

09 HYUNDAI_VERACRUZ

ARE WE THERE YET?

It's a common sentiment among children riding in the back seat, but you may be surprised to learn that it's also the way we approach making cars here at Hyundai. We're always asking ourselves if our vehicles are as good as they can possibly be. Are the engines smooth enough? Is the design stylish enough? Is the performance inspiring enough? Are the emissions low enough? Is the vehicle safe enough? In the end, the answer is yes. And no. Because as proud as we are of our vehicles, as impressively as they perform, as handsomely as they're styled and as safe as they unquestionably are, we're simply never satisfied. As a driver, you deserve nothing less. Think about it.

LIMITED IN NATURAL KHAKI

MORE INTERIOR ROOM THAN AN AUDI Q7

They both seat seven, but the Veracruz bests its German counterpart in the comfort department, offering more room for important things like arms, shoulders, legs and heads. It also boasts 60/40 split seats to stow more cargo. And with a sticker that's around 13 grand less, you'll notice there's definitely less empty space in your wallet.

LIMITED IN SADDLE LEATHER

AMERICA'S

BEST

What does a warranty say about a car? Well to us, it says we have the utmost confidence in its quality, so much so that we're willing to stand behind our vehicles long after you've driven off the dealer's lot. Long enough, in fact, for your know-it-all high-school senior to graduate and return as a know-it-all M.D.

WARRANTY

09 VERACRUZ_WARRANTY

	POWERTRAIN	NEW VEHICLE LIMITED WARRANTY	ANTI-PERFORATION	ROADSIDE ASSISTANCE

WHAT DOES THE WORD “BEST” MEAN, AGAIN?

It’s difficult to know these days, with car makers claiming to have “The Best Coverage in America” or “The Best Warranty Coverage in the Business.” Fact is, there is no manufacturer that offers a standard warranty matching Hyundai’s (and we’ve had it for 10 years), which means when we say we have America’s Best Warranty,¹ the word “best” means, well, best.

Best ≠ Good
Best ≠ Kind of impressive
Best ≠ Better than my neighbor's

Best = Best

¹See dealer for LIMITED WARRANTY details.

MORE HORSEPOWER THAN HONDA PILOT

All the better to pull you with. The Veracruz's muscular 3.8-liter V6 generates a brawny 260 horsepower and 257 pound-feet of torque, to move you along at a brisk pace whenever your right foot should ask. It also comes in handy when you're ascending a steep hill fully loaded with gear or with your fishing boat in tow.

ALL WHEEL DRIVE

On-demand All Wheel Drive uses intelligent torque-controlled coupling to optimize power distribution to the front and rear wheels based on driving and road conditions. This results in better traction and improved fuel economy.

6-SPEED ADAPTIVE TRANSMISSION

The Veracruz redefines smooth with this advanced 6-speed transmission. Pre-set shift patterns adapt to specific driving conditions such as hill ascents, while SHIFTRONIC® mode lets you control gear selection with effortless manual shifting.

3.8-LITER V6 ENGINE

This buttery-smooth powerplant delivers an impressive 260 horsepower, enough to press you firmly back into your soft leather seat – not to mention put a big smile on your face – whenever you step on the gas pedal.

3.8 LITERS OF

With an aluminum block and head, double-overhead camshafts and a maintenance-free timing chain, the V6 in the Veracruz makes every drive positively exhilarating. And with noise, vibration and harshness that's among the lowest in its class, it also makes every one utterly civilized.

REFINEMENT

LIMITED IN LIQUID SILVER

PROXIMITY KEY. This ingenious device can actually sense when you're near your Veracruz. It allows you to lock and unlock your doors and start the engine without it ever being removed from your pocket or purse. It also features a slim design that fits easily into pockets as well as handsome chrome accents for an added touch of style.

INTERIOR

LIMITED IN SADDLE LEATHER

DISCOVER

TRUE

Welcome to a world of comfort and convenience, otherwise known as the interior of the 2009 Veracruz. Tasteful appointments and thoughtful features make you feel right at home, despite the fact that you may be 400 miles away.

INNER

BEAUTY

MULTIPLE PERSONALITIES. That's the Veracruz in a nutshell. Want to take a crowd of family and friends to watch the latest blockbuster at the local cineplex? No problem, thanks to standard three-row seating for seven. Plan to stop by your neighborhood home-improvement warehouse to pick up lumber for a patio-construction project? The Veracruz is happy to oblige with fold-down seats that accommodate an impressive 86.8 cubic feet of cargo volume. And there are a myriad of other seating configurations to fit every scenario in between.

