

Design that connects

Compelling lines

FIAT® 500 Design

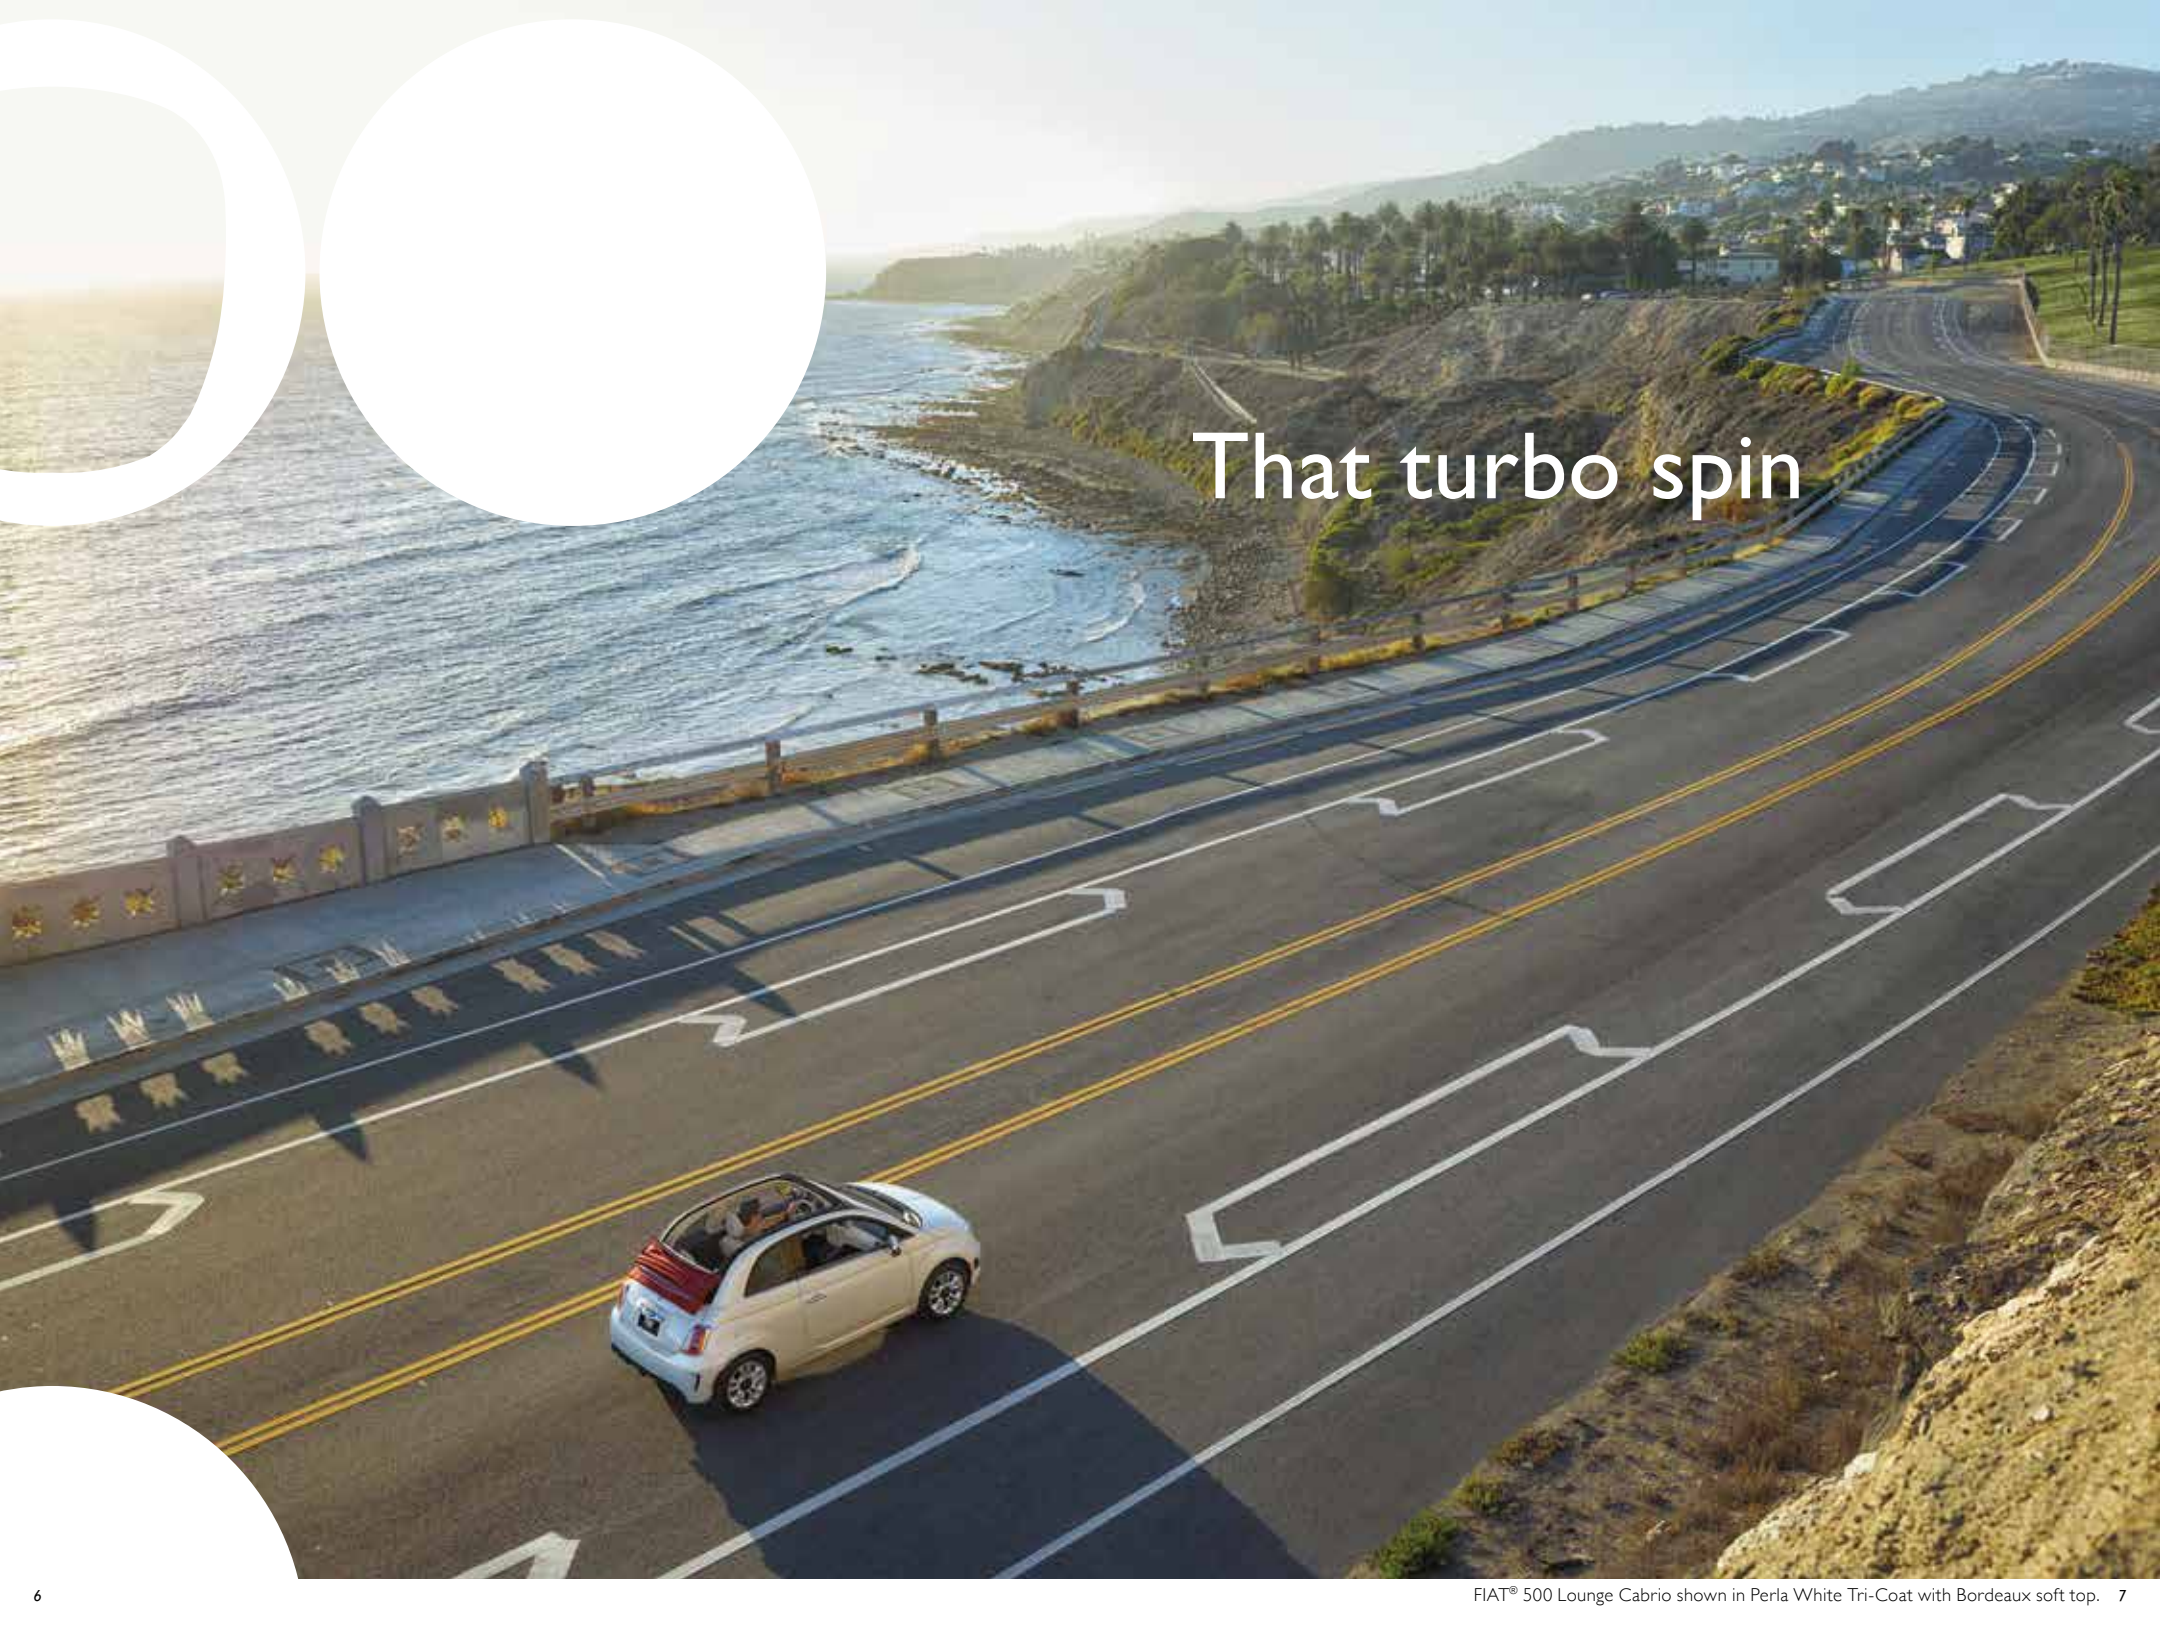

Classic contours are modernized with bi-function halogen projector headlamps and distinctive taillamps.

