

GENESIS

2019 GENESIS G70

Now is the time for a new expression of luxury.

WELCOME TO GENESIS

Starting from a new place, Genesis reflects a unique culture
where the foundation of design is harmony.

A balance between tradition and modernism.

Between power and control.

Between nature and technology.

In everything we do – from the automobiles we design and engineer
to the innovative services we offer – our aim is to create a singular
sense of harmony and pleasure for you to experience.

WHEN YOU ARE NOT BOUND BY CONVENTION, YOU'RE FREE TO FIND A PERFECT BALANCE.

In reimagining the luxury sport sedan, Genesis designers sought something truly special: The ideal balance between luxury and performance.

Introducing the 2019 Genesis G70.

Expressing power that is forceful, yet never feels forced. Engineered to excel not just on paper, but on pavement. Equipped to entertain and inform. Protect and connect. Designed, in every aspect, to celebrate the pure, unbridled fun of sporty driving.

Rest assured, the pleasure you experience behind the wheel extends into every aspect of Genesis ownership. Your G70 includes three years of complimentary Genesis Connected Services with a full suite of safety, guidance and remote features that make your life easier.

You'll also enjoy a complimentary 3-year/36,000-mile Genesis Service Valet that will pick up your G70, bring you a courtesy replacement vehicle, and return your car after servicing. It's all part of a wide array of ownership benefits you'll receive as part of the Genesis Experience.

THIS IS HOW POWER TRAINS.

