2020 CATALOG

2020 VISION

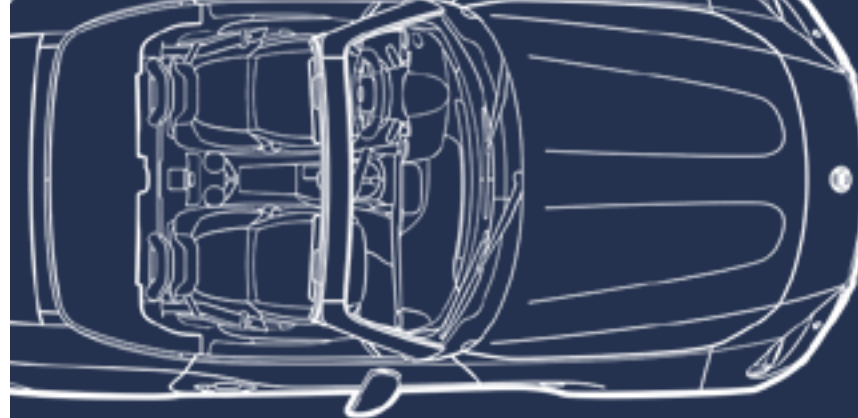

They are inherent to the very idea of a roadster — the feel of the road, the openness, the freedom — things ordinary cars just can't replicate. Of course, they are all part of the FIAT® vision for 2020: a design philosophy that reaches beyond curves and lines. It embraces every aspect of driving, from responsiveness to ease of use. 124 Spider uses high-tech innovation where it counts, while having the sense to keep the mechanics of the soft top opening and closing quick and simple. In a word: fun.

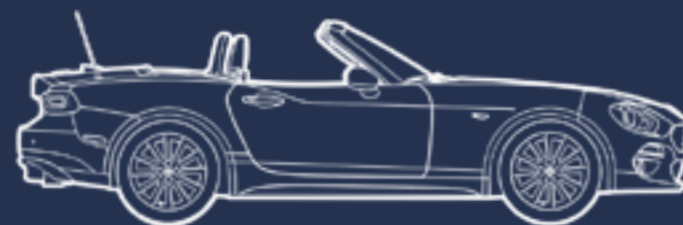

FIAT® 124 Spider: the template

THE ROADSTER'S ROADSTER

FIAT 124 Spider first made its mark at the Turin Auto Show in 1966. Its Pininfarina design proved to be irresistible to drivers all over the globe, earning the title of 1967 European Car of the Year. The original 124 Spider managed to buck some roadster clichés by creating a surprising amount of room compared to others in its class. For 2020, FIAT preserves all the charm and space efficiency of the original 124 Spider while adding performance and technical perks that reflect the dedication to innovation and forward thinking that has sustained the FIAT name for over a century.

FIAT 124 Spider boasts 4.9 cu ft of trunk space and is 159.6 inches long.

Its front is 68.5 inches wide; the rear track measures 59.1 inches.

CIVILITY IS IN THE DETAILS

For those who strive to be surrounded with the finer things, FIAT® 124 Spider Lusso is your ride. From the first touch to the thousandth ride, the inviting upholstery, solid handling and effortless acceleration will lead you to one conclusion: here, quality is king.

