

GENESIS

2020 GENESIS G70

WELCOME TO GENESIS.

From our award-winning lineup of Genesis automobiles to the innovative technologies and services offered by Genesis and its retailers, our aim is to create an exceptional ownership experience designed to satisfy you as never before.

That focus has helped Genesis quickly emerge among the leaders in quality, satisfaction and safety. In its survey of new car owners, the 2019 J.D. Power Initial Quality Study ranks Genesis #1 among all automotive brands and the G70 #1 within the compact premium car segment.¹

The high level of satisfaction enjoyed by Genesis customers is being echoed by the media. When asked to single out one new model as the year's best, a jury of the world's leading automotive journalists chose a new model from Genesis. In bestowing the 2019 North American Car of the Year™ award on the G70, they spoke volumes about how far Genesis has come in just four years.

Of course, all the recognition Genesis is getting comes from our focus on what really matters: Putting you first.

The 2019 Genesis G70
2019 North American Car of the Year™

J.D. Power #1 Ranked Brand and Compact
Premium Car in Initial Quality in 2019

YOU CAN LIVE UP TO EXPECTATIONS.
OR BLOW RIGHT PAST THEM.

At Genesis, we're going all-in on the idea that a luxury performance sedan should be a thrill ride that reignites the passions of driving enthusiasts everywhere. And proves that one car can rewrite the rules of the game.

The Genesis G70 is a blend of luxury, performance and technology that's so exceptional, it's been honored as MotorTrend's 2019 Car of the Year®.

And while it's flattering to be honored by the world's leading automotive authorities, the opinion that matters most to us is yours.

Look at the sleek, bold lines and athletic stance of the G70. Take your place in the driver's seat, grip the steering wheel, and let your eyes scan the interior's surfaces and textures. Then find your favorite stretch of road and put the G70 to the ultimate test: The dynamic response of its engine, suspension and braking.

After all, nobody is better qualified to be an expert on what meets your expectations of sporty performance than you.

G70 2.0T

PRESSING THE ACCELERATOR BRINGS OUT THE BEST IN THE G70. AND ITS DRIVER.

The world of performance luxury sedans is highly competitive. Admission is based on merit, and status is conferred by those best qualified to pass judgment – you, the enthusiast driver. So what does it feel like when you press the accelerator of your G70 2.0T? An exhilarating 252 horsepower flows eagerly from its standard all-aluminum 2.0L Turbo GDI 4-cylinder engine,² accompanied by the exquisite sound of a tuned exhaust.

Power is transferred to the pavement two ways. The G70 2.0T is available with a precise 6-speed manual gearbox and a limited-slip differential. Or it comes standard with a sport-tuned 8-speed automatic transmission featuring Shift-by-Wire, steering wheel paddle shifters and rev-matching. Engine RPMs are automatically elevated to match the optimum speed of the next gear, resulting in smoother downshifting for peak engine performance.

252 HP
— Torque: 260 lb-ft —

AGGRESSIVE ADDITIONS

The G70 2.0T Sport ups the performance and fun factors by including 19" sport alloy wheels, power side bolsters for the driver's seat, a performance braking system and a mechanical limited-slip differential.

CORNERING GEAR HOLD

When entering a corner during a stint of spirited driving in Sport Mode, the G70's automatic transmission holds the appropriate gear as needed to allow for smooth, brisk acceleration as you exit the turn.

OWNER'S MANUAL

The Rear Wheel Drive G70 2.0T is available with a 6-speed manual gearbox. The precise feel of its shifter in your hand, and the interplay of your left and right feet with the clutch and throttle, turn every input into an immediate response.

G70 2.0T

CHANGE YOUR SURROUNDINGS TO SOMETHING THAT'S TRULY LUXURIOUS.

In creating the Genesis G70, our designers spared nothing when it comes to making you feel special.

Open the door and step inside. You'll instantly notice the premium stitching in the quilted inserts that extend up the door panels. Look closer at the piping, double stitching and knurled knobs – you'll discern they're the kind of details typically reserved for a luxury class above. Aluminum trim and a driver-oriented layout featuring large analog-style gauges convey the G70's sporting character.