ELECTROCHROMIC REARVIEW MIRROR

Glare from headlights behind you can be at the least distracting and at the worst dangerous. This mirror dims when bright lights shine from the rear. It also has an integrated HomeLink® transceiver to control the garage door and more.

INTEGRATED MEMORY SYSTEM

Just set it and forget it. This system conveniently saves your favorite power mirror, seat and steering-wheel settings, allowing you to easily recall them with just the push of a button. So feel free to let the valet park it. Or maybe not.

COLD STORAGE

Conveniently located in the center console between the driver and front passenger seats, this temperature-controlled storage compartment keeps drinks or snacks cool and ready to serve when you're on the road and far away from your fridge.

BLUETOOTH® A built-in microphone and speaker deliver perfect call clarity, and the system has the ability to recognize multiple phones.

DUAL AUTOMATIC TEMPERATURE CONTROL

The cold war is over. This feature lets you choose separate temperatures for both the driver and front passenger, then makes adjustments to maintain each desired setting, keeping both of you perfectly comfortable as you drive.

SPEED-SENSING VOLUME CONTROL

This handy feature automatically adjusts the volume of the audio system to compensate for changes in road and wind noise at different speeds, so you can concentrate on driving rather than the radio. Just don't try to use your accelerator pedal as a volume control.

REAR DVD ENTERTAINMENT SYSTEM

Featuring an 8-inch LCD screen with a remote control and wireless headphones, this roof-mounted entertainment system lets rear-seat passengers enjoy their favorite movies and television shows in blissful silence while you drive. Now you don't have to dread that next cross-country road trip.

PLUG IT IN, TURN IT ON. The 115-volt power outlet lets you easily plug in a multitude of appliances, from an electric shaver to a portable TV.

INPUT JACKS

Your favorite music is never far away, thanks to convenient input jacks that connect a portable music player such as your iPod® to the audio system. The USB jack even allows you to transmit artist and song data from your player directly to the audio system's display with an available accessory cable.

INFINITY LOGIC 7 SURROUND SOUND

The Infinity® Logic 7® surround sound audio system comes complete with a 605-watt amplifier and 10 speakers including a subwoofer. Its advanced sound-processing circuitry lets concert-hall-quality audio follow along wherever your travels may take you.

ENJOY 170 DIGITAL CHANNELS from coast to coast, including commercial-free music channels, plus the biggest names in sports, news and talk. With every Major League Baseball® game, Oprah & Friends,™ CNN,® FOX News, CNBC, comedy channels and so much more, XM has something for everyone, including exclusive shows and concerts you can't hear anywhere else, all with a complimentary 3-month subscription!¹

LOST AND FOUND

Veracruz's satellite-based GPS navigation system ensures you'll never have to ask for directions again. Simply enter your desired address, and the turn-by-turn voice prompts lead you merrily on your way to your destination.

A QUICK LESSON IN GPS

A constellation of satellites orbiting the Earth makes GPS possible. A receiver in your vehicle uses the relative location of these satellites to calculate your vehicle's position, while an 8-gigabyte flash memory card stores the map information that shows your location.

5 MILLION POINTS OF INTEREST

Now that you've found yourself in a new neighborhood, you might need cash, or want to get a bite to eat. That's why we've included a huge database of over 5 million points of interest, so you can easily search for locations such as ATMs and restaurants that are nearby.

BRIGHT SCREEN, BIG CITY

The bright, crystal-clear 6.5-inch full-color touch-screen clearly indicates your current location and selected route, and it can also display such handy information as trip distance, miles to your destination, total travel time and nearby landmarks that may be of interest.

NHTSA

A reinforced body structure, multiple airbags and a wealth of standard safety technology including Electronic Stability Control are just a few of the reasons the Veracruz was awarded the government's highest crash rating.¹

FIVE-STAR RATING

Electronic Brake-force Distribution	●	●	●	●
Active front head restraints	●	●		

●/● = STANDARD EQUIPMENT ON BASE MODEL

22,000 LIVES SAVED

NHTSA estimates that, thanks to airbags, over 22,000 people who were involved in automobile accidents are living today.

¹Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). 5-stars, frontal and side impacts. 2007 model tested with standard side-impact airbags (SABs).

