

09 HYUNDAI_SANTA FE

ARE WE THERE YET?

It's a common sentiment among children riding in the back seat, but you may be surprised to learn that it's also the way we approach making cars here at Hyundai. We're always asking ourselves if our vehicles are as good as they can possibly be. Are the engines smooth enough? Is the design stylish enough? Is the performance inspiring enough? Are the emissions low enough? Is the vehicle safe enough? In the end, the answer is yes. And no. Because as proud as we are of our vehicles, as impressively as they perform, as handsomely as they're styled and as safe as they unquestionably are, we're simply never satisfied. As a driver, you deserve nothing less. Think about it.

LIMITED IN EBONY BLACK

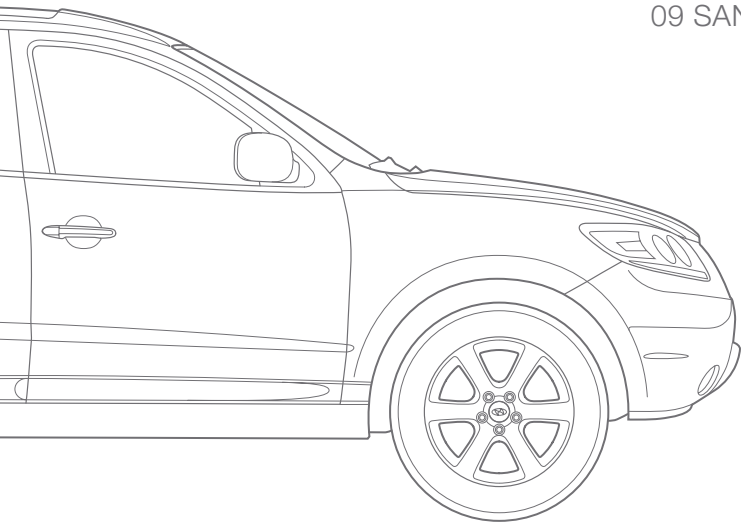

MORE 3RD-ROW LEG ROOM THAN VOLVO XC90

Just because they're in the third row, it doesn't mean you love them any less. We designed the Santa Fe with spacious rear seating and plenty of leg room so everybody can travel in comfort. The third row also features a 50/50 split for superb cargo versatility and lots of room for all of your gear.

LIMITED IN BEIGE LEATHER

WHAT DOES THE WORD “BEST” MEAN, AGAIN?

It’s difficult to know these days, with car makers claiming to have “The Best Coverage in America” or “The Best Warranty Coverage in the Business.” Fact is, there is no manufacturer that offers a standard warranty matching Hyundai’s (and we’ve had it for 10 years), which means when we say we have America’s Best Warranty,¹ the word “best” means, well, best.

Best ≠ Good
Best ≠ Kind of impressive
Best ≠ Better than my neighbor’s

Best = Best

¹See dealer for LIMITED WARRANTY details.

AMERICA'S

BEST

What does a warranty say about a car? Well to us, it says we have the utmost confidence in its quality, so much so that we're willing to stand behind our cars long after you've driven off the dealer's lot. Long enough, in fact, for your kids to go from second grade to high school graduation.

WARRANTY

LIMITED IN DARK CHERRY RED

MORE HORSEPOWER THAN MITSUBISHI OUTLANDER

With 242 horsepower and 226 pound-feet of torque under your right foot – courtesy of its potent 3.3-liter V6 engine – the Santa Fe delivers plenty of excitement when you step on the gas. Bring on those freeway on-ramps.

09 SANTA FE _ **PERFORMANCE**

FULLY INDEPENDENT SUSPENSION

The advanced, 4-wheel independent suspension features MacPherson struts up front and a multi-link design in the back. Specially tuned by Hyundai engineers, this set-up delivers agile, car-like handling, improved straight-line stability and a smooth, quiet ride.

ALL WHEEL DRIVE

The BorgWarner ITM 3e™ torque management system gives the Santa Fe tenacious grip when the going gets rough, thanks to advanced electronics that can automatically distribute torque to each wheel as needed.