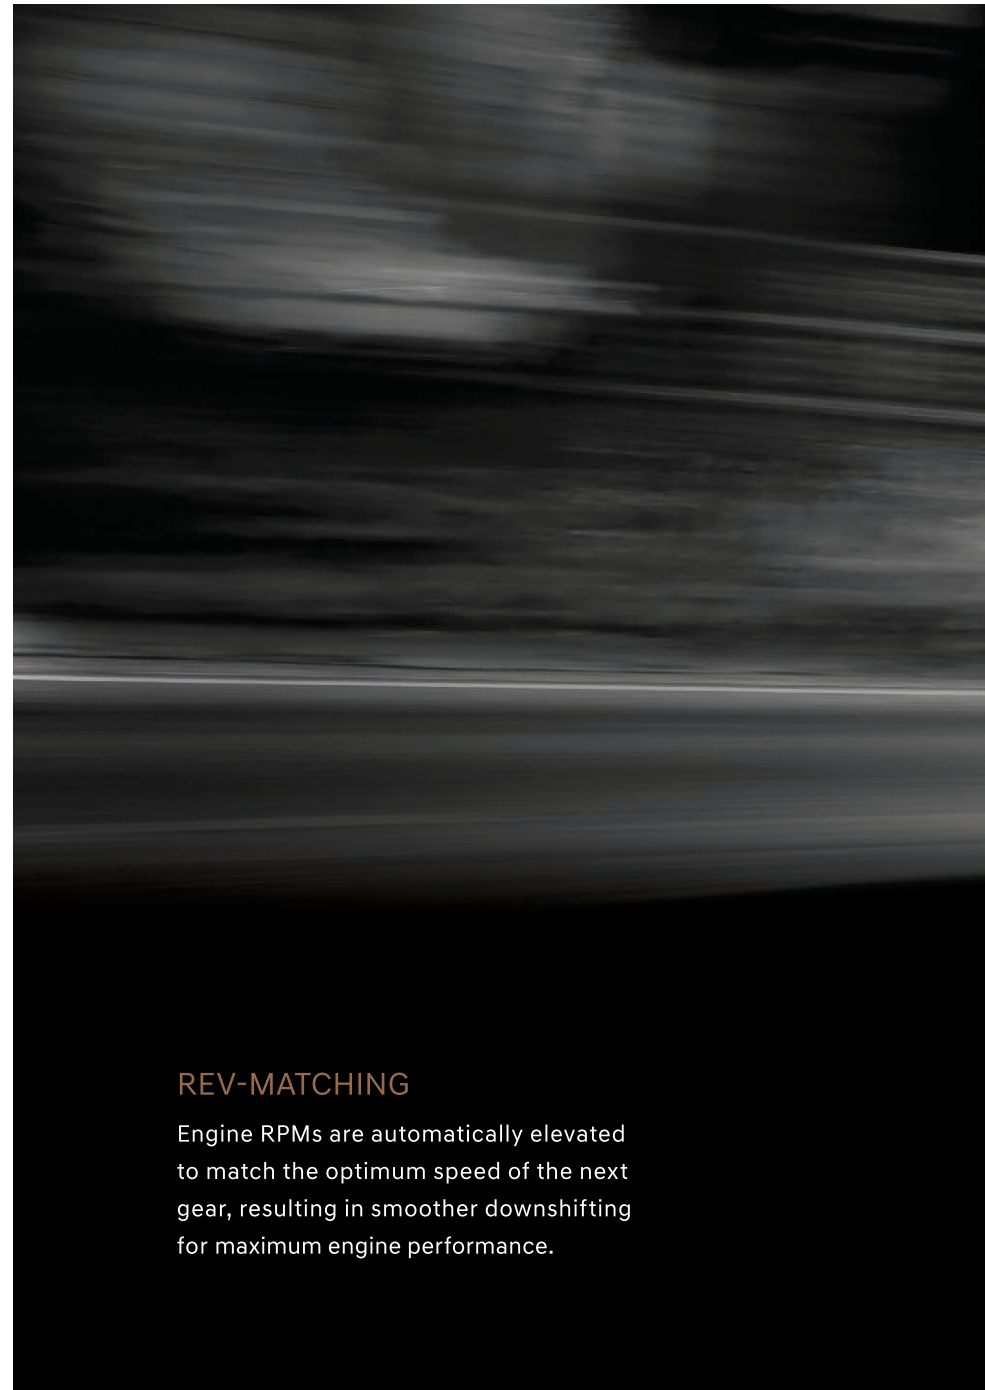

Athletes draw strength from competition. It focuses their abilities on striving to be the best. How does our athlete, the Genesis G70, measure up against the field of world-class luxury performance sedans? Its standard all-aluminum 2.0L turbocharged GDI 4-cylinder engine delivers an exhilarating 252 HP,¹ the highest standard horsepower among primary competitors like the BMW 330i, Infiniti Q50 2.0t, Lexus IS 300 and Mercedes Benz C300. You'll find 40 percent more horsepower beneath the hood than the BMW 320i and 32 percent more than Audi A4 2.0 TFSI ultra.²

Opt for the G70's all-aluminum 3.3L twin-turbo GDI V6 and, once again, competition brings out our best. With 365 HP and 376 lb-ft of torque,¹ the G70 3.3T pulls away from the field with effortless surges of power at the prodding of your right foot. Power is transferred with a sport-tuned 8-speed automatic transmission featuring Shift-by-Wire and steering wheel paddle shifters. Considering the G70 2.0T? It's available with a precise 6-speed manual transmission for the ultimate in highly engaged driving.

REV-MATCHING

Engine RPMs are automatically elevated to match the optimum speed of the next gear, resulting in smoother downshifting for maximum engine performance.

CORNERING GEAR HOLD

When entering a corner during a stint of spirited driving, the G70's automatic transmission holds the appropriate gear as needed to allow for smooth, brisk acceleration as you exit the turn.

LAUNCH CONTROL

A feature normally reserved for F1 racecars and exotic European supercars, Launch Control helps to minimize wheel spin and maximize traction when accelerating from a stop for quicker starts with increased stability.

THE G70 SPORT

Sitting in the G70 2.0T or 3.3T Sport, you know precisely what it feels like when a performance sedan places the driver at the center of its every move. And you'll find ample clues of what this looks like, too: Full LED headlights with dark chrome bezels and copper accents. A dark chrome-finished grille and exterior accents. Dark tinted taillight covers. And exclusive 19" gun-metal alloy wheels.

"THE OVERALL LOOK DEFINITELY FEELS
DIFFERENT THAN THE LUXURY STATUS QUO."

- ROAD & TRACK, SEPTEMBER 2017
"2019 GENESIS G70: FIRST DRIVE"

IT EXERCISES INCREDIBLE SELF-CONTROL.

A highly advanced Intelligent Drive Mode system lets you tailor the G70's driving dynamics with five distinct modes of performance.