LUSO

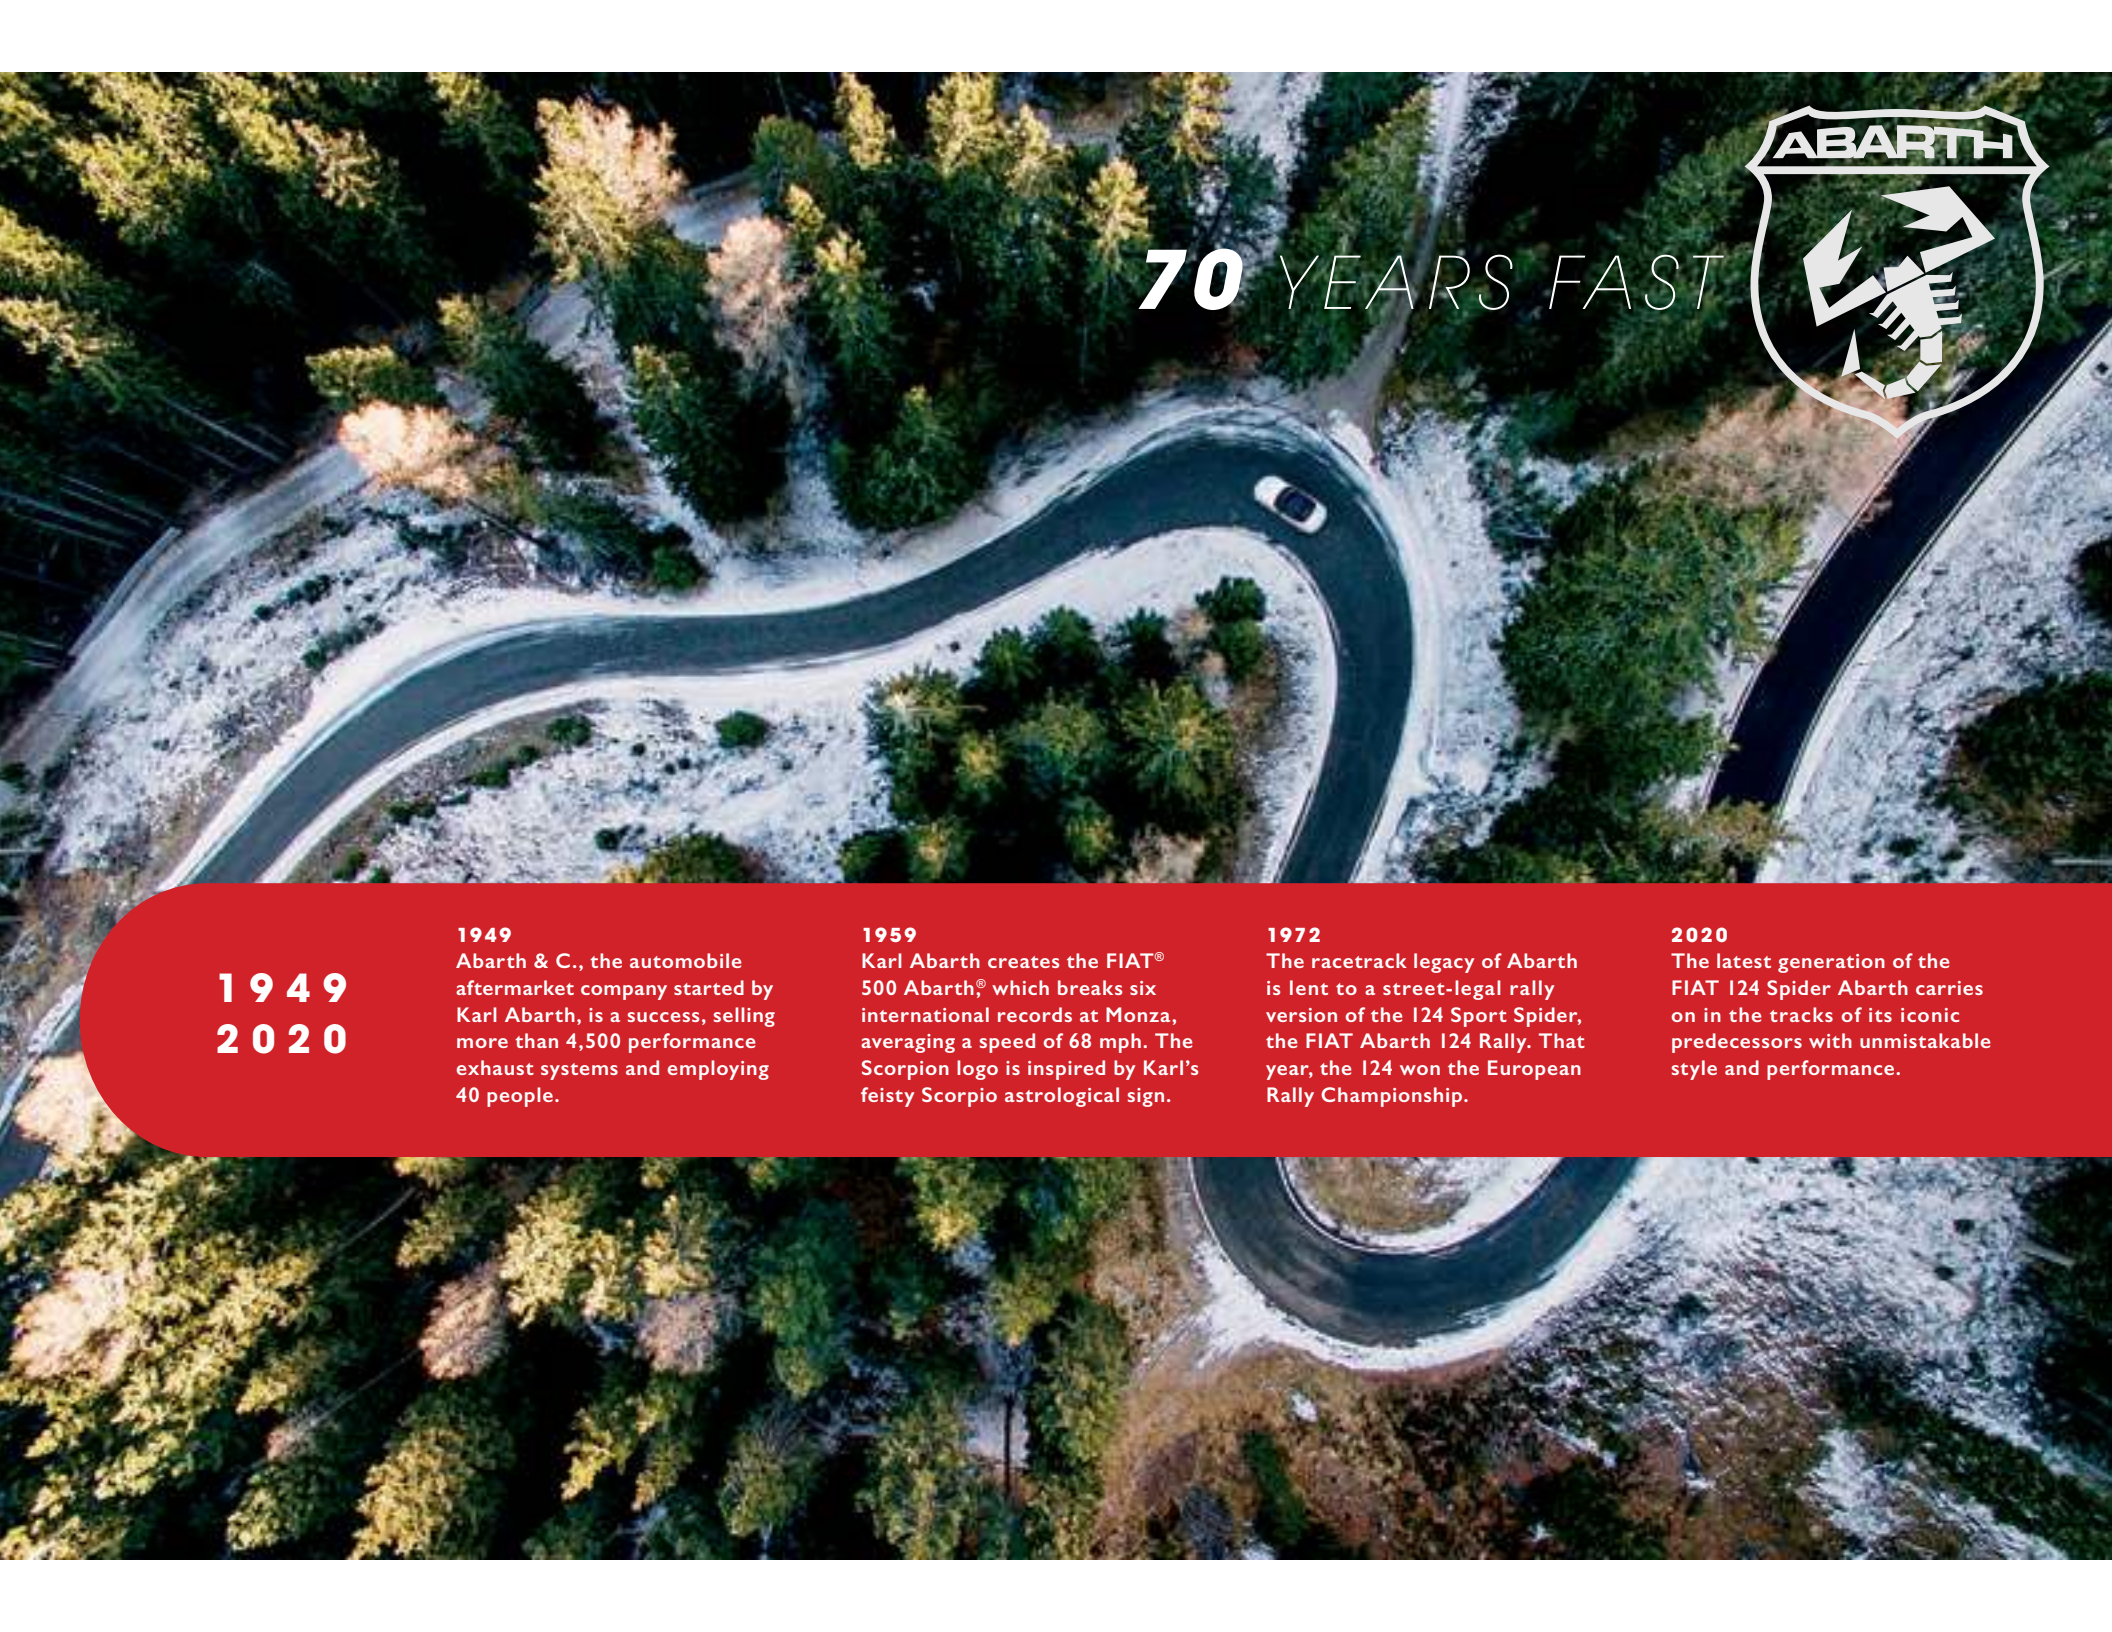

- 160-hp 1.4L MultiAir® Turbo I-4 engine

 - Technology Group, including SiriusXM® Radio,² available
 - Premium cloth seating
 - Leather-wrapped steering wheel
 - Halogen headlamps and LED taillamps
 - FIAT® Connect 7.0 with 7-inch touchscreen

THE ROADSTER POV Like the original Spider that became a worldwide sensation decades ago, the FIAT 124 Spider Classica is a vehicle that's expert at everything that's fun about driving — yet maintains a sensible side that's in it for the long haul. This mix of spontaneity and confidence attracts and inspires a special kind of driver.

CLASSICA

70 YEARS FAST

1949
2020

1949

Abarth & C., the automobile aftermarket company started by Karl Abarth, is a success, selling more than 4,500 performance exhaust systems and employing 40 people.

1959

Karl Abarth creates the FIAT® 500 Abarth®, which breaks six international records at Monza, averaging a speed of 68 mph. The Scorpion logo is inspired by Karl's feisty Scorpio astrological sign.