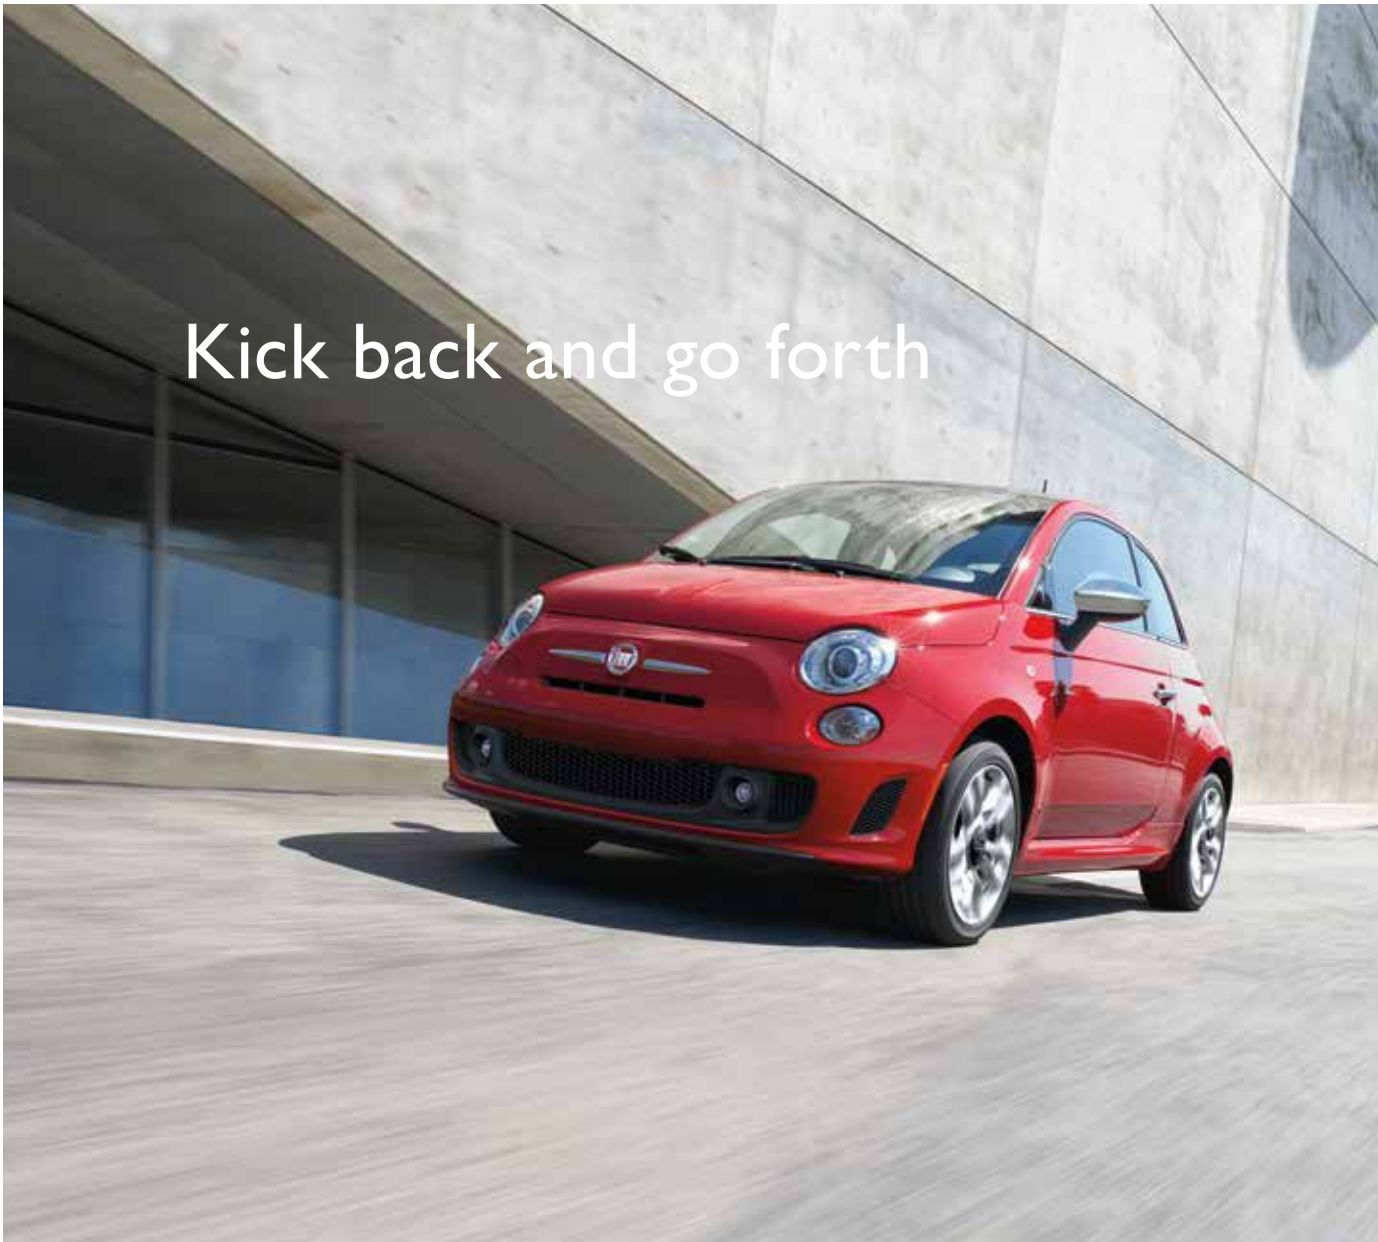

The power of a turbo engine is combined with the responsiveness of the Sport mode feature — both now standard on every FIAT 500.

An aerial photograph of a white Fiat 500 driving on a two-lane coastal road. The car is positioned in the lower-left quadrant of the frame, moving away from the viewer. The road curves along a cliffside, with the ocean and waves visible to the left. In the background, a hillside with houses and palm trees is visible under a clear sky. The text "That turbo spin" is overlaid in white on the right side of the image. There are three large white circles in the top-left corner and one in the bottom-left corner.

That turbo spin

Kick back and go forth

Special Edition
FIAT® 500 Urbana

Edgy ride

Go dark with a stylish collection of FIAT® 500 Urbana-specific accents: Black-trimmed headlamps, fog lamps, turn signals and taillamps • Side sills ground effects • 16-inch aluminum Black Noise wheels* • Black Sport cloth seats with Silver accent stitching • Black instrument-panel bezel • Hatchback and Cabrio Pop models • Pompei Silver, Granito Gray, Perla White Tri-Coat and Bianco White Ice paint options

*Late availability on Black Noise wheel finish.

Special Edition

FIAT® 500 1957 Retro Edition

The FIAT® 500 1957 Retro Edition offers features that have made FIAT 500 a cult favorite:

- Retro FIAT badging
- 16-inch aluminum Retro wheels with choice of painted finishes
- Bianco White Ice exterior mirrors and roof
- Retro Avorio interior accents
