LIMITED SHOWN IN GRANITE CRYSTAL METALLIC

30

MPG*

2.0L DOHC 16V DUAL VARIABLE VALVE TIMING (VVT) I-4 ENGINE

The standard 2.0L DOHC 16V dual VVT I-4 engine mated with the five-speed manual transmission delivers an outstanding 4x2 EPA-estimated 30 mpg on highways and 23 mpg* in the city and shows off with 158 hp and 141 lb-ft of torque. It can also be paired with the available CVT2 automatic transaxle. With numbers like these, you have the freedom to extend the adventure and travel more than 400 miles on a full tank of gas.[†]

2.4L DOHC 16V DUAL VVT I-4 ENGINE

This available engine also pairs with the five-speed manual transmission for a brilliant mix of an EPA-estimated** 4x4 fuel economy of 23 city/28 highway with 172 hp and 165 lb-ft of torque.

SIX-SPEED AUTOMATIC TRANSMISSION

Pair the available six-speed PowerTech automatic transmission to Patriot's 2.4L engine for a smoother, quieter ride regardless of whether you're traveling on road or trail. The six-speed has a low first gear for quicker takeoffs and a tall top gear for relaxed highway cruising. A stepped shift schedule across all six gears is designed for optimal city fuel efficiency. The fact that the transmission fluid's fill-for-life design helps reduce maintenance costs just adds to the pride of ownership.

FREEDOM DRIVE II® FOUR-WHEEL-DRIVE SYSTEM

This available system gives Patriot its Trail Rated® chops with features like full-time 4WD with LOCK mode, Off-Road mode with Hill Descent Control and brake traction control. Torque is adjusted on demand for added fuel efficiency. Patriot's all-weather capability expertly handles more difficult off-road situations, as well as deeper snow, mud and up to 19 inches of water.[‡]

CONTINUOUSLY VARIABLE AUTOMATIC TRANSAXLE II (CVT2)

The available CVT2 with AutoStick uses a 30-mm high-strength multilayer steel drive belt and two active V-pulleys to vary vehicle speed, resulting in an easy-gliding, quiet ride. The AutoStick shifter puts optimal vehicle performance under your command – a driver interactive manual control with six simulated stepped-gear ratios.

The available CVT2L system found on the Freedom Drive II Off-Road Group boasts a low range that provides the torque multiplication needed for water fording,[§] steep grades and crawling slowly in off-road conditions. Includes an Off-Road mode that delivers an off-road capable 19:1 crawl ratio.

*Based on 2014 EPA-estimated 23 city/30 hwy mpg when equipped with a 2.0L engine and five-speed manual transmission, 4x2. Actual mileage may vary.

[†]Equipped with a 13.6-gallon tank.

TRAIL RATED® BADGE

This badge of honor is bestowed only after mastering a series of grueling tests on the toughest of terrain in five distinct categories.

WATER FORDING®

Traverse streams with confidence, knowing your Patriot has additional electrical and body seals, plus a high air-intake location. You'll enjoy the capability to safely manage in up to 19 inches of water.⁷ Always inspect all waterways before proceeding, just to make sure there are no unforeseen pitfalls.

TRACTION

The available Trail Rated® traction helps you maintain controlled forward motion on snowy back roads and over icy urban bridges. You can climb steep sand dunes and master muddy two-tracks. Others may fear untamed terrain, but your available Trail Rated Patriot has the traction within to master all kinds of topography and driving conditions.

MANEUVERABILITY

Every Patriot is born with the athletic ability to navigate narrow gaps, handle emergency situations and avoid cosmetic damage to underbody sills, thanks to precision steering and optimized wheelbases.

ARTICULATION

Patriot's suspension system enhances on- and off-road performance by maximizing flexibility, axle articulation and wheel travel. This standard indicates that, when one or more wheels are elevated, available Jeep® 4x4 systems help the other wheels stay on the ground longer to keep you moving forward.

