C I V I D

coupe / si coupe

Civic Si Coupe shown in Rallye Red with accessory fog lights and 18" alloy wheels and tires.

transform an icon.

Civic Si Coupe interior shown in Black with available Honda Satellite-Linked Navigation System.^{TM1}

[*si*]

transform the future.

Why wait for tomorrow when you can hit fast-forward? That's what it's like slipping inside the 2007 Civic Coupe. Just one look tells you this is more than modern style. It's the shape of things to come—leading-edge looks backed up with smooth power, sharp handling and a big dose of high tech. Welcome to tomorrow. You're going to like it here.

Civic Si Coupe shown in Alabaster Silver Metallic.

[**ex**]

your move.

Pick up your friends. Get to the job. Head out of town. Life is all about movement, and nothing says go like the modern, radically raked shape of the 2007 Civic Coupe. Sophisticated. Sporty. Futuristic. Many words can describe its sleek silhouette. But it'll be best defined by the stretches of space you'll be slicing through.

Civic EX Coupe shown in Galaxy Gray Metallic.

think quick.

When your look is this bold, it sure feels good having the moves to back it up. Every Civic model comes with plenty of power under the hood, plus a refined suspension for quick handling and a smooth ride. And there's a 5-speed automatic transmission available, too, which helps deliver quick acceleration paired with excellent fuel economy.²

[**ex**]

❖ Now gear this.

If crisp, short-throw shifting is your thing, the 5-speed manual transmission is sure to satisfy you. Or opt for the compact 5-speed automatic transmission – a feature that epitomizes the Civic's smart sophistication.

❖ Grab hold of the road and don't let go.

Corner, cruise or pick your way through traffic – it's all handled equally well. The Civic's suspension has been engineered for a solid on-center feel, quick steering and excellent road feel and control.

❖ Pack some punch, no matter what Civic you go with.

Honda engines have always been a showcase of engineering. The Civic example is a 140-hp, 1.8-liter i-VTEC® powerplant that's standard in all DX, LX and EX models. It features the very latest, next-generation i-VTEC technology, which gives you all that go power with economy that you'd expect from a smaller engine.

Civic EX Coupe shown in Atomic Blue Metallic.

Climb in the cockpit and you'll immediately notice the unique two-tier instrument panel, keeping info like speed, temp and fuel easy to see. Every detail exhibits Honda's attention to ergonomics, making your mission clear: You are here to drive, with eyes forward, hands on the wheel and foot on the gas.

*Some roads unverified. See the navigation system owner's manual for more details on coverage.

→ points of interest
7million

The system's brain is an 8.0-gigabyte DVD database consisting of maps and more than 7 million points of interest like ATMs and restaurants. Enter a destination, and voice prompts guide you while turn-by-turn directions are shown on a customizable 6.5-inch LCD touch-screen display.* And with the voice-recognition feature, simply speak one of over 600 commands to control navigation functions as well as the audio system.

Navigation-equipped models get a digital audio-card reader to play your downloaded music files. The LCD screen displays your folders and playlists for easy selection.

XM® Satellite Radio³ is standard with the navigation system. Get over 170 channels, including 69 commercial-free music channels plus traffic and weather in select markets.

The Honda Satellite-Linked Navigation System¹ with voice recognition is available in the 2007 Civic EX and Si models. Even if you already know where you're headed, there's nothing like having a few satellites helping you along.

❖ Your tunes, played your way (EX, Si).

→ watt
350

❖ (EX, Si)

❖ Get some air (EX, Si).

The 160-watt AM/FM/CD 6-speaker audio system in the LX lets you play your MP3- or Windows Media® Audio⁴ (WMA)-compatible CDs. There's an MP3/auxiliary input jack, too. EX and Si models get a 350-watt system with a subwoofer and an added amplifier for big bass. And it's XM Ready^{®3} for you to add an accessory receiver.

Civic EX Coupe interior shown in Gray with available Honda Satellite-Linked Navigation System.¹

❖ Standard with navigation.³

❖ 60/40 split seat (EX, Si).

There's space for five, and you'll all be feeling good thanks to roomy seating and air conditioning on most models. Big seat bolsters and a tilt and telescopic steering column give the driver a perfect fit. EX and Si models add steering wheel-mounted audio controls and a 60/40 split rear seat.

❖ Available 5-speed automatic.

Si

rev up.

Speak just two letters, "Si," and you've said a mouthful. The Civic that ushered in the modern sport-compact era is loaded with tech befitting the king of compacts. Check out that ground-hugging stance. The pure i-VTEC power. The sporty suspension. And for 2007, Vehicle Stability Assist™ (VSA®) to help keep you on your intended line.

18"

Accessory wheels

Civic Si Coupe shown in Habanero Red Pearl.

The Si's 197 hp is harnessed with a close-ratio 6-speed manual transmission and a limited-slip differential. You'll be ready for spirited moves with a carefully engineered MacPherson strut front/multi-link rear suspension that has firm spring rates, beefy stabilizer bars and razor-quick Electric Power Steering (EPS). Roll with big standard 17" or accessory 18" alloys, while available warm-weather tires tighten your grip.

Revel in the wicked-red ambient glow.

Race-inspired details.

The 2007 Civic Si is full of features that scream performance, like drilled aluminum pedals and a red LED shift light located right next to the digital speedometer for eyes-forward fun.

❖ 3-rocker i-VTEC for a broad powerband.