1972

The racetrack legacy of Abarth is lent to a street-legal rally version of the 124 Sport Spider, the FIAT Abarth 124 Rally. That year, the 124 won the European Rally Championship.

2020

The latest generation of the FIAT 124 Spider Abarth carries on in the tracks of its iconic predecessors with unmistakable style and performance.

CELEBRATING 70 WICKED YEARS Over a half-century ago, a race car visionary named Karl Abarth cultivated a “Go faster than yesterday” philosophy that became the cornerstone of a legendary performance empire. Today, the FIAT® 124 Spider Abarth® aggressively embodies those words, easily earning the Scorpion on its marque.

- 164-hp 1.4L MultiAir® Turbo I-4 engine
- 184 lb-ft of torque
- Bilstein® performance suspension
- Front strut tower bar
- Sport steering wheel with Abarth logo
- Sport-tuned quad bright-tip exhaust
- Sport Mode Selector
- Brembo® performance four-wheel antilock disc brakes, available
- Mopar® Hand-Painted Heritage Racing Stripe, available

{ A SINISTER TURN: *FIAT 124 SPIDER ABARTH* }

**THE DEVIL IS IN
THE ABARTH® DETAILS**

The competitive vibe of FIAT® 124 Spider Abarth starts with menacing exterior cues like the available Mopar® Hand-Painted Heritage Racing Stripe and available Brembo® disc brakes. The performance-inspired interior takes it to the next level with available RECARO® Alcantara® leather-trimmed racing seats and Red gauges in the Sport instrument cluster. Aluminum accent pedals and Matte Gray accents make for a strong finish.

The roadster has
come full circle

The iconic 1960s design
is back in a car created for
pure driving pleasure.

Today, the ultimate roadster is back with a vengeance. Its innovative turbo engine fuels the passion of both designers and drivers. Stepping on the accelerator brings back that Italian “live for the moment” spirit and, at the same time, has a highway fuel economy of 36 hwy mpg³ with the automatic transmission.

