JEEP CHEROKEE

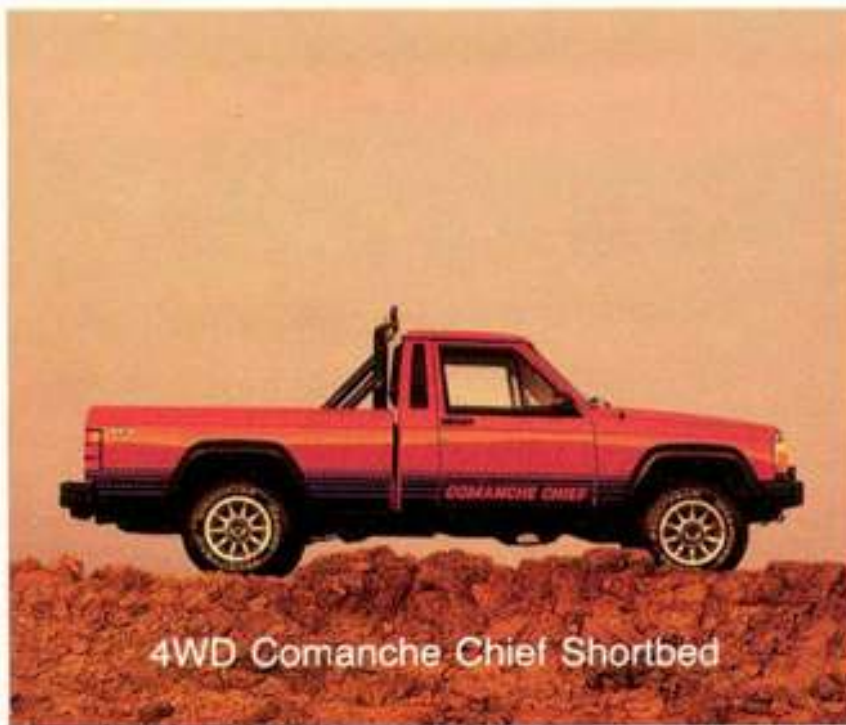

Cherokee represents the *heart and soul* of what it means to drive a Jeep vehicle. Available in 2-wheel drive or 4-wheel drive, 2-door or 4-door bodystyles, and your choice of four distinct models: Cherokee Base, Cherokee Pioneer, Cherokee Chief, and Cherokee Laredo.

J-20 Pickup

J-10 & J-20 PICKUPS

Jeep's full-size pickups are the 4-wheel drive answer to whatever big load you're hauling or towing. With 5.9 litre V8 power (optional J-10, standard J-20), 8-foot cargo bed, and payload up to 4,012 lbs. with J-20's optional 8,400 GVW configuration.

4WD Comanche Chief Shortbed

JEEP COMANCHE

Last year's "Four Wheeler of the Year" (named by *Four Wheeler* magazine) adds a new chapter to its legend with an available 6-foot short bed. Comanche pickup available in 2-wheel drive or 4-wheel drive, longbed or shortbed, and four Comanche models: Base, Pioneer, Chief, and Laredo. Plus, the specially equipped 2WD or 4WD SporTruck. It's worth a look.

EAGLE SEDAN & WAGON

Eagle Wagon

Eagle provides the security of shift-on-the-fly 2WD/4WD, power from a 4.2 litre 6-cylinder engine, room for six adults, generous space for cargo, plus trailering capacity up to Class II towing (maximum 3,500 lbs.).

1987 JEEP: THE LEGEND CONTINUES

Consider some of the Jeep innovations reflected in our new 1987 models:

Power-Tech Six.

Jeep's all-new 4.0 litre six-cylinder engine is *the most powerful in its class*. Integrated ignition, multi-point electronic fuel injection, and double-quench combustion combine to deliver 173 horsepower @ 4,500 rpm and 220 ft. lbs. of torque @ 2,500 rpm. Plus, *Power-Tech Six* allows towing capacity up to Class III (up to 5,000 lbs.). Optional on Cherokee, Wagoneer, and Comanche.

New 4-Speed Automatic Overdrive Transmission.

Designed with advanced electronic shift control (for precise gear selection), lock-up torque converter (for fuel efficiency), and two shift

schedules: "comfort" for normal driving; and "power" for increased acceleration. Standard on Wagoneer, and optional on Comanche and Cherokee.

4-Wheel Drive Systems.

Jeep's Command-Trac® system (standard on Wrangler, Wagoneer, 4WD Cherokee, and 4WD Comanche) lets you shift on-the-fly between economical 2-wheel drive and road-gripping 4-wheel drive. Shift-on-the-fly Selec-Trac® (standard on Grand Wagoneer and optional on Cherokee, Wagoneer, and J-10) provides full-time, all-surface 4-wheel drive.

More Choices.

Jeep product advancements allow you to make your Jeep vehicle selec-

tion even more personal. Styling features like two-tone paint available on Cherokee, Wagoneer, and Comanche. Safety features like Michelin® Tru-Seal self-sealing tires (standard on Grand Wagoneer and Wagoneer Limited). And practical features such as 2-wheel drive available on Cherokee and Comanche.

Together these innovations combine with traditional Jeep power and durability to offer the sheer joy of driving that can be found *only in a Jeep!*

Safety belts save lives.
