ADVENTURE FROM THE TOP DOWN.

A NEW HEART. THE SAME SOUL. THE 2012 WRANGLER'S NEW PENTASTAR® 3.6L ENGINE ROARS TO LIFE, BRINGING A 10 PERCENT IMPROVEMENT IN EFFICIENCY AND A 40 PERCENT INCREASE IN HORSEPOWER. THE NEW PENTASTAR 3.6L ENGINE LEADS WRANGLER'S POWERTRAIN ON ITS RENOWNED JOURNEY TO OPEN-AIR FREEDOM.

NEW PENTASTAR 3.6L V6 ENGINE

Delivering refinement and power, the Pentastar 3.6L V6 engine answers the call for more muscle to match Wrangler's legendary brawn. Boasting a 40 percent increase in horsepower, the 3.6L delivers 285 horsepower with 260 lb-ft of torque. These numbers translate to a dramatically improved on-road presence and a nice uptick in off-road capability.

1 SUNRIDER® SOFT TOP. The standard Sunrider soft top features a convenient cable release that quickly lets the sunshine in without having to fold back the entire top. Or, fold and tuck it all away. It's made of a three-ply fabric that helps deflect road sounds, absorb wind noise, and enhance insulation.

2/3 FREEDOM TOP® HARDTOP. This available three-piece modular hardtop allows sun-exposure control by separating into three pieces. The Freedom Top Carrier is an available Authentic Jeep® Accessory by Mopar®, allowing the panels to be conveniently carried on the spare tire.

THE ULTIMATE 4x4 FORMULA

CHOOSE YOUR OUTLOOK.

From Wrangler's point of view, the sky's the limit. You'll always see standard removable full-framed doors and a fold-down windshield.^{(1)*} Select your available canopies with the Sunrider® soft top, hardtop, or go with Sahara's body-color hardtop. No other 4x4 comes close to offering as many top configurations as Wrangler provides for sun-loving adventurers.

PENTASTAR PULL. The new V6 is cast from lightweight aluminum and sips regular octane gasoline.

NEW 5-SPEED AUTOMATIC TRANSMISSION. Features a 175K torque converter. The standard 6-speed manual transmission gets redressed with new clutch housing and assembly and a new flywheel.

ROCK-SOLID UNDERPINNINGS. Wrangler is built with a body-on-frame design that's fully boxed for strength, stiffness, and durability. Stamped steel skid plates for fuel tank, transfer case, and automatic transmission oil pan, if equipped, help protect Wrangler's guts when battling boulders. Extra-tough body-mounted rails provide additional protection (standard only on Rubicon).

CAPABILITY

CONFIDENCE TO GO ANYWHERE, DO ANYTHING® IS BORN AND BRED IN EVERY JEEP® BRAND TRANSFER CASE. JEEP TRAIL RATED® 4x4s PERFORM TO RIGOROUS STANDARDS IN FIVE CATEGORIES: ARTICULATION, MANEUVERABILITY, TRACTION, GROUND CLEARANCE, AND WATER FORDING.⁽³⁾ KEEP MOVING FORWARD, NO MATTER WHAT LIES AHEAD.

TRU-LOK® DIFFERENTIALS

Tru-Lok front and rear electronic-locking differentials balance speed between left and right wheels, maintaining forward momentum for the ultimate in traction. An instrument panel-mounted rocker switch can lock either the rear or both axles. Standard only on Rubicon.

FRONT SWAY BAR DISCONNECT

This system allows you to flip a switch to disengage the sway bar when driving under 18 mph in 4WD-low (4LO) mode, permitting the front suspension to travel up to 25 percent farther (standard only on Rubicon).

HEAVY-DUTY SUSPENSION

Solid axles with locating arms, coil springs, track/stabilizer bars, front steering damper, and tunable monotube shock absorbers are firm at low speeds and more relaxed at higher speeds (standard on Sahara; a performance suspension is standard on Rubicon).

TRANSFER CASE OPTIONS

Rock-Trac,® with its 4:1 low-gear ratio, allows Wrangler Rubicon to crawl at a low speed for greater control; increases the amount of torque available at the wheels. Standard only on Rubicon. Command-Trac® employs the NV241 GII transfer case, delivering smooth and quiet part-time shift-on-the-fly operation (standard on Sport and Sahara models).