5-SPEED AUTOMATIC WITH SHIFTRONIC

Standard with the 3.3-liter V6 engine, this advanced 5-speed transmission features SHIFTRONIC® manual shifting for total driver control over gear selection. It also offers a lock-up torque converter, which improves gas mileage when you're traveling highway speeds.

TRAILER PREP PACKAGE

This equipment package beefs up the Santa Fe's engine and drivetrain with a larger radiator core, more powerful fans and a transmission fluid cooler for worry-free towing performance under heavier loads. So load up the boat and head for the nearest river.

ADVANCED

V6

Santa Fe offers you a pair of V6 engines to launch you from the stop light with plenty of gusto. Both feature an aluminum block and head, double overhead cams, Continuously Variable Valve Timing and an ultra-low (ULEV) emissions rating.

ENGINES

LIMITED IN BEIGE LEATHER

POINT B JUST GOT A LOT EASIER TO FIND. With Santa Fe's in-dash navigation system, you can feel free to remove all the maps from your glove compartment. It features a bright, 6.5-inch touch-screen display and gives you turn-by-turn directions as well as audio prompts to help guide your way without having to take your eyes off the road. You also have access to a huge database of 5 million Points of Interest so you can easily locate nearby businesses and services such as restaurants and ATMs.

INTERIOR

LIMITED IN BEIGE LEATHER

THE LUXURY OF UTILITY

With its quiet and roomy interior, excellent fit and finish, refined powertrain and optional third-row seat, it's no wonder *Edmunds.com* said, "It looks luxurious both inside and out and might even be confused for a Lexus."

ONE-TOUCH ADJUSTABLE ROOF RACK

These rooftop cross rails are so simple to adjust, only one finger is required. Which means that getting large-sized boxes, suitcases and other cargo to fit securely on the top of your Santa Fe is as easy as 1...well, just 1.

PEOPLE OR THINGS, SANTA FE DOESN'T DISCRIMINATE. There are few vehicles that can alternate between carrying passengers and cargo as deftly as the Santa Fe. With its third-row seats, Santa Fe offers comfortable seating for seven adults. And when they're not being used for ferrying your buddies to the next stop, the Hyundai Hideaway™ seats fold fully flush into the floor for outstanding cargo capacity and easy loading, and can also be arranged in multiple configurations for exceptional versatility. It just goes to show, you can never have too many good friends. Or too much good stuff.

MORE ROOM THAN TOYOTA RAV4

With 108.3 cubic feet of passenger volume in our 5-passenger version and 142.3 cubic feet in the 7-passenger version, Santa Fe tops the RAV4 by a comfortable margin.

LIMITED IN BEIGE LEATHER

09 SANTA FE_AUDIO FEATURES

115-VOLT OUTLET

Need to plug something in? A computer. A back massager. An electric razor. You must lead a pretty busy life. And rest assured, the Santa Fe can accommodate you with this power outlet, which doesn't require a car adapter.

REAR DVD ENTERTAINMENT SYSTEM

The rear seats just became the best seats in the house. This DVD entertainment system features a flip-down, 8-inch screen, remote control and two wireless headphones to help your Santa Fe give the local cineplex a run for its money, and weary parents a blissful moment of peace.

BLUETOOTH® A built-in microphone and speaker deliver perfect call clarity, and the system has the ability to recognize multiple phones.

INPUT JACKS

Your favorite music is never far away. The Santa Fe is equipped with not just one, but two auxiliary input jacks to connect portable music players such as an iPod® to the audio system. One is a mini jack that connects your player's headphone jack to the audio system. The other is a USB port and available accessory cable, which not only transmits audio but also artist and track information, not to mention charges the device as it plays.

IN-DASH 6-DISC CD CHANGER

No more fumbling for your CDs while on the road, or having to stop the car and open the rear hatch. Keep hours of your favorite music at your fingertips with this convenient in-dash 6-disc changer with MP3 compatibility.

¹See specifications section for subscription details. iPod is a registered trademark of Apple, Inc. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Hyundai is under license. Other trademarks and trade names are those of their respective owners.