With standard features like dual automatic temperature control with a filter that cleanses the cabin air – and available amenities like heated and ventilated seats, a heated steering wheel and real aluminum trim – it won't be long before the G70 convinces you it has its priorities in all the right places.

In honoring the 2019 Genesis G70 with its Shift Award for Vehicle of the Year, Roadshow by CNET Executive Editor Chris Paukert succinctly exclaimed, "The 2019 Genesis G70 is a winner across the board."³

G70 3.3T

ON YOUR ROAD TEST, YOU
CAN LEARN A LOT FROM OURS.

The G70 3.3T derives its power from an all-aluminum 3.3L Twin-Turbo GDI V6 engine rated at 365 horsepower and 376 lb-ft of torque.² To precisely tune the G70's performance, more than 6,200 miles were logged on Germany's famed Nürburgring racing circuit. There, in the competition's back yard, hot laps yielded cold calculations as Genesis engineers translated the G70's low center of gravity into agile response and a comfortable ride.

Driving dynamics are enhanced by a lightweight yet incredibly strong body forged from high-strength steel and bonded by aerospace-grade structural adhesives. The rigidity of the G70's body helps its steering feel solid, its suspension feel supple yet firm, and its interior remain so quiet that noise, vibration and harshness are nearly absent.

365 HP
— Torque: 376 lb-ft —

“FOCUS ON THE ROAD IN FRONT OF
YOU...AND IT'S OBVIOUS WHY THE
G70 DESERVES ALL THE ACCOLADES.”

— *MotorTrend*, August 2019

POWERFUL BRAKING

On the G70 3.3T, a high-performance Brembo® braking system delivers powerful stopping force and outstanding fade resistance. Race-inspired red brake calipers help ensure the source of your stopping power won't be a secret for long.

LAUNCH CONTROL

A feature normally reserved for exotic European supercars, Launch Control helps to minimize wheel spin and maximize traction when accelerating from a stop for quicker starts with increased stability.

PRECISE HANDLING

Cornering precision is aided by a limited-slip differential that comes standard on the 3.3T, while its available Electronically Controlled Suspension creates superbly balanced ride and handling.

“SURFACES ARE COVERED
IN FIRST-CLASS MATERIALS,
AND IT’S APPARENT THAT
GENESIS CONSIDERED
EVERY LEVEL OF DETAIL.”

— U.S. News & World Report⁴

G70 3.3T

EVEN THE INTERIOR IS TUNED FOR PERFORMANCE.

From the moment you open its door, you can tell the G70 3.3T is quite comfortably blurring the line between luxury sedan and sports car. Position yourself in the 16-way power driver seat, and you can use the power adjustment of its thigh support cushion extension and side bolsters to tailor the fit precisely to your form.

Select the Sport Mode setting during an exhilarating session of spirited driving, and your G70’s Intelligent Drive Mode automatically adjusts the width of the driver seat’s side bolsters for improved lateral support in turns.

The gauges in front of you hint at the performance that awaits. Aluminum bezels surround a pair of large round dials that display a colorful 3D effect as the red needles sweep across the faces of the G70’s tachometer and speedometer.

To accompany your every move, every 3.3T model comes standard with a navigation system integrated into the car’s 8” floating touchscreen display. The soundtrack for your G70’s performance comes from a Lexicon® Premium Audio system with QuantumLogic® Surround and 15 high-efficiency speakers – including two subwoofers directly under the front seats.

WANT TO WIELD ABSOLUTE POWER? SEIZE THIS MOMENT.

The G70's available All Wheel Drive system is so advanced, a simple turn of a dial is all that's needed to customize your G70's driving dynamics to your exact preferences.

