

2021 Hyundai

SONATA

SONATA Hybrid

The midsize sedan that dares to stand out.

¹The Hyundai Near Field Communication Digital Key requires a compatible Android smartphone and appropriately equipped 2021 Hyundai Sonata. Not all Android devices are compatible. Sonata vehicle must be equipped with a smart key with push button start, wireless device charging and Audio Video Navigation System 5.0 (or newer) or Display Audio 2.0. Lock/unlock functionality works on the front doors only. See your Owner's Manual or visit your local Hyundai dealer for details. ²Requires active Blue Link subscription with Remote package. Not available on Sonata SE. ³Based on 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019 and 2020 Brand Keys Customer Loyalty Engagement Index[®].

SONATA Limited in Stormy Sea

Sonata is the tech-smart, super-spacious midsize sedan that believes bolder is better. Whether you're looking at Sonata or Sonata Hybrid, every detail suggests something exceptional is in store for you.

See how its hood wraps to the edge of the car with no harsh cutline? How strips of chrome extend forward along the hood line, tapering into dynamic LED running lights? And how, from the rear, Sonata's ultra-wide taillights accentuate its ground-hugging stance? Clearly, this four-door sedan has a coupe-like alter ego.

Inside, the design is equally stunning. Sonata's cabin materials are rich and refined. Details like digital temperature readouts on the climate control's stylish metal knobs

convey an upscale feel. Modern ergonomics are reflected in an available 12.3" digital instrument cluster you can customize to suit different driving modes and preferences. For your listening pleasure, a 12-speaker Bose® premium audio system is available to amplify your playlist with a rich stereo surround soundscape.

Then, there's the convenience of a Hyundai Digital Key, which unlocks Sonata's driver door and starts the engine using your compatible Android™ smartphone.¹ Multiple drivers can be assigned a digital key that instantly retrieves their personalized radio presets, instrument cluster display preferences and side mirror/driver seat settings.²

No wonder Hyundai has ranked #1 in customer loyalty for the 11th year in a row.³

Sensuous Sportiness

Hyundai is a design-driven brand. One look at Sonata shows why. There's a sensuous sportiness in its proportions, and head-turning details everywhere you look. One example: State-of-the-art lighting technology transforms the subtle chrome accents surrounding Sonata's headlights into dramatic Daytime Running Lights.

Sophisticated Spaciousness

Settle into the driver's seat, and you'll instantly sense you've stepped into the future. Sonata's designers have surrounded you with the new essentials – innovative features presented in a modern space designed for maximum comfort and convenience.

¹Not available on Sonata Hybrid models. Remote Smart Parking Assist can remotely park the vehicle. However, several factors can reduce the performance of this feature. The parking sensors may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations. ²EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and the vehicle's condition. Driving range estimate based on fuel tank capacity and EPA-estimated combined MPG rating. ³As with any solar panel, electricity generation will be impacted if panels are not exposed to direct sunlight. Up to 700 extra miles of battery power per year when exposed to 6 hours of sunlight daily. Additional drivable miles per day may vary. Estimated additional drivable miles are not included in any EPA mileage estimates. See Owner's Manual for details and limitations.

SONATA Hybrid Limited in Calypso Red

Relax. Sonata's got this handled.

For such a spacious sedan, Sonata is surprisingly nimble. A multi-link rear suspension helps you carve corners. Need to handle parking spaces? Press a button on your Smart Key, and Sonata's available Remote Smart Parking Assist can drive your car into tight spaces. And pull out of them, too.¹

An electronic push-button automatic transmission offers seamless access to Sonata's three Smartstream engines. Sonata SE and SEL feature a 191-hp 2.5L engine with excellent mid-range power. Sonata SEL Plus and Limited's 180-hp 1.6L Turbo engine generates its 195 lb-ft of torque at a low 1,500 RPM for increased performance.

Sonata Hybrid's power source combines a 2.0L 4-cylinder engine with a 39 kW (51 hp) electric motor and advanced lithium-ion polymer battery. The result is remarkable fuel efficiency: Sonata Hybrid Blue delivers an EPA-estimated 52 combined MPG and up to a 686-mile driving range.²

At the touch of a button, a feature called Drive Mode Select lets you recalibrate the response of your Sonata's steering, engine and transmission to match your priorities: Fuel efficiency (Eco), dynamic driving (Sport), or performance based on either your driving style (Smart) or your individual preferences (Custom).

Solar Roof Charging System

Fun In The Sun

On Sonata Hybrid Limited, solar roof panels help charge the batteries, generating enough electric power to increase your driving range by about two miles every day.³ Now, the sun will always be on your side.

