE The FIAT® 1.4L MultiAir® Turbo four-cylinder with twin intercoolers delivers up to 164 hp* and 184 lb-ft of torque, and can be teamed with either the standard six-speed manual or available six-speed automatic transmission. The upshot? The FIAT 124 Spider gets to peak power and torque at a much lower rpm than any vehicle in its class!

peak PERFORMER

FIAT® I24 SPIDER: ONE SOUL. TWO ICONS.

TRUE TO ITS NAME Abarth reveals the wild side of FIAT® I24 Spider. This is the ultimate model for true enthusiasts, shown here with the Hand-Painted Heritage Racing Stripe by Mopar®. Whatever the demands of the day's course, Abarth amps things up with a mechanical limited-slip differential, a Sport Mode button, Bilstein® selective damping shock absorbers and 17-inch Gun Metal aluminum wheels. Optional race seating and specially tuned quad exhausts turn up the adrenaline even more. Finishing touches include Gun Metal roll bar covers, windshield surround and Matte Black interior accents. The operative word here? Swoon.

AIR BAG⁶ SYSTEM It all starts with dual-stage front air bags⁶. In addition, supplemental seat-mounted side air bags⁶ cushion impacts for all passengers.

SEE AND BE SEEN Standard projector halogen headlamps and halogen daytime running lamps (DRLs), as well as available LED headlamps and available LED DRLs, help enable other drivers to see you coming. Additional available lighting enhancements include automatic headlamps, headlamp washers, Auto High-Beam Headlamp Control, and an Adaptive Front Lighting System that uses the steering angle and vehicle speed to adjust the headlamp position to maintain a wide field of vision.

BLIND SPOT MONITORING (BSM)⁷ Uses dual ultra-wideband radar sensors to aid the driver when changing lanes, and warns of oncoming vehicles in the blind spot via an illuminated sideview mirror icon. Available.

STEEL SAFETY FRAME The very core of FIAT® 124 Spider: its strong unibody is constructed with high-tensile strength steel that includes crumple zones designed to help absorb energy in the event of a collision and redirect it away from passengers. A standard four-air-bag⁶ occupant protection system helps reduce the chance of injury.

REAR CROSS-PATH DETECTION (RCP)⁵

This available feature is activated any time the vehicle is in Reverse. It lets the driver know vehicles are crossing behind with illuminated icons on the sideview mirror, as well as an audible chime.

THE PARKSENSE® REAR PARK ASSIST⁵ SYSTEM

When driving in Reverse, this proverbial extra set of eyes utilizes ultrasonic sensors at low speeds to detect stationary objects. Available.

PARKVIEW® REAR BACK-UP CAMERA⁵ This available feature, standard with the FIAT® Connect 7.0, provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before reversing at low speeds. Dynamic grid lines adjust the guide path as the steering wheel is turned to aid the driver when maneuvering into parking spaces or narrow areas.

EXTERIOR COLORS

- Grigio Moda (Meteor Gray)
- Rosso Passione (Passion Red)
- Grigio Argento (Aluminum Metallic)
- Bronzo Magnetico (Titanium Flash Mica)
- Nero Cinema (Jet Black)
- Bianco Perla (Crystal White Pearl Mica)*
- Bianco Gelato (Arctic White)

A WARM WELCOME When carefully crafted, hand-stitched leather-trimmed seats (available) are there to greet you every trip, you can't help but feel special. What's more, the available heat feature offers both you and your passenger a nice warm embrace. You may never leave.

CLASSICA Black fabric with Silver double stitching

LUSSO Black leather with Silver double stitching

LUSSO Saddle leather with Saddle double stitching

ABARTH Black leather/microfiber with Red stitching

ABARTH Black & Red leather with Red stitching

ABARTH Recaro Black Alcantara® leather with Red piping

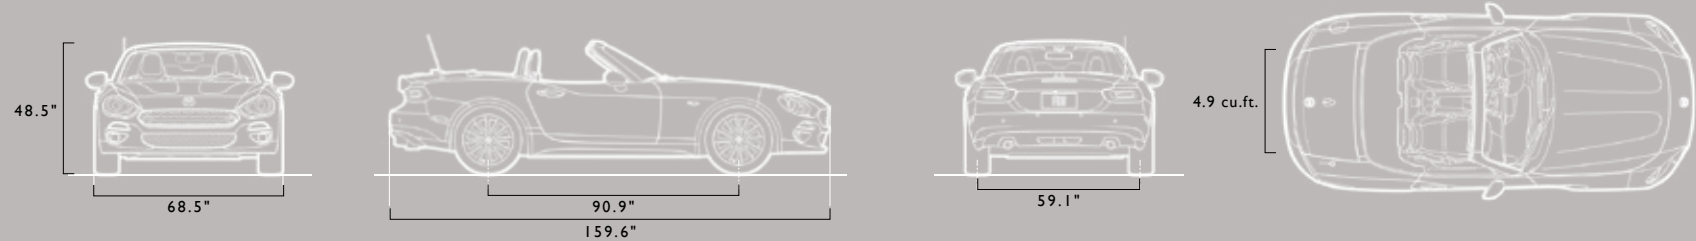

ALWAYS A DRAMATIC EXIT Pedigree reveals itself in even the smallest details. It's clear the latest FIAT® 124 Spider was created with the same passion for exquisite design as its popular predecessors. Among a number of original 124 Spider design cues, the aerodynamic rear features FIAT signature LED taillamps in the iconic rectangular oval shape that caresses the sides of the roadster to enhance its curves. Just a quick glimpse tells you: this is a natural-born Spider.

Connect with our community on Facebook (facebook.com/fiatusa), follow us on Twitter (twitter.com/fiatusa), and check us out on YouTube (youtube.com/fiatusa), Tumblr (fiatusa.tumblr.com), Google+ (plus.google.com/+fiatusa), FIAT Backstage (blog.fiatusa.com), Instagram (instagram.com/fiatusa), Pinterest (pinterest.com/fiatusa) and Vine (vine.co/fiatusa). Thank you for following.

(1) Based on FCA US LLC Standard 2-Seat Roadster segmentation. (2) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (3) SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your trial subscription. If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and more information at www.siriusxm.com. All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. (4) Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. (5) Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. (6) The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (7) Always check visually for vehicles prior to changing lanes. (8) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint.