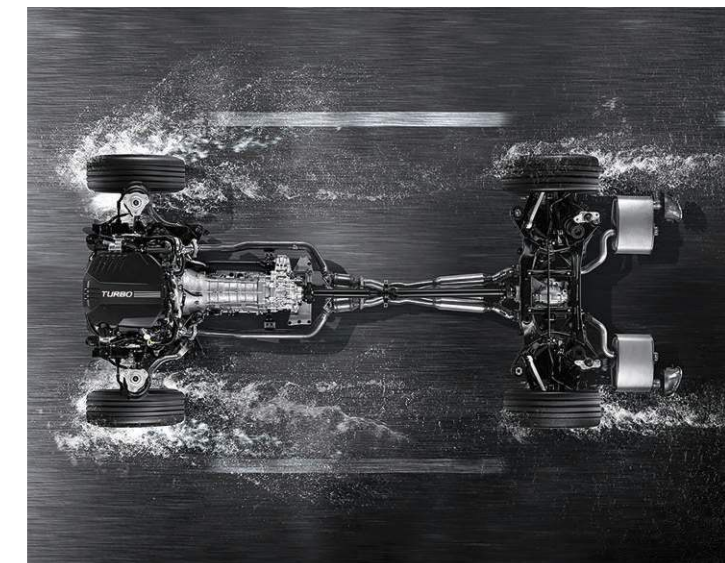

INTELLIGENT DRIVE MODE

Turn the knurled Drive Mode knob on the center console, and a range of systems automatically recalibrate to reflect one of the five drive modes you can select: Eco, Comfort, Sport, Smart and Custom. The G70's stability control and steering boost, its transmission shift pattern, its throttle response – and, on 3.3T Sport models, its suspension damping – all adjust. Even the color of the instrument panel illumination changes based on the mode you've selected.

ADVANCED ALL WHEEL DRIVE

The G70 2.0T and 3.3T's available AWD system synchronizes with Intelligent Drive Mode to gauge driving conditions and determine the perfect rear-wheel-drive bias for each mode. In Sport mode, for example, the AWD system alters its torque split between the front and rear wheels depending on road conditions, traction, cornering, incline and other factors. Even in Comfort mode, the system can adjust its default split and send all of the engine's torque to the rear wheels as conditions warrant.

DYNAMIC TORQUE VECTORING CONTROL

Four small contact patches where the tires touch the road are all that give a car its traction. The G70 uses Dynamic Torque Vectoring Control to modulate the power it sends to each wheel in order to improve cornering. More advanced than simple understeer prevention, it uses inner rear-wheel braking and adjusts the torque distribution to each wheel in conjunction with engine controls, Electronic Stability Control and available All Wheel Drive for optimal traction and improved agility through and out of corners.

THE TRUE TEST OF A PERFORMANCE SEDAN IS HOW IT PERFORMS UNDER PRESSURE.

The roads you drive today are pressure-packed, with potential trouble all around. That's why the G70 comes standard with the most advanced safety features in its class.⁵ Forward Collision-Avoidance Assist, Blind-Spot Collision Warning and Lane Keeping Assist are all part of a sophisticated suite of radar and camera-based technologies that monitor the front, side

and rear of your car for potential hazards. A rearview camera with guidelines helps you back into parking spaces or out of driveways. And to help answer the question 'How close am I?' when parking, available sensors in the front and rear of your G70 alert you that you're getting closer – before you've gotten too close.

2019 Genesis G70 with LED headlights⁶

FORWARD COLLISION-AVOIDANCE ASSIST WITH PEDESTRIAN DETECTION

Standard on the Genesis G70, Forward Collision-Avoidance Assist helps alert you to potential vehicle or pedestrian hazards in front of your car. If necessary, the system automatically applies braking to help avoid a collision.⁷

DRIVER ATTENTION WARNING

The G70 can help detect whether its driver is potentially fatigued or distracted by analyzing your driving patterns and your G70's position within its lane. When necessary, it issues a visual and audio alert suggesting the driver take a break from the road.¹⁰

LANE KEEPING ASSIST

Should your car begin to drift outside of its driving lane, the G70 warns its driver with an alert and uses reverse steering torque to apply slight corrective measures that help keep your car safely in its lane. The system includes three settings with varying degrees of assistance.⁸

BLIND-SPOT COLLISION WARNING

Serving as an extra set of eyes when changing lanes, Blind-Spot Collision Warning comes standard with your G70. It monitors your flanks, and if it detects a vehicle in your blind spot, it warns you via audio and visual alerts.¹¹

REAR CROSS-TRAFFIC COLLISION WARNING

You know that feeling of uncertainty: You're backing up and wondering whether there's cross traffic coming your way. The G70's Rear Cross-Traffic Collision Warning helps alleviate your concern by alerting you to vehicles approaching from the sides.⁹

LOW BEAM AND HIGH BEAM ASSIST

Low Beam Assist turns the G70's available LED headlight beams in sync with your steering for better visibility in corners. Standard High Beam Assist switches from high to low headlight beams automatically when the front camera detects an oncoming or leading vehicle ahead.

