Honda

CR-V

ANSWER THE CALL.

CR-V 4WD EX-L shown in Green Tea Metallic with accessory roof rack and ski attachment.

SOMETHING NEW TO CRAVE.

Life's full of irresistible enticements. And we're proud to offer yet another—the 2008 Honda CR-V. Its alluring shape and smooth sophistication are powerful attractions indeed. They help make the CR-V the perfect vehicle to get you where you need to be.

CR-V 4WD EX-L shown in Nighthawk Black Pearl.

CR-V EX-L shown in Whistler Silver Metallic with accessory fog lights.

BECOME AN INSTANT EXPERT IN GOOD TASTE.

In sculpting the CR-V's sultry shape, we focused on modern lines, aerodynamics and a meticulous attention to detail. From any angle—up close or at a distance—you'll be captivated every time you view it.

CR-V EX-L shown in Whistler Silver Metallic.

A red Honda CR-V is parked in a parking lot at night. The car is positioned in the center-right of the frame, facing slightly towards the left. In the background, there is a modern building with large glass windows and doors, illuminated from within. The building's architecture features prominent cylindrical columns. To the left of the car, there are some potted plants. In the foreground, on the left side, there is a blurred image of a person's face and hand, suggesting a close-up shot. The overall scene is lit with warm, yellowish light from the building and streetlights.

THAT SPACE IN FRONT HAS YOUR NAME ON IT.

The CR-V is ready to play wherever your life takes you. Whether pulling into a drive-through or up to a club valet, it's equally at home. As you're soon to find out, good impressions are its specialty.

CR-V 4WD EX-L shown in Tango Red Pearl.

A high-angle, wide shot of the front and rear interior of a Honda CR-V. The seats are upholstered in a light-colored, possibly leather, material with visible stitching. The dashboard, steering wheel, and center console are visible. The car is parked on a light-colored surface, and the sky is visible through the windows.

ENTICING.

RELAX, THERE'S PLENTY OF CR-V TO GO AROUND.

The CR-V is bound to attract fans of high style, luxury and roominess—five adults can revel in its spacious comfort. And for 2008, EX-L models add an 8-way power driver's seat with power lumbar support plus dual-zone automatic climate control to its supple leather trim and heated front seats.

CR-V EX-L interior shown in Ivory Leather with available Honda Satellite-Linked Navigation System.^{TM1}

CR-V EX-L interior shown in Black Leather with available Honda Satellite-Linked Navigation System.¹

FIND YOUR WAY, THE EASY WAY

In EX-L models, the available Honda Satellite-Linked Navigation System¹ features a huge database of maps and over 7 million points of interest. Pick your destination, and turn-by-turn directions and voice prompts guide you.* Voice recognition can control most navigation and audio system functions. And the rearview camera helps you see behind you when in reverse gear.

SATELLITE SOUNDS

EX-L models feature XM[®] Satellite Radio,² beaming down more than 170 channels of digital-quality programming.

IT'S DIGITAL CITY

All CR-V audio systems offer an auxiliary input jack and are MP3- and Windows Media[®] Audio³ (WMA)-compatible.

*Some roads unverified.
See the navigation system owner's manual for more details on coverage.

SMART SYSTEMS

The Maintenance Minder™ system monitors how you drive and alerts you when a specific service is required.

BRING YOUR FAVORITES

Navigation-equipped EX-L models add a digital audio-card reader that lets you play your downloaded music files.

DRIVER-FOCUSED

The illuminated steering wheel-mounted controls help you keep your attention on the road ahead (EX, EX-L).

AIR TO BREATHE

The moonroof is designed to let you enjoy the outdoors while minimizing any wind noise (EX, EX-L).

You like to take your stuff with you. Who doesn't? So when it came to designing the CR-V, we built in as much function as fashion. From the easy-opening tailgate to the clever use of space, in fact, the CR-V is the intelligent way to go.

EASY ACCESS

The tailgate swings up with the slightest nudge of your fingertips. Store cargo in a variety of ways, thanks to the dual-deck cargo shelf (EX, EX-L) that opens your options.* It can keep things undercover, and it nestles in the floor, entirely out of the way, when it's not needed.⁴

IN REACH

The convenient overhead storage is the perfect place for sunglasses.

TALK BACK

A conversation mirror lets you keep an eye on the rear-seat happenings.

MORE SPACE

Maps, cell phones, mints or even gloves—it'll fit in the dual glove compartments.[†]

FLIP AND SIP

Rear passengers can flip down and enjoy an armrest with beverage holders.

POWERED UP

A center console (EX-L) offers beverage holders, an MP3/auxiliary input jack and a 12-volt power outlet. On EX-L models with navigation, the center console also holds a 6-disc CD changer.

*Honda reminds you to properly secure items stored in the cargo area. [†]Drive responsibly. State laws prohibit distracted driving.

EXERCISE YOUR OPTIONS

From passengers to possessions, the 2008 CR-V has a voluminous interior flexible enough to handle it all. Many seating configurations are possible thanks to the 60/40 split rear seats, which also slide forward and back to make more legroom. With the rear seats folded forward, there's more than 72 cubic feet of cargo space—a great excuse to bring along more toys.⁴

CR-V 4WD EX shown in Tango Red Pearl with accessory fog lights.

FARTHER IS ALWAYS BETTER.

