JEEP[®] BRAND 4WD SYSTEMS

CHOOSE YOUR OWN PATH TO AUTHENTIC JEEP[®] BRAND FREEDOM. THIS IS WHERE THE FOUR-WHEEL-DRIVE MOVEMENT BEGAN AND CONTINUES TO DELIVER TRUE ON- AND OFF-ROAD CAPABILITY, AS ONLY AN ORIGINATOR CAN.

QUADRA-DRIVE[®] II employs an Electronic Limited-Slip Differential that can transfer up to 100 percent of torque to the rear wheel(s) with traction to help you maintain forward movement. The system's crawl ratio of 44.2:1 puts down serious force when you need it. Available.

QUADRA-TRAC II[®] offers all-speed traction control via a two-speed low transfer case that can quickly distribute power to the axle with the most traction. Sensors detect wheel-slip at the earliest possible moment, then work to take corrective action to keep you moving safely ahead. Available.

QUADRA-TRAC I[®] is fully automatic, offering a continual balance of torque distribution with no buttons to push or levers to pull. If slippage occurs, torque is transferred to the axle with the most traction. Available.

SELEC-SPEED[®] CONTROL Selec-Speed adds Hill Ascent Control to the familiar Hill Descent Control. Hill Ascent engages the throttle to help provide stable low-range control when going uphill, whereas Hill Descent uses engine and physical braking to aid in vehicle control when going downhill. Available.

TRAIL RATED[®] Every Jeep Brand vehicle bearing a Trail Rated badge is designed and built to Go Anywhere, Do Anything[®] and perform with exceptional 4WD capability. It must successfully pass five performance test categories: Traction, Articulation, Maneuverability, Ground Clearance and Water Fording¹¹. Available.

Trailhawk[®] in Redline Two-Coat Pearl

DRIVEN BY INTELLIGENT CHOICES

Every Grand Cherokee equipped with an available 4x4 system also has the ability to tailor its capability to precisely fit virtually any terrain. Selec-Terrain® pairs with your 4WD to help adapt traction performance. Its selectable dial features Snow, Sand, Auto, Mud and Rock settings. Selec-Terrain gives you ultimate driving confidence by coordinating 12 vehicle systems, including throttle control, transmission shifting, transfer case, traction control and Electronic Stability Control (ESC).^{1,2} Sport mode delivers a more aggressive traction performance, and is activated via a one-touch button. Available.

TRAILHAWK® The harshest terrain is easy prey for Grand Cherokee Trailhawk, with its Best-in-Class³ 4x4 capability. This predator's Trail Rated[®] Quadra-Drive[®] II four-wheel-drive capability is powered by a formidable 3.6L V6 engine and rides on an upgraded Quadra-Lift[®] Air Suspension System, standard 18-inch wheels and a full complement of underbody armor. Inside Trailhawk's stunning cabin, leather and suede adorn exceptionally cushioned seats. Red accent stitching adds distinction to the seats, doors and console. A sophisticated Gun Metal finish graces vents, surrounds and the 8.4-inch Uconnect[®] 4C NAV touchscreen, which can monitor performance via informative off-road pages.

SELEC-TERRAIN®

TRACTION MANAGEMENT SYSTEM

SNOW Adjusts for ultimate performance over snow- and ice-covered roads by maximizing vehicle stability and minimizing oversteer. Automatically activates headlamps and taillamps for added security during inclement weather.

SAND Traction control operates with aggressive response to wheelspin. The suspension raises for optimal performance. Deeper wheel-slip antilock brake settings and off-road-tuned Electronic Stability Control (ESC)² are among the systems engaged.

AUTO In this mode, Selec-Terrain does all the work, automatically adjusting vehicle dynamics to best suit the road. To help ensure optimal efficiency, the rear driveline disengages when not needed.

MUD In this setting, Grand Cherokee raises to Off-Road 1 Mode, Traction Control operates with sensitive response to wheelspin, and torque is tuned for optimal performance.

ROCK This setting raises the vehicle to the maximum ground clearance of 10.9 inches, the transfer case, differential and throttle coordinate to provide low-speed control. ESC² is tuned appropriately for off-road conditions.