DANA® 44 HEAVY-DUTY AXLE

Durability and articulation come from heavy shafts, stiff housing, large pinion bearings, and above-center pinion mountings. The above-center mounting helps reduce driveshaft joint angles for smooth and quiet operation and also adds ground clearance. (Rear Dana 44 standard on all models. Front Dana 44 standard only on Rubicon.)

HOOKS AND PLATES

Every Wrangler is fortified with underbody armor that protects critical components with stamped steel skid plates for the fuel tank and transfer case. Front and rear tow hooks help when duty calls.

The image shows the interior of a Jeep vehicle, focusing on the dashboard and center console. The dashboard is dark grey with a silver handle that has "SINCE 1941" engraved on it. The center console features a gear shift and handbrake. The seats are upholstered in tan leather. The background shows a view of a lake and trees through the windshield.

GUARDIAN HERO.

PEACE OF MIND TAKES YOU AND YOURS FAR. THE 2012 JEEP® WRANGLER IS ENGINEERED TO PERFORM HEROICALLY IN ALL DRIVING CONDITIONS. YOU'LL FEEL THE STRENGTH OF ITS REINFORCED STRUCTURE, SHELTERED WITHIN AN ENVIRONMENT THAT SERVES YOU WELL. GO BOLDLY FORTH, EMPOWERED WITH THE INSPIRED CONFIDENCE A LEGENDARY JEEP WRANGLER OFFERS.

HEATED POWER EXTERIOR MIRRORS. Melt snow and ice off your sideview mirrors as you warm up your interior. This available feature also helps to keep your mirrors icicle-free as you drive.

ELECTRONIC STABILITY CONTROL (ESC).⁽⁷⁾ An advanced system designed to assist drivers in maintaining control of their vehicle at all times. It utilizes hydraulic Brake Assist, traction control, Electronic Roll Mitigation (ERM), and available Trailer Sway Control (TSC) to constantly monitor driver input against the vehicle's actual course. If needed, ESC automatically brakes and/or reduces engine torque. Meanwhile, ERM estimates the potential for wheel lift, reducing engine power and applying brakes if needed. TSC, packaged with the Trailer Tow Group, detects "sway" unique to trailering and engages the brakes to slow the vehicle and increases brake force to one side of the vehicle to help counteract the sway from the trailer. ESC has three modes: Full-On, Partial-On which shuts off traction control, and Full-Off which is ideal for off-road driving.

ADVANCED MULTISTAGE FRONT AIR BAGS.⁽⁸⁾ These air bags provide nearly instantaneous occupant protection by matching air bag output to crash severity.

AVAILABLE SUPPLEMENTAL FRONT-SEAT MOUNTED SIDE AIR BAGS.⁽⁸⁾ These deploy from the outboard side of each front seat to enhance protection of the driver and front passenger in certain impacts. Each side air bag has its own sensor to autonomously trigger the air bag on the side where the impact occurs.

SENTRY KEY® ENGINE IMMOBILIZER. A unique embedded key code matched only to your vehicle helps keep your Wrangler safely where it belongs.

HILL START ASSIST (HSA) AND HILL DESCENT CONTROL (HDC). HSA works to prevent Wrangler from rolling when starting on an up- or downhill gradient. It holds the vehicle stationary for two seconds after the driver's foot is removed from the brake pedal, allowing time to apply the throttle. HDC is packaged with the available 5-speed automatic transmission and diligently works to help Wrangler navigate steep declines at a steady and consistent speed.

SPORT BAR. High-strength steel is integrated into the B-pillar that runs into the floor, helping to improve side-impact performance and vehicle stiffness.

MID-MOUNTED FUEL TANK. The wide-spaced frame rails cradle the fuel tank between the wheels for added protection. The fuel tank features a robust 2.5-mm skid plate for safer off-road driving.

ENERGY-ABSORBING FRONT RAIL EXTENSIONS. Wrangler's collapsible hydroformed front rail tips offer low-speed protection and can be serviced after impact events of up to 8 mph.

HALOGEN HEADLAMPS AND FOG LAMPS. These bright sources of light improve down-road visibility at night or during inclement weather.