❖ Balance shafts for smooth running.

i-VTEC uses two different cam profiles, one for low rpms and one for high, keeping power output up across the rev range. And Variable Timing Control™ (VTC™) gives the Si a bigger boost in both power and economy.

K20

Z3

max hp 197	max rpm 8000	cr 11:1
--	--	---

Honda's 2.0-liter K20 engine is a legend in the sport-compact world. For the latest Si, we took the K20 to the next level. In addition to adding i-VTEC, we upped the compression ratio and included a unique crankshaft balancer for smoother revving up to a stratospheric 8000-rpm redline. It's just some of the science getting Si near the magical mark of 100 hp per liter.

Civic Si Coupe shown in Fiji Blue Pearl.

Getting the Si's abundant power down to the pavement is a helical limited-slip differential. It transmits torque to the wheel with the most traction, providing confident acceleration through the corners.

❖ Lighter pistons for higher revs.

❖ Limited-slip differential for better traction.

Civic Si Coupe interior shown in Black with available Honda Satellite-Linked Navigation System.*

❖ Get a handful of aluminum and leather.

→ speed
6

❖ White knuckles, happy thumbs.

Control freaks, apply within. The deep-bolstered seats with red stitching welcome serious drivers. Wield the 6-speed manual transmission with short, quick shifts. The close ratios of gears 1 through 5 let you make the most of the Si's ultra-eager powerband. And the contoured, leather-wrapped steering wheel begs for some hands-on attention, too.

Civic Si Coupe shown in Nighthawk Black Pearl with accessory 18" alloy wheels and tires.

big on safety.

Honda believes that some of the world's most efficient cars can also be some of the world's safest cars. In fact, several Honda models have earned 5-star crash-test ratings from the National Highway Traffic Safety Administration. And this latest Civic garnered a 5-star rating in frontal-impact testing.* Leave it to Honda to build a compact car that has the features and technology to score big.

Safety for Everyone

Through a comprehensive and evolving approach to safety, Honda seeks to provide a high level of occupant and pedestrian protection in our cars and trucks, regardless of size or price, as well as increased crash compatibility with other vehicles.

daytime running lights

The Civic's Daytime Running Lights (DRL) can help increase its visibility to oncoming cars, especially in rainy or foggy weather conditions.

vehicle stability assist

Standard on the Si, VSA can brake individual wheels and/or reduce engine power to help you overcome understeer or oversteer and restore your intended path.

side-impact protection

High-tensile steel beams placed in the Civic Coupe's doors help to prevent the intrusion of crash forces in a side impact.

ABS with EBD

The anti-lock braking system (ABS) helps you maintain steering control during hard stops. Electronic Brake Distribution (EBD) balances braking forces at each wheel when the car is dynamically loaded.

4-wheel disc brakes

Civic EX and Si models are outfitted with 4-wheel disc brakes with ABS. They'll help provide quick, confident stopping power when you need it.

Civic EX Coupe shown in Galaxy Gray Metallic.

Crash test conducted by Honda.

ACE body structure

Our Advanced Compatibility Engineering™ (ACE™) body structure increases impact compatibility with different-sized vehicles. In front-end collisions, it helps redirect crash energy around the passenger compartment.

*National Highway Traffic Safety Administration (NHTSA) frontal crash test. Government star ratings are part of the NHTSA's New Car Assessment Program (NCAP), found at safercar.gov.

***front airbags***

Dual-stage, dual-threshold front airbags deploy at one of two rates and thresholds, depending on the severity of impact and seat-belt use.*

pretensioner seat belts

An automatic seat-belt tensioning system helps hold the front-seat occupants securely in a collision. The system is triggered by the same sensors that deploy the airbags.

active head restraints

In a sufficient rear impact, the active front-seat head restraints are designed to move forward and up to help reduce neck injury.

side airbags w/OPDS

The front passenger seat features an Occupant Position Detection System (OPDS) to help prevent the side airbag from deploying if a child or small-statured adult is in the airbag's path of deployment.

side curtain airbags

To help lessen head or neck injuries in the event of a sufficient side collision, all Civic models feature side curtain airbags.

Front airbags inflate and deflate in a fraction of a second.

*Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

Honda has been assembling cars in the U.S. since 1982. Today, close to 4 out of 5 Honda vehicles sold in the U.S. are assembled in North America—and some are designed and engineered here as well.

We began racing motorcycles in the 1950s, and then cars in the '60s. Over the years, we've seen our share of victories. For 2006, we're proud to be the single engine supplier to the IndyCar® series.

From Monza to Motegi, the world's racing circuits are our proving grounds. Honda competes in order to learn and innovate—winning races like the 2006 Daytona 200 is the icing on the cake.

we set a fast pace.

Honda's legacy of innovation is unmatched in the vehicle industry. We have long acted on our spirited commitment to environmentally responsible technology—with world-changing results in fuel economy, low emissions and hybrid vehicles. It's all part of Honda's Environmentology.™

Environmentology

True to Honda's challenging spirit, our HondaJet™ delivers genuine innovation in aviation. This fast and fuel-efficient aircraft is also unusually spacious inside—like all Honda vehicles.

Check out the features and decide which Civic Coupe is best for you. And ask your dealer about the available Honda Factory Performance (HFP) Package, with larger wheels, sport suspension and aero body kit. All the choices are good ones – once again for 2006, Honda has earned *Automotive Lease Guide's* Industry Brand Residual Value Award.⁵

Civic EX Coupe shown in Alabaster Silver Metallic with dealer-installed accessory HFP Package.