GROUND CLEARANCE

Head out knowing your available Trail Rated Patriot has optimized approach, departure and breakover angles designed to clear logs, rocks and uneven ground. The undercarriage is protected too, with forged skid plates that cover the vehicle's most valuable underbody elements.

WHEN HAULING BIGGER LOADS, FOLD THE ENTIRE REAR SEAT DOWN FOR 53.5 CU FT OF CARGO ROOM. FOR THOSE WHO NEED TO BRING BIGGER TOYS, PATRIOT LETS YOU TOW UP TO 2,000 LB, WHEN PROPERLY EQUIPPED.

STANDARD SUPPLEMENTAL FRONT-SEAT MOUNTED SIDE AIR BAGS⁵

Each side air bag⁵ has its own sensor to autonomously trigger the air bag⁵ on the side where the impact occurs.

ADVANCED MULTISTAGE FRONT AND SIDE-CURTAIN AIR BAGS⁵

These air bags⁵ provide nearly instantaneous occupant protection by matching air bag⁵ output to crash severity.

POWER HEATED EXTERIOR MIRRORS

Melt snow and ice off your sideview mirrors as you simultaneously warm up your interior. This available power-adjustable feature also helps to keep your mirrors icicle-free as you drive.

ELECTRONIC STABILITY CONTROL (ESC)⁴

An advanced system designed to assist drivers in maintaining control of their vehicle at all times. It integrates the antilock brake system (ABS) with hydraulic Brake Assist, all-speed traction control and Electronic Roll Mitigation (ERM) to constantly monitor driver input against the vehicle's actual course. When needed, the system automatically helps provide braking to the appropriate wheels and reduces engine power when overly sharp steering and/or impending wheel lift is detected.

MORE THAN 30 STANDARD AND AVAILABLE SAFETY AND SECURITY FEATURES ARE ENGINEERED TO GIVE YOU PEACE OF MIND

TIRE PRESSURE MONITORING SYSTEMS

Embedded sensors continuously monitor the pressure in the tires and will immediately notify the driver when levels drop below the minimum acceptable level.

HALOGEN HEADLAMPS AND FOG LAMPS

These bright sources of light improve down-road visibility at night or during inclement weather.

HILL START ASSIST (HSA)

This system works to prevent your Patriot from rolling away when starting the vehicle on an up- or downhill gradient. It holds the vehicle stationary for two seconds after the driver's foot is removed from the brake pedal, allowing time to apply the throttle. Standard on manual transaxle models and included with the available Trail Rated[®] Freedom Drive II[®] Off-Road Group.

FRONT-SEAT ACTIVE HEAD RESTRAINTS¹⁰

In the event of a rear-end collision, the head restraints¹⁰ move forward and upward to decrease the space between the headrest and the occupant's head, thereby helping to reduce the chance of injury.

YOUR KEYS TO PEACE OF MIND

The Sentry Key[®] Theft Deterrent System makes it virtually impossible for anyone without a valid key to drive your vehicle. An available Remote Keyless Entry system lets you lock or unlock your vehicle doors and liftgate from up to 66 feet away. If equipped, the illuminated entry system will also turn on. Plus, the available Remote Start feature lets you activate and start your vehicle from up to 300 feet with just the touch of a button on the keyless entry fob.

ENTERTAINMENT

Manage all of your media. You'll have several ways to access audio. Get the sound going via CDs/DVDs, MP3s, remote USB port, audio jack input, hard-disc storage, Voice Command,⁶ SiriusXM[®] Satellite Radio⁸ (your first year of service is included) and Bluetooth[®] Streaming Audio.

Uconnect[®] Phone is the in-vehicle, voice-activated communication system that allows you to talk on your Bluetooth[®] compatible phone virtually hands-free. This clever system is also smart enough to synchronize with your Bluetooth compatible phone's contact list¹¹ – up to 1,000 entries – every time you get into your vehicle.