With plenty power and surefooted agility, the CR-V is a thrill to drive. And great mileage will help keep it that way.⁵

i-VTEC, ULEV AND YOU

Just how do our engineers get both power and efficiency out of an engine? It's no secret—it's just science. Like i-VTEC®, the latest version of our variable valve timing and lift electronic control. It provides both low-rpm torque as well as plenty of horsepower at higher revs. The smart, efficient powerplant also earns the CR-V Ultra-Low-Emission Vehicle (ULEV) designation.

5 SPEEDS, NO CLUTCHING

The CR-V's smooth-shifting 5-speed automatic transmission is tuned to provide both brisk acceleration and relaxed highway cruising. It also features Honda's Grade Logic Control to prevent unwanted upshifts and downshifts in hilly terrain.

4-WHEELED CONFIDENCE

The available Real Time 4WD™ system is just the thing for drives in the snow or wet—or really any slippery surface. If the system detects a loss of traction, it can automatically send power to the rear wheels to help keep you underway.

SECURE.

FEEL CONFIDENT IN CR-V'S STRENGTH AND INGENUITY.

Honda seeks to provide a high level of occupant and pedestrian protection in our cars and trucks, regardless of size or price, as well as increased crash compatibility with other vehicles. The CR-V is a solid example of how well we're doing, with a 5-star frontal- and side-impact crash-safety rating from the NHTSA* and a 2007 Top Safety Pick award from the Insurance Institute for Highway Safety.⁶

CR-V EX-L shown in Ivory Leather with available Honda Satellite-Linked Navigation System.[†]

*Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). Model tested with standard side-impact airbags (SABs).

Front airbags inflate and deflate in a fraction of a second.

Crash test conducted by Honda.

CRASH COURSES

We learn by testing in some of the world's most sophisticated labs. The knowledge gained is seen in how we engineer our vehicles, with front and rear crush zones that help absorb crash energy before it can reach the strong passenger compartment.

CHILD-MINDED

The CR-V's standard Lower Anchors and Tethers for Children (LATCH) system makes it easier to install compatible child seats.

SIX AIRBAGS

A full array of airbags is at the ready to help protect you and your passengers in sufficient impacts. Dual-stage, dual-threshold front airbags, front side airbags and side-curtain airbags are all standard equipment in every CR-V.[†]

SAFETY ON DEMAND

The passenger's front side airbag features an Occupant Position Detection System (OPDS) that's been designed to prevent the airbag from deploying if a child or small-statured person is in the path of deployment.

ADVANCED BRAKING

The 4-wheel anti-lock brakes also feature Brake Assist, which helps apply full braking in some emergency situations. Electronic Brake Distribution (EBD) helps balance braking forces depending upon dynamic loading.

VEHICLE STABILITY ASSIST™

VSA® helps sense oversteer and understeer, and then can adjust brake pressure at each wheel and reduce engine power to help restore the driver's intended path of travel.

Oversteer Understeer VSA

ACE BODY STRUCTURE

Honda's Advanced Compatibility Engineering™ (ACE™) body structure increases impact compatibility with different-sized vehicles. In front-end collisions, it helps to redirect crash energy around the rigid passenger compartment, enhancing protection.

ACTIVE HEAD RESTRAINTS

Every CR-V comes with active head restraints in the front seats, which can deploy in a sufficient rear impact and help reduce head and neck injury.

[†]Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat.

CR-V EX-L shown in Whistler Silver Metallic.

CR-V 4WD EX shown in Green Tea Metallic with accessory roof rack and ski attachment.

Twenty-five years ago Honda began assembling cars in the United States. Today, almost 4 out of 5 Hondas sold in the U.S. are assembled in North America. Many are developed here, too. And every Honda is a smart value thanks to timeless design, great reliability and extended maintenance intervals. Check out our Best Resale Value awards⁷ from *Kelley Blue Book's* kbb.com, Best Overall Value awards from IntelliChoice[®] and—for the 4th year in a row—*Automotive Lease Guide's* prestigious Industry Brand Residual Value Award.⁹

CR-V LX shown in Borrego Beige Metallic.

HONDA DNA.

As integral to every Honda as the materials used to build it are the ideas and values that inspired it. As an automotive leader in **clean** technology, our commitment to being environmentally responsible is second to none. Equally important is our desire to help keep drivers and passengers **safe**. This is evident from the impressive list of safety features that comes standard on every vehicle. Of course, take one drive in the CR-V and you'll become intimately aware of a third value. Since day one, it's been a Honda mandate that every vehicle has to be **fun** to drive.

CR-V 4WD EX-L shown in Glacier Blue Metallic.

Looking beyond government regulations, Honda studies real-world situations to develop new safety technology. Our cutting-edge engineering and testing facilities in Japan and America help us develop the next generation of safety features—all focused on evolving our Safety for Everyone concept.

Honda's legacy of environmental leadership includes world-changing advances in fuel economy and low-emission and hybrid technology. Our latest contributions include the natural gas-powered Civic GX, the world's cleanest internal-combustion vehicle,¹⁰ and the next-generation FCX hydrogen fuel cell car, which is set for production in 2008.

Honda's formidable ability to invent the future can be experienced on the land, in the water and, now, above the clouds. Our HondaJet™ is an ideal showcase for our core approach to design, maximizing performance as well as comfort while minimizing the surrounding machine.

Honda began racing motorcycles in the 1950s, and then cars in the '60s. In addition to the obvious motivation of first-place trophies, we race to learn, taking innovative technology developed for the track and applying it to everyday use.