Remote Smart Parking Assist

18" alloy wheel

Electronic push-button gear selection

This is where art meets science.

Sonata makes it easy to get comfortable with your surroundings. The interior feels light and airy, with ambient lighting available to enhance the relaxed mood. It's a feeling based in fact: The 2021 Sonata offers best-in-class front headroom and legroom.¹ Want more space overhead? Open the available panoramic sunroof.

The artistry of Sonata's cabin is seen – and felt – in its design details. Climate controls and shift buttons for the electronic transmission are placed exactly where your fingertips expect them to be. The 8" color touchscreen audio system features Apple CarPlay® and Android Auto™ for seamless access to your smartphone apps.² There's also an available 10.25" multimedia navigation system with junction view lane guidance, tilted bird's-eye views and subscription-free traffic updates. The split-screen is scrollable, so it's easy to find what you're looking for.

Throughout Sonata, the fit and finish of high-quality materials delight your senses. And thanks to our collaboration with Bose®, every occupant can be immersed in a phenomenal 12-speaker audio experience.³ The available Centerpoint® surround sound system creates stereophonic effects similar to sitting in a concert hall audience, or being directly onstage.

Bose® premium audio system

Dual automatic temperature controls

10.25" touchscreen display with Apple CarPlay

Panoramic sunroof

¹Claim based on comparison of specifications on manufacturer websites. ²Apple CarPlay® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ³Not available on Sonata SE/SEL and Sonata Hybrid Blue.

*Requires active Blue Link subscription with Remote package. Not available on Sonata SE.

SONATA Limited in Stormy Sea

It's time your car knew you personally.

From the comfort of your kitchen, your Sonata can be personalized for whoever's driving it next. An available Remote Driver Profile Management feature recalls each driver's preferred settings for Sonata's navigation system, radio presets and driver seat/side mirror positions from the Hyundai Blue Link® cloud.¹

As you approach your Sonata, more magic awaits. A Hyundai Digital Key is available that allows you to unlock the front doors simply by touching your compatible Android™ smartphone to the door handle. Once inside, placing your phone on the center console's wireless charging pad enables the car's push button start.

An available 12.3" digital instrument cluster lets you choose what information you'd like displayed in the middle of Sonata's tach and speedometer gauges. A color Heads-up Display is also available, which allows you to select the driving information you want projected onto the windshield in fighter-jet fashion. On Sonata's climate system, the air conditioner's auto mode can be set to whichever one of three airflow intensity levels you prefer. How chill is that?

Hands-free smart trunk release

Here's to looking out for number one.

When it comes to looking after your safety, Hyundai believes there's safety in numbers. Which is why Sonata is equipped with nine airbags located throughout the cabin. It's also why SmartSense, our suite of advanced safety features, uses a fusion of cameras, radar sensors and ultrasonic sensors to monitor your surroundings from nearly every angle.¹

On the road, technologies ranging from Driver Attention Warning² and Lane Keeping Assist³ to Forward Collision-Avoidance Assist with Pedestrian Detection⁴ and available Blind-Spot Collision-Avoidance Assist⁵ add watchful eyes along your journey. To help navigate crowded parking garages, there's available Rear Cross-Traffic Collision-Avoidance Assist,⁶ front and rear parking sensors and a Surround View Monitor.

Sonatas equipped with a navigation system also include an advanced safety feature called Highway Driving Assist⁷ that uses Smart Cruise Control⁸ technology to help maintain a set speed and safe distance from other vehicles in front of you. It also helps keep you in the center of your driving lane, automatically adjusts for changing speed limits and automatically reduces your speed as you approach curves in the road.

Of course, when it comes to safety, the best defense is a good offense. Hyundai engineers paid special attention to Sonata's structural rigidity, suspension geometry and braking system. So it has the quick reflexes to help you steer clear of trouble in the first place.