170 CHANNELS OF CRYSTAL-CLEAR SOUND. Standard XM® Satellite Radio lets you enjoy a huge variety of audio entertainment, from commercial-free music channels to exclusive news, sports, weather, live traffic and talk you can't find anywhere else.¹ And with your complimentary subscription, the first three months are on us. Hear what you've been missing.

BEST SEAT IN THE HOUSE

The premium driver seat offers 8-way adjustability, so finding the perfect position is as easy as touching a few buttons. You and your front passenger will also appreciate the heat function on those chilly morning drives.

HOMELINK®

Getting home is great, fumbling for the garage remote, not so much. Control multiple house functions with this transceiver integrated into the rearview mirror. Open the garage, turn on lights, even deactivate your security system.

POWER SUNROOF

Bring the sun, the moon, the stars and the fresh air into the cabin with just the touch of a button, and watch your mood improve with each passing mile. It also features a tilt function for improved ventilation.

HEATED POWER SIDE MIRRORS

Always keep traffic clearly in your sights. Adjust your dual power side mirrors with the greatest of ease from the comfort of the Santa Fe's cabin. They can even be heated to eliminate frost and keep your view clear in cold weather.

REMOTE KEYLESS ENTRY

Loading yourself and your cargo into the Santa Fe is an exercise in simplicity thanks to this handy three-button remote fob, which controls the door locks as well as the rear hatch. It also activates and deactivates the vehicle's security system.

AUTOMATIC TEMPERATURE CONTROL

Who says you can't control the weather? You can – in your Santa Fe at least. Once you set the thermostat, the system adjusts the heating, cooling and fan speed to keep the cabin at the temperature you prefer.

SMALL STORAGE

"A place for everything and everything in its place." Whoever said that had to be thinking about the Santa Fe, where there are plenty of convenient storage spaces throughout the vehicle to keep all of your gear secure.

NHTSA

In addition to earning a 5-star crash safety rating from the U.S. government¹, the Santa Fe was named a 2008 Top Safety Pick by the Insurance Institute for Highway Safety, for the second year in a row.²

●/● = STANDARD EQUIPMENT ON BASE MODEL

22,000 LIVES SAVED

NHTSA estimates that, thanks to airbags, over 22,000 people who were involved in automobile accidents are living today.

¹Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 2007 model tested with standard side-impact airbags (SABs). ²Based on Insurance Institute for Highway Safety 40-mph frontal crash test, 31-mph side-impact test, 20-mph rear-impact test, and availability of Electronic Stability Control (ESC). 2007 model tested.

ESC

Because you never know when an emergency situation is around the bend, every Santa Fe comes equipped with Electronic Stability Control.¹ It constantly monitors things such as wheel speed, steering angle and lateral g-forces. When it senses a skid is imminent, it adjusts brake and throttle input to help keep you safely on your intended path.

SAVES LIVES

TRACTION CONTROL

Santa Fe's Traction Control System senses unexpected wheelspin during acceleration, then automatically routes power to the tire with the most traction to help you maintain control in treacherous driving conditions.²

¹Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. ²The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

ANTI-LOCK BRAKES WITH EBD

ABS prevents wheel lock-up and helps maintain steering control by rapidly pulsing the brakes, while Electronic Brake-force Distribution provides the proper brake pressure at each wheel for maximum braking performance.

BRAKE ASSIST

Statistics show that drivers frequently don't brake hard enough in emergency situations. Brake Assist senses when you're in a panic stop and immediately applies the maximum braking pressure to help you stop in a shorter distance.

AIRBAGS THAT THINK

Advanced front airbags adjust their deployment based on impact speed and seat position, and use the Occupant Classification System to prevent deployment when the front passenger is under a certain size.¹

SEATBELT PRETENSIONERS

Pretensioners tighten the belts in certain accidents to limit the front occupants' forward movement. Force limiters then release slack to reduce the load across the body to help minimize injury.

