

Gets 42% more power from
its new available 3-valve V8*.

Warning: Drivers may experience
Excessive fearlessness.

'07 Sport Trac Limited

It's built to go everywhere.

On a frame that's 427% stiffer.

With an available engine
that's 42% more powerful.

Keeping it in a garage
would be cruel.

Explorer Sport Trac
earned NHTSA's top five-star crash
test rating in all four categories.

'07 Sport Trac Limited

Sport Trac's (all-new and fully boxed) frame has a through-rail crossbeam construction for on- and off-road agility. Need to climb serious rock? Add the new available Control Trac® Four-Wheel-Drive System with three settings. Every 2007 Sport Trac now also comes with the new AdvanceTrac® System with RSC® (Roll Stability Control) – an industry exclusive.* So whether you're deciding between the XLT or Limited, or just thinking about how good those available 18" aluminum wheels are going to look full of mud, Sport Trac is ready when you are.

*Excluding other Ford Motor Company products.

Interior comfort starts

with a solid base.

So we built Sport Trac

on a frame that's five times stiffer.

'07 Sport Trac Limited

Then, we added an all-new Independent Rear Suspension that allows each wheel to react independently of one another. Which means you get a smoother ride no matter where you go. Even the front bucket seats have been redesigned for long-term comfort. And extras like an available class-exclusive heated windshield and SIRIUS® Satellite Radio add to the ride.*

* Starting Manufacturing Retail Price, excluding taxes, title, and registration fees. Optional equipment not included.

**EPA estimated city/highway mpg based on base engine/transmission configuration.

Sport Trac now offers 42% more power than before. (That's 292 horses and 300 lb.-ft. of torque, in case you're counting.) And it's all thanks to its new available 4.6L V8 engine and 6-speed automatic transmission. See, this engine has three valves instead of two, so it can breathe better. And that kind of innovation translates into performance and fuel efficiency you just can't get from the typical 2-valve V8.