- Retro Marrone leather-faced seats with Avorio headrests
- Color-coordinated leather-wrapped steering wheel and shift boot
- Black soft top on Retro Edition Cabrio models

Throwback vibes

C A B R I O

While the FIAT® 500 Cabrio makes the most of the great outdoors by providing spectacular vistas, it also focuses inward to include driver and passenger amenities, making any trip special. An innovative three-position power-folding retractable soft top opens on the fly — even at speeds up to 60 mph. Its preset positions offer a range of stopping points, from slightly open to fully dropped. This dual-layer cloth top is available in a choice of three colors, improving views from both inside and out.

D E S I G N

SOFT TOP COLORS: BORDEAUX, BEIGE*, NERO

FUN TO D R I V E

FIAT® 500 is a vehicle that delivers a ride that matches the happy persona it projects: beyond its unique color palette and expressive grille, engineers have equipped the 500 with turbo power and advanced handling systems that combine to make riders say, "I hope we're not there yet!"

The FIAT® 500 framework melds to any road, shrugging off resistance as it harnesses the engine's turbo power.

Torque Transfer Control (TTC) is a dynamic feature that keeps all that power in check by transferring it to the drive wheels for improved at-the-limit handling.

Heading down the highway doesn't have to mean going with the flow, thanks to FIAT 500. With a minimalist Italian-design philosophy that packs loads of personality per square inch, 500 has always encouraged drivers to take an alternative route.