SmartSense Safety Technologies

**Highway Driving Assist**

**Lane Keeping Assist**

**Lane Following Assist**

**Blind-Spot Collision-Avoidance Assist**

**Driver Attention Warning**

**High Beam Assist**

**Smart Cruise Control with Stop & Go**

¹Safety features vary by model. For details, refer to the Features chart in the back of this brochure or visit HyundaiUSA.com. ²It is the driver's responsibility to remain alert at all times. Driver Attention Warning is only a warning to inform the driver of a potential lack of attention or drowsiness. It does not detect and provide an alert in every situation. See Owner's Manual for details and limitations. ³Lane Keeping Assist functions when it is able to detect painted lane markings. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. ⁴Forward Collision-Avoidance Assist (FCA) with Pedestrian Detection helps detect pedestrians, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. See Owner's Manual for details and limitations. ⁵Blind-Spot Collision-Avoidance Assist (BCA) warns the driver of other cars in the blind-spot region. If BCA detects an unsafe lane change being attempted, it applies braking on the opposite side of the attempted lane change to help avoid a collision. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot and may not operate if sensors are obscured. Do not rely exclusively on BCA. BCA is a supplemental system. It is the driver's responsibility to exercise caution when changing lanes. See Owner's Manual for details and limitations. ⁶Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross-traffic behind the vehicle. When another vehicle is detected while your car is backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when your car is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. ⁷Highway Driving Assist (HDA) is for highway use only and helps keep your car centered in its lane while maintaining a safe distance from the vehicle ahead. Lane markings must be clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the car to avoid a collision. See Owner's Manual for details and limitations. ⁸Smart Cruise Control with Stop & Go (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible for slowing or stopping the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for details and limitations. ⁹To qualify for 2020 TOP SAFETY PICK, a vehicle must earn good ratings in the driver-side and passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and an acceptable or good headlight rating. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (safercar.gov).

**5-Star Safety Ratings**

**2020 IIHS TOP SAFETY PICK**

2020 Hyundai Sonata and Sonata Hybrid when equipped with LED projector headlights⁹

Remote access. Seamless connectivity.

Sonata’s available Blue Link® connected car technologies keep you plugged into your digital life on the road with safety, convenience and remote features that allow you to interact with your car in powerful, practical ways.¹

If you’re like most Sonata owners, the Blue Link features you’ll use most are its remote capabilities. With the MyHyundai app, you can start your car’s engine and adjust the climate controls from your office or kitchen using your smartphone or Amazon Echo®/Google Home™ virtual assistant.² You can also remotely activate Sonata’s available heated/ventilated seats and tune the radio presets by sending your personal profile to your Sonata ahead of time.³ Want to remotely check and see if you’ve left the windows open? Our MyHyundai app lets you check by consulting your smartphone. Sonata Hybrid owners can check their vehicle’s battery level remotely, too.

Of course, Sonata comes standard with Apple CarPlay® and Android Auto,™ and lets you connect two phones to the audio system simultaneously via Bluetooth® streaming. To keep everyone powered up, Sonata offers available wireless device charging⁴ and a rear-seat USB charge port.

Amazon Echo integration

Apple CarPlay

Wireless device charging

¹ Not available with Sonata SE. The 2021 Hyundai Sonata and Sonata Hybrid include 3 years of the Blue Link Connected Care, Remote and Guidance (factory-equipped navigation required) packages. All trials require an active Blue Link subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use, is available for new vehicle purchases and leases, and is transferable to subsequent owners subject to the Terms and Conditions. Only use Blue Link and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit HyundaiUSA.com or your authorized Hyundai dealer. ² Requires active Blue Link subscription with Remote package. Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Assistant and Google Home are trademarks of Google Inc. ³ Requires active Blue Link subscription with Remote package. ⁴ Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. Not available on Sonata SE or Sonata Hybrid Blue. ⁵ Blue Link agents will contact existing emergency service providers. ⁶ Requires active Blue Link subscription with Guidance package and vehicle equipped with navigation system.

SONATA & SONATA Hybrid Exterior & Interior Dimensions							
Wheelbase	111.8 in	Overall Width (excludes mirrors)	73.2 in	Headroom – front / rear (Hybrid)	40.0/38.4 (37.8) in	Shoulder Room – front / rear	57.9/56.1 in
Overall Length	192.9 in	Overall Height	56.9 in	Legroom – front / rear	46.1/34.8 in	Total Interior Volume	120.4 cu ft

Automatic Emergency Assistance

Blue Link Connected Care offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that calls for help if you’re in an accident where airbags deploy.⁵

On-Demand Diagnostics

Run vehicle diagnostics from your Hyundai’s touchscreen, report issues at the press of a button and receive Monthly Vehicle Health Reports or maintenance reminders by email.

Destination Send-to-Car

Use your smartphone to find restaurants or points of interest that may not be updated yet on your vehicle’s maps, then send the destination to Sonata’s navigation system.⁶

Service Link

Now, you can conveniently schedule your vehicle for service from the driver’s seat of your Sonata or from the MyHyundai smartphone app.

Car Finder

Our Car Finder smartphone app feature lets you navigate your way through crowded parking lots back to your Sonata.

Remote Vehicle Status

Wondering how much fuel is in your tank? If your car’s trunk is closed or the sunroof is open? Your MyHyundai app knows the answers to these questions and more.
