

06 RIDGELINE

When Honda does something, we do it right. And we do it better. Introducing the Ridgeline, a next-generation truck from Honda. It's tough, big and plenty powerful. And it's a Honda, so it's packing way more versatility, innovation and performance than your run-of-the-mill box on wheels. For starters, check out the huge In-Bed Trunk™ and an interior just as comfortable as it is utilitarian. Then get out on a rough road, and feel all four wheels smoothly power you ahead like there's nothing to it. Make no mistake, the new Ridgeline is all truck – and then some.

**It's a truck. And it's a Honda.
And it's like nothing you've
ever seen before.**

¹For 2006, Honda is complying with the new SAE standard for measuring horsepower and torque, SAE net (Rev 8/04). This new method slightly reduces a vehicle's horsepower rating and torque due to more stringent testing procedures. Many manufacturers are still using the older standard of measurement. Horsepower and torque can only be fairly compared if both vehicles were calculated using the same SAE standard. ²Towing requires the addition of the Honda accessory trailer hitch and harness. Refer to the owner's manual for additional towing information. ³Based on 2006 EPA mileage estimates. Use for comparison purposes only. Your mileage may vary. ⁴Based upon internal Honda testing for frontal and side impacts. ⁵The Honda Satellite-Linked Navigation System is available only in the 48 contiguous United States on select RTL models. ⁶HomeLink™ is a registered trademark of Prince Corporation, a wholly owned subsidiary of Johnson Controls.™ ⁷XM® subscription sold separately. XM-ready audio systems are pre-wired to accept the dealer-installed accessory XM Satellite Radio hardware. XM Satellite Radio is available only in the contiguous United States.