YOUR G70 MIGHT KNOW YOU BETTER THAN YOU KNOW YOURSELF.

What distinguishes a luxury from something ordinary is how intuitively it seems to know your preferences. How clearly it speaks to your inner voice. And how precisely it reflects your unique sense of style and refinement. Through a range of innovative features, your G70

reveals just how well it knows you – and your needs. From the elegant simplicity of its hands-free smart trunk release to the natural integration of your smartphone with its floating center display, you'll be delighted by the way your G70 seamlessly syncs with your life.

SMART CRUISE CONTROL WITH STOP & GO

Far more than ordinary cruise control, this standard feature automatically adjusts your speed to help maintain a set distance from the vehicle ahead. Smart Cruise Control is also capable of bringing your G70 to a complete stop, then starting again without driver input.¹²

HEADS-UP DISPLAY

The quicker you move, the faster you need information. Which is why the G70 can be equipped with an available full-color Heads-up Display. Adapted from fighter jet technology, it projects speed, navigation and safety alert data directly onto the windshield in front of the driver.

HANDS-FREE SMART TRUNK

Walking up to your car with your hands full? The G70's hands-free smart trunk opens automatically for easy access to a spacious cargo area. It works by detecting the key fob in your pocket or purse. Simply wait behind the trunk area for a few seconds, and it pops open.¹³

SMARTPHONES MADE SMARTER

Standard Apple CarPlay® and Android Auto™ allow you to tap into your smartphone using a familiar interface on the G70's touchscreen or simple voice commands. Access your music library, contact lists, texts, calls, navigation, maps and more.¹⁴

SURROUND VIEW MONITOR

An available Surround View Monitor uses four cameras to display the perimeter of your G70 from multiple angles. Use it to guide your way into tight parking spaces, and for clear views of the curb when parallel parking on the street.

WIRELESS CHARGING PAD

Your life moves with your smartphone, but only if it's charged. An available wireless charging pad makes it easy to keep your compatible devices charged while you're on the go. Just set it down, and the charging status is conveyed by a colored indicator light.¹⁵

SEIZE CONTROL, EFFORTLESSLY.

As a G70 owner, you have full access to Genesis Connected Services.¹⁶ It's a suite of technologies that connects you to the information you need, when you need it – oftentimes, using a convenient smartphone app.

GENESIS INTELLIGENT ASSISTANT APP

Available as a free download from Google Play™ or the Apple App Store, the Genesis Intelligent Assistant app combines data from your G70, the internet and your smartphone or smartwatch to send you important updates – often without you having to ask.

You can receive calculated departure messages for synced calendar events with location, as well as proactive notifications to remotely start and cool or heat your G70 based on the current temperature. You can also use your smartphone to pinpoint the precise location of your car in a crowded parking garage.¹⁷

GUIDANCE

Leverage the power of your smartphone to find destinations or points of interest and send directions directly to your car's navigation system. You can also invoke destination searches in your car using voice commands or the touchscreen display.¹⁸

VOICE SERVICES

Amazon Alexa® and Google Assistant™ voice service integration lets you direct your Amazon Echo® or Google Home™ device to start your G70's engine, set the cabin temperature and lock or unlock the doors from the comfort of your couch, kitchen or office.¹⁹

CONNECTED CARE

G70 owners enjoy 3 years of complimentary Genesis Connected Care features, which include Monthly Vehicle Health Reports, On-Demand Diagnostics, Maintenance Reminders, SOS Emergency Assistance, Automatic Collision Notification, Enhanced Roadside Assistance, Service Link and the Genesis Intelligent Assistant app.

NOT ALL OF YOUR G70'S HIGH PERFORMANCE IS UNDER THE HOOD.