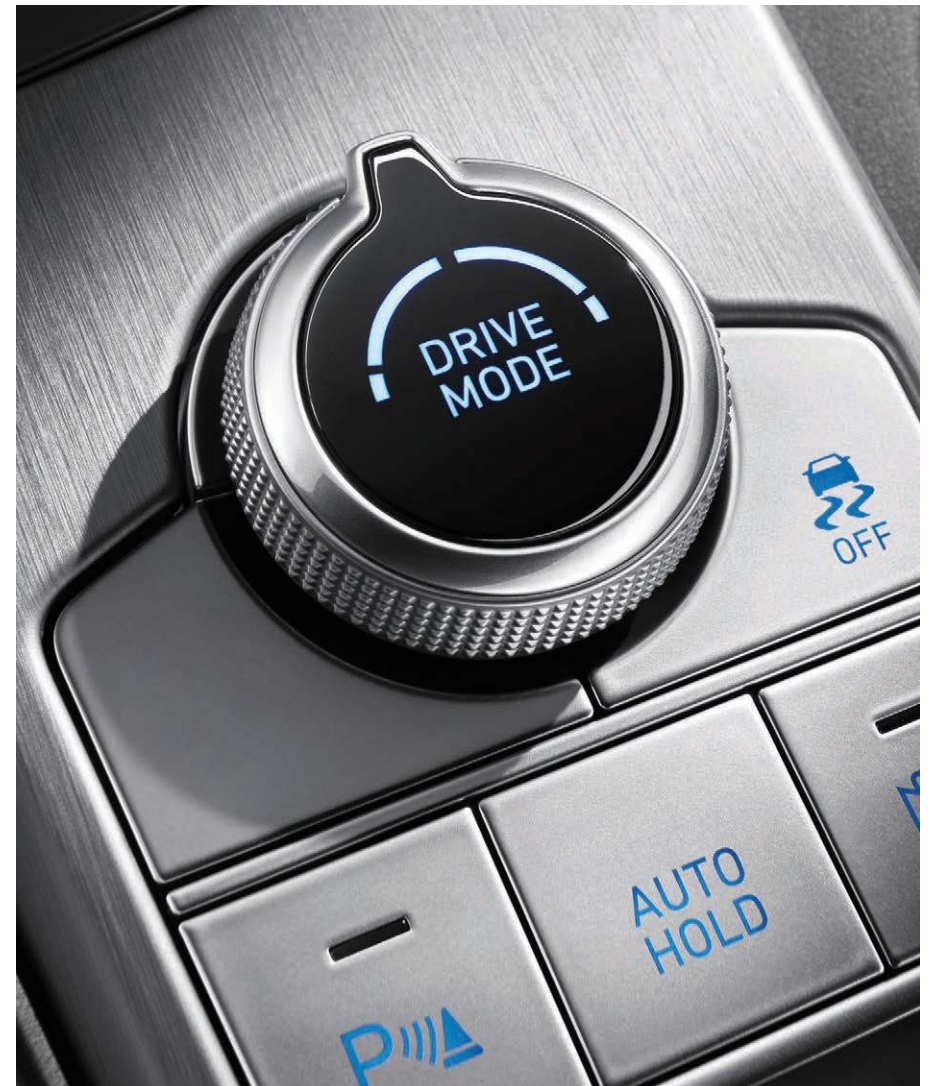

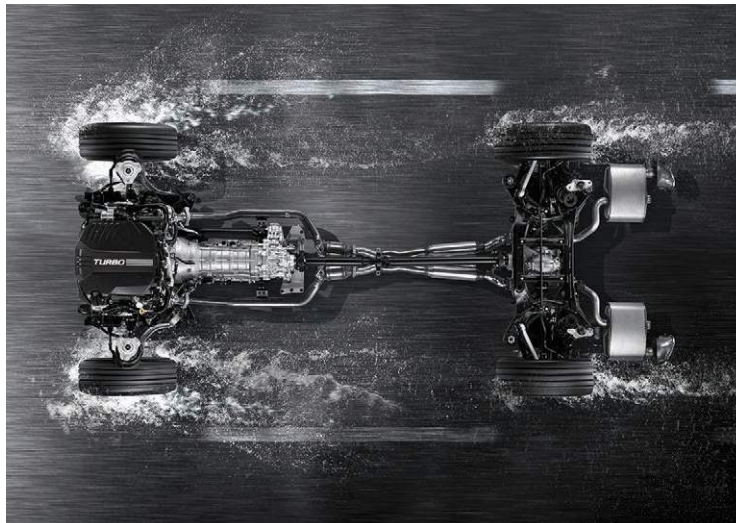

ADVANCED ALL WHEEL DRIVE

The G70's available AWD system synchronizes with Intelligent Drive Mode's computerized intelligence while gauging driving conditions to determine the perfect rear-wheel-drive bias for each mode. In Sport mode, for example, the AWD system alters its default 20/80 torque split between the front and rear wheels depending on road conditions, traction, cornering, incline and other factors. Even in Comfort mode, the system can adjust its default 40/60 split and send all of the engine's torque to the rear wheels as conditions warrant.

DYNAMIC TORQUE VECTORING CONTROL

What gives an automobile its traction? Four small contact patches where the tires touch the road (each barely larger than the palm of your hand). That's why it's critical for an All Wheel Drive system to optimize the power it sends to each wheel. The Genesis G70's AWD uses Dynamic Torque Vectoring Control to improve cornering. More advanced than simple understeer prevention, it uses inner rear-wheel braking and adjusts the torque sent to each wheel in conjunction with AWD, Electronic Stability Control and engine controls for optimal traction and improved agility through and out of corners.

INTELLIGENT DRIVE MODE

Turn the knurled Drive Mode knob on the center console to customize your driving experience with Eco, Comfort, Sport, Smart and Custom drive modes. The system automatically recalibrates everything from the G70's stability control and steering boost to its transmission shift pattern, throttle response and, on 3.3T Sport models, suspension damping. Instrument panel illumination also changes color depending on the drive mode you've selected.

RAISING THE BAR. BY LOWERING THE CENTER OF GRAVITY.

Along with a front-engine/rear-wheel-drive design that balances the car's weight, the Genesis G70 has something else that creates exceptional handling dynamics – a remarkably low center of gravity. The G70's agile response and comfortable ride are amplified by an exceptionally strong body forged from hot-stamped, high-strength steel and aerospace-grade adhesives.