TIRE PRESSURE MONITORING SYSTEM

Each of the Santa Fe's wheels is equipped with an air-pressure sensor located at the valve stem. When the pressure of any tire falls below its optimal level, a warning light on the instrument panel alerts you, helping you avoid dangerous situations that could arise from driving on an underinflated tire.²

ACTIVE FRONT HEAD RESTRAINTS

Whiplash is one of the most common injuries in rear collisions. This feature moves the head restraints forward upon impact, reducing the likelihood of a neck injury.

You wouldn't build a house on a shaky foundation. Same goes for cars. So in addition to its six airbags, we've built the Santa Fe with reinforced unibody construction made from high-tensile steel to effectively absorb collision energy. We've also engineered it with rear crumple zones, bodyside reinforcements and hood-buckling creases to protect you in an impact from any direction.

¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. ²TPMS is not a substitute for proper maintenance. See Owner's Manual for details. Spare tire does not include TPMS sensor.

MADE

IN

Because we built our plant in Alabama from scratch, we were never tied to the way things had been done in the past. So we reinvented everything, to make the vehicles that come out as good as they can possibly be. We must be doing something right, because among the tour groups who have stopped by to visit was the U.S. Air Force, who learned how to help their planes spend more time in the air and less time in repairs.

THE U.S.A.

COMPUTER-AIDED engineering, virtual manufacturing and extensive prototyping allow us to test and fine tune every aspect of a vehicle's design and operation before it's even been built.

THIS DOOR HINGE used to look different. But our engineers noticed that the old design added a minute amount of wind noise to the vehicle. So we redesigned it. Now it's completely silent.

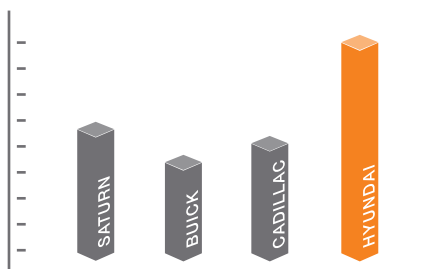

ROTATIONAL DIPPING is an advanced paint process used by companies like Ferrari, BMW and, oh yes, Hyundai, to create immaculate paint finishes with perfect uniformity and coverage.

WE HAND CHECK nuts, bolts, cables, wiring and power components before each vehicle leaves the plant. It's then tested to ensure we didn't miss anything on the factory floor.

WHICH BRAND IS MORE AMERICAN?

It's not as obvious as you might think. Hyundai manufactures more vehicles in the U.S. than Saturn, Buick or Cadillac.

TESTED TO THE EXTREMES

From the scorching heat of Death Valley to the frozen tundra of Central Canada, our automobiles are tested in the most extreme conditions to ensure their performance never wavers, no matter what life sends your way.

SOMETIMES, EFFICIENCY STARTS WITH AN 'F'

Many auto plants build their assembly line to fit the shape of the building. At Hyundai, we built the building to fit the shape of the line, which is why it looks like a giant 'F.' This way, parts can be delivered directly to the part of the line where they're needed most, so the line runs faster and more efficiently – which means a better-built automobile.

000023

AN ARMY OF ROBOTS, with optical sensors far more sensitive than the human eye, inspects every vehicle for quality welds and proper fit, ensuring tight seams and perfect alignment.

EVERY NEW HYUNDAI from our Alabama plant has a mysterious 2.3 miles on the odometer. That's because we road-test each one to ensure perfect operation before it's delivered.

TURNING DREAMS INTO REALITY

At our design centers and R&D facilities around the world, Hyundai is developing technologies that will carry you down the road more safely, more reliably and more beautifully than ever before.

WE'RE COMMITTED TO BEING GREEN. That's why we built a \$58 million environmental technology research and development center. Two hundred researchers are working day and night, developing a new generation of clean-running, fuel-cell electric vehicles.

HYUNDAI HOPE ON WHEELS is the united effort of Hyundai and its dealers to fund pediatric cancer research and celebrate the courage of children fighting the disease, like Sammy Heim, Hope on Wheels National Youth Ambassador. Visit www.hopeonwheels.com

WHERE NEW HYUNDAIS ARE BORN

At our 90,000-square-foot Southern California design facility, over 150 designers, engineers, model makers and technicians utilize the most advanced visualization, clay-modeling and graphics technologies to ensure that the next generation of Hyundais represents the leading edge of automotive technology and design.