TURBO

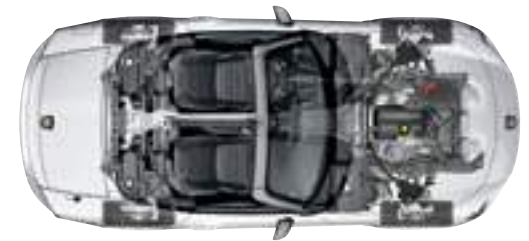

The most powerful turbo 4-cylinder in its class⁴

With its innovative, class-exclusive⁵ turbo engine, the FIAT® 124 Spider is powered by a 1.4L MultiAir® Turbo 4-cylinder with twin intercoolers that delivers up to 164 horsepower⁶ and 184 lb-ft of torque. Bring out this engine's best performance with either the standard 6-speed manual transmission with short-throw shifting or the available 6-speed automatic transmission.

50/50

Pure driving pleasure is achieved with near-perfect weight distribution and a low center of gravity. Individual sections of the FIAT® 124 Spider body function in harmony, featuring an elegant double-wishbone suspension up front and a multilink architecture in the rear. The sophisticated calibration of suspension and steering, along with an optimum power-to-weight ratio, make for tight, exhilarating corners and thrilling acceleration.

Balance is power

SUSPENSION

SHIFT

The manual transmission for the FIAT® 124 Spider was developed with a directly connected 6-speed gearbox that features a simple structure and compact, lightweight design that promote quick and smooth shifting. A dedicated transmission oil keeps ease of shifting consistent even in cold weather conditions. The available automatic transmission aims to deliver a direct-shift feeling and impressive fuel economy,³ while the Sport Mode Selector (standard on Abarth®) provides an even more direct feeling to gear changes.

Consistently
smooth

TRANSMISSION

Easy. Breezy.

OPEN-AIR ADVENTURE

This is high design that's truly accessible. Engineers created a manual soft top that effortlessly opens and closes. An assist spring enables top-down fun in three seconds or less, while automatic window adjustments mean drivers only have to think about the road ahead. Acoustic windshield glass, added insulation and aerodynamic enhancements further ensure the cabin is remarkably quiet. All told, it's clear the FIAT® 124 Spider has the makings to be your perfect getaway car.

Plans of action

Electronic Stability Control (ESC)⁷

This feature assists drivers in maintaining control of their vehicle during extreme steering maneuvers. Standard.

ParkSense® Rear Park Assist System¹

When the vehicle is in Reverse, these available sensors help detect objects in the rear pathway, providing an audible and visual warning. Available.

4 Standard Air Bags⁸

Front-seat-mounted side and advanced multistage front air bags⁸ all work together, helping provide protection.

High-strength Steel

Innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

ParkView® Rear Back-Up Camera¹

Provides a wide-angle view with grid lines on a color touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

Bifunctional Halogen Projector Headlamps

Help provide more controlled illumination for increased visibility. Standard.

Front-seat Head Restraints⁹

In the event of a rear-end collision, these restraints help reduce injuries by minimizing the gap between the driver and front-passenger head restraints⁹ and the occupant's head. Standard.

Tire Pressure Warning Lamp

Illuminates a warning icon at the moment any tire pressure falls below safe driving criteria. Standard.

Remote Keyless Entry

Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the available security alarm,¹⁰ this device also arms and disarms that system. Standard.

Blind Spot Monitoring¹¹

Assists when changing lanes by alerting you to traffic in your vehicle's blind-spot zones with illuminated icons in exterior mirrors. Available.

AVAILABLE HEATED
FRONT SEATS

INSIDE, THOUGHT OUT Starting with its original introduction in 1966, the FIAT® I24 Spider has managed to create what other roadsters haven't: unexpected roominess. Boasting best-in-class⁵ cargo volume, the meticulously designed interior offers refined materials, quality leather and Italian craftsmanship. Notably soft touchpoints, instruments, storage and technology are all expertly delivered. The one thing that's not an option on I24 Spider? Sacrifice.

{ MUSIC (AND MORE) *TO YOUR EARS* }

The available Bose® Audio System delivers premium audio clarity with nine speakers — including two Bluetooth® speakers located in each headrest. They work to deliver clear, detailed sound to both driver and passenger, while a Bluetooth Hands-Free¹² Communication System lets you take phone calls and stream music so you can keep your hands on the wheel.