As a driving enthusiast, you're all about being at the center of powerful, moving performances. And that includes the kind you expect to hear when you sit inside your G70 and turn on the audio system.

A Lexicon® premium audio system with QuantumLogic® Surround features Clari-Fi™ Music Restoration Technology and two modes of sound reproduction that are programmed in the mix to create a rich, immersive experience.²⁰

So wherever you're seated, and whatever you're enjoying – from HD Radio® to Bluetooth® streaming playlists and SiriusXM Satellite Radio's wide range of channels – you'll hear it all with remarkable depth and clarity.²¹

15-SPEAKER LEXICON® QUANTUMLOGIC® SURROUND SOUND AUDIO SYSTEM

- C** Coaxial dash-mounted midrange speaker
- T** Door-mounted tweeters
- S** Subwoofers mounted under front seats
- W** Door-mounted woofers
- M** Midrange surround sound speakers
- L** Lexicon® 11-channel digital external amplifier

YOUR PERSONAL SOUNDSTAGE

With the latest QuantumLogic® sound processing, the audio system in your G70 features patented signal extraction technology engineered to provide an authentic multi-dimensional surround sound experience. Individual voices and instruments are identified and re-authored into a precise multi-channel soundstage featuring your choice of audience or onstage modes. If you think that sounds good, wait until you hear it for yourself.

LET'S BE CLEAR

You probably know the music you download onto your digital devices or stream over the airwaves has been digitally compressed. But did you know compression can remove up to 90 percent of the audio details originally recorded in your favorite songs – so you're left listening to a reduced version of the real thing?

Clari-Fi™ Music Restoration Technology works to restore the sound qualities lost in compression by scanning all types of digital audio files for lost details – and intelligently correcting waveform deficiencies based on existing music information and audio source quality. Music that's been 'Clari-fied' sounds clearer, crisper, wider and more dynamic. So you can enjoy all of the sonic nuances that the recording artists intended you to hear.

WE DESIGNED THE GENESIS EXPERIENCE AROUND LIFE'S MOST PRECIOUS COMMODITY: YOUR TIME.

“IT HITS ALL THE RIGHT NOTES: PUNCHY POWERTRAINS AND AN AGILE CHASSIS THAT’S A TON OF FUN, SPORTY EXTERIOR STYLING WITH STRONG GRAPHICS, AND A WELL-APPOINTED INTERIOR. LOOK OUT, BMW. IT’S THE REAL DEAL.” – *MotorTrend*, January 2019²²

True luxury is about your complete experience, both on and off the road. It reflects a profound commitment to meeting your needs and wants precisely, in a way that values your precious time. Welcome to the Genesis Experience, our thoughtfully crafted suite of owner benefits designed around how you actually live.

 COMPLIMENTARY SERVICE VALET

You may never need to bring your car to a Genesis service center. Allow your Genesis retailer to pick up your G70, deliver a courtesy replacement vehicle, perform any required maintenance and return your car to your location so you can enjoy more pleasurable pursuits. Complimentary for 3 years or 36,000 miles.

 COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free Genesis ownership experience with Complimentary Scheduled Maintenance for 3 years or 36,000 miles, whichever comes first – including complimentary oil changes with normally scheduled maintenance appointments.

 GENESIS CONNECTED SERVICES

Your G70 includes 3 years of complimentary Genesis Connected Services. This exclusive service offers a comprehensive suite of safety, guidance and remote features that help to keep you connected to the things you need on the go.

 24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, 3-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis retailer or authorized service facility. If needed, reimbursement for an overnight stay is included.

 NAVIGATION AND MULTIMEDIA UPDATES

Models equipped with a navigation system receive complimentary map updates for 3 years to ensure you're always accessing the most up-to-date driving directions. Updates are available annually as part of your routine maintenance visits with Genesis.

 SIRIUSXM ALL ACCESS WITH TRAVEL LINK®

With 3 months of complimentary SiriusXM Travel Link, you'll stay up-to-speed on the latest traffic, weather, fuel prices, stocks, sports and movies. A SiriusXM All Access 3-month free trial also lets you enjoy one of the widest varieties of ad-free music, news, talk and sports entertainment anytime, anywhere.²¹
