

1978 FORD BRONCO

1978 Ford Bronco

The Total 4-Wheeler

Total Toughness

The '78 Bronco is the newest 4-wheeler to come out in years. It's all new, top to bottom, front to rear. New styling and appearance. New interior roominess that can seat up to six adults. Built tough with a rugged truck chassis consisting of a steel ladder frame with extra thick frame rails. New standard equipment and features, too. Look it over. You should like what you see . . . inside and out.

Standard features include a hard-working 5.8 litre (351) V-8 engine, 4-speed transmission, part time 4WD, bucket seats for driver and passenger, padded dash, power front disc brakes, front stabilizer bar, footwell for rear passenger comfort and power tailgate window.

Free Wheeling Bronco

Free Wheeling Package includes tricolor striping (available in orange/tan/cream or blue/white/green depending on which of 18* base colors you select), black bumpers (standard with Custom), dual black low-mount mirrors, sport steering wheel, black glove box applique, and five 15 x 6 styled steel wheels with raised white letter tires. 15 x 8 styled steel wheels available after 11/1/77. *N.A. with cream.

NOTE: Some illustrations include optional equipment. See the standard features for each model, and options on pages 6 and 7 and back cover.

Handling Package

For operating over rough terrain, Bronco has an optional handling package. It includes gas-filled quad front shock absorbers, heavy-duty rear shock absorbers and a rear stabilizer bar.

4-Speed Transmission

Standard for 1978, it has a low, low first gear for that extra power when you need it. And with the 2-speed transfer case it makes your Bronco one tough machine.

Full-Time/Part-Time 4-Wheel Drive

Ford gives you the choice of full- or part-time 4WD with Cruise-O-Matic. With part-time you can disengage the front differential when on the road, re-engage it for off-road driving.

A Great Angle By Design

The new Bronco is a highly maneuverable full-size 4-wheeler. Minimal body "overhang" and excellent ground clearance let you get in, over, and out of places you may not have thought you could.

Total Comfort Family Size

You expect a 4-wheeler to be tough. We think it should be comfortable, too. For '78, Bronco features long, wide rear springs to cushion your ride. Side support contour bucket seats. A rear seat footwell. Plus a front headliner and door armrests. With options like air conditioning, tilt steering wheel, power steering, and full-width bench seats for family-size comfort.

Ranger XLT

The Ranger XLT offers many luxury features in addition to or in place of what you get with the Bronco Custom. Exterior features include rectangular headlamps, bright front and rear bumpers, bright molding around front windshield, rear side windows, wheel lips and lower section of tailgate, body side molding with black vinyl insert and bright taillight bezels.

Custom

This is the standard Bronco model. Among the many attractive exterior features it has are bright hub caps, bright door-mounted mirrors on both left and right sides, and black painted front and rear bumpers. 5 x 8 styled steel wheels available after 11/1/77.

NOTE: Some illustrations include optional equipment. See the standard features for each model, and options on pages 6 and 7 and back cover.

Ranger XLT Interior

The Ranger XLT (in addition to or in place of the features in the Custom Bronco) has cut-pile carpeting, door trim panels with woodgrain accent, seat covering in vinyl or vinyl and cloth, spare tire cover, woodtone dash with bright moldings, and "Ranger XLT" plaque on the glove box. Optional bench seat shown.

Full-Width Folding

Optional rear bench seat fold give you 81 cubic feet of car be removed entirely with a m

Rear Seat

down quickly and easily to
o space. Or the seat can
imum of effort.

Rear Footwell

This comfort feature gives more foot-
room to rear seat passengers for a
more relaxing ride. Good news for
the lanky six-footers among your
family and friends.

Custom Interior

Smart-looking side support bucket seats are deep foam
cushioned for comfort and tailored in durable easy-to-clean
vinyl. Instrument panel and door trim panels are color-keyed
with a choice of red, black, blue, green or tan. Steering wheel
and horn pad are black, sun visors are white.

Options

Ford offers a wide choice of options to make your driving easier . . . your Bronco better equipped for work or personal use. Many are illustrated, others are listed below.