The body is lightweight, yet incredibly strong – in the G70's case, with peerless torsional rigidity. Resisting body flex creates a steering feel that's solid, a suspension that's supple yet firm, and an interior nearly void of noise, vibration and harshness. To further fine-tune the G70's driving dynamics, Genesis engineers traveled to Germany's famed Nürburgring, where they logged thousands of test miles to ensure the new G70 holds its own on the home turf of established luxury performance sedans.

PRECISE HANDLING

For the control freak in you: An electronically controlled suspension is available on the G70 3.3T for impeccable ride and handling dynamics. Cornering precision is aided by a limited-slip differential that comes standard on the 3.3T and is available on the 2.0T model as well.

POWERFUL BRAKING

The Genesis G70 3.3T comes equipped with a high-performance Brembo® braking system that delivers powerful stopping force and fade resistance. Race-inspired red brake calipers ensure the source of your stopping power won't be secret for long.

RESPONSIVE STEERING

The G70's power steering adjusts steering assist automatically based on your speed. At lower speeds or when parking, the steering effort is lighter. As speed increases, the steering effort becomes progressively heavier for improved precision and responsiveness.

AGGRESSIVE ADDITIONS

With the G70 2.0T Dynamic and Sport models, Genesis engineers upped the performance ante (and the fun factor) by including 19" alloy wheels with summer performance tires and the same limited-slip differential that comes standard on G70 3.3T models.

RAISING THE STANDARDS ON WHAT COMES STANDARD.

More and more, it seems the roads we drive are becoming obstacle courses. Which is why the new G70 comes standard with the most advanced safety features in its class.² Forward Collision-Avoidance Assist, Blind-Spot Collision Warning and Lane Keeping Assist are part of a Genesis SmartSense suite of radar and camera-based technologies that

monitor the front, side and rear of your car for potential hazards. A rearview camera with guidelines helps you back into parking spaces or out of driveways. And to help answer the question 'How close am I?' when parking, available sensors in the front and rear of your G70 alert you that you're getting closer – before you've gotten too close.

