

2017 HYUNDAI

VELOSTER

2017 HYUNDAI VELOSTER

LIKE A STREET BIKE WITH FOUR WHEELS AND THREE DOORS.

We know what gives you a rush. Stop-light launches that thrust you back into your seat. Handling that feels like you're a carving knife that's just been sharpened. Style that's anything but dull. So we made certain the Hyundai Veloster stands out from all other compact performance coupes.

Our inspiration? Your aspiration to drive something with the soul of a high-performance street bike. You can see it in Veloster's aggressive shapes and bold colors, inside and out. And feel it in the way a class-leading power-to-weight ratio and Dual Clutch Transmission translate into acceleration, shifting and handling that's instantly responsive.

Whether you choose Veloster, Veloster Turbo, Turbo R-Spec or the new Value Edition, get ready to enjoy the most interior volume of any car in its class.¹ It's space that's uniquely easy to access, thanks to an exclusive three-door design. So go ahead, invite rear passengers along for the ride.

And there's plenty of substance beneath all that Veloster style. Like your choice of two torque-rich, eco-efficient engines. Powerful audio and touchscreen navigation systems that sync with your smartphone and respond to voice commands.² Choose the new Veloster Value Edition, and a boatload of premium features are included as standard equipment. Who knew a constant rush of adrenaline could actually be so sensible?

¹ Claim based on comparison of specifications on manufacturer websites.

² Navigation system is standard on the Veloster Value Edition and available on Veloster Turbo.

VELOSTER VALUE EDITION in Boston Red / VELOSTER TURBO with Tech Package in Ironman Silver

STYLISH ATTITUDE

THIS IS NO PLACE TO HIDE.

Veloster isn't looking to blend in. Hyundai designers pushed their Fluidic Sculpture principles to the extreme, making sure that every inch has the sleek, muscular look to match its hot-hatch performance. Its precisely cut wheel arches are stuffed with 17" alloys – 18" on Turbo and Value Edition. Projector headlights with LED daytime running lights give the Turbo's front a penetrating gaze. And in back, chrome-tipped dual exhaust tips leave no doubt about Veloster's street cred.

Step inside, and Veloster stays true to form. A leather-wrapped steering wheel and shifter are standard on all models. And on the 2017 Turbo, an available black leather seating scheme includes vivid orange accent seat trim, alloy sport pedals and high-gloss black accents on the console, dash and doors.

The versatility beneath Veloster's form is equally eye-popping: Leave the rear seats up, and you've got 15.5 cubic feet of cargo space – more than some leading compact sedans. Fold the rear seats flat, and its best-in-class 34.7 cubic feet of space becomes readily accessible via the wide (and low) rear hatch opening.¹

¹ Claim based on comparison of specifications on manufacturer websites. ² Available on Veloster Turbo, standard on Value Edition. ³ Android Auto works with smartphones running on Android 5.0,™ Lollipop or higher. Android, Android Auto, Google Play and other marks are trademarks of Google Inc. Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. Blue Link is standard on Value Edition, available on Veloster Turbo. Blue Link subscription service agreement required. Features vary by subscription plan. Blue Link service works using CDMA-based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage, particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For additional details and system limitations, visit HyundaiBlueLink.com.

VELOSTER VALUE EDITION in Boston Red

ROOM WITH A VIEW

With Veloster's panoramic sunroof, sitting inside of your car is a mood-altering experience. Where other sport coupes can make you feel closed-in, Veloster's interior becomes an airy space filled with light. The expansive glass of the panoramic roof spans both the front and rear rows, offering everyone a seat with a view.²

EYES ON THE PRIZE

Veloster's driver-oriented interior was inspired by motorcycle designs. The shape and layout of the controls, vents, switches and dials in its unique center stack is not just cool looking – it's actually easy to see everything in the cockpit at a glance.

HOLD IT RIGHT THERE

Veloster's wide and low hatch design makes loading and unloading cargo easy. And its 60/40 split-folding rear seats let you maximize the 34.7 cubic feet of space. So whether your plan is to pick up a few friends or pack up a week's worth of stuff, you've got the flexibility to make it happen.

VELOSTER VALUE EDITION

The new Veloster Value Edition covers what's on your wish list for less. Tunes? Dimension® Premium Audio is standard – with an external amp and 8 speakers (including an 8" subwoofer), it kicks out the jams. Wheels? The Value Edition sports 5-spoke 18" alloys with painted inserts. Advanced tech? The 7" touchscreen navigation system features junction view lane guidance and a split-screen display. It also integrates seamlessly with Apple CarPlay™ and Android Auto,™ and Hyundai Blue Link® places a wide range of connected car features at your fingertips.³ Sun-filled room with a view? That comes standard on Value Edition, too, compliments of a panoramic sunroof.

¹ Claim based on comparison of specifications on manufacturer websites. ² Six-speed Dual Clutch Transmission (DCT) available on Veloster base model and standard on Value Edition. Seven-speed DCT available on Veloster Turbo. ³ Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details.

VELOSTER VALUE EDITION in Pacific Blue

PRECISION ENGINEERING

SUMMON YOUR POWER.