Look for an aggressive lower front and rear fascia design, front fog lamps, Sport spoiler, performance brakes, sport-tuned suspension, rear back-up camera⁴ and more — on every model.

turbo

Equally fast

Now the entire FIAT® 500 lineup features, as standard, the innovative 1.4L I6V MultiAir® Turbo engine.

For FIAT 500 Pop, Lounge, Urbana and Retro editions, this eyebrow-raiser produces 135 horsepower, 150 lb-ft of torque and heart-stopping bursts of acceleration — all while delivering up to 28 city/33 highway mpg.⁵

Designers captured today what's long made FIAT® 500 so iconic — it's a minimalist philosophy that has everything to do with freedom and mobility. It means looking forward to pleasing features and intelligent details, every trip.

oo

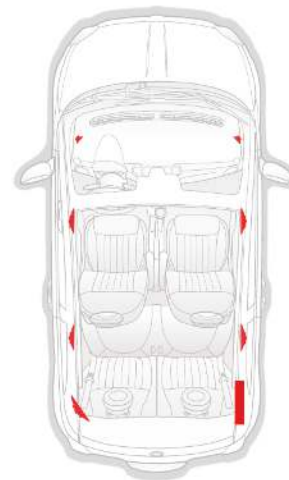

Uconnect

Loud and clear

music

Uconnect® is an advanced multimedia system that provides essential links to keep up with the changing-by-the-minute day — right from the seat of the FIAT® 500.

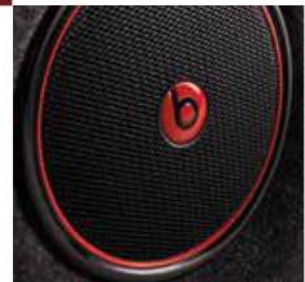

The Integrated Voice Command and Bluetooth® streaming audio allow drivers to take calls, control music, hear text messages⁶ and more — all with hands firmly on the wheel.

The standard Uconnect® 3 has a 5-inch touchscreen display, AM/FM radio and Integrated Voice Command with Bluetooth® for streaming audio.

The available SiriusXM® Radio¹ offers music, talk, weather, sports and local traffic stations with a 1-year trial subscription.

The available BeatsAudio™ Premium Sound System features 7 speakers, including an 8-inch subwoofer and an 8-channel, 368-watt amplifier with BeatsAudio Digital Sound Processing.

Stress-free zones

SAFETY AND SECURITY

Electronic Stability Control (ESC)³

This feature assists the driver in maintaining control of the vehicle during extreme steering maneuvers. Standard. 3-mode ESC³ standard on Abarth® models.

ParkSense® Rear Park Assist System⁴

When the vehicle is in Reverse, this system uses sensors to provide audible and visual warnings to help detect nearby objects in the rear pathway. Assists with maneuvering in tight spaces at parking speeds. Available.

7 Standard Air Bags²

Front-seat-mounted side, front and rear side, driver knee and advanced multistage front air bags² all work together, providing protection.

Hill Start Assist

Maintains brake pressure when the driver lifts the foot off the brake during uphill stop/start moments, helping to prevent rollback and smoothing out starts. Standard.

High-strength Steel

The innovative safety-cage body structure is constructed with high-strength steel. It is designed to transfer energy absorbed during impacts to help reduce the chance of injury. Standard.

ParkView® Rear Back-Up Camera⁴

Activated when the vehicle is shifted into Reverse, this camera displays a wide-angle view of the area and obstacles behind your vehicle on your Uconnect® touchscreen — with grid lines to interpret distance while backing in to tight spaces. Standard.

Bi-function Halogen Projector Headlamps

Provide more controlled illumination for increased visibility. Standard.

Front-seat Reactive Head Restraints⁷

In the event of a rear collision, these restraints activate to help reduce injuries by minimizing the gap between the driver and front-passenger head restraint⁷ and the occupant's head. Standard on FIAT® 500/500c/500e models.

Tire Pressure Monitoring System

Gives crucial, pinpointed information on the Electronic Vehicle Information Center (EVIC) at the moment any tire pressure falls below safe driving criteria. Standard.

Remote Keyless Entry

Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the optional security alarm,⁹ this device also arms and disarms that system. Standard.