FORWARD COLLISION-AVOIDANCE ASSIST WITH PEDESTRIAN DETECTION

Standard on the Genesis G70, Forward Collision-Avoidance Assist helps alert you to potential vehicle or pedestrian hazards in front of your car. If necessary, the system automatically applies braking to help avoid a collision.³

SURROUND VIEW MONITOR AND REARVIEW CAMERA GUIDELINES

An available Surround View Monitor uses four cameras to display the perimeter of your G70 from multiple angles. Use it to guide your way into tight parking spaces, and for clear views of the curb when parallel parking on the street.

BLIND-SPOT COLLISION WARNING WITH REAR CROSS-TRAFFIC COLLISION WARNING

Serving as an extra set of eyes when changing lanes, Blind-Spot Collision Warning comes standard with your G70. When backing out of parking spaces, Rear Cross-Traffic Collision Warning alerts you to vehicles approaching from the sides.⁶

LANE KEEPING ASSIST

Should your car begin to drift outside of its driving lane, the G70 warns its driver with an alert and uses reverse steering torque to apply slight corrective measures that help keep your car safely in its lane. The system includes three settings with varying degrees of assistance.⁴

DRIVER ATTENTION WARNING

The G70 can detect whether its driver is potentially fatigued or distracted. A standard Driver Attention Warning system analyzes your driving patterns and your G70's position within its lane. When necessary, it issues a visual and audio alert suggesting the driver take a break from the road.⁵

LOW AND HIGH BEAM ASSIST

Available with the G70's LED headlights,⁷ Low Beam Assist turns the beams in sync with the steering wheel for better visibility when cornering. Standard High Beam Assist switches from high to low headlight beams automatically when the front camera detects an oncoming or leading vehicle ahead.

“BALANCE IS THE GENESIS G70’S GAME –
HARMONIZING LUXURY, COMFORT, STYLE,
AND SPORTINESS IN THE SAME WAY KOREAN
CULTURE BLENDS OLD TRADITIONS WITH
MODERNITY SEAMLESSLY.”

– MOTOR TREND, SEPTEMBER 2017
“2019 GENESIS G70: FIRST DRIVE”

THE ONLY CORNERS WE CUT WERE ON THE NÜRBURGRING.

Open the door, step inside the G70...and you'll instantly discover you are in a place where nothing was spared to make you feel special. Notice the premium contrast stitching in the quilted inserts that extend up the door panels. Look closer at the piping, double-stitching and knurled knobs – and you'll discern they're the kind of details typically reserved for a luxury class above.

While aluminum trim and a driver-oriented layout featuring large analog-style gauges and simple controls convey the G70's sporting character, the interior's overall effect is relaxing. As *Road & Track* noted, "...there's something comforting about how straightforward the entire cabin is."⁸

That comfort is felt most directly when you settle into the G70 3.3T's 16-way power driver seat. With power adjustment of the seat cushion extension and side bolsters linked to Intelligent Drive Mode, you'll find the perfect support points at the push of a button. Or, in the case of the side bolsters, the turn of a dial. Sport Mode selection automatically adjusts the width of the side bolsters for improved lateral support in turns. Spirited driving, on or off the Nürburgring, never felt so good.

HEAR YOUR MUSIC IN PERFECT HARMONY.

Stainless steel speaker covers are your first hint that the G70's Lexicon® Quantum Logic® Surround Sound is no ordinary audio system.⁷ It uses 15 high-efficiency speakers, including two subwoofers directly under the front seats. Clari-Fi™ Music Restoration Technology and two modes of sound reproduction ("Audience" and "Onstage") are programmed in the mix to create a rich, immersive 3D audio experience. So wherever you are seated, and whatever you're enjoying – from HD Radio™ or Bluetooth® streaming playlists to SiriusXM® Satellite Radio's wide range of channels – you'll hear it all with remarkable clarity.⁹

15-SPEAKER LEXICON® QUANTUM LOGIC® SURROUND SOUND AUDIO SYSTEM

- Ⓒ Coaxial dash-mounted midrange speaker
- Ⓓ Door-mounted tweeters
- Ⓔ Subwoofers mounted under front seats
- Ⓖ Door-mounted woofers
- Ⓜ Midrange surround sound speakers
- Ⓕ Lexicon® 11-channel digital external amplifier

YOUR PERSONAL SOUND STAGE

The Genesis G70 is engineered with the latest QuantumLogic® sound processing technology that provides an authentic multi-dimensional surround sound experience featuring patented signal extraction technology. Individual voices and instruments are identified and re-authored into a precise multi-channel sound stage featuring your choice of audience and onstage modes. If you think that sounds good, wait until you hear it for yourself.