TRACTION CONTROL

Wet pavement may have met its match. Veracruz's advanced Traction Control System senses unexpected wheelspin during acceleration, then automatically applies the appropriate combination of brakes and throttle, routing power to the tire with the most traction. This helps you maintain control in slippery driving conditions.¹

ANTI-LOCK BRAKES

Unfortunately, wet roads and sudden stops are an unavoidable part of everyday driving. ABS prevents wheel lock-up and helps you maintain steering control during emergency braking situations by rapidly pulsing the brakes so you can maneuver yourself out of harm's way.

ELECTRONIC BRAKE-FORCE DISTRIBUTION

You never know where you'll be when you have to stop quickly – a major thoroughfare, a rain-soaked mountain road, a dirt trail. EBD uses a network of sensors to provide the braking pressure at each wheel based on load dynamics, road condition and speed.

BRAKE ASSIST

Statistics show that drivers often don't brake hard enough in emergency situations. Brake Assist senses a panic stop and immediately applies the maximum braking pressure to stop you in the shortest distance. Sometimes a few extra feet make all the difference.

¹The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices. ²Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details.

ESC

Because you never know when an emergency situation is around the bend, every Veracruz comes equipped with Electronic Stability Control.² It constantly monitors things such as wheel speed, steering angle and lateral g-forces. When it senses a skid is imminent, it adjusts brake and throttle input to help keep you safely on your intended path.

SAVES LIVES

LIMITED IN STONE WHITE

AIRBAGS THAT THINK

Advanced front airbags adjust their deployment based on impact speed and seat position, and use the Occupant Classification System to prevent deployment when the front passenger is under a certain size.¹

SEATBELT PRETENSIONERS

Pretensioners tighten seatbelts in certain accidents to limit the front occupants' forward movement. Force limiters then release slack to reduce the load across the body, which helps minimize injury.

TIRE PRESSURE MONITORING SYSTEM

Each of the Veracruz's wheels is equipped with an air-pressure sensor. When the pressure of any tire falls below its optimal level, a warning light on the instrument panel alerts you that a tire is low, helping you avoid dangerous situations that could arise from driving on an underinflated tire.²

ACTIVE FRONT HEAD RESTRAINTS

Whiplash is one of the most common injuries in rear collisions. This feature moves the head restraints forward upon impact, reducing the likelihood of a neck injury.

You wouldn't build a house on a shaky foundation. Same goes for cars. That's why we build the Veracruz with reinforced unibody construction made from high-tensile steel to effectively absorb collision energy. We've also engineered it with rear crumple zones, bodyside reinforcements and hood-buckling creases to protect you in an impact from any direction.

¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. ²TPMS is not a substitute for proper maintenance. See Owner's Manual for details. Spare tire does not include TPMS sensor.

BUILT TO LAST

Ever wonder how we can afford to offer America's Best Warranty? Well, it's because the Hyundai you buy today is among the most painstakingly manufactured automobiles in the world. Read on below and you'll learn just a few of the reasons why we have so much confidence in the cars we build.

LARGE AND IN CHARGE

Our Ulsan plant, where the Veracruz is built, is the largest automotive manufacturing plant in the world. It has five assembly plants and seven engine facilities, and employs 34,000 people. It also boasts an environmentally friendly waste water and sewage treatment plant.

LASER FIT & FINISH TESTS

In our Asan plant, specially designed lasers slowly pass over and scan car body panels, searching for flaws and inconsistencies in either panel gaps or alignment that are invisible to the human eye. This ensures perfect fit and finish before any car leaves the factory.

HANDS-ON QUALITY CHECKS

We hand check nuts, bolts, cables, wiring and power components before any Hyundai ever leaves the plant. Then every vehicle is road tested to eliminate squeaks and rattles that can't be detected on the factory floor. The result? A flawless car delivered to you.

ROBOTS AND PEOPLE

Generally, our robots handle repetitive, physical tasks, like welding and painting. People, on the other hand, inspect the robots' work for things they may overlook. Which means we always pick the best person for the job, even when that person isn't one.

TESTED TO THE EXTREMES

From the scorching heat of Death Valley's deserts to the frozen tundra of Central Canada, our automobiles are tested in the most extreme conditions on the planet Earth to ensure their performance never wavers, because you never know what life will throw your way.

SIX SIGMAS=FEWER DEFECTS

The Six Sigma Process is a manufacturing practice designed to improve processes by eliminating defects. Originally designed for the electronics industry, we adapted it for use in automobile manufacturing. The result? Less than 3.4 defects per 1 million units.