GLS

STANDARD FEATURES INCLUDE:

- 2.7-liter, 24-valve, DOHC V6 engine with Continuously Variable Valve Timing
- 5-speed manual transmission
- Electronic Stability Control
- Traction Control System
- Anti-lock Braking System
- Electronic Brake-force Distribution
- Brake Assist
- Advanced dual front airbags with Occupant Classification System
- Front side-impact airbags
- Front and rear side-curtain airbags
- Active front head restraints
- Tire Pressure Monitoring System
- 16-inch steel wheels with full covers
- Black power side mirrors
- Air conditioning with cabin air filter
- Power windows with driver's auto-down
- Power door and tailgate locks
- Deluxe seat cloth
- 120-watt AM/FM/CD/MP3 six-speaker audio
- XM® Satellite Radio¹
- iPod®/USB and auxiliary input jacks
- Tilt-and-telescopic steering wheel
- Remote keyless entry system
- Steering-wheel-mounted cruise control
- Rear window wiper/washer
- Roof rack side rails

OPTIONAL GLS PACKAGES:

- Popular Equipment Package (PE): Premium seat cloth, heated side mirrors, steering-wheel-mounted audio controls, automatic headlights, driver seat lumbar support, multi-function trip computer, roof rack cross rails
- Premium Package (P): Popular Equipment Package, power tilt-and-slide sunroof, heated front seats, leather-wrapped steering wheel and shift knob

SE

INCLUDES ALL STANDARD GLS FEATURES PLUS:

- 3.3-liter, 24-valve, DOHC V6 engine with Continuously Variable Valve Timing
- 5-speed automatic transmission with SHIFTRONIC®
- 18-inch, 6-spoke alloy wheels
- Automatic headlights
- Front fog lights
- Bodycolor heated power side mirrors
- Windshield wiper de-icer
- Electrochromic auto-dimming rearview mirror
- Compass
- Premium seat cloth
- Driver seat lumbar support
- Leather-wrapped steering wheel and shift knob
- Steering-wheel-mounted audio controls
- Multi-function trip computer
- Chrome front grille surround
- Door courtesy lights
- Trailer Prep Package
- Roof rack cross rails

OPTIONAL SE PACKAGES:

- Premium Package (P): Power tilt-and-slide sunroof, heated front seats, power driver seat with power lumbar support, HomeLink® integrated transceiver
- Touring Package (T): Hyundai Hideaway™ 3rd-row seats, 3rd-row air conditioning vents and fan control, power driver seat with power lumbar support, HomeLink integrated transceiver

LIMITED

INCLUDES ALL STANDARD SE FEATURES PLUS:

- Power tilt-and-slide sunroof
- Leather seating surfaces²
- Heated front seats
- 605-watt Infinity® Logic 7® surround sound audio with in-dash 6-disc CD/MP3 changer, external amplifier and subwoofer
- 8-way power driver seat with power lumbar support
- Dual zone automatic temperature control with outside temperature display
- HomeLink integrated transceiver
- Chrome-accented front grille, door and tailgate handles
- Deluxe metal scuff plates
- Bodycolor rear spoiler
- "Limited" badging

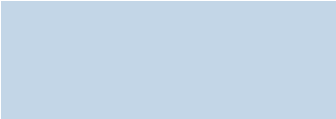

OPTIONAL LIMITED PACKAGES:

- Navigation Package (N): In-dash DVD Navigation System³
- Rear Seat Entertainment Package (RSE): Rear DVD entertainment system, 115-volt power outlet
- Touring + Navigation Package (TN): Navigation Package, Hyundai Hideaway 3rd-row seats², 3rd-row air conditioning vents and fan control, 115-volt power outlet
- Touring + RSE Package (TR): RSE Package, Hyundai Hideaway 3rd-row seats², 3rd-row air conditioning vents and fan control
