GROUND CLEARANCE. Head out knowing your Trail Rated® Patriot has optimized approach, departure, and breakover angles designed to clear logs, rocks, and uneven ground. The undercarriage is protected too, with forged skid plates that cover the vehicle's most valuable underbody elements.

TRACTION. Trail Rated traction helps you maintain controlled forward motion on snowy back roads and icy bridges. You can climb steep sand dunes and master muddy two-tracks. Others may fear untamed terrain, but your Trail Rated Patriot has the traction within to master all kinds of topography and driving conditions.

MANEUVERABILITY. Every Patriot is born with the athletic ability to navigate narrow gaps, dodge emergency situations, and avoid cosmetic damage to underbody sills, thanks to precision steering and optimized wheelbases.

TRAIL RATED.

The badge of honor bestowed only after mastering a series of grueling tests on the toughest of terrain in five distinct categories.

Choose Patriot's 2.4L DOHC 16V engine featuring dual VVT and paired with five-speed manual transmission for a brilliant mix of an EPA estimated 4x4 fuel economy of 23 city/28 hwy, 172 hp, and 165 lb-ft of torque.

ALL-NEW SIX-SPEED AUTOMATIC TRANSMISSION.

Pair the available new PowerTech six-speed automatic transmission to either of Patriot's capable engine offerings for a smoother, quieter ride regardless of whether you're traveling road or trail. This new six-speed has a low first gear for quicker takeoffs and a tall top gear for relaxed highway cruising. A stepped shift schedule across all six gears is designed for optimal city fuel economy. The fact that the fill-for-life design helps reduce maintenance costs just adds to the pride of ownership.

CAPABILITY.

From advanced automotive engine technology to the sure-footedness of the touring-tuned suspension to the legendary 4WD ruggedness, Patriot offers true performance when snow, muddy roads, or steep gravel describes your route.

FREEDOM DRIVE I.

The active, full-time 4WD capability with LOCK Mode features an Electronically Controlled Coupling, which constantly monitors wheel slippage and transfers torque to the axle that can use it most. In tough conditions, the system can be locked 50/50 front/rear for added low-speed capability and control.

FREEDOM DRIVE II.®

This available system gives Patriot its Trail Rated® chops with features like full-time 4WD with LOCK Mode, Off-Road Mode with Hill Descent Control, and brake traction control. Torque is adjusted on-demand for added fuel efficiency. Its all-weather capability expertly handles more difficult off-road situations, as well as deeper snow, mud, and up to 19 inches of water.²

CONTINUOUSLY VARIABLE AUTOMATIC TRANSAXLE II (CVT2L).

This available system boasts a low range that provides the torque multiplication needed for water fording,² steep grades, and crawling slowly in off-road events. Includes Off-Road Mode that delivers an off-road-capable 19:1 Trail Rated crawl ratio.

PATRIOT'S DEEP DESIGN ROOTS ARE EQUALLY INSPIRED BY BOTH NATURE'S FINE, SMALL DETAILS AND BY THE BOLD, EXPANSIVE FORMATIONS THAT CREATE THE TOPOGRAPHY. FROM THE INTRICACIES OF THE SMALLEST PLANTS TO THE COMPLEXITIES OF EFFICIENT ECOSYSTEMS, PATRIOT LENDS AN EAR TO HEAR WHAT THE EARTH IS SAYING. THIS MAY BE ONE REASON PATRIOT FEELS SO AT HOME CLIMBING MOUNTAINS, ROAMING FORESTS, AND WADING THROUGH STREAMS.

INTELLIGENT DESIGN.

Let the love of music and the great outdoors guide you. Your cabin's comfort is always as desired when cooled or heated air flows through thoughtfully designed vents.

With more than 30 safety and security features available, it's easy to see why the Insurance Institute for Highway Safety (IIHS) named Patriot a 2013 Top Safety Pick.

NEW STANDARD SUPPLEMENTAL FRONT SEAT-MOUNTED SIDE AIR BAGS.³ Each side air bag has its own sensor to autonomously trigger the air bag on the side where the impact occurs.

ADVANCED MULTISTAGE FRONT AND SIDE-CURTAIN AIR BAGS.³ These air bags provide nearly instantaneous occupant protection by matching air bag output to crash severity.

HEATED POWER EXTERIOR MIRRORS. Melt snow and ice off your sideview mirrors as you warm up your interior. This available feature also helps to keep your mirrors icicle-free as you drive.

ELECTRONIC STABILITY CONTROL (ESC).⁴ An advanced system designed to assist drivers in maintaining control of their vehicle at all times. It integrates an available four-wheel Antilock Brake System (ABS) with hydraulic Brake Assist, all-speed traction control, and Electronic Roll Mitigation (ERM) to constantly monitor driver input against the vehicle's actual course. When needed, the system automatically helps provide braking to the appropriate wheels and reduces engine power when overly sharp steering and/or impending wheel lift is detected.

TIRE PRESSURE MONITORING SYSTEMS. Embedded sensors continuously monitor the pressure in the tires and will immediately notify the driver when levels drop below the minimum acceptable level.

HALOGEN HEADLAMPS AND FOG LAMPS. These bright sources of light improve down-road visibility at night or during inclement weather.

HILL START ASSIST (HSA). This system works to prevent your Patriot from rolling away when starting the vehicle on an up- or downhill gradient. It holds the vehicle stationary for two seconds after the driver's foot is removed from the brake pedal, allowing time to apply the throttle. Standard on manual transaxle models, and included with the Trail Rated,⁵ Freedom Drive II[®] Off-Road Group.

FRONT-SEAT ACTIVE HEAD RESTRAINTS.⁵ In the event of a rear-end collision, the head restraints move forward and upward to decrease the space between the headrest and the occupant's head, thereby helping to reduce the chance of injury.

SIRIUSXM TRAFFIC.⁶ Avoiding traffic jams is easy. With SiriusXM Traffic,⁶ you're notified of major accidents, construction, and road closings along your route. SiriusXM satellites monitor a million miles of roadways nationwide and coast-to-coast, all day, every day. Color-coded roadways inform you of traffic flow and speed in major metropolitan areas.