THE GREEN EDGE

The G70 audio system's high-efficiency speakers and amplifiers are engineered with eco-friendly GreenEdge™ components that deliver sparkling sound quality and high output with half the normal current draw. Reduced energy consumption aids in heat dissipation, which extends the lifetime of system components.

LET'S BE CLEAR

Clari-Fi™ Music Restoration Technology analyzes digital and streaming audio to restore sound qualities lost in compression. Compression removes up to 90 percent of the details originally recorded in your favorite songs. Music that's been 'Clari-fied' sounds clearer, crisper, wider and more dynamic. So you can enjoy nuances that the artists intended you to hear.

DRIVE A CAR WITH A HIGHER IQ.

With each exhilarating stint behind the wheel, your Genesis G70 displays its highly intuitive nature. Whether it's the elegant simplicity of a wireless charging pad, or the natural integration of its floating center screen display with your smartphone's functionality, you'll be energized by how in sync you become with your car.

That sense is especially satisfying when you walk up behind your G70 with your hands full of groceries or gear and wait by the trunk for a few seconds. Your car detects the stylish key fob in your pocket or purse, and the hands-free smart trunk pops open automatically.¹⁰

This is just the beginning. Welcome to the evolution of the luxury car.

SMART CRUISE CONTROL WITH AUTOMATIC STOP & GO

Far more than ordinary cruise control, this standard feature automatically adjusts your speed to maintain a set distance from the vehicle ahead. Smart Cruise Control is also capable of bringing your G70 to a complete stop, then starting again without driver input.¹¹

EVEN THE TRUNK IS SMART

Walking up to your car with your hands full? The G70's hands-free smart trunk opens automatically for easy access to the car's spacious cargo area. No need for acrobatic balancing acts while digging into your pocket or purse for keys. Simply wait by the trunk area for a few seconds, and it pops open.

HEADS-UP DISPLAY

The quicker you move, the faster you need information. Which is why the G70 is available with a full color Heads-up Display. Adapted from fighter jet technology, it projects speed, navigation and safety alert data directly onto your windshield.

SMARTPHONES MADE SMARTER

Standard Apple CarPlay™ and Android Auto™ allow you to tap into your smartphone using a familiar interface on the G70's touchscreen or simple voice commands. Access your maps and navigation, contact lists, texts, calls, music library and more.¹²

IT REALLY IS ALL ABOUT HAVING
THE RIGHT CONNECTIONS.