Audible Pedestrian Warning System

Uses distinctive sounds to alert passersby of the presence of this extremely quiet electric vehicle (FIAT 500e only).

Performance by Abarth®

Born from the vision of Karl Abarth, the latest FIAT® 500 Abarth brings its own brand of outstanding performance. With the track-tested 1.4L I6V MultiAir® Turbo engine and standard 5-speed manual transmission, it kicks out 160 horsepower and 170 lb-ft of torque. The available heavy-duty 6-speed automatic transmission allows driver-interactive manual shift control, helping to produce 157 horsepower and 183 lb-ft of torque.

Sport Mode, standard on FIAT 500 models, takes performance to another level with more precise steering and sharpened shift points. Abarth also boasts 3-mode Electronic Stability Control (ESC)³ for advanced control.

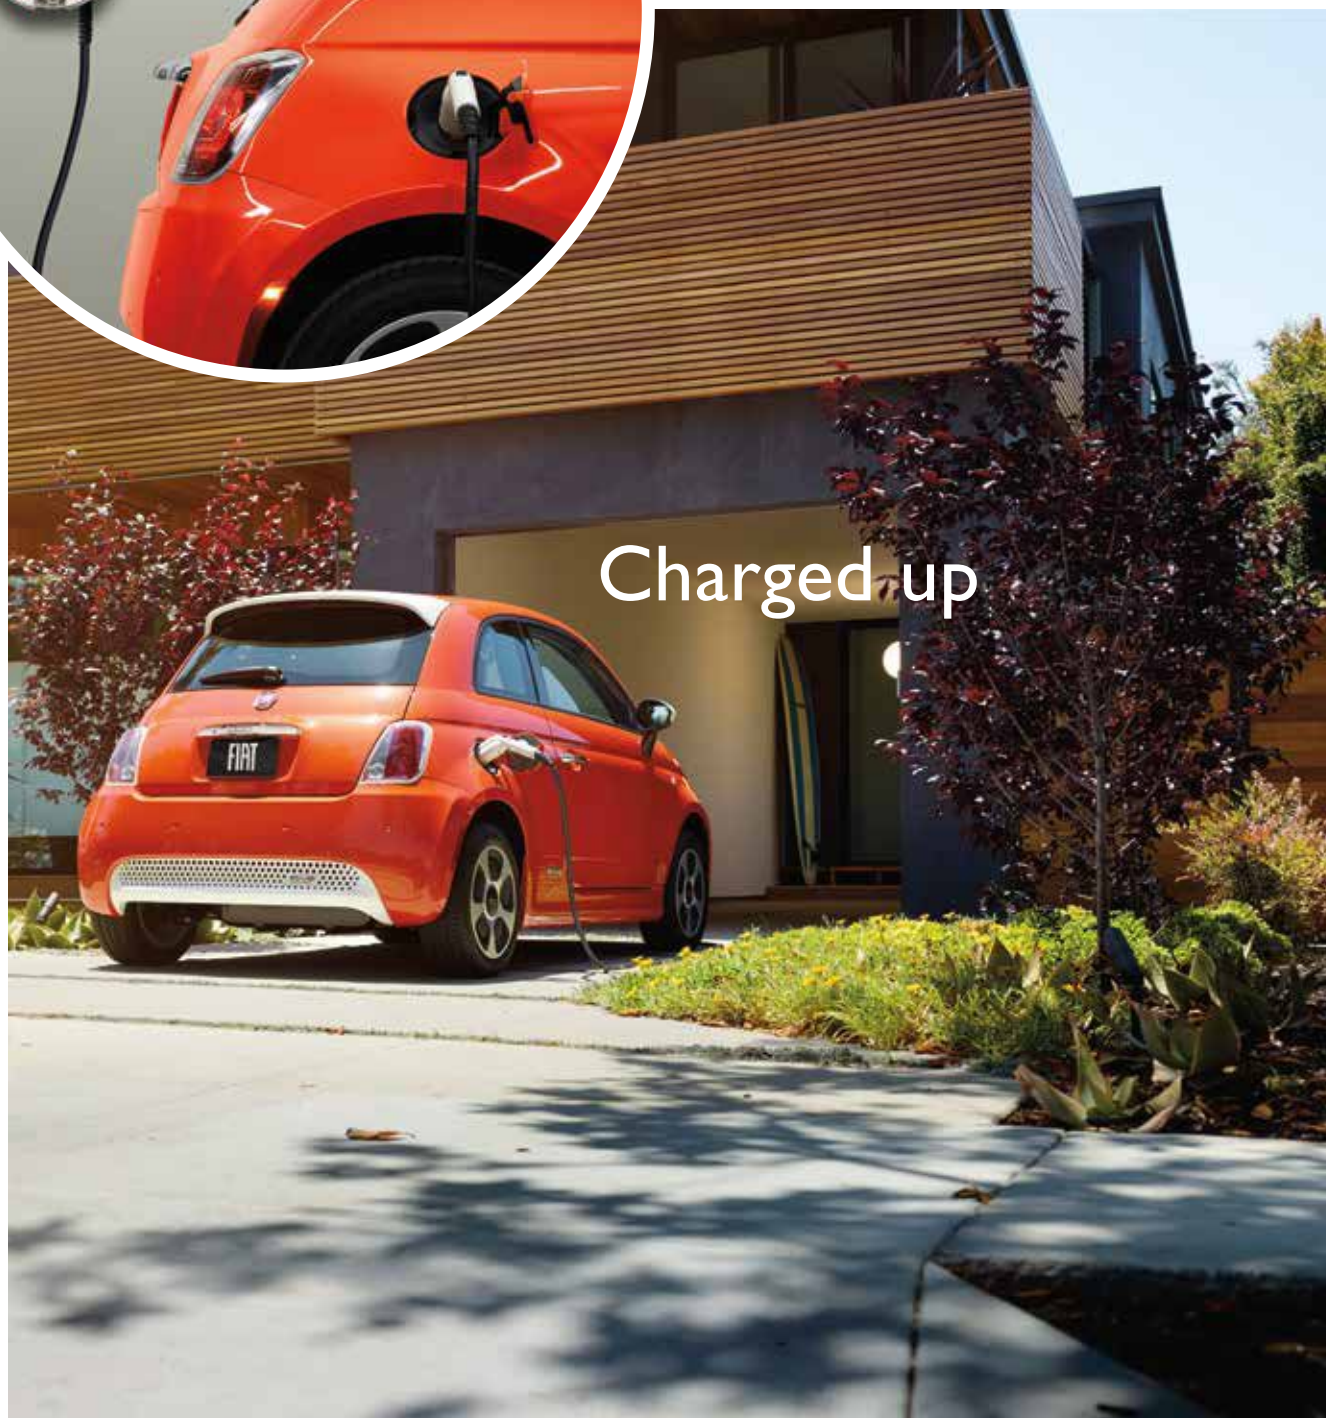

The inner Abarth®

A performance-designed cockpit features high-back bucket seats with a racing harness pass-through and firm side bolsters. A three-spoke perforated leather-wrapped steering wheel with a race-style flattened bottom proves that FIAT® 500 Abarth is intended for track and street.

Charged up

Green gusto

The FIAT® 500e shakes up the electric vehicle market by infusing an integrated approach to electric propulsion into the beloved FIAT Italian-design tradition of fun, city-friendly cars. A Power Inverter Module (PIM) provides a quick accelerator pedal response every time.

Expect 121 MPGe city and 103 MPGe highway,¹⁰ with a combined driving range of 84 miles.¹¹ It's made possible by the innovative 24-kWh lithium-ion battery that utilizes a Battery-Electric Drive System. Charge time is less than 4 hours with the installation of an available Level 2 charger (240-volt).¹² A regular home outlet of 120 volts charges 500e with the included Level 1 charger in less than 24 hours.

The 7-inch Thin Film Transistor (TFT) instrument panel and integrated Electronic Vehicle Information Center (EVIC) keep the driver briefed on estimated charging times, average speeds, energy consumption and more.
