

2021 Hyundai

SANTA FE Hybrid

We extended our range.
So now you can, too.

SANTA FE Hybrid Limited in Magnetic Force

The 2020 Santa Fe was named “Best 2-Row SUV for the Money” by *U.S. News & World Report*.¹ How did we make the best even better for 2021? By offering the first-ever Santa Fe Hybrid. Powered by our hyper-efficient hybrid technology, the Santa Fe Hybrid pairs a 178-hp turbocharged Smartstream 1.6L inline-four with a 6-speed automatic and 59-hp electric motor. Its potent electric power comes from a high-voltage lithium-ion battery pack that helps Santa Fe Hybrid Blue deliver a combined 34 MPG² and a

total driving range that exceeds 600 miles.³ No matter how far you travel, you’ll look good getting there. Santa Fe Hybrid’s exterior design is stunning, with a wider and more aggressive front grille framed by distinctive T-shaped LED lighting. The all-new interior feels modern, too, thanks to features like an elevated center console, digital instrument cluster and premium soft-touch materials. It’s a sophisticated environment for you and your traveling companions to enjoy epic road trips.

¹View U.S. News Best Cars at cars.usnews.com. ²EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle’s condition. ³Driving range estimate based on fuel tank capacity and EPA-estimated combined MPG rating. ⁴Highway Driving Assist (HDA) is for highway use only and helps keep you centered in your lane while maintaining a set distance from the vehicle ahead. Lane markings must be clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the car to avoid a collision. ⁵Navigation-based features require vehicle equipped with navigation system. Smart Cruise Control with Stop & Go (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible for slowing or stopping the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner’s Manual for further details and limitations. ⁶Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians and cyclists under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system’s alerts before braking as there may not be sufficient time to brake safely. See Owner’s Manual for further details and limitations. ⁷Safety features vary by model. For details, refer to the Features chart in the back of this brochure or visit HyundaiUSA.com.

Be smart: Think safety first.

Santa Fe’s engineers refuse to stand still when it comes to safety features. Hyundai SmartSense, already one of the most robust suites of safety tech in the industry, now offers even more confidence-inspiring driver assist functionality for 2021. On the new Santa Fe Hybrid, available Highway Driving Assist maintains a safe distance from the vehicle ahead while helping you stay centered in your lane.⁴ The available navigation-based Smart Cruise Control also reduces your cruising speed automatically whenever you enter a speed-controlled zone or curved section of road.⁵

Even our Forward Collision-Avoidance Assist technology is smarter for 2021 – it now helps prevent collisions with pedestrians, cyclists and both oncoming or slowed vehicles.⁶ Santa Fe Hybrid also comes standard with confidence-inspiring HTRAC All Wheel Drive. All of which makes the new Santa Fe Hybrid the perfect hybrid vehicle for keeping you and your family on the move in safety and style.

SANTA FE Hybrid Limited in Beige Leather

A highly refined hybrid SUV. With just the right amount of rugged.

Our designers love to fill Hyundai vehicles with refined features that make the going smooth and easy. In the new Santa Fe Hybrid Limited, comfort features include heated and ventilated front seats, heated rear seats and dual automatic temperature control with a CleanAir Ionizer. You can fill the cabin air with your favorite songs, played with vivid note-for-note clarity through a 12-speaker Harman Kardon® premium audio system with QuantumLogic Surround®.

With new Dynamic Voice Recognition, you can scroll through your Santa Fe's infotainment features on its available 10.25" split-screen navigation display just by using the sound of your voice. Looking for a parking space along the way? Santa Fe Hybrid is available with Remote Smart Parking Assist, which makes it easier to negotiate tight spots – even without you being in your vehicle. Just press a button on your Smart Key, and Santa Fe can drive itself into and out of parking spaces.¹ Now *that's* remote control.

But Santa Fe Hybrid never forgets rugged SUV capabilities are still must-haves on your list. Its 60/40 split rear seats fold flat to create a huge cargo space that's easy to load with gear, thanks to a hands-free smart liftgate.² Got a recreational toy to tow? Santa Fe Hybrid offers impressive trailering capabilities, including Trailer Sway Control and up to a 2,000-pound tow rating.³

Ambient LED interior lighting

¹Remote Smart Parking Assist (RSPA) can help remotely park your vehicle. RSPA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for further details and limitations. ² The hands-free smart liftgate will open when your Proximity Key is within 3 feet of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere in normal operation. See Owner's Manual for further details and limitations. ³ Maximum towing capacity 2,000 pounds with trailer brakes and 1,650 pounds without trailer brakes. Trailer Sway Control can help stabilize the vehicle when it detects that the trailer is swaying or oscillating due to various weather and road conditions. When the system detects some trailer sway, the front and rear brakes can be applied automatically and engine power can be reduced to help stabilize the trailer. See Owner's Manual for further details and limitations.