STATE-OF-THE-ART PLANTS WORLDWIDE

An R&D center in South Korea. An award-winning plant in Alabama. An engineering center in Michigan. A Southern California design facility. What do they have in common? Each uses state-of-the-art technology to ensure that every Hyundai is as good as it can be.

TURNING DREAMS INTO REALITY

At our design centers and R&D facilities around the world, Hyundai is developing technologies that will carry you down the road more safely, more reliably and more beautifully than ever before.

WE'RE COMMITTED TO BEING GREEN. That's why we built a \$58 million environmental technology research and development center. Two hundred researchers are working day and night, developing a new generation of clean-running, fuel-cell electric vehicles.

HYUNDAI HOPE ON WHEELS is the united effort of Hyundai and its dealers to fund pediatric cancer research and celebrate the courage of children fighting the disease, like Sammy Heim, Hope on Wheels National Youth Ambassador. Visit www.hopeonwheels.com

WHERE NEW HYUND AIS ARE BORN

At our 90,000-square-foot Southern California design facility, over 150 designers, engineers, model makers and technicians utilize the most advanced visualization, clay-modeling and graphics technologies to ensure that the next generation of Hyundais represents the leading edge of automotive technology and design.

GLS

STANDARD FEATURES INCLUDE:

- 3.8-liter, V6 engine with CVVT
- 6-speed automatic transmission with SHIFTRONIC®
- Electronic Stability Control
- Traction Control System
- 4-wheel Anti-lock Braking System with Electronic Brake-force Distribution and Brake Assist
- Tire Pressure Monitoring System
- Advanced dual front airbags with Occupant Classification System, front side-impact airbags, front and rear side-curtain airbags
- Active front head restraints
- 17-inch, 5-spoke steel alloy wheels
- Dual heated power side mirrors with approach lights and turn signals
- Hyundai Hideaway™ 3rd-row seats
- Air conditioning with cabin air filter and outside temperature display
- All-row ventilation and 2nd-row auxiliary temperature and fan control
- Power windows with driver's auto-down/up and pinch protection
- Premium cloth seats
- AM/FM/CD/MP3 six-speaker audio system
- XM® Satellite Radio¹
- iPod®/USB and auxiliary input jacks
- Steering-wheel-mounted audio and cruise controls
- Tilt-and-telescopic steering wheel
- Remote keyless entry system with alarm
- Multi-function trip computer
- Rear window washer/wiper
- Front solar control glass and rear privacy glass
- Rear spoiler

OPTIONAL GLS PACKAGES:

- Preferred Package (PF): Power tilt-and-slide sunroof, power driver seat with lumbar support, heated front seats, leather-wrapped steering wheel and shift knob, backup warning sensors, conversation mirror, automatic headlights, front fog lights, temperature-controlled center console storage, roof side rails, 115-volt power outlet
- Premium Package (P): Preferred Package, leather seating surfaces, power tailgate, electrochromic auto-dimming rearview mirror, HomeLink® integrated transceiver, 18-inch alloy wheels

LIMITED

INCLUDES ALL STANDARD GLS FEATURES PLUS:

- Leather seating surfaces
- Heated front seats
- 18-inch, 5-spoke alloy wheels
- 314-watt, Infinity® eight-speaker audio with external amplifier and subwoofer
- In-dash 6-disc CD/MP3 changer
- Power tilt-and-slide sunroof
- Automatic headlights
- Front fog lights
- Electrochromic auto-dimming side mirrors with tilt-down in reverse
- Backup warning sensors
- Dual front automatic climate control
- Air Quality System
- Power front seats
- Integrated Memory System
- Power tilt-and-telescopic steering wheel
- Power-adjustable foot pedals
- Proximity key
- Anti-theft system with engine immobilizer
- Power tailgate
- Rain-sensing windshield wipers
- Windshield wiper de-icer
- Electrochromic auto-dimming rearview mirror
- HomeLink integrated transceiver
- Leather-wrapped steering wheel and shift knob
- Temperature-controlled center console storage
- 115-volt power outlet
- Conversation mirror
- Lighted front door scuff plates
- Chrome door handles
- Roof side rails
- "Limited" badging

OPTIONAL LIMITED PACKAGES:

- Navigation Package (N): LG® in-dash navigation system², 605-watt Infinity Logic 7® surround sound audio system
- Rear-seat Entertainment Package (RSE): Rear-seat DVD entertainment system, 605-watt Infinity Logic 7 surround sound audio system