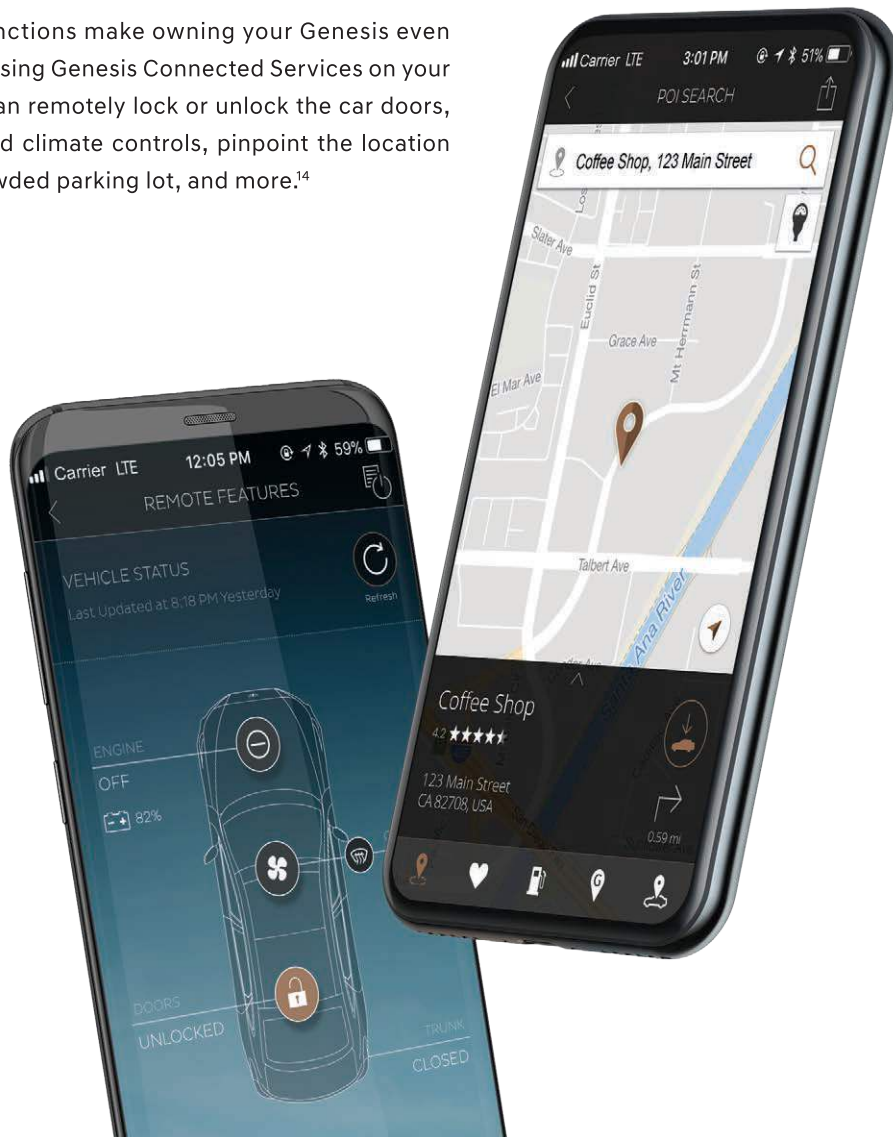

As a G70 owner, you have full access to Genesis Connected Services.¹³ It's a suite of technologies that act as your own personal concierge, connecting you to what you need when you need it – in many cases, using the convenience of a smartphone app.

The Genesis Intelligent Assistant® app combines connected car features with data from your G70, your smartphone or smartwatch, and the internet to send you important updates – often without you having to ask. You can receive calculated departure messages for synced calendar events with location, as well as proactive notifications to remotely start and cool or heat your car based on the current temperature.¹⁴

REMOTE ACCESS

Remote vehicle functions make owning your Genesis even more convenient. Using Genesis Connected Services on your smartphone, you can remotely lock or unlock the car doors, start the engine and climate controls, pinpoint the location of your car in a crowded parking lot, and more.¹⁴

GUIDANCE

Leverage the power of your smartphone to find destinations or points of interest and send directions straight to your car's navigation system.¹⁵ You can also invoke destination searches in your car by using voice commands or the touchscreen display.

VOICE SERVICES

Amazon Alexa® and Google Assistant™ voice service integration lets you direct your Amazon Echo® or Google Home™ device to start your G70's engine, unlock the doors and set the cabin temperature from the comfort of your couch, kitchen or office.¹⁶

CONNECTED CARE

G70 owners enjoy 3 years of complimentary Genesis Connected Care features, which include Monthly Vehicle Health Reports, a Genesis Service Link, On-Demand Diagnostics, Maintenance Reminders, SOS Emergency Assistance, Automatic Collision Notification, Enhanced Roadside Assistance and the Genesis Intelligent Assistant app.¹⁷

AN OWNERSHIP EXPERIENCE BASED ON THE BELIEF THAT TIME IS THE ULTIMATE LUXURY.

This is the Genesis Experience, a suite of owner benefits thoughtfully crafted around a simple notion: Your time is precious. And while we can't actually make more of it, we can certainly help you make the most of it.

COMPLIMENTARY GENESIS SERVICE VALET

You may never set foot in our service center. Complimentary for 3 years or 36,000 miles, we'll pick up your G70 once you've scheduled service online or via our mobile app, bring a courtesy replacement vehicle, and return your car after servicing.

COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free ownership experience with Complimentary Scheduled Maintenance for 3 years or 36,000 miles, including oil changes, tire rotations and select wear items such as wiper blades, brake pads and alignments as needed.

GENESIS CONNECTED SERVICES

Your G70 includes 3 years of complimentary Genesis Connected Services. Exclusive for Genesis owners, it's a comprehensive suite of safety, guidance and remote features that help keep G70 owners connected to the things they need on the go.

NAVIGATION AND MULTIMEDIA UPDATES

Complimentary map updates to your vehicle's navigation system for 3 years ensures you're always accessing the most up-to-date driving directions. Updates are available annually as a part of your routine maintenance visits with Genesis.

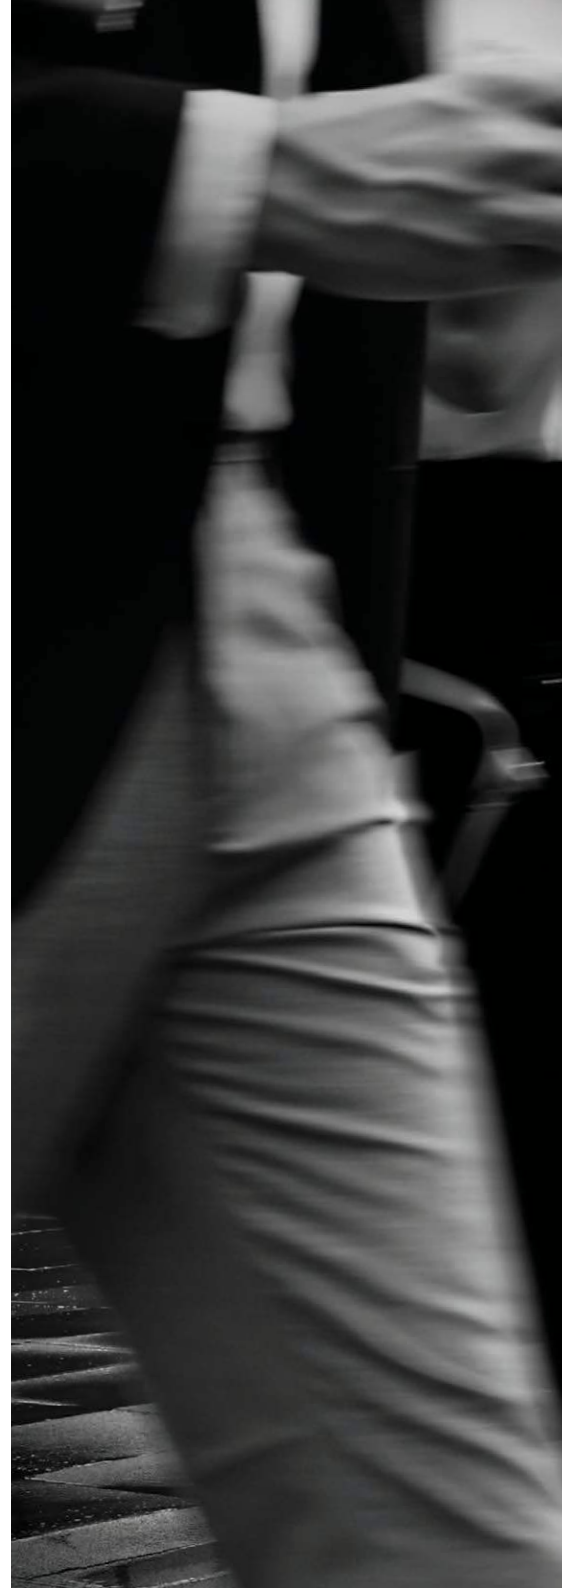

24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, 3-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis dealership or authorized service facility. Reimbursement for an overnight stay is included if needed.

SIRIUSXM® ALL ACCESS WITH TRAVEL LINK®

With 3 years of complimentary SiriusXM Travel Link, you'll stay up-to-speed on the latest traffic, weather, fuel prices, stocks, sports and movies. A SiriusXM All Access 3-month free trial also lets you enjoy more than 150 channels of music, news, sports, talk and entertainment.⁹