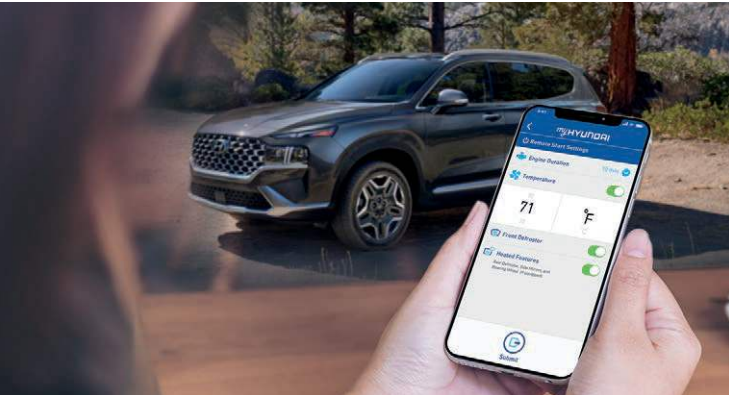

Remote access. Seamless connectivity.

What Hyundai offers its owners goes beyond our vehicles. It includes Blue Link[®], a range of innovative technologies that enable remarkable connectivity between you and your Hyundai.¹

With the MyHyundai app, you can start your Santa Fe Hybrid's engine and adjust climate controls from your office or kitchen using your smartphone, Amazon Echo[®] or Google Home[™] virtual assistant.² You can also remotely activate front seat heating or available ventilation, and check to see if you've left a window open by consulting your smartphone.³

Download the Hyundai Digital Key to your compatible Android[™] smartphone, and you can use it to unlock the front doors and start the engine.⁴ You can also assign digital keys to multiple drivers, who can instantly retrieve their personalized radio presets, instrument cluster display preferences and side mirror/driver seat settings.

Every Santa Fe Hybrid comes standard with Apple CarPlay[®] and Android Auto[™], and you can now connect two phones to the audio system simultaneously via Bluetooth streaming.⁵ Good to know you can easily keep your digital devices powered up, too. A wireless charging pad is available,⁶ and dual front and rear USB charge ports are standard.

Wireless device charging

¹ The 2021 Hyundai Santa Fe Hybrid includes 3 years of the Blue Link Connected Care, Remote and Guidance (factory-equipped navigation required) packages. All trials require an active Blue Link subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use, is available for new vehicle purchases and leases, and is transferable to subsequent owners subject to the Terms and Conditions. Only use Blue Link and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, please visit HyundaiUSA.com or your authorized Hyundai dealer. ² Requires active Blue Link subscription with Remote package. Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Assistant and Google Home are trademarks of Google LLC. ³ Requires properly equipped vehicle and Blue Link subscription with Remote package. ⁴ The Hyundai Near Field Communication Digital Key requires a compatible Android smartphone and appropriately equipped 2021 Hyundai Santa Fe Hybrid. Not all Android devices are compatible. Santa Fe Hybrid must be equipped with a smart key with push button start, wireless device charging and Audio Video Navigation System 5.0 (or newer) or Display Audio 2.0. Lock/unlock functionality works on the front doors only. See your Owner's Manual or visit your local Hyundai dealer for details. ⁵ Apple CarPlay[®] is a registered trademark of Apple Inc. Android Auto[™] is compatible with Android[™] phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ⁶ Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. ⁷ Blue Link agents will contact existing emergency service responders. ⁸ EPA estimates are for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition.

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that calls for help if you're in an accident where your vehicle's airbags deploy.⁷

On-Demand Diagnostics

Run vehicle diagnostics from your Santa Fe Hybrid's touchscreen, report issues at the press of a button and receive Monthly Vehicle Health Reports or maintenance reminders by email.

Driver Profile Management

Save your navigation searches, radio presets and instrument cluster menu settings to the Blue Link cloud, and they can be remotely updated and pushed to your Santa Fe Hybrid.

Car Finder

Our Car Finder smartphone app feature lets you navigate your way back to your vehicle after a day of downtown shopping or an evening spent rooting for your favorite team.

Remote Controls

Use your smartphone, smart speaker or wearable device to remotely start your Hyundai's engine, set the cabin temperature, unlock the doors and more.

Remote Vehicle Status

Wondering how much fuel is in your tank? If your car's trunk is open or the doors are unlocked? Your MyHyundai app knows the answers to these questions and more.