There's nothing quiet like it: Blip the throttle, and you can hear how eager Veloster is to do your bidding. But when you get behind the sensory experience gets even better. With Veloster Turbo, you can use the 188-hp GDI technology to feed fuel to each cylinder for optimal power and efficiency. With Veloster Turbo, an advanced intercooled twin-scroll turbocharged version of this engine creates a power-to-weight ratio no car in its class can match.¹

Veloster Turbo's paddle shifters and its first-in-class 7-speed Dual Clutch Transmission quickly translate the engine's 201 horsepower and 195 lb-ft of torque to the pavement as you tap-tap-tap your way through the gears.

Torque Vectoring Control and sport-tuned steering give Veloster Turbo precise cornering and exceptional handling, while a sport-tuned suspension and ground effects bodykit components ensure it stays glued to the road. Ready to put a stop to the fun? Veloster Turbo's large 11.8" front disc brakes quickly rein in the power. But no worries, you can summon it again at the blip of the throttle.

SHIFT YOUR PERCEPTION

Typically found on high-end European driving machines, Veloster's advanced EcoShift® Dual Clutch Transmission with steering wheel paddle shifters offers race-inspired driving that's as smooth and quick as it is fun. Dual clutches work in tandem to create instantaneous gearshifts and boost fuel economy through improved efficiency.²

PLAY IT SAFE

Veloster delivers an exceptional level of standard safety features. Vehicle Stability Management integrates control of systems including Electronic Stability Control and the Motor-Driven Power Steering to provide optimal stability.³ Hillstart Assist Control minimizes backward rolling on steep ascents. ABS with Electronic Brake-force Distribution and Brake Assist helps ensure secure stops. And a Tire Pressure Monitoring System keeps watch at each wheel.

TIGHT IS RIGHT

Building a sports coupe that's a blast to drive starts with a rigid chassis. Then, you bolt on the right suspension components. Like Veloster's MacPherson strut front suspension with coil springs, gas-charged hydraulic shocks and stabilizer bar. Plus a rear suspension sporting a lightweight V-Torsion beam. The result? Responsive handling with minimal body roll.

VELOSTER TURBO R-SPEC

To create the Veloster Turbo R-Spec, we did what tuners do: Dial up the performance feel. Starting with its 201-horsepower, twin-scroll turbocharged engine, we trimmed weight. Next, we added a B&M Racing® Sport Shifter for short-throw gear changes of the 6-speed manual transmission. To give the suspension more precise handling feedback, we added higher spring-rate coils at each wheel. To top it off, we gave the R-Spec some distinctive styling cues. Because that's what tuners do.

¹ All SiriusXM services require a subscription, sold separately by SiriusXM after the trial period. Fees and taxes apply. All fees and programming are subject to change. To cancel, please call 1-866-635-2349. See our Customer Agreement for complete terms at siriusxm.com. HIGH-TECH PLAYGROUND

THAT IS SO 2017.

Enough about Veloster, the car. Let's talk about the fun, rotating high-tech playground. For example, the available smartphone connectivity lets you use your smartphone while driving. You've got hands-free, voice-activated access to your contacts, along with the streaming of music, like Spotify, through the car's audio system – the most advanced audio system in its class.

Veloster's new 7" touchscreen display audio features an enhanced user interface with familiar swipe controls and advanced voice recognition with simplified commands. Want to hear only the instrumental of a song? Or crank the turbo exhaust growl and a technology called Active Noise Control refines your Veloster Turbo's sonic signature to match the sound of the throttle.

Need more ways to interact with your car? The available Bluetooth AUX connectivity and Pandora app are just a few. And the infotainment system doubles as your gaming console. You don't need a gaming console to play Xbox® in the car, or a media console to see what your car can do that?

WELCOME TO THE CONNECTED CAR

Blue Link, our award-winning connected car system, transforms how you interact with your Hyundai. One example: A Blue Link app for Apple Watch™ or Android Wear™ lets you remotely start your Veloster, and warm or cool its interior before you get in – all while you're standing in your kitchen.² With the available Blue Link Guidance Package, you can use Destination Search powered by Google™ to quickly find locations, and use the mobile app to send directions from your smartphone to Veloster's nav system. There's also a Connected Care Package (complimentary for one year on Veloster) that offers Monthly Vehicle Health Reports, on-demand diagnostics, SOS emergency assistance and more. Visit HyundaiBlueLink.com for details.

TOTALLY SIRIUS

Veloster offers the latest features and services from SiriusXM® Satellite Radio. Functions include buffering for your top six presets, so you can go back and hear the beginning of songs or pause them. SiriusXM Traffic and Travel Link® data services let you stay up-to-the-minute on what's happening with traffic, sports, news, weather and stocks, as well as nearby fuel prices and movie times.¹

GOT YOUR BACK

Shift into reverse gear, and the standard rearview camera projects video on the center console monitor with guidelines that bend to match your steering wheel angle and convey your intended path. Available rear parking sensors on Veloster Turbo add warning sounds to help you avoid obstacles.

TECH SAVVIER

Android Auto offers an easy way to tap into the functionality of your compatible Android smartphone while driving. You can access Google Maps™, stream music or access your library on Google Play Music, make hands-free calls and more. Veloster also supports Apple CarPlay, which lets iPhone users access Apple Music and Maps, make phone calls and send messages through Veloster's touchscreen or with voice commands through Siri.
